CHURCH AID FOR DRAMA

Theaters to Get Co-operation

Representatives of Both in New York Pledge Higher Standard of Plays

Channing Pollock Warns That Censorship Never Will be Productive of Good

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Representatives of both the church and theater agreed tonight that reform within the theater is of vital interest to both institutions and best can be brought about by co-operation between them.

Speakers at a dinner given by the Federal Council of Churches of Christ in America to representatives of church and drama said that church leaders actively should support plays of which they could approve.

The church representatives asked for better plays; representatives of the theater asked for better audiences before which to present their plays.

REFORM FROM WITHIN

Arguing for theater reform, Rev. George R. Andrews, chairman of the committee on drama of the Federal Council, said that such reform should come from within. Many people, he said, think only in terms of law and censorship legislation, but asserted that the less legislating done in the regulation of art, education and religion, the better for civilization.

"We can throw the weight of our influence on the side of those persons and groups, especially those inside the theater, working for better things," he said. "This course recommends itself to us for trial and I believe will prove effective in application. If you agree with us we want you, of the theater and interested in the theater, to think with us and work with us toward a practical program of action."

Mr. Andrews said the church leaders could and should support the plays and pictures of which they could approve. But, he explained, he wished not to be understood as saying that the church should support only those plays and pictures which mention specifically some doctrine of program of the church.

"This is a mistake too many clergymen make," he said. "Too often they indorse plays which at

ROYAL TIME FOR CHARWOMEN

Ladies of Scrubbing Brush Like Proverbial Cat May Look at Queen

[BY CABLE AND ASSOCIATED PRESS]

LONDON, March 3.—Queen Mary will attend a performance at the Scala Theater two weeks hence given in aid of holiday homes for working women. The Queen in the royal box will face the front row of the dress circle which will be occupied entirely by London charwomen, guests of Miss Susan Lawrence, former Labor member of Parliament.

PARIS BARS SHUT DOORS AS PROTEST

Shops and Cafes Also Close as Gesture Against Finance Program in France

[BY CABLE—EXCLUSIVE DISPATCH]

PARIS, March 3.—Paris took on an unusual appearance this afternoon when, as a protest against the government's financial policy, a majority of the stores, cafes and bars throughout the city closed their doors for two hours. With terraces along the boulevards, even that of the Cafe de la Paix, empty and deserted, memories of prohibition in America were revived as visitors found themselves unable to buy even a glass of beer.

Throughout the fashionable shopping district all the small stores, including the best known couturiers, carried signs saying that they would not open until late in the afternoon and shoppers from the United States disappointedly turned away.

The demonstration, which was against the retroactive effect of the taxes passed last December and the general fiscal inequality resented by small shopkeepers, was a rather futile gesture and passed without special notice either from the parliamentarians still considering the government's fiscal program or the general public. Several meetings were conducted but no disorder was reported and with action on the financial program now near at hand, the shopkeepers' strike is without political significance.

AIR PLANS SCRAPPED

Conferees Make Clean Sweep

House Committee Jettisons All Proposals in Favor of Drafting Own

Careful Consideration to be Given Program Announced for Army Service

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—The numerous proposals which have arisen out of the turmoil of discussion over revision of the national defense to give increasing recognition to aviation were thrown into the discard today by the House Military Committee.

In rapid succession, it disapproved the proposals for a department of national defense, a unified air service and a separate air corps in the Army, and then voted to draft an all-embracing bill of its own to provide for a larger air service, but one that would harmonize with the defense organization as it now exists.

The committee made it clear, in announcing its plan, that it would give careful consideration to a five-year building program for the Army Air Service, made public during the day by the War Department.

The program, as indorsed by Secretary Dwight Davis, contemplates an increased expenditure of $30,000,000 annually for the air service and at the end of five years would provide 2200 new airplanes. The House Naval Committee recently approved a five-year program of the Navy Air Service, which involved a total expenditure of $85,000,000 and was designed to provide 1000 new planes at the end of the period.

The military committee voted 11 to 10 against a bill to establish a department of national defense in which land, sea and air armaments would be given coequal status, and 16 to 5 against a unified air service. The vote against a separate air corps in the Army, which was indorsed by Maj.-Gen. Mason M. Patrick, army air chief, was 15 to 6.

A bill sponsored by the War Department to carry out recommendations of the President's air board, also was rejected, 11 to 10. Chairman Morin of the committee, explained this plan was rejected on the ground that it did not go far enough in proposing changes that a majority of members considered necessary for an adequate air service.

Under the War Department plan announced today the Army Air Service at the end of five years, besides having 2200 planes, would possess a personnel of 1650 regular army officers, 550 reserve officers on active duty and 15,000 enlisted men, including 500 flying cadets. The expansion would not be effected through reductions in other branches of the Army.

Mr. Davis, in announcing this program, said it had been supplied the department by Chairman Morin, and had been drafted with the recommendations of the air board in mind. At the same time, he announced the department's disapproval of a bill introduced by Representative James of Michigan, a Republican on the the military committee, designed to carry out recommendations of the Lassiter board for a ten-year expansion program for the air service.

WINS DELAY IN MEXICAN CLAIM CASE

American Commissioner Gets Neutral Member to Reconsider Decision

[EXCLUSIVE DISPATCH]

MEXICO CITY, March 3.—An eleventh-hour victory was scored by Judge Ernest Perry, American commissioner on the Special Claims Commission, when he obtained postponement of final decision on the part of Rodrigo Octavio, neutral presiding judge on the commission, on the Santa Ysabel cases involving seventeen American claims for the assassination of fifteen Americans in 1915.

A secret conference between Perry, Octavio and Mexican Commissioner Gonzales Roa was substituted for the formal meeting of the commission this afternoon. It was learned following the meeting that Octavio intends to study further the points at issue and reconsider his original decision, which was known to be unfavorable to the United States.

Roa vigorously opposed Octavio's change of mind and urged that his decision should be inserted in the records.

Following the meeting, Perry ordered cancellation of his railroad tickets. He had intended to depart for the United States tomorrow. He will now remain until a decision is reached or the present deadlock may be carried over indefinitely if Octavio declares an indefinite recess of the commission.

Urged to make a statement, Perry said: "The commission still is conscientiously endeavoring to reach a unanimous decision. Difficulties of the commission have been considerable owing to delays in having correct translations of the commissioners' opinions and statements from English to Spanish and vice versa.

Matters are further complicated by Octavio's delicate health, frequently necessitating postponements of meetings.

Both—"I've Got Him on the Run Now!"

HOUSE WETS RE-ELECT HILL

Churches Charged With Seeking Political Power in Aiding Prohibition Law Propaganda

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—The unofficial House committee for modification of the Volstead Act, at a meeting today, unanimously re-elected as its chairman, Representative Hill, Republican, Maryland, who had headed the group in the last two congresses.

It also instructed Mr. Hill to appoint a "temperance board" of five from the committee's membership to consider all questions relating to "temperance" and to recommend a means of procedure for the group.

Besides, the committee voted to hold an open meeting in the caucus room of the House office building the 31st inst., to consider the advisability of reporting a bill to modify the prohibition law.

Representative Britten, Republican of Illinois, explained after the meeting today that Senators, House members and private citizens would be requested to appear at the open session to give their views on revision of the dry law. After this meeting, he said, the unofficial modification group would sponsor a bill in the House embodying recommendations brought forward.

DENOUNCES LEAGUE

The group's meeting was held late in the day after the prohibition question had been heatedly debated in the House, and had been the subject of attention elsewhere.

Representative Tinkham, Republican, Massachusetts, told the House that churches and other religious organizations were attempting to obtain political power by aiding in propaganda for "sumptuary prohibition laws."

The suggestion of Senator Edwards, Democrat of New Jersey, for a national referendum on prohibition, was declared by Wayne B. Wheeler, general counsel of the Anti-Saloon League, to be an "illegal, impracticable proposal," which would be "as futile as his efforts to make New Jersey as wet as the Atlantic Ocean."

Representative Britten issued a statement saying he had been assured by Chairman Snell of the House Rules Committee that if any prohibition investigation is undertaken at this session an inquiry into activities of the Ant-Saloon League undoubtedly will be included. Mr. Britten renewed his attack on the League as a "hypocritical, unlawful, un-American pest."

The Supreme Court, meanwhile, heard an argument between John W. Davis and Asst. Atty.-Gen. Willebrandt on one phase of the dry law's operation—the legal effect of bonds given by persons granted permits under the Volstead Act to sell distilled spirits.

Mr. Tinkham's address in the House, in which he assailed activities of a "united theocracy in attempting to join church and State," was interrupted repeatedly by avowed dry members. These interruptions were met with taunts from the wet forces that they "weren't even given a chance to present a case."

Church organizations, through expenditure of vast sums of money Mr. Tinkham said, succeeded in adding to the Constitution "a sumptuary law which has deprived the American people of their fundamental liberties as individuals, spread corruption throughout the land, and disorganized our whole social structure."

Training Station Quarantined for Spinal Malady

[EXCLUSIVE DISPATCH]

WAUKEGAN (Ill.) March 3.—Quarantine was ordered for 700 recruits at the Great Lakes naval training station last night, following an outbreak of several cases of spinal meningitis. Two deaths from the disease occurred during the past two days, while six men who became ill with spinal meningitis during the past five days are being cared for at the naval hospital in an isolation ward.

The quarantine, it was explained by the executive officer who made this ruling at the station, is to safeguard the health of the recruits who are stationed at the reservation at this time and does not interfere with the general running of the station.

The burial plans for the men who died were quietly arranged. Every effort is being made to prevent the disease from spreading throughout the station.

FREE LOVE TEACHINGS ASSERTED

Principal of Iowa School, Accused by Pupils' Parents, Denies Charges

[BY A. P. NIGHT WIRE]

SHANNON CITY (Iowa) March 3—Guy Stockdale, principal of the consolidated school, has resigned following parental reports to school authorities that he had taught his classes theories of natural wedlock without marriage ceremony.

The school board accepted the resignation after questioning the principal-instructor.

C. E. Finch, chairman of the board, said that Mr. Stockdale was unsatisfactory, and that was all. He admitted, however, that reports concerning the teaching or mention of wedlock without license was the prime cause of the acceptance of Mr. Stockdale's resignation.

"We can make no charges, however," he said, "because there was no investigation completed. When we placed the complaints of the parents before Mr. Stockdale he resigned."

Finch said Stockdale denied advocating the theory, saying that he had merely told members of his class of instances where such

ROADS NAME WAGE ISSUE COMMITTEE

Jeffers of Union Pacific Heads Body of Twelve to Confer With Workers

[BY A. P. NIGHT WIRE]

CHICAGO, March 3.—A committee of twelve was appointed today by representatives of approximately eighty western railroads to confer with conductors and trainmen concerning rules, working conditions and wages. The conference will affect about 60,000 employees.

W. M. Jeffers, general manager of the Union Pacific Railroad, was named chairman and W. F. Thiehoff, general manager of the Chicago, Burlington and Quincy, vice-chairman. Others on the committee are: G. S. Waid, vice-president of the Southern Pacific; J. J. Pelley, vice-president of Illinois Central; F. G. Nicholson, vice-president Chicago and Eastern Ilinois; J. E. Hutchison, vice-president St. Louis and San Francisco; T. A. Gregg, assistant to vice-president Atchison, Topeka and Santa Fe; W. E. Williams, manager, department of personnel, Kentucky and Tennessee; William Walliser, vice-president Chicago and Northwestern; L. C. Fritch, vice-president Chicago, Rock Island and Pacific; C. N. Harsted, general manager Chicago, Milwaukee and St. Paul, and F. Bell, general manager Great Northern.

A request Monday by the conductors and trainmen or a 7 per cent increase in wages was refused by the western roads.

TUCSON WOMAN DIES

[EXCLUSIVE DISPATCH]

TUCSON (Ariz.) March 3.—Mrs. Sarah H. Walker, died in her home here, at 68 years of age. She was one of the oldest of local inhabitants, coming with her parents from California in 1871. Surviving are her husband, wedded nearly fifty years ago, and nine children, all citizens of Arizona.

BEER RUNNER ENTERS RACE

Political Bee Stings "Honest Dick" Burrill, Martyr to Truth and Thirst, and In Goes Hat

[EXCLUSIVE DISPATCH]

CHICAGO, March 3.—"Honest Dick" Burrill, one of the most popular beer runners in the Chicago district, has announced that he is a candidate for a seat in the Illinois Legislature from the Forty-first district. Burrill has just been released from the Bridewell, where he served a six-months' sentence, charged with attempting to bribe Brice Armstrong of the Federal Prohibition Department.

When Burrill was arraigned in court with "Butch" Crowley, his partner in the Elgin Ice and Beverage Company, he was asked by Judge Lindley if it was true that he had tried to bribe Armstrong.

"Yes," answered Burrill, "I did."

Burrill thinks that the Legislature needs honest men. In his campaign speeches he will declare that he loves the truth so much that he gladly went to jail to serve it.

After leaving the Bridewell, Burrill went back to his old home town, Joliet, to live. Some of the Joliet residents turned up their noses at Burrill in spite of the fact that he had helped them many times to get their weekly dozen cases of beer. Just to show them that he could get along with the best people, he bought a mansion in the high-hat section and occupied it with his family.

Having been a martyr to the cause of truth and personal liberty in Chicago, as well as a crusader for social equality in Joliet, Burrill has turned his eyes toward Springfield where he will seek new laurels as champion of the persecuted and downtrodden.

HOOVER HITS BICKERINGS

Co-operation on River Urged

Secretary Informs House Arizona Unduly Holding Up Development

Border Closing Threat Cited by Swing as Argument for Canal Plan

BY KYLE D. PALMER
"Times" Staff Correspondent
[EXCLUSIVE DISPATCH]

WASHINGTON, March 3.—Reiterating his contention that the obstacles in the path of development of the Colorado River do not lie back of enormous resources in water, arid lands or the availability of public or private capital, but arise from the sharp conflicts of opinion of the people of the river basin, Secretary of Commerce Hoover today appeared before the House Committee on Irrigation and Reclamation to present his views on the river problem.

With the exception of a recommendation that the Federal Water Power Act be incorporated as a part of proposed Colorado River legislation, thus placing the allocation of power generated by any dam in the river under the Federal Power Commission, Mr. Hoover's remarks were largely a repetition of his testimony before the Senate committee on Irrigation and Reclamation.

In his testimony today, however, he showed less sympathy with the obstructive attitude of Arizona, asserting that the Colorado River compact provides full protection for the rights of that State. Secretary Hoover also indicated that in insisting upon regulations designed to meet possible future contingencies Arizona is "fighting the shadows of what may happen seventy-five years hence."

Suceeding generations, he said, may be safely entrusted with the responsibility for solving their own difficulties, thus leaving to the present age the duty of meeting the requirements for the next forty to seventy-five years.

ARIZONA CHALLENGE

His conclusions as to Arizona were challenged by Representative Hayden, who asserted that State is inspired only by a desire to protect itself both for the present and the future.

Congressman Hayden likewise engaged in a warm tilt with Congressman Swing preceding the appearance of the Secretary of Commerce, the Arizona representative asserting vigorously that Swing and his sympathizers have been attempting to use coercive methods to bring Arizona to an agreement with their point of view.

"We have never been able to reach an understanding with the representatives of California," he said, "and if they would cease putting pressure on Congress and go back home and try to bring about a solution there they would make more progress."

Addressing Mr. Swing directly, he continued:

"You will make better progress with Arizona if you do not try compulsion; it is human nature to resent coercive measures. And, remember, failure to agree means litigation, and litigation between the States is a long-drawn-out affair."

To this Mr. Swing hotly retorted that Arizona itself is using coercion and seeking to gain an advantage from the pressing need of the people of Imperial Valley for protection from flood and for an assured supply of water.

ASSENTS IN VIEW

Mr. Swing then turned to Charles P. Squires of Las Vegas, Nev., Colorado River commissioner for Nevada, who addressed the committee in favor of the revised Swing-Johnson bill, and asked Mr. Squires if he did not feel that Arizona and not California is in the position of a would-be dictator.

Mr. Squires diplomatically replied that he would not presume to criticise Arizona, but discreetly indicated that his opinion, substantially coincided with that expressed by Mr. Swing.

Indorsement of the program by Mr. Squires was accompanied by a suggestion that a clause be inserted instructing the Secretary of the Interior to carry out the act subject to an agreement to be reached between Arizona, Nevada and California, but providing that in the event such an agreement is not reached prior to March 4, 1927, the Secretary then administer the act under the general terms of the

(Continued on Page 2, Column 4)

NEW BREAK IN STOCKS

Sale Record Set on Toboggan

Prices Take Great Slump as 3,785,700 Shares Turn Over During Day

Rails Prove Hardest Hit in Deals, Nickel Plate Going Down 33 Points

[BY A. P. NIGHT WIRE]

NEW YORK, March 3. — Another dramatic break in prices, in which all existing records for the volume and breadth of trading were broken, took place today in the New York Stock Exchange. Net declines in the active issues ranged from 1 to 33 points, with the stocks of railroad shares identified with pending merger plans bearing the brunt of the selling attacks, due to the Interstate Commerce Commission's rejection of the proposed "Nickel Plate" consolidation.

Total sales as compiled by Associated Press tabulators, were 3,785,700 shares, as compared with 3,015,700 yesterday and 3,340,600 in the previous record-breaking session of November 10, 1925.

The number of industrial stocks dealt in was 653, as compared with the previous high of 625, established yesterday.

Despite the unprecedented and almost perpendicular decline of the past week, which is believed to have reduced the quoted value of the securities listed on the exchange by more than $1,000,000,000, no uneasiness over the financial situation and credit standing of brokerage houses was apparent in leading banking circles tonight.

One of the most powerful banking institutions in the financial district, which has come to the support of the Stock Exchange in past financial crises, made inquiries of several stock exchange firms today, and also conferred with stock exchange officials, later making it clear that their reports showed conditions to be sound and that there was no cause for alarm as a result of the recent break in securities prices.

Lowering of the renewal rate on call money to 4½ per cent and the appearance of substantial buying orders for such high-grade stocks as United States Steel common, American Smelting, New York Central and Union Pacific, none of which broke below the low prices established yesterday, were accepted as evidence of strong banking support in today's market.

"Nickel Plate" common was the hardest hit, collapsing 33 points to 130 on total sales of only 1600 shares, the first of which did not appear on the tape until near the end of the third hour's trading. It sold as high as 181 3-8 earlier in the year. Common stock of the Chesapeake and Ohio, whose minority stockholders successfully opposed the financial terms of the Van Swerlngen Consolidated scheme, showed independent strength, soaring more than 9 points to 123 3-8, but slipping back to 116½ at the close.

OTHER CHANGES

The extent of today's fluctuations in the outer units of the proposed "Nickl Plate" system is shown in the following table:

	High	Low	Close	Net Change
Erie common	[illegible]	[illegible]	24⅝	—[illegible]
Erie First Pfd.	33⅝	30	30⅝	—[illegible]
Erie Second Pfd.	36	33	33	—3
Pere Marquette Com.	72	67	70	—[illegible]
Pere Marq. Pfd.	74⅝	71⅝	71⅝	—[illegible]
Pere Marq. Prior Pfd.	79	79	79	—[illegible]

Fears that the adverse "Nickel Plate" decision would upset or delay other railroad consolidation plans brought about heavy selling of such issues as Atlantic Coast Line, Louisville and Nashville, Rock Island, Delaware and Hudson, St. Louis-San Francisco common, Wabash, Missouri, Kansas and Texas common, Missouri Pacific, Kansas City Southern, Lehigh Valley, and Pittsburgh and West Virginia, all of which were hammered down 4 to nearly 12 points below yesterday's final quotations.

Distress selling also was apparent today in some of the high-priced industrial specialties. American Can dropped from 315 to 290 and General Electric from 324¼ to 302, with more than a score of others showing net declines of 5 to 10 points. Anaconda, Hup Motors, Westinghouse Airbrake, Texas Gulf Sulphur and Western Union were among the relatively few issues to show substantial gains of the day, closing 2 to 5 points higher.

Seldom in recent stock exchange history has there been a sustained decline as long and as extensive as

(Continued on Page 2, Column 3)

OSTRICHES TRUE RAIN SEERS

Forecast of Showers Based on Late Laying of Hens Borne Out by .01 Inch Precipitation

Bearing out the contention of H. J. Vatcher, Jr., head of the Cawston Ostrich Farm, that the beplumed birds are infallible weather prophets, a light rain began to fall in Los Angeles early last evening. Vatcher bases his opinion on the fact that his ostriches did not begin laying eggs until after Washington's Birthday, thus indicating rain, for in dry years no such delay has been noticed.

Up to 10 p.m. the rain, as measured at the residence of Col. H. B. Hersey, head of the United States Weather Bureau, was somewhat less than .01 of an inch. Indications were, he said, that there would be additional precipitation during the night. At midnight it was cloudy and drizzling intermittently.

The prediction for today is "partly cloudy, unsettled weather with moderaate temperature."

The seasonal total of rain to date is 9.36 inches as compared with 3.60 inches at this time last year. The normal fall to date is 11.27 inches.

San Pedro reported nearly .01 of an inch, with a seasonal total of about 5 inches.

According to County Horticultural Commissioner Ryan, rain will be welcome to ranchers and fruit growers, as the unusually warm

(Continued on Page 2, Column 5)

GERMANY MAY BALK AT LEAGUE MEMBERSHIP

Luther Demands Assurance of No Other Nation's Election at Forthcoming Session

[BY CABLE—EXCLUSIVE DISPATCH]

HAMBURG, March 3.—In an address which constituted a definition of the principles of German participation in the League of Nations, Chancellor Luther, speaking in the City Hall here before an assemblage of Hamburg notables, appealed to the Allied governments to clear away all the clouds of misapprehension obscuring the future composition of the League Council.

The Chancellor intimated that guarantees confirming the Reich's insistence upon being the only additional permanent member of that body to be elected at the forthcoming session must be accorded prior to the German delegation's departure for Geneva on Friday night, or at least on its arrival there.

MAY REFUSE TO ENTER

Unless such assurance is formulated it is plain from the Chancellor's outspoken utterances that Germany will decline to enter the League. In this connection he said:

"For me it is incredible that through rejecting our standpoint on the question of Council seats the greatest political achievement of last year should be permitted to be destroyed and the prospects opened by Germany's collaboration nullified at the last moment. Germany does not stand alone in her view. This strengthens my hope that this view will be accepted generally before we leave here, or in any event when we reach Geneva."

The Chancellor's speech won tremendous applause, which was echoed throughout the entire country in millions of homes to which it was carried by radio.

After briefly reviewing the Reich's policy of reconciliation inaugurated with the abandonment of passive resistance in the Ruhr, Dr. Luther turned to the spirit of Locarno and observed:

"You must understand that even Locarno is only a step on the road of a universal policy of real peace, although a step of very special significance. The German people, I believe will ever become more and more conscious that for Germany, considering her peculiar position and her political and economic status, there is no other way besides sincere observance of the principles of international understanding.

DANGER POINTED OUT

"Locarno is dependent on our entry into the League of Nations. I want immediately to record Germany's conception that as a member of the League she desires to serve the cause of the great thought of a community of peoples. In furthering the League's interest, Germany will not permit herself to be surpassed by another state. That indeed is a self-evident postulate to common co-operation.

"But I must unfortunately mention a circumstance that arose immediately after the dispatch of our application for admission and which threatens gravely to endanger the whole work Locarno achieved through the common efforts of the last year.

"In all the discussions of Germany's entry into the League it was self-evident for us that before our entry no important changes whatever could be undertaken within the League. This was as self-evident as the allocation to Germany of a permanent seat on the Council. This being the case, it was out of the question Germany's that entry should be accomplished by alterations in the Council's composition. That any such intention existed became known to us only through newspaper stories published immediately after our application was formulated. Any change in the Council or League of Nations would place Germany in a politically impossible position.

"To speak bluntly, Germany is quite incompetent as long as she is not a member of the Leagu to express an opinion on any future alterations. Only after Germany has become a member of the Council and through practical experience has gained an insight into the details of the League's workings will she be in the position to determine her attitude toward proposals for expansion of the Council's membership.

"It must be clearly understood that such proposals must not be concerned with relations between individual member states but with the organization and welfare of the League itself."

STAND OF BRITISH CAUSES GREAT RELIEF

[BY CABLE AND ASSOCIATED PRESS]

GENEVA, March 3.—The news from London that Great Britain proposes to refer all claims to permanent League Council seats, other than Germany's to a special commission which would report to the September assembly on the entire problem of the Council's reconstruction, has created the liveliest interest in League circles.

"A sigh of relief" is the expression best summing up the reaction to this news, for as the candidacies of Poland and Spain were not broached at the Locarno nomination, the majority opinion is that interests of both would best be served by electing Germany alone to a permanent chair.

Nevertheless, considerable uneasiness is manifest over the possible attitude of Spain as it is believed this may force immediate discussion of the question of permanent Council seats.

Belief is strengthened by today's report that the Madrid government is sending an important delegation to the forthcoming assembly.

POLAND WANTS SEAT IN COUNCIL AT ONCE

[BY CABLE AND ASSOCIATED PRESS]

WARSAW (Poland) March 3.—In ratifying the Locarno security pact and collateral treaties yesterday, the Polish Diet went on record as favoring Poland's immediate admission to a permanent Council seat in the League of Nations.

LEAGUE FACES CRISIS DUE TO BLOC OF LATINS

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, March 3.—Whatever settlement is made of the immediate difficulty over Poland's demand for admission to a permanent seat in the Council of the League of Nations, the League soon is to be up against the crisis of its career. It is learned from a high diplomatic authority that Premier Mussolini, with the assistance of Spain and the Vatican, has succeeded in forming a Latin-South American bloc in the League, which he is planning to run for the benefit of the Latins as against the British and North Europeans.

The first step of the new bloc will be to demand permanent seats in the League Council for Spain and Brazil, and another temporary seat for a member of the bloc. Brazil and Uruguay both are elected members of the present Council, and unless they are satisfied they can block the admission of Germany or any other action the Council wishes to take under the unanimity rule.

It is asserted that the new bloc even is prepared, if it does not get its way, to leave the League and form a new association in connection with the Latin states of Europe, to which it is said that Argentina, not now a member of the League, is willing to give support.

FIFTY-YEAR-OLD LOVE REVIVED

Death and Father Time Pave Way to Culmination of Former Romance

[BY A. P. NIGHT WIRE]

OAKLAND, March 3.—A romance that started fifty years ago in a small Colorado mining town will culminate here Sunday with the marriage of Bennett E. Seymour, 72 years of age and Mrs. Sarah Clark, both of Denver. The couple applied for a marriage license yesterday.

A school romance in Central City, Colo., resulted in their engagement when Seymour was 19 years of age and she 17 years of age. Later they quarreled and parted. The old love returned in 1924 in Denver after the death of their respective mates. After a honeymoon they will make their home in that city.

STOCKS BREAK IN RECORD DAY

(Continued from First Page)

the present one. This was attributed by many brokers to the fact that many professional bear traders, who started hammering the market more than a week ago, had covered their commitments in the early part of the week. As a result of the tremendous volume of real liquidation by investors and small traders, arising from the unexpected action of the Interstate Commerce Commission, the market was without the steadying influence of short covering ordinarily in evidence after each severe decline in quoted values.

The unprecedented volume of business today again taxed the facilities of the stock exchange and the lading brokerage houses. The final quotation made its appearance on the ticker thirty-nine minutes after the market closed, as against a delay of fifty-four minutes yesterday, when the last hour's trading ran more than 1,400,000 shares as compared with 1,075,000 today.

Further liquidation of public utilities took place in today's curb market, but the declines were nowhere near as extensive as those of yesterday. Net losses in the active issues ranged from 1 to 7 points.

With the exception of rubber prices, which closed 3.8 to 4.8 cents a pound lower, the commodity markets displayed a steadier tone. Cotton futures showed net advances of 7 to 25 points, and active wheat futures were 1 to nearly 2 cents a bushel higher. Coffee sagged 2 to 15 points and sugar futures showed nominal recessions.

NICKEL PLATE LEAK DENIED IN WASHINGTON

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Suggestions of a possible leak yesterday in the Interstate Commerce Commission's decision in the Nickel Plate merger case brought from Chairman Eastman of the commission today the statement that such an occurrence was out of the question.

He said the mimeographing of the opinion was done by different persons behind locked doors in a way which made it impossible for advance information to reach outside.

It was indicated at the commission offices that no further official cognizance will be taken of rumors that Wall street may have gained information as to the ruling in an improper way.

RUDOLPH GANZ NAMED TO LEGION OF HONOR

[EXCLUSIVE DISPATCH]

ST. LOUIS, March 3.—Rudolph Ganz, director of the St. Louis Symphony Orchestra, has received word from Paris that he has been appointed to a membership in the French Legion of Honor because of his attainments in the music world. Presentation of the insignia likely will take place in Paris next May. Ganz was born in Zurich, Switzerland, in 1877 and came to the United States in 1900. Before coming to America, he had gained considerable fame as a pianist. He has been director of the St. Louis orchestra since 1921.

HOOVER SCORES RIVER BICKERING

Co-operation on Development of Colorado Urged

Arizona Declared Holding Up Development

Swing Bases Argument on Line-Closing Threat

(Continued from First Page)

Colorado compact at his discretion.

"We recognize," said Mr. Squires, "in the pressing necessities of the Southwest, as do members of your committee, we believe, a most weighty reason for the immediate construction by the Federal government of the Boulder dam project, and we desire to co-operate and assist so far as possible in bringing this about.

NEEDS DEFINED

"We define our requirements more explicitly as follows:

"Not to exceed 300,000 acre feet of water per annum for domestic use and irrigation.

"Twenty per cent of the power which may be developed at Boulder Canyon dam, for use within the State as and when needed.

"Nevada was prompt in ratifying the Santa Fe compact, believing it essential to the protection of the Upper Basin States in their future development as well as for the more perfect definition of the rights of the lower basin. We desire, if it be possible, a compact between Arizona, California and Nevada to provide for the fair division of the benefits assured to those States under the Santa Fe compact. We have been active in seeking such a compact, which, however, has not yet been agreed upon, and negotiations for which are still pending."

Congressman Swing read to the committee a newspaper account of an interview with Gov. Rodriguez of Lower California in which the Governor was quoted as saying he would seek to close the border to American commerce as a result of the unfriendly and unfair criticisms of certain Los Angeles papers growing out of the Peteet family outrage at Tia Juana.

CANAL QUESTION

Mr. Swing's purpose was to convince the committee that the Governor's remarks indicated the precarious conditions under which the present American-Mexican canal system is operated and, hence, the desirability of an all-American canal.

A member of the committee, however, suggested that Lower California would suffer quite as much hardship as merchants and others on the American side in the event of such an order, and to this no denial was entered.

Secretary Hoover was asked if the United States government is conducting negotiations with Mexico regarding a possible revision of the contract under which the present canal supplying Imperial Valley with water is operated. He replied that he would gladly supply the committee with all the information at his disposal, but asked that this question be taken up in executive session.

Mr. Hoover's suggestions that the Federal Water Power Act be written into the bill now before Congress is in harmony with a recent statement issued jointly by Senator Johnson and Congressman Swing in which they indicated their desire to accept the power-act provisions in preference to certain recommendations by Secretary of the Interior Work.

FOR OLD POLICY

In this connection, the Secretary of Commerce said:

"It seems to me that we should not depart from the national policy established by the Water Power Act and that the handling of the power question at this dam should be placed in the hands of the Federal Power Commission to give licenses for the use of the water for power purposes under the Water Power Act without imposing a new system of allocation. Of course, any licenses issued should be subject to the approval of the Secretary of the Interior as to the major purposes of finance of the obligations of the government, and other requirements of the region.

"I have no sympathy with Federal government going into the power business. In this case our dominant purpose is flood control, irrigation, and domestic water. Power is a by-product and we should sell it on such terms as will recover with the sale of water the governmental outlay. It should be licensed as water to people who will construct the electrical works, if possible, but if this is impossible we should do no more than lease the power plant over the term of years provided. I believe that the various parties interested, the municipalities, the private power companies, etc., could be brought together on the first proposition when the Secretary of the Interior has an authority to do so.

TIME ELEMENT

"Another question that seems to me could be widened out a little is that provision would need to be made for the use of some of the power by the States of Arizona and Nevada and this might be done by those States entering some undertakings with the people who might erect the power equipment in the meantime."

Mr. Hoover said he does not think those opposed to the reclamation policy of the government can object to the proposed Colorado River program, as ten years would be required to complete a dam and a further period of ten years would pass before the contemplated irrigation plan could be fully developed. During this delay of twenty years, Mr. Hoover told the committee, from 25,000,000 to 30,000,000 people will be added to the nation's population and thus provide ample demand for the products of the additional reclaimed lands.

The House committee will meet next Wednesday to conclude its public hearing on the Swing-Johnson bill, following which the committee will consider the measure in executive session.

CORPORATION URGED TO DEVELOP COLORADO

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—A gigantic corporation made up of States of the Colorado River Basin to develop river power resources instead of development of the river by the government was proposed on the floor of the Senate today by Senator King, Democrat, Utah.

The proposal was made during discussion of the Muscle Shoals question, and the Senator asserted that a similar plan must be made to apply to the development of Muscle Shoals. Senator King questioned the advisability of the government spending, as proposed, around $150,000,000 for the construction of the Colorado River Boulder Canyon project to serve a limited area of the country.

"It occurs to me," he said, "that a corporation of the States interested in this development might be formed with the States of the river basin participating in the stock ownership in proportion to their needs and their desires."

Senators interested in the development of the Boulder Canyon dam project were told by Senator McKellar, Democrat, Tennessee, that if they support the proposal to lease Muscle Shoals they will find opponents of that proposition lined up against appropriations for Boulder dam.

SHEIK'S EX-WIFE GIVEN PATENT

Recent Mrs. Valentino Now Inventor With Prospect of Doll Royalties

[EXCLUSIVE DISPATCH]

WASHINGTON, March 3. Natacha Rambova, but lately the wife of Rudolph Valentino, is an inventor.

A patent on a combined coverlet and doll was issued to her yesterday under her own name, Winifred Guglielmi, by the United States Patent Office. She has assigned the invention to the Cosmic Arts, Inc., and presumably has only to draw her royalties.

CHURCH TO GIVE AID TO THEATER

(Continued from First Page)

best can be praised only for their pious intent."

WARNING SOUNDED

Channing Pollock, author and playwright, said "the only way to a better theater is through better audiences." The problem, he said, is not primarily one of clean plays.

"Nothing is to be accomplished by censorship," he asserted. "If you could make people good by acts of legislature, the American people would be chemically pure."

He proposed a committee of men and women who knew literature and the arts, nonclerical and nonprofessional, which would ignore the plays of which it did not approve, and recommend others. A recommended play would thus be identified for people who did not know what to see.

Mr. Pollock warned his colleagues "that unless interest like this is enlisted, the theater will perish, and I warn the church that in its place will come something more dangerous and destructive than the drama at its worst."

OSTRICHES TRUE RAIN PROPHETS

(Continued from First Page)

weather has dried the soil out rapidly.

Manager Vatcher of the ostrich farm denied that he is a weather prophet himself, giving all the credit to his birds.

"My ostriches are so consistent I have come to rely on them," he declared. "In dry years they invariably begin having early. Two years ago, for instance, we had ostrich eggs for Christmas. This year the first eggs appeared on February 22. In looking back over my records I find that in wet years the hens were backward. These records have been kept for about thirty years and without exception they have borne out what I say. According to my ostriches we can continue to look for plenty of rain."

OIL BOARD TO BE CONTINUED

Original Appropriation Not Touched, Work Explains

Survey Developed Phases of Marked Importance

Three Reports on Industry's Status Will be Made

[EXCLUSIVE DISPATCH]

WASHINGTON, March 3.—President Coolidge has indicated that he wishes the Federal Oil Conservation Board continued after June 30, next, and the Bureau of the Budget today transmitted to Congress a recommendation by Secretary Work that the original appropriation of $50,000 for the maintenance of the board be continued. Congress undoubtedly will make available this sum through an amendment to the second deficiency appropriation bill.

In announcing the continuance of the Federal Oil Board, Secretary Work said that the board had functioned through the past year without the expenditure of a single dollar of the original appropriation. This was accomplished by obtaining the services of officers and employees already on the government pay roll, who devoted a part of their time to the work. The board's inquiry into national petroleum conditions has spread so widely, and the problems are so important to the national government, the Secretary added, that it will now be necessary to expend a portion of the present appropriation, any balance of which, however, will, on June 30, revert to the United States Treasury. To continue the operations of the board, it will, therefore, be necessary for Congress to continue an appropriation for use during the next fiscal year.

Secretary Work also announced that the board's survey, up to this time, of oil conditions in the United States has developed several phases of marked importance, which will make it impossible to incorporate in the preliminary report all of the material which the board desires to cover in its recommendations to the President.

Three reports will be made by the board to the President and Congress. The first report will treat of domestic conditions, production, refining, consumption, legal stipulations, State and national development of government and private lands. This report will likely be ready for submission to the President before adjournment of the present Congress.

The second report will deal with the foreign oil situation, as it relates to American interests.

The third report, Secretary Work explained, will deal with possible substitutes, whether the oil shale industry can be profitably and effectively developed, whether coal can be resorted to, whether other mineral substances can be converted to fuel uses in place of crude oil and gasoline.

COUNTESS DEFIES OUST

Rehearses Play as Time Expires and Says It W Require Lot of Strong Men to Deport Her

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Although the time limit of ten d lotted by the immigration officials for a temporary stay to C Cathcart expired at 11 o'clock tonight, she did not present Ellis Island. The Countess still was registered at 11:30 o'clock at the Hotel Ambassador and had not checked out, the hotel agement said.

After her detention at Ellis Island, because of her admission of moral turpitude, the Countess obtained her release under personal bond of $500.

The Countess, found tonight rehearsing her part in her play, "Ashes," said:

"I am not thinking of going out of this country. In fact, it would take a lot of very strong men to put me out. My attorneys can speak officially for me, but I can tell you no Ellis Island or Washington officials have called on me to surrender and certainly I have no intentions of returning to Ellis Island tonight."

DEPARTMENT TAKES NO ACTION IN COUNTESS CASE

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—The Labor Department closed its doors today without any action being taken, it was said officially, in the case of the Countess of Cathcart, whose ten-day liberty from Ellis Island on personal bond of $500 expired at 11 o'clock tonight.

Assistant Secretary White conferred late in the day with Assistant Secretary Husband, who remarked afterward that the "department would do nothing today because it couldn't do anything."

"We expect the Countess to return to the Island," said Mr. Husband, "before her liberty expires."

CHAMBERLAIN DENIES CLASS DISTINCTION

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, March 3.—Sir Austen Chamberlain, British Foreign Secretary, was heckled in the House of Commons today about the asserted difference in the attitude of the British government in the cases of the Countess Cathcart and Selina Cheppendale, a poor woman who has just been deported from Boston. Sir Austen denied any class distinction. All he did in the Cathcart case when appealed to was to send the usual telegram to the British Consul to look after the interests of British subjects as was the Consul's duty. He had never received any appeal from Miss Cheppendale. Her case had been brought to the attention of the British government by the United States government, who wished to deport her on grounds of moral turpitude.

Sir Austen said that h unable to state how many subjects had not been allow land in the United States January 1, 1921, because of pitude.

CHINESE NATIONAL ARMY LOSES ON TWO FRONTS

New Phase of Civil War Opens as Forces Gather for Decisive Battle to Control Peking

[BY CABLE AND ASSOCIATED PRESS]

PEKING, March 3.—The Kuominchun, or national armies, which owe their origin to and still acknowledged the leadership of Marshal Feng Yu-Hsiang, and which still control Peking and its surrounding province, Chihli, today are on the defensive on three major fronts. From two of these come reports of decisive Kuominchun defeats.

In Honan Province and south of Tien-Tsin victories for the Kuominchun's foes were reported, while on the northern front, from Shanhaikwan the forces of Mukden started an advance. The Kuominchun claimed success in a limited engagement south of Tien-tsin.

On all three fronts the forces opposing each other are considered approximately equal, and all are being reinforced. Heavy fighting is believed to be imminent all around, especially in the north and around Machang, south of Tien-tsin.

Marshal Feng, who announced a tactical retirement from public life after his capture of Tien-Tsin last December, remains far from the field, at Pintichuan, northwestern Chihli, although he is directing the Kuominchun dispositions.

NEW PHASE OPENS

Today's developments are considered to indicate the opening of a new phase of the Chinese civil war, in which concerted action by the enemies of Marshal Feng may place new masters in the national capital.

In Honan Province, Marshal Wu Pei-Fu, at the head of the Hupeh army, apparently has ended a military deadlock by a rapid advance north along the Peking-Hankow railway to the Yellow River. He has captured Chengchow, where the Lunghai railway, an east and west line, joins the Peking-Hankow trunk, and compelled the second Kuominchun under Gen. Yueh Wei-Chun, Governor of Honan and ally of Marshal Feng, to retire across the river, destroying the railway [illegible] the bridge in his flight.

This second Kuominchun is described as in a state of virtual collapse. The rapidity of Marshal Wu's advance is indicated by the fact that the last definite news of him was from Sinyangchow, 200 miles south of Chengchow.

A second defeat of the Kuominchun troops defending Tien-tsin on the south is reported briefly and in general terms. On the same front, however, Kuominchun headquarters here report the capture of Tsangchow, sixty-five miles south of Tien-tsin, by a surprise attack from the west, which resulted in the surrender of an entire enemy brigade, which found itself cut off from its main forces on the south.

GREATEST THREAT

South of Tien-tsin, which is generally described as the Machang front, from a town forty miles south of Tien-tsin, the Third Kuominchun is opposed to the combined forces of Gen. Li Ching-Ling, whom Marshal Feng drove from Tien-tsin last December and of Gen. Chang Tsung-Chang, Governor of Shantung, and follower of Marshal Chang Tso-Lin of Manchuria. Tsangchow was in the rear of this combined army's advance positions, which had reached Machang. The Kuominchun is facing its third and perhaps greatest threat on the north and northeast, whence the Manchurian dictator's forces are advancing. Chang Tso-Lin's son, Chang Hsueh-Liang, is leading the advance from Shanhaikwan, and to meet this Marshal Feng has established his line at Lwanchow, 100 miles northeast of Tien-tsin. To meet a more direct threat to Peking the Kuominchun chieftain has placed forces at Jehol, 125 miles northeast of Peking, to which another Manchurian army is moving. The First and Fourth Kuominchun are those arrayed against the Manchurians.

Marshal Feng appears to be awaiting the result of the battles imminent at Machang, Lwanchow and Jehol before leaving Northwestern Chihli.

MANCHURIAN WAR LORD HAS ARMY OF 300,000

[BY CABLE AND ASSOCIATED PRESS]

MOSCOW, March 3. — Marshal Chang Tso-Lin's recent activities in Manchuria have caused the Bolshevik newspapers to make inquiries concerning the strength of the Manchurian war lord's forces. The total number of soldiers under his command is estimated at 300,000. He is said to have 630 machine guns, 570 cannon and 75 airplanes.

If to these figures are added the troops of the generals allied with Chang Tso-Lin the total would be increased to 420,000 soldiers, 630 machine guns and 1000 cannon. Chang's army is said to be comparatively well drilled and equipped and to possess substantial military and material depots in Manchuria.

Life and death struggled between the forces of Chang Tso-Lin and Gen. Feng Yu-Hsiang, the head of the National People's Army for the domination of Peking as described in advices to the London Daily Mail.

The scene of the struggle is Machang, fifty miles south of Tien-tsin. Armored cars have been used and there have been heavy casualties. Bridges have been blown up.

A decisive victory in the view of the correspondents might end civil war in China.

STATE DEPARTMENT SUMMARIZES SITUATION

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—The State Department today summarized as follows its advices regarding the latest phases of the civil war in China:

"Gen. Wu's forces are now pressing an attack along the Peking-Hankow railway, which is closed to travel to points south of Changchow.

"The forces of Chang Tso-Lin, in Chantung, are attacking Tientsin from the south and invading Honan from the east.

"Railroad travel south of Tientsin and from Tientsin on the Peking-Mukden Railroad is closed. Peking-Tientsin rail communications is in immediate danger of being closed.

"It is felt that there is probability of heavy fighting."

CATHOLICS ASK CHANGE IN LAW

Mexican Congress Flooded With Petitions

Protest by Society States Basic Right Denied

Clashes Continue as Hall of Knights Seized

[BY CABLE—EXCLUSIVE DISPATCH]

MEXICO CITY, March 3.—Amendments to the Constitution as affecting the religious question are being petitioned on a wholesale scale from all sections of the country by Catholics. These petitions are addressed to standing committees of Congress, coming chiefly from cities. In the State of Puebla one bears more than 10,000 signatures.

Several Catholic organizations in the State of Vera Cruz are sending similar requests.

Petitions have been received during the past eight days, all worded similarly, objecting to the constitutional religious precepts.

The government's instructions to State authorities regarding the carrying out of instructions on religious attitude have caused a number of clashes in various places with Catholic authorities. One of the most serious was at Colima, where the police unceremoniously ousted the Knights of Columbus from their clubrooms, using unnecessary violence, and after carrying off the Knights' furniture, distributing it gratis about the city.

The following letter of protest was sent to President Calles by the Regional Committee of Mexico of the Association of "Catholic Dames," which is one of the most powerful and wealthy Catholic institutions in the country.

"To the President of the Republic.

"Feeling that we have been affected in our deepest feelings, we beg to respectfully call your attention to the fact that under the pretext of complying with the law, the law has been violated.

"Foreign priests have been expelled when such priests can only be prohibited from officiating, but their presence in the country can not be affected. Seminaries, private colleges and now temples have been closed, all of which institutions are not prohibited by the Constitution.

"Violent and cruel systems have been adopted, thus stepping upon the fundamental guarantee established by Article XVI of the Constitution, which says: 'No one can be molested in his person, family and residence, papers or possessions, except by reason of a written order issued by a competent authority, and giving the basis and the motive of the legality for the procedure.'

"The right of protest and defense has been violated to an extreme point as was apparent, when women of all classes who formed a pacific commission to request the revoking of an unjust order, were not given a hearing, but were mistreated in a cowardly way.

"The sovereignty of the people has been ridiculed, as well as the representative democractic charter which corresponds to the government, according to the Constitution, since it is impossible that the people, Catholic in the very great majority, should be persecuting and tyrannizing themselves.

"All these violations have caused indignation not only among the Catholics, but also among other people who profess other religious creeds.

"We respectfully request that you give urgent orders for the return of the Sacred Family Church and the other temples and institutions which have been improperly closed; that the constitutional guarantees must not be violated, that the public sentiment must not be outraged, and that shameful procedures should not be used which lower the prestige of Mexico before the whole civilized world.

"We request that your reply be made to the 'Union de Damas Catolicas de Mexico.'"

MORMON SCHOOLS REOPEN IN CHIHUAHUA

[BY A. P. NIGHT WIRE]

EL PASO, March 3.—Mormon schools in Chihuahua have reopened after having been closed but one day under the order of President Calles, according to A. L. Anderson, connected with the Mormon Church here.

A report from Chihuahua City, the State Capital, said the Mormons had threatened to return to the United States unless the schools were allowed to remain open.

RAIL MERGERS WILL GO ON

Decision on Nickel Plate Asserted Not Applicable to Several Other Consolidations Under Way

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Pending railroad mergers, other than those intricately tied up with the proposed Nickel Plate consolidation, will not be deterred by the adverse decision of the Interstate Commerce Commission against the Van Sweringen projected combination, their sponsors asserted today.

Plans which already are well advanced for the new Loree system in the Southwest, embracing the Kansas City Southern, Missouri, Kansas and Texas, and St. Louis Southwestern railroads, and another for linking the St. Louis-San Francisco and Rock Island lines, will be carried forward as rapidly as possible. Other suggested mergers in the South and East, which are in a more tentative stage, also will proceed along lines originally contemplated.

Welcoming the Nickel Plate decision as clearing the atmosphere surrounding the general consolidation problem, railroad banking interests apart from the Van Sweringen group said that the commission's ruling will guide rather than hinder them in formulating their own merger plans. At the same time evidence accumulated in Wall street that a new financial structure for the proposed Nickel Plate unification will rise upon the ruins of the plan rejected by the Interstate Commerce Commission.

MINORITY DEFENDED

"There has been much feeling," said one railroad authority, "as expressed quite strongly in the opinion by the commission, that minority interests were not receiving proper consideration. This very denial of the Nickel Plate application will probably accelerate Congressional action which will clear up the whole consolidation question."

L. F. Loree, head of the Delaware and Hudson and Kansas City Southern railroads, who is sponsor of mergers to be built around these systems, believes that the decision will not affect the consolidation movement.

"The decision will have no lasting effect whatever on railroad consolidation," he said "The commission does not deny the economic value of mergers, but merely the terms of this particular one. It will not discourage private initiative in merging the country's railroads. Every decision of this kind merely clears the way for future mergers."

Many railroad heads declined to express an opinion pending study of the text.

Plans for a series of nation-wide mergers have been worked out for some time on a regional basis. Some of the mergers follow closely the suggestions of the Interstate Commerce Commission, but others, including the Nickel Plate, differ.

Five great systems would span the East under plans now in consideration. They are headed by the New York Central, the Pennsylvania, the Baltimore and Ohio, the Deleware and Hudson and possibly the New Haven.

In the Southeast, the Atlantic Coast Line and associated roads are interested in a unified system. A second group would center around the Southern Railway, while the Illinois Central, the Seaboard Air Line and the Central of Georgia would constitute another group.

Another group would center in the Southwest with the Missouri Pacific at the head. The Southern Pacific also has been extending its holdings. The St. Louis-San Francisco, which only a few weeks ago acquired control of the Rock Island, has an application for consolidation before the commission now.

FLIGHT TO LINK COASTS

Air Cruise to Cover 7000 Miles From Philadelphia to San Diego by Way of Cuba and Panama

[BY A. P. NIGHT WIRE]

SAN DIEGO, March 3.—The longest flight ever attempted by American navy aircraft, from Philadelphia to San Diego, by way of Cuba and the Panama Canal, with stops at Central American and Mexican ports, the distance being about 7000 miles, is to be made this summer, according to word received here today.

The flight will be made by the Navy's two PN-10 coastal seaplanes, now nearing completion at the naval aircraft factory at Philadelphia.

First definite word of the proposed flight came here with orders detaching Lieut. Ralph Pope, aviation pilot, from further duty at the local air station and assigning him to special duty with the PN-10 planes. Lieut. Alan Snody, pilot of the PN-9, who was forced down 200 miles west of San Francisco on the California-Hawaii flight, has been ordered to Washington in connection with the proposed flight.

Each of the PN-10 planes of far greater cruising radius than the machines which attempted the flight to Hawaii last year, will have two 1500-horsepower Packard motors.

The intercoastal flight is planned for July.

ARIZONANS TELL FARM LABOR NEED

Growers Predict Change in Crops Unless Immigration Bars Are Lifted

[EXCLUSIVE DISPATCH]

PHOENIX, March 3.—"If a sufficient supply of suitable labor can not be obtained, thousands of acres under government reclamation projects throughout the entire West, as well as thousands of acres throughout the Middle West, will be forced to quit intensified farming and raise crops that can be produced and harvested with a small amount of labor, such as corn, wheat and other grain crops, of which there is a present surplus." This is the declaration of the Arizona Cotton Growers' Association, made in a recent report.

Statement is made that during the past season the farmers of the Salt River Valley and elsewhere in the Southwest have felt keenly the shortage of labor, due to recent restrictions placed upon immigration from Mexico. Efforts made to obtain laborers elsewhere were of little avail. It now is asked that the immigration laws be so modified that laborers may be admitted in sufficient number to care for seasonal crops, such as cotton, lettuce, sugar beets, etc., that need much labor to care for and harvest. These laborers, it is suggested, "may be admitted for this specific purpose, to work in a specific place and at a definite employment for a specific length of time, at the conclusion of their term of employment to be returned to the country whence they came." Approval is given by the association to the Vincent measure permitting the importation of agricultural labor on the same terms as skilled labor.

IRON BOX OF CIVIL WAR TIMES FOUND

[BY A. P. NIGHT WIRE]

SACRAMENTO, March 3.—Gov. Richardson could use a new safe. The one he has now has a hole in it. Although the Governor has made no move to depart from his economy program by acquiring a new strongbox, a search of the executive office here revealed the only safe on hand was so old its history had been forgotten. Diligent inquiry among veterans in the State service finally yielded the information that the iron box had been made in San Francisco during the gold rush and at one time had guarded the valuables of the Adjutant-General's office After the Civil War it was moved from the Capitol Building to the present structure. Several years ago some one slammed the door of the historic vault and forgot the combination. Ordinary safe-blowing tactics failed, but workman with acetylene torches and drills finally made a square hole in the side of it which is still there.

PATRONAGE FOR TEXAS ATTACKED

Republican Congressman Charges Party Chairman Actually Aided Opponent

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Republican patronage in the South was the target for attacks in the House today by Representative Wurzbach, Republican, Texas, and Representative Garner, Democrat, of the same State.

Assailing the practices of his party in Texas, Mr. Wurzbach asserted that Federal appointees all through the South held their offices "by grace of corrupt, disreputable and politically irresponsible machines."

R. B. Creager, national committeeman for Texas, and Eugene Nolte, the State chairman, far from supporting his campaigns for Congress, he charged, had "aided and abetted Democratic opponents."

"Pie-counter" Republicans of the South, he added, did not want members of their party elected to office because that would interfere with the division of the "spoils."

Representative Garner declared President Coolidge must be held responsible for continuation of patronage evils in Texas. He also accused Mr. Wurzbach of "cuddling up to Coolidge" rather than appealing to him as head of the administration to remedy this "rottenness."

He praised Mr. Wurzbach for bringing the issue into the open, but said he shouldn't have allowed these "damnable outrages" to continue during his five years in office without airing them before.

GAS TAX SHOWS LOSS

[EXCLUSIVE DISPATCH]

AUSTIN (Tex.) March 3.—For the month of January the sales tax of 1 cent a gallon on gasoline brought a total revenue of $248,304 to the State Controller. This was a decrease of $53,149 as compared with the sum received from this source the previous month.

LATIN EDITORS' TOUR MAPPED

Trip Will Follow Close of Congress Session

Visitors from South to be Shown Industries

Will Attend Meeting of Publishers

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Latin-American newspaper men who will attend the first Pan-American Congress of Journalists here, April 7 to 13, will tour Eastern and North Central United States to meet American business men and study American industrial methods.

The tours will follow adjournment of the congress, which has been arranged by the Pan-American Union. The first trip will take the delegates through Virginia, Maryland, Pennsylvania and New York. New York City will be reached in time for the visitors to attend sessions of the American Newspaper Publishers' Association.

TO SEE INDUSTRIES

The Baldwin Locomotive Works at Philadelphia, the General Electric Company at Schenectady, N. Y., automobile factories at Detroit and manufacturing plants at Pittsburgh and Akron, O., will be visited to give the journalists an idea of the immensity of industry in this country.

The congress of journalists was called as an effort toward bringing the New World newspaper men into closer harmony and to develop a better understanding of mutual problems.

Internationally known journalists will address the congress, including Senator Capper, publisher of the Topeka Capital; Herbert Gunnison of the Brooklyn Eagle, Don Jorge Mitre of La Nacion of Buenos Aires; Senator Glass, publisher of the Lynchburg Advance and News; former Secretary Josephus Daniels, publisher of the Raleigh News and Observer.

OTHER SPEAKERS

William Allen White, editor of the Emporia Gazette, will discuss "Newspaper Ethics," while the press associations will be represented by K. A. Bickel, president of the United Press; Frank B. Noyes, president of the Associated Press, and M. Koenigsburg, president of the International News Service.

Editors and publishers from the southern republics will include Don Rafael Huete of the Diaro De Costa Rica, San Jose, and Don Benjamin Silva Herrera of the Diaro Nacional of Bogota, Colombia. Other speakers will be Dean James Melvin Lee of the School of Journalism of New York University; Roscoe Brown, of the School of Journalism of Columbia; Nelson A. Crawford, president of the American Association of Teachers of Journalism, and H. A. Harrington of the School of Journalism of Northwestern University.

NELSON ESTATE HOLDERS NAMED

Three Trustees Appointed to Handle Fund

All Are Prominent Citizens of Kansas City

Vast Income to be Given Over to Arts

[EXCLUSIVE DISPATCH]

KANSAS CITY, March 3.—William Volker, J. C. Nichols and Herbert V. Jones are the three unibert V. Jones are the three trustees named to administer the trust estate of William Rockhill Nelson, founder of the Star.

The entire estate was left to the people of Kansas City, the income to be invested in objects and works of art.

The appointments were made today after the board of university presidents provided for under the Nelson will, consisting of Dr. E. H. Lindley of the University of Kansas, Dr. Stratton D. Brooks of the University of Missouri and Dr. W. B. Bizzell of the University of Oklahoma, had spent three days in conference following the death in Baltimore Saturday of Mrs. Laura Nelson Kirkwood, who had been the sole surviving trustee of the estate.

By the will of Mrs. Kirkwood, daughter of Mr. Nelson, filed today, a $2,000,000 trust fund was created, which will go ultimately toward housing the art collection to be created by the Nelson will. This trust fund is left to Irwin Kirkwood, editor of the Star, during his lifetime. A $750,000 estate bequeathed for the same purpose in the will of Mrs. W. R. Nelson is now available for the purchase of a site or of constructing an art building.

The executor of Mrs. Kirkwood's will is her husband, Irwin Kirkwood, and his successors under the will of Mrs. Kirkwood are Fred C. Vincent, John E. Wilson and the New England National Bank, which group or its survivors, will have the location of the building and the final disposition of Mrs. Kirkwood's estate for the purposes set forth.

The three trustees appointed are outstanding men in Kansas City. William Volker is well known as a philanthropist and is the head of William Volker & Co. J. C. Nichols is the head of the J. C. Nichols Company, developers of real estate and creators of the Country Club district. Herbert V. Jones is the chairman of the City Planning Commission. Mr. Volker is retiring as a member of the Board of Education. Mr. Nichols is a member of the same board and president of the Kansas City Art Institute. Mr. Jones is the executor of the Mary Atkins will, which left more than $500,000 toward the creation of an art museum some years ago.

STAR GREATEST ASSET

The W. R. Nelson estate consists of the Star as its greatest asset. Under the terms of the will the trustees named today will have charge of the sale of the Star, which will be within two years. In addition, holdings are the northeast corner of Eleventh street and Grand avenue, the old home of the Star, held by the estate under a ninety-nine-year lease; a paper mill site in the east bottoms, the addition known as Rockhill, a fine subdivision of residence property upon which are some seventy houses owned by the estate, and more than 100 acres of vacant property, and the Sni-A-Bar Farms, consisting of 1750 acres at Grain Valley in the eastern part of Jackson county. The farms are to be continued as a demonstration farm under the will for nineteen years, the entire period having been thirty years after Mr. Nelson's death.

In addition there are the Star Building and its site and the 150-foot vacant property immediately to the south at the northeast corner of Eighteenth street and Grand avenue running through to McGee street.

Mr. Volker comes to the trusteeship of the William R. Nelson estate as one who knew Mr. Nelson in the early days of the founding of the Star. He remarked today he had "watched Mr. Nelson start the great undertaking which had meant so much to this section of the country."

Dr. E. H. Lindlay, speaking for the board of presidents, issued an informal statement after the appointment of the trustees. He said:

"We have sought in our deliberations to protect the standards and ideals of a great newspaper (the Star) and at the same time provide for the fulfillment of Mr. Nelson's objective, to found a wonderful art center.

"We want to make plain our concern for the protection of the standards of the great newspaper Mr. Nelson founded."

Following announcement of his appointment as a trustee, Mr. Nichols said:

"We have accepted this as an opportunity to serve in a great cause instituted by Mr. Nelson."

Mr. Jones, speaking for himself and with the nodded approval of Mr. Volker, said:

"It is, as Mr. Volker said a minute ago, a matter of such vast importance to this community that we had no right to do other than accept."

The trustees were unanimous that they had no advance ideas as to the management of any phase of the estate, declaring their first duty would be to meet and study the will carefully. It was decided to convene at 9 a.m. tomorrow to take up the study of Mr. Nelson's will, then to meet frequently thereafter until all necessary decisions are made.

SCOTS WAIL OVER SKIRL O' PIPES

[BY CABLE AND ASSOCIATED PRESS]

GLASGOW, March 3.—The popularity of the bagpipe is tottering. Scotsmen do not like the skirl of their native pipes nor the "hooch," or cry which often accompanies the playing, as much as formerly. On the ground that these "national noises" are a nuisance steps have been taken to have them suppressed in Glasgow. Proprietors of a hotel and neighboring properties have begun legal action to stop the noises which go on at dances and other entertainments at the Highlanders' Institute. They complain that people living near the club are deprived of sleep by the bagpipes, and their only recourse is the courts.

STRANGLER OF WOMAN STILL FREE

San Jose Slayer Believed Same Fiend Who Took Life of Bay City Spinster

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, March 3.—Working on the theory that the strangler, who murdered Mrs. Laura E. Beal in San Jose Tuesday afternoon is the same fiend who strangled to death a San Francisco woman two weeks ago, police detectives here joined with San Jose police today in launching an extensive investigation and search for the slayer.

While detectives were busy going through the Bureau of Identification for descriptions of every degenerate known to police, Merton Newman, nephew of Miss Clara Newman, 60-year-old local spinster, who was slain and attacked by the strangler here, went to San Jose to give descriptions of the man. Newman saw the man and he will check descriptions being phoned to San Jose police by apartment-house owners.

Warnings were broadcast to apartment-house owners to be on the lookout for the sallow-faced man who asked aged women to show him apartments.

Mrs. Beal was found by her husband strangled to death with the silk cord from her bath robe. She was lying in a vacant apartment.

Australian Bush Fire Surrounds More Than Score

[BY CABLE AND ASSOCIATED PRESS]

LONDON, March 3.—A dispatch to the Daily Express from Melbourne says that a party of men fighting another bush fire in Australia has been cut off by the flames and its fate is unknown. The dispatch says that twenty-three men who by strenuous efforts turned a fire which was raging on several ranges and which threatened to destroy the State fir plantation valued at about $25,000,000, were isolated by the flames with only one day's food and suffering from exhaustion, due to lack of sleep.

A motor car which was sent to relieve them was compelled to return. Two of the twenty-three men escaped. They reported that it would be suicidal to try to reach the others. Nevertheless, a party of five men made the attempt and plunged into the danger zone. Nothing has been heard of them since. Efforts are now being made to send relief by horseback.

MOTHER ON TRIAL FOR MURDER OF DAUGHTER

COUNSEL FOR TRACY WOMAN HINTS SUPPOSED SLAIN CHILD STILL LIVES

[EXCLUSIVE DISPATCH]

STOCKTON, March 3.—The murder trial of Mrs. Louisa Zamora of Tracy, accused of the murder of her 4-year-old daughter, Lenore Aguilar, commenced today in Superior Judge Miller's court, with prospects of continuing for two weeks or more.

Attorney Ira B. Langdon, appointed as defense counsel by the court, has intimated that the Aguilar child is still alive and the prosecution anticipates that an attempt will be made to introduce a girl purporting to be the Aguilar girl.

In examining the prospective jurors today Langdon suggested that the Aguilar girl died a natural death and that the Zamoras buried her body in an abandoned sanitary pool to avoid funeral expenses.

The asserted crime took place on December 24, 1924, and the dead child's body was found in September, 1925. A long search resulted in the arrest of Mrs. Zamora at Brawley and her indictment in September. Officers are still conducting a search for her husband.

WRECK INJURES TRAINMEN

[BY A. P. NIGHT WIRE]

ALTOONA (Pa.) March 3.—The engineer and fireman of Pennsylvania Railroad passenger train No. 6373 were seriously injured today when the train was wrecked at Kladder Station, five miles from Hollidaysburg. Officials said it was operated chiefly for the accommodation of railroad employees.

COOLIDGE TALKS ON FARM ISSUES

President Hopes for Relief Legislation at Session

Widely Divergent Proposals Await Action by House

More Than Score of Measures Accumulate in Committee

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—President Coolidge told a delegation representing farmers of eleven North Central States today that he hoped legislation would be enacted at this session of Congress, which would provide effective agricultural relief.

For a half hour, he discussed the agricultural situation with his callers, who included members of the House and Senate and representatives of the agricultural conference held in Des Moines in December. While he refrained from discussing any particular legislative proposal, the President was described as expressing the belief that action could be had on a measure which would receive general indorsement of farmers.

Widely divergent proposals for farm relief legislation await consideration of the House Agriculture Committee, which will open hearings on the subject probably tomorrow.

SCORE OF BILLS PEND

More than a score of bills relating to agriculture have accumulated during the three months of the session. They include proposals that the government go into business with the farmers, buying their crops and selling them on the market, and various price-fixing plans, while others would have the government aid the producers to find markets and to obtain reasonable prices.

Predominating in the suggestions for legislation is the demand for assistance in disposing of surplus crops. These bills now are before the House committee:

By Representative Dickinson, Representative of Iowa. To create a Federal farm board under whose direction farmers' co-operative associations would buy surplus crops at the domestic price and sell them at the world price, being reimbursed for any losses by a fund obtained by collection of an equalization fee from the producers.

By Representative Aswell, Democrat, of Louisiana. To establish the interstate farm marketing association, which, through a system of regional organizations, would provide for storing, transporting, processing and marketing commodities.

By Representative Christopherson, Republican, South Dakota. To form the American stabilizing commission, to purchase grains and store or sell them within its discretion. The plan would be financed by a loan of $500,000,000 from the Federal Reserve Bank.

COMMISSION REQUESTED

By Representative Sinclair, Republican, of North Dakota: To direct the President to appoint a commission to inquire into a general system for the co-operative marketing of all products. Also a bill to finance out of the Treasury a $100,000,000 corporation to buy and sell crops.

By Representative Adkins, Republican, Illinois: To authorize the government to issue on exported agricultural products debentures to be accepted as payment of duties on articles imported into the United States. This is intended to place the farmer on a greater equality under the tariff laws.

By Representative Little, Democrat, Kansas: To authorize the Secretary of Agriculture to buy, sell and export wheat, under an appropriation of $100,000,000.

By Representative Strong, Republican, Kansas: To establish the Federal Market Fact-Finding Board to assist in domestic and foreign marketing.

By Representative Oldfield, Arkansas: To form the farmers' export corporation, capitalized by the government at $200,000,000, to find markets and provide credits for exporting surplus crops.

By Representative Tincher, Republican, Kansas: To prevent discrimination against farmers' co-operative organizations by boards of trade or similar organizations.

By Representative McLaughlin, Republican, Nebraska: To create the corporation of economic guidance of agriculture to be capitalized by the government at $200,000,000, which would be collected through a sales tax on crops. It would endeavor to achieve a balanced production of staples by purchasing and storing surplus crops and by other means.

By Representative Beck, Republican, Wisconsin: To incorporate the United States Agricultural Co-operative Marketing Association, which would provide a national co-operative marketing system.

Secretary Jardine of the Department of Agriculture specifically indorsed the Haugen co-operative marketing bill today in an address to agricultural extension workers from the northwestern States.

The bill provides for the creation of a division of co-operative marketing in the department.

ISLAND TRADE GOOD

Foreign Commerce of Philippines Gains Over 1924

[BY CABLE AND ASSOCIATED PRESS]

MANILA, March 3.—The foreign trade of the Philippine Islands in 1925 amounted to $268,610,000 compared with $243,355,000 in 1924, according to statistics of the Bureau of Customs. The balance of trade last year was in favor of the Philippines by approximately $29,000,000, exports totaling $148,877,000 and imports $119,732,000.

The United States, as has been the rule for many years, obtained practically two-thirds of the business, exports to that country being $109,000,000 and the imports from it $69,000,000.

FOX TO BUILD NEW THEATER IN SEATTLE

[BY A. P. NIGHT WIRE]

SEATTLE, March 3.—Plans for the erection of a $1,500,000 modern picture theater in this city by the Fox Film Company were announced here today by E. L. Brown of Los Angeles. The theater will seat 4000.

PERSHING GAINS NORMAL HEALTH

General's Condition Best in Many Years

Recovery Achieved Under Heroic Treatment

Doctors Oppose His Return to Arica Post

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3. — The condition of Gen. Pershing, after two weeks' treatment by medical and dental specialists in Walter Reed Hospital, tonight had returned to normal. He was in better general health than he has enjoyed for several years.

The general's rapid and complete recovery, however, has not been without its heroic features. For one thing he has lost all his teeth at the hands of dental surgeons. He also has tolerated in a spirit of complete submission a series of most exacting examinations by his physicians.

Results of the examinations and tests have convinced the hospital authorities that they have overcome the causes responsible for his return to this country from Arica, where he was subjected for more than six months to complaints caused by climatic conditions, abnormal blood pressure and toxic poisoning, in addition to the mental stress that went with his labors as neutral head of the Tacna-Arica Plebiscitary Commission.

The two-weeks' treatment, coupled with the removal of his teeth, has given relief from effects of toxic poisoning. It has been reflected as well in a reduction in blood pressure from 185 points to between 140 and 145, which is described as normal for a man of Gen. Pershing's years.

The general's physicians, however, are determined to exercise every precaution to keep him fit. He will remain in the hospital quarters for some time to permit a continued observation and, as far as possible, to get the added benefit of rest and quiet.

Once the general is discharged from the hospital it is certain that his medical advisers will oppose any effort he may make to return to Arica to complete the task President Coolidge assigned to him in connection with the Tacna-Arica arbitration. The general is known to be anxious to resume that task, but is opposed by the unanimous opinion of his physicians and intimate friends, who hold that a return to South America would be dangerous to his health and possibly result in permanent impairment.

FIVE-FOOT GLASS FOR TELESCOPE

Observatory to be Built Near Vancouver to Have Fine Equipment

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3. Hopes and ambitions of Edward Mahon, a one-time wealthy financial magnate of this city, are about to be realized, and a sum of money he set aside in 1912 to erect an observatory on Grouse Mountain opposite this city has so increased with compound interest, and assistance from the Dominion government, that the second largest observatory in the British Empire will be built on the local mountain this summer.

The glass is now being ground for the telescope by T. S. H. Shearman, noted research worker for the Dominion government, and the man who had the glass for the Frye Observatory in Seattle nearly completed here when the United States put on a prohibitive tariff. The glass is still here.

At a height of 4000 feet above the level of the sea the new observatory on Grouse Mountain, to be known as the Edward Mahon Observatory, will have a glass five feet in diameter, or one foot less than the observatory at Victoria, B. C., which is the largest in the British Empire.

This huge telescope will be located about the same height as the famous Lick lookout station in California, and 3300 feet higher than the Victoria observatory which is only 700 feet above sea level.

POISON POTION KILLS SON OF PARIS BANKER

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3. J. Hebman, Frenchman, purchased a quantity of poison at a drug store in Merritt, B. C., with which he said he wanted to poison coyotes. He then went to a beer parlor and called for a glass of beer, into which he poured the poison. He was dead in a few minutes. Hebman is the son of a wealthy Paris banker and came to New York to gain experience in banking, but, tiring of that business he came West a few years ago to learn ranching. Lately he had been herding sheep.

POWER DAM ON ISLAND HAUNTS OF STEVENSON

[BY CABLE AND ASSOCIATED PRESS]

APIA (Samoa) March 3. — Samoa's first hydroelectric project has been completed and electricity now is lighting homes and schools in Upolu. A power dam was built just above Robert L. Stevenson's favorite swimming pool and the water was carried by spiral piers across the road of Loving Hearts, where it drops eighty feet to the bed of a stream on which the power-house is situated. Prison labor was employed.

VICTORIA WILL HAVE AIR MAIL TO EAST

[BY CABLE AND ASSOCIATED PRESS]

VICTORIA (B. C.) March 3.—Victoria residents will be able to send letters or parcels to New York in approximately fifty hours when the new transcontinental air mail schedules go into effect in the United States April 5, next, the Victoria postoffice has announced. Co-operative arrangements have been made with United States authorities, it was said.

MANILA TO TRY RUBBER

Company Formed to Experiment With Trees in Philippines

[BY CABLE AND ASSOCIATED PRESS]

MANILA, March 3.—A company has been organized for growth of lumbang and rubber trees a few miles from Manila. The company has obtained 1300 acres and plans to plant 600 acres with lumbang trees and fifty acres with rubber trees, to ascertain whether climate and soil are suitable for rubber growing in this latitude.

Lumbang oil is obtained from nuts of the tree and is an ingredient of varnish. It also is used in the manufacture of paints, soap and candles.

M'LARNIN KNOCKS OUT SANGOR IN THIRD ROUND

STAR TWIRLER PUT ON SHELF

Veteran Twists Ankle While Batting Out Fungos

Cubs to Leave Tomorrow for Exhibitions Here

Beck Making Strong Big for Shortstop Position

[EXCLUSIVE DISPATCH]

AVALON (Catalina Island) March 3.—Grover Cleveland Alexander, premier right-hand hurler of the Chicago Cubs, twisted his ankle while hitting fungos to the outfielders in practice today and it is not yet known just how seriously the veteran chucker has been injured. Doctors examining "Alex" stated that the full effects of the injury would not be known until after twenty-four hours.

Alexander had planned on pitching four or five innings against the Hollywood Bees in Sunday's exhibition game at Los Angeles, but his injured ankle will most likely keep him on the shelf for some time.

BY BILL HENRY

LOCAL GIRLS IN FLORIDA FINALS

Mary Browne Will Battle Bunny Ryan for State Net Title Today

[BY A. P. NIGHT WIRE]

PALM BEACH (Fla.) March 3.—Misses Mary K. Browne and Elizabeth Ryan, of Santa Monica, Cal., will meet tomorrow in the finals of the Florida women's State tennis championship. Miss Browne battered her way through the semifinals here today, 6-0, 6-3, over Mrs. J. Taylor, New York, and Miss Ryan defeated Mrs. Edward Raymond, New York, 6-2, 6-2.

DEL MONTE WINS OVER SAN MATEO

Capture Junior Polo Championship by Taking 8-to-5 Match

[EXCLUSIVE DISPATCH]

DEL MONTE, March 3.—Del Monte today won the Pacific Coast junior polo championship, defeating San Mateo, 8 to 5, in a game that was featured by the whirlwind riding and accurate hitting of Harry East, diminutive captain of the Del Monte team.

The result of the game was a surprise, as the San Mateo combination of Dick Schwerin, Willie Tevis, Cliff Weatherwax and George Pope, Jr., had been reckoned a stronger team than Del Monte, but today East, Harry Hunt, Capt. R. C. Gibbs and Lieut. H. D. Galloway were at their best and from the first chukker on it was evident that the penin-

HELEN WILLS BEATS GERMAN

Frau Neppach Subdued, Taking But Three Games

Set Scores of 6-0, 6-3 One Under Lenglen Mark

Champions of Two Nations in Friendly Attitude

[BY CABLE AND ASSOCIATED PRESS]

MENTONE (France) March 3. Miss Helen Wills won another victory today when she defeated Frau Neppach, the German champion, in the third round of the women's singles of the Mentone tennis tournament, 6-0, 6-3. Frau Neppach was the only re maining playe of prominenc that Miss Wi had not y met and d feated.

HELEN WILLS

The match attracted kee interest, but the German woman was unable to give th American champion a sem blance of a battle except the second set.

Paired with J. H. Van Al of Brooklyn, Miss Wills als reached the quarter finals the mixed doubles for the c of the nations.

The first round was easy fo American pair, who defeated and Mary Yeoward, 6-1, 6-1 E. H. Harvey and D. A. H gave them a harder fight, the being 6-4, 6-2.

FRAU SATISFIED

Frau Neppach was overjoy taking three games from Wills. "That is one more th scored against Mlle. Lenglen," said.

When she was asked to ch between the abilities of the Fre and American champions, she plied "They are both wonder players."

The match between Miss W and Frau Neppach was a fier driving battle, both possessing ex traordinary powerful strokes, bot forehand and backhand, but Helen's superior steadiness won, the German doing a lot of netting in the second set.

FRIENDLY RIVALS

Miss Wills shook hands more warmly over the net with Frau Neppach after her victory than with any other player whom she has met. The two players walked off the courts together.

"I should have done better in the first set," said the German champion to the American girl, "but I suppose I was under too much emotion in meeting a player of your great reputation for the first time."

Miss Wills smiled and said: "Had you come to the net in the first set you would have scored many more points."

Mehlhorn Wins From Sarazen in Long Match

[BY A. P. NIGHT WIRE]

AVON PARK (Pa.) March 3.—Bill Mehlhorn, Chicago, won the South Florida open golf championship from Gene Sarazen, metropolitan champion, by one stroke in a match that went 21 holes to a decision on the Kenilworth course today.

Tied with 281 each at the conclusion of 72 holes yesterday, an 18-hole match today was to decide the winner.

STRIBLING SIGNS TO BOX JIMMY SLATTERY

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Jimmy Slattery of Buffalo and Young Stribling, Georgia light-heavyweight, were matched today for a ten-round bout featuring the boxing show at Madison Square Garden on March 26.

DAVID TO CAPTAIN 1927 CARDINAL FIVE

[BY A. P. NIGHT WIRE]

STANFORD UNIVERSITY, March 3.—Nelson David, a forward on the Stanford varsity basketball team, was elected captain of the 1927 quintet.

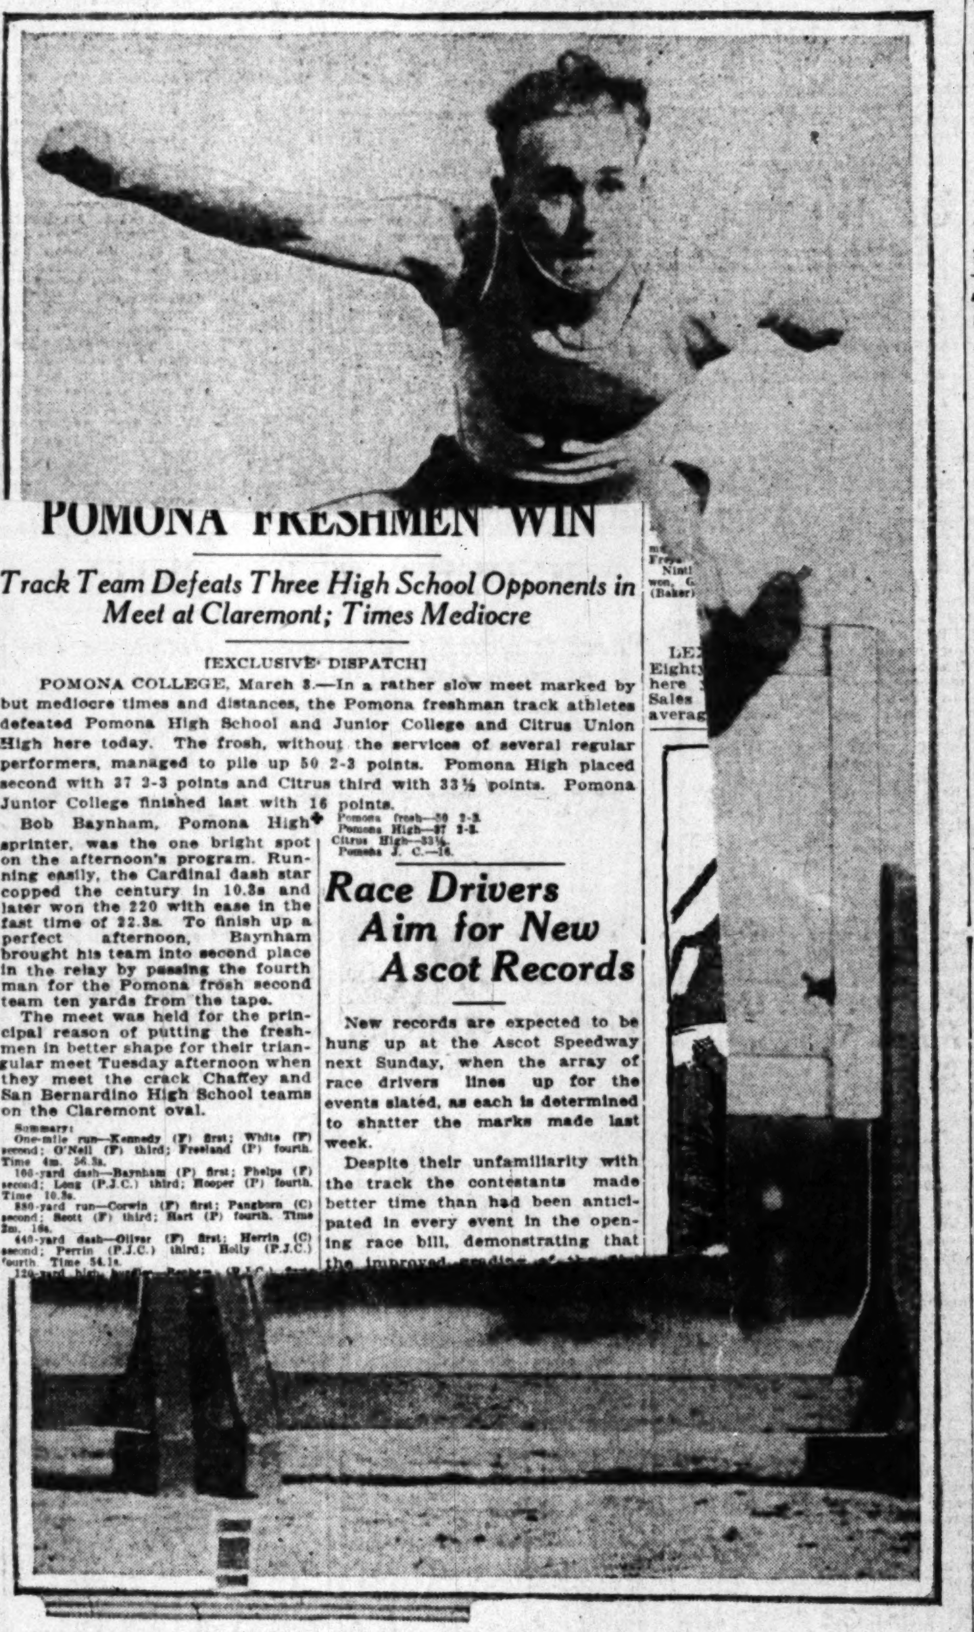
MAX CAREY LAID UP

[BY A. P. NIGHT WIRE]

ST. LOUIS, March 3.—Max Carey, captain of the world's champion Pittsburgh Pirates, confined in a hospital here with a heavy cold, probably will not join his mates at their California training camp for a week, his physician said today. His condition was reported satisfactory.

AN ENGINEER WITH SPEED---

But not of the locomotive variety. It's Dick Pomeroy, Caltech hurdler and holder of the junior national title in the 440-yard timber-topping event. He is one of Coach "Fox" Stanton's stars and figures to win the high hurdles against Occidental Saturday and place well up to the front in the lows.



POMONA FRESHMEN WIN

Track Team Defeats Three High School Opponents in Meet at Claremont; Times Mediocre

[EXCLUSIVE DISPATCH]

POMONA COLLEGE, March 3.—In a rather slow meet marked by but mediocre times and distances, the Pomona freshman track athletes defeated Pomona High School and Junior College and Citrus Union High here today. The frosh, without the services of several regular performers, managed to pile up 50 2-3 points. Pomona High placed second with 37 2-3 points and Citrus third with 33⅓ points. Pomona Junior College finished last with 16 points.

Pomona frosh—50 2-3.
Pomona High—37 2-3.
Citrus High—33⅓.
Pomona J. C.—16.

Bob Baynham, Pomona High sprinter, was the one bright spot on the afternoon's program. Running easily, the Cardinal dash star copped the century in 10.3s and later won the 220 with ease in the fast time of 22.3s. To finish up a perfect afternoon, Baynham brought his team into second place in the relay by passing the fourth man for the Pomona frosh second team ten yards from the tape.

The meet was held for the principal reason of putting the freshmen in better shape for their triangular meet Tuesday afternoon when they meet the crack Chaffey and San Bernardino High School teams on the Claremont oval.

Summary:

One-mile run—Kennedy (F) first; White (F) second; O'Neil (F) third; Freeland (P) fourth. Time 4m. 56.3s.

100-yard dash—Baynham (P) first; Phelps (F) second; Long (P.J.C.) third; Hooper (P) fourth. Time 10.3s.

880-yard run—Corwin (F) first; Pangborn (C) second; Scott (F) third; Hart (P) fourth. Time 2m. 16s.

440-yard dash—Oliver (F) first; Herrin (C) second; Perrin (P.J.C.) third; Holly (P.J.C.) fourth. Time 54.1s.

Race Drivers Aim for New Ascot Records

New records are expected to be hung up at the Ascot Speedway next Sunday, when the array of race drivers lines up for the events slated, as each is determined to shatter the marks made last week.

Despite their unfamiliarity with the track the contestants made better time than had been anticipated in every event in the opening race bill, demonstrating that

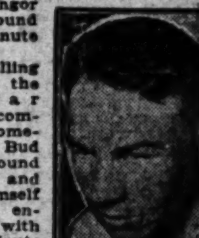
BELFAST SPIDER'S CLOUT TO CHIN FINISHES RIVAL

Milwaukee Scrapper No Match for Northern Boy in Main Event at Olympic Auditorium

BY PAUL LOWRY

Jimmy McLarnin, thin-legged sensation of California boxing rings, knocked out Joey Sangor of Milwaukee in the third round of a short but thrilling scrap at the Olympic Auditorium last night.

A short right-hand punch to the chin, followed by an even shorter left, brought the unexpected curtain for Sangor with the round not a minute old.



Jimmy McLarnin

In spilling Sangor the popular Jimmy accomplished something that Bud Taylor found impossible and earned himself a return engagement with the Terre Haute Terror.

However, McLarnin weighed 126 1-2 pounds to Sangor's 125 3-4 last night, and it is doubtful if Eddie Long will permit Taylor to box McLarnin at anything more than 124 pounds. Taylor is a simon-pure bantamweight, able to make 118 pounds whenever he wants to, and probably will not be willing to give away as much weight as he did last time to McLarnin, who is more dangerous with every start.

FIRST FOR JOEY

The knockout last night is the first ever chalked up against Sangor with the exception of a technical k. o. decision which he dropped on account of a twisted ankle.

The brilliant victory of the Oakland lad was the biggest sensation registered in local circles in months. Ranked as a favorite before the fight, few expected that McLarnin would do more than drag down a ten-round decision.

But spidery Jimmy was in rare form last night. He boxed, he weaved, he feinted, he ducked, he hooked, he jabbed, and he punched with all the assurance of a champion.

Sangor failed to hit him except when Jimmy was going away. He started many a straight left, but Jimmy bobbed under the blows

(Continued on Page 2, Column 5)

TAYLOR AND ROSENBERG TO BATTLE

World's Title Ring Mill at Chicago White Sox Park is Virtually Arranged

Eddie Long arrived yesterday from Chicago to take charge of Bud Taylor's training for the ten-round fight at Vernon next Tuesday night.

The always cheerful Edward brings with him the news that he has practically matched Taylor to box Charles Phil Rosenberg for the bantamweight championship of the world at the White Sox ball park for the opening of that city's return to legalized boxing.

Bud Taylor

Rosenberg has been offered $35,000 by Promoter Jim Mullins, the Chicago promoter. Definite closing of the articles is expected momentarily by Long.

With these good tidings Taylor set to work with more pep and ginger than he has felt for months to get in shape to trim Mr. Brown, Europe's bantam champaion, in the meantime.

The Rosenberg-Taylor match is one that Promoter Jack Doyle has been very sweet on from time to time, but all efforts to corral the signature of Rosenberg failed. Doyle even offered Rosenberg $25,000 before the new ruling of the boxing commission, which per-

(Continued on Page 2, Column 6)

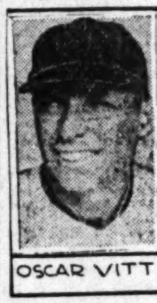
TRIO OF BEES REPORT

Hulvey, Peters, Lindimore Join Squad; Angel Regs Blank Yannigans, 6 to 0, in Practice Tilt

BY ROBERT RAY

Three Hollywood Bee musketeers, Hansel "Hank" Hulvey, John Peters and Howard Lindimore, all regulars, joined Oscar Vitt's beehive of baseball activity out at Gilmore Field yesterday, so now there are only five players to arrive to complete the squad.

Hulvey, who had the unique record of being the leading pitcher of the league, with ten wins and two losses, of finishing with a 1.000 fielding average, and being considered the best pinch hitter in the loop, pulled in from Mt. Vernon, W. Va., and appears to be in fine shape. Peters, the husky receiver who will do most of the receiving for the Bees, shook the dust of Kansas City off his rather ample feet to make the trip to Hollywood, while Lindimore has been in Los Angeles all winter. "Lindy" played with the White King Soaps during the winter and is ready to step into the game any time.



OSCAR VITT

Oscar Vitt had all of his veteran hurlers tossing 'em up to the batters in yesterday's practice. Dick McCabe, Ralph Stroud, Phil Mulcahy, Frank Shellenback, and all of the youngsters were used in efforts to help the players locate their

(Continued on Page 2, Column 6)

Levine Whips Milligan in New York Go

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Georgie Levine of Brooklyn gained a judges' decision over the Scotch welterweight, Tommy Milligan, in a twelve-round bout here tonight.

Milligan had been named by the New York State Athletic Commission as leading contender for the welterweight title, now held by Mickey Walker, and plans had gone far toward arranging a championship contest. Promoters today wired Manager Jack Kearns for terms on Walker's appearance.

Newspaper men credited Levine with every round except, the first, ninth and twelfth, the last being called even.

LEFTY COOPER MARRIED

Lefty Cooper, well-known Coast welterweight boxer, was married last February, it was revealed here yesterday. Miss Julia Fields of San Francisco was the bride.

DARO BIDS FOR MAT MONARCHS

Londos and Kotsonaros in View as Opponents on Next Olympic Show

With a return rough-and-tumble match between George Kotsonaros and Jim Londos practically assured for March 15 at the Olympic Auditorium, Promoter Lou Daro yesterday opened negotiations to bring both World's Heavyweight Champion Joe Stecher and Strangler Lewis, former titleholder, here for succeeding matches.

JOE STECHER

It is planned by Daro to send the winner of the Kotsonaros Londos contest against Stecher March 29. Lewis will appear early in April against Londos if the latter is again unsuccessful in an attempt to dethrone the champion, the winner being assured of a bout with the scissors expert.

There has been quite a demand for a return engagement between Londos and Kotsonaros since their recent bout at the Olympic Auditorium, which terminated with Londos being returned the winner in an unsatisfactory manner. Kotsonaros was the aggressor throughout that match, and appeared to be

Von Elm Four Under Par to Star in Rancho 9-to-6 Team Victory at Midwick Club

FOUR BIRDIES AND EAGLE BRING CHAMP HOME IN 68

Kellar and Clark Defeat Armstrong and Bob Hunter Two Ways in League Title Clash

BY BILL WISE

J. C. Hatler, Rancho captain, sent his team charges through to a 9-to-6 win over Dr. Paul Hunter's Midwick defenders yesterday and gained a commanding lead in the two-game home-and-home series for the first division interclub team league pennant.

George Von Elm

George Von Elm, internationally famous ranking amateur, out in 36 yesterday, recovered to come home in 32, four under, to head Dr. Paul Hunter and A. D. S. Johnson, three ways, after W. W. Beckwith, his partner, had won the first hole in the feature team match of the day.

Von Elm carried Rancho to victory in the West section competition and has started golfing for premier teams honors. W. W. Beckwith, Rancho veteran, managed to be well in on many holes, but after a mediocre start, the holder of all major California titles started a drive that won through for three points.

Von Elm slipped one over on the first, and again on the third, but birdies on five and eight found him even at the turn. An eagle three on twelve with birdies on the fifteenth and sixteenth carried him home in 32, for a 68, within one stroke of the course record, held by Chick Fraser, Midwick professional.

Playing across the lake to the 467-yard sixteenth, Von Elm's drive carried to the edge of the water. Standing from an impossible stance, George lifted the ball nearly 200 yards across the water—with a mashie shot that would have caused Hagen and Bobbie Jones to turn green with envy. Incidentally, Von Elm was in to win the hole with a birdie 4.

Leon Kellar and Frank Clarke upset a little dope of their own and the promising Rancho youth, home in 77, aided materially in the two-way win over Armstrong and Bob Hunter, two of Midwick's best match players.

By scoring a decisive win at Midwick yesterday, Rancho has gained a lead that the Pasadena stars will find difficult to overcome in the final post-season clash at Rancho next Wednesday.

Yesterday's results with Midwick par and Von Elm's card follow:

RANCHO, 9; MIDWICK, 6

George Von Elm, W. W. Beckwith (R.,) 3; Dr. Paul Hunter, A. D. S. Johnson (M.,) 0.

Leon Kellar, Frank Clark (R.,) 2; E. S. Armstrong, Bob Hunter (M.,) 1.

Bob White, Jess Puryear (M.,) 2; G. Parker Toms, A. W. Brand (M.,) 1.

B. Eldridge, T. E. Beddon (R.,) 1; J. L. Mothershed, W. P. Herberts (M.,) 2.

BABE RUTH APPEARS GARBED IN EYESHADE

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Shades of Helen Wills, ringside fight enthusiasts and newspaper copy desks.

Babe Ruth has appeared on the New York Yankees' training field at St. Petersburg with a green sun-protector adorning his forehead.

What Brooklyn did at Clearwater and the Giants at Sarasota yesterday mattered little in face of the Babe's impersonation of Miss Wills. Both teams went through routine work-outs. The Babe also is wearing a rubber shirt to reduce poundage.

RUSH WORK ON HUGE CHICAGO RACE TRACK

[EXCLUSIVE DISPATCH]

CHICAGO, March 3.—An army of workmen have taken possession of Lincoln Fields, Matt Winn's new racing plant at Crete, Ill., and work on the $1,500,000 course is being rushed. According to the promoters the job will be finished by July 1. The cold weather of the last three days has retarded the progress of the builders, but extra crews will be put on the job if necessary to get it in shape in time.

JUDGE LANDIS LOOKS FOR BIGGEST YEAR

[BY A. P. NIGHT WIRE]

BOSTON, March 3.—Commissioner Landis expects this season to be one of the greatest in baseball's history. He gave his views in looking over the Red Sox at their camp in New Orleans yesterday.

Manager Bancroft of the Braves, who are at St. Petersburg, Fla., likes Henry Wertz and Foster Edwards, recruit pitchers from Worcester, Mass.

SENIORS PLAY AT MIDWICK

Scores of Veterans Start Play in West Coast Title Tourney Today

More than three score local and visiting golfers, all more than 50 years of age, will start play today in the annual thirty-six-hole medal Pacific Coast senior championship at the Midwick Country Club.

Contestants will compete for three prizes, in five classes, divided as follows:

Class A—50 to 55 years.
Class B—56 to 60 years.
Class C—61 to 65 years.
Class D—66 to 70 years.
Class E—74 years and over.

There will be a special prize for the best eighteen holes, either today or tomorrow and players in the E division will golf for the J. D. Cox trophy that will be presented to the winner in the oldest class, each year.

The winner of the tourney will be declared Pacific Coast senior champion and will be presented with a sterling silver putter, an exact replica of the one that has carried Walter Hagen to the greatest possible international golfing fame.

The Midwick Club will be host at a congratulatory dinner to all contestants, tomorrow evening, at which time trophies will be presented.

Three Trojan Athletes Put on Honor Roll

Three athletes of the University of Southern California were made honorary members of the National Collegiate Association, it was announced at the university yesterday. The honor is bestowed upon leading track athletes of the country every year. Those who were placed on the roll were: Kenneth Grumbles, low hurdler; Leighton Dye, high hurdler, and Bud Houser, weight man.

AMERICAN GRID GAME FAVORED IN CANADA

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3.—American football will be given a further trial of one year by the University of British Columbia, it has been decided by a vote of the student body. This was done to discover if the permanent adoption of the game is to the best interests of the college.

Last fall, despite repeated defeats, the game here was a financial success. If the game is accepted permanently next year the Junior Northwest Conference has invited the local university to join the union.

GARCIA WHIPS LEE IN BAY CITY RING

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, March 3.—Leonardo Garcia, Manila featherweight, won a decision over Georgie Lee of Sacramento, after ten rounds at National Hall tonight. A flashing tenth-round rally, when he rained gloves from all angles of the ring on the Chinese boxer, won the verdict for the Manila boy.

George (Gunboat) Smith, Chico heavyweight, knocked out Mitch Sekul of Sacramento in the second round of a scheduled four-round bout.

DURST ONLY BROWN PLAYER NOT IN CAMP

[BY A. P. NIGHT WIRE]

ST. LOUIS (Mo.) March 3.—With the arrival of the second squad of players at the Browns' training camp at Tarpon Springs, Fla., yesterday, the outfit is now complete with the exception of Cedric Durst, outfielder. He will arrive in a few days.

SET WRESTLING DATES

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—The Amateur Athletic Union national wrestling championships today were announced for April 15, 16 and 17 at the Oregon State Agricultural College, Corvallis, Or.

BRANCH SWIMMERS READY

Grizzly Tank Squad Hooks Up With Pasadena A. C. in Opening Swim; Announce Conference Meets

Coach Fred Oster's local University of California swimming team is all pepped up for the first meet of the year to be staged in the Grizzly tank with the Pasadena Athletic Club splashers on the 12th inst. Oster has a flock of classy tank material and is looking forward to winning the conference swim title as well as handling the Bears and Cards some stiff competition.

The Grizzlies had no trouble copping the Southern California title last year. Caltech, which finished second to the locals were not in the Grizzlies' class. Some fifteen men are out for the varsity squad, but Oster hopes to have at least twenty-five by the time the season opens.

May 8 has been set for the Southern California Conference championship meet. The plunge at Brookside Park will be the scene of the aquatic festivities. The majority of the meets in between that date will be staged on the Southern Branch campus. A meet is on tap with either Stanford or California on the 26th inst., but definite plans have not yet been made.

The Branch schedule:

March 12—Pasadena A. C. at Branch.
March 20—California at Branch.
March 26—Branch at Stanford.
March 27—Branch at California.
April 3—Redlands at Redlands.
April 5—Pasadena High at Pasadena.
April 10—Occidental at Branch.
April 17—Pomona at Pomona.
April 23—Hollywood High at Branch.
April 30—Caltech at Branch.
May 8—Conference meet.

L.A.A.C. NOT TO MEET TROJANS

Despite reports to the contrary the Los Angeles Athletic Club track and field team will not engage in a three-cornered meet with U.S.C. and the Hollywood Athletic Club Saturday. The Mercury outfit has a meet with the Trojans and the Olympic Club later in the season and therefore does not want to engage the Methodists at this time. It is presumed that the U.S.C.-Hollywood meet is still on.

JOEY SANGOR KNOCKED OUT

(Continued from First Page)

and came up to stab Joey in the face.

It was pretty one-sided while it lasted because Sangor couldn't find much of McLarnin to hit. Even in the first round, when there wasn't a great deal of damage one way or the other McLarnin started the points coming his way by opening a cut over Sangor's left eye with a spicy port-side jab.

ALL JIMMY

In the second round McLarnin stepped up the pace and outscored his rival by a mile. He landed any number of straight lefts and displayed a damaging one-two strain—right to the body and left to the head.

It seemed as if the third round had hardly opened when McLarnin unleashed an attack to Sangor's head. At close quarters a right that couldn't have traveled over a foot connected with Sangor's button. He rocked on his heels and as he rocked McLarnin shot over a six-inch left and Sangor toppled to the floor. His face in the resin Sangor tried vainly to rise at the count of six but only succeeded in rolling over on his stomach and was counted out.

McLarnin solicitously helped carry the fallen lad to his cor trotted back to his corner and ceived a tremendous ovation a left the ring with his man "Pop" Foster

Joe Woods won a six-roun cision from Racehorse Rober the semi-wind-up. Roberts rated the floor for nine secon the fifth round, but Woods, u to cope with the wariness of ancient battler, failed to la finishing punch.

Johnny Gerarden defe Young Papke by decisio the six-round special ev Papke, as is his usual cus swung gloves all over place, but without much ces, Gerarden popped hon number of clean blows to the verdict.

The bout was featured ith the third round by Referee. She ny Schiff, who stepped betw fighters as they were maulir the bell and took a terrific the middle of back, catch of Papke's wild swings. teemed Juanito, however, w the worse for his misfortu

Chris Gardenez won from Monroe in the second Champ, according to the commission, bears the cogn Louis Esquizil. Johnny knocked out Joe La Rue rounds in the opener. Jose on the canvas for nine co the first round. A right to ended the bout.

Rivers Winner in Feature Go at Wilmington

Joe Rivers, sometimes referred to as Kid Piera, defeated Pinkie Ardie in the main event at Wilmington Bowl last night. Pinkie substituted for Kid Ponce, who was overweight, and was consequently barred by the officials of the State Athletic Commission.

Pinkie, despite not being in the best of shape, performed nobly, and gave Rivers a good bout all the way.

Joe Brown defeated Kid Mex in the six-round semi-wind-up. Frankie Holt scored a technical knockout over Jimmy Valentine in the sixth round of their scheduled six-round special event. Ad Cadena defeated Joe Schweiltzer in the second affair and Charles Lamb won from Art Williams in the opener.

ZORILLA AND ESAU TO TANGLE UP TONIGHT

Santiago Zorilla, featherweight champion of Panama, who has been defeated but once since he hit California and that a close decision to Salas at Culver City, will take on Kid Esau in the ten-round main event at the Pasadena Armory tonight.

Don Kennedy, now amateur flyweight champion of Southern California, is to make his professional debut, against Louis Ochoa, a fast and clever boy who has been doing most of his fighting at Wilmington. Other bouts on tonight's card are: Six rounds, Tuffy Jiggs vs. Jimmy Jasper, 114 pounds; four rounds, Tony Cocon vs. Alex Balsz, 138 pounds; four rounds, Jack O'Brien vs. Jim Wop Flynn, 138 pounds, Joe Rivers, old-time lightweight, will referee.

CHINO ELIMINATES WHITTIER QUINTET

Chino eliminated Whittier High, champions of the Coast Prep League, in the play-off for the basketball championship, winning 22 to 12. The score at the end of the half was 10 all, but Chino managed to shoot four field goals and several foul throws in the second period, while the Poets were unable to score a single basket. Capt. Tomberlin and C. Black featured for the winners, each getting eight points. The line-up:

Whittier (12)		Chino (22)
Mifflin (2)	F.	Houser (5)
Crooks (6)	F.	C. Black (8)
Robinson (3)	C.	Tomberlin (8)

ACES DON'T ALWAYS WIN

But it looks very much as though Johnny Lamar, below, will have a very tough task in keeping the Hudkins ace from taking the decision when the two trade haymakers at the Hollywood arena tomorrow night. Still confidence will carry a long way and Lamar must have it or he would not be going into the ring with the Nebraska sensation.

whose ... tive associations would buy surplus crops at the domestic price and sell them at the world price, being reimbursed for any losses by a fund obtained by collection of an equalization fee from the producers.

By Representative Aswell, Democrat, of Louisiana. To establish the interstate farm marketing association, which, through a system of regional organizations, would provide for storing, transporting, processing and marketing commodities.

By Representative Christopherson, Republican, South Dakota. To form the American stabilizing commission, to purchase grains and store or sell them within its discretion. The plan would be financed by a loan of $500,000,000 from the Federal Reserve Bank.

COMMISSION REQUESTED

By Representative Sinclair, Republican, of North Dakota: To direct the President to appoint a commission to inquire into a general system for the co-operative marketing of all products. Also a bill to finance out of the Treasury a $100,000,000 corporation to buy and sell crops.

By Representative Adkins, Republican, Illinois: To authorize the government to issue on exported agricultural products debentures to be accepted as payment of duties on articles imported into the United States. This is intended to place the farmer on a greater equality under the tariff laws.

By Representative Little, Democrat, Kansas: To authorize the Secretary of Agriculture to buy, sell and export wheat, under an appropriation of $100,000,000.

any effort he may make to return to Arica to complete the task President Coolidge assigned to him in connection with the Tacna-Arica arbitration. The general is known to be anxious to resume that task, but is opposed by the unanimous opinion of his physicians and intimate friends, who hold that a return to South America would be dangerous to his health and possibly result in permanent impairment.

FIVE-FOOT GLASS FOR TELESCOPE

Observatory to be Built Near Vancouver to Have Fine Equipment

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3. Hopes and ambitions of Edward Mahon, a one-time wealthy financial magnate of this city, are about to be realized, and a sum of money he set aside in 1912 to erect an observatory on Grouse Mountain opposite this city has so increased with compound interest, and assistance from the Dominion government, that the second largest observatory in the British Empire will be built on the local mountain this summer.

The glass is now being ground for the telescope by T. S. H. Shearman, noted research worker for the Dominion government and the

More Than 50 Tennis Players Entered in Annual Tourney; Many Clubs Take Part

Between fifty and sixty tennis stars of Southern California are expected to take part in the opening net matches of the County Tennis League which is slated to swing under way Sunday afternoon on the various tennis courts in the city.

The Hollywood Athletic Club, with the services of Harold Godshall, Norval Craig and Johnny Doeg, looms as the possible winners of the league, but it will be given strong opposition by the Arroyo Seco Tennis Club and the Los Angeles Tennis Club. The matches will start promptly at 9 o'clock in the morning and will be played in the form of round-robin matches. This league idea has been in demand for some time, but up until the present date the steps for its success have never been taken. The league this year is being sponsored by the best local net stars in the Southland, among whom are Harvey Snodgrass, former national doubles clay court champion, Dick Charnock and Eugene Warren.

Each of the following clubs **has entered teams for the play, each team to be composed of five singles players and two doubles teams. Arroyo Seco Club, Charles Weesner; Pasadena Tennis Club, T. W. Perine; Palomar Tennis Club, Harvey Snodgrass; Los Angeles Tennis Club, Melles Reinke; San Pedro, Mr. Teal; Monrovia Tennis Club, Dr. Waterman, and the Dos Robles Tennis Club, Bob Ackerman.**

The schedule of play for Sunday follows:

March 7—San Pedro at Dos Robles, Monrovia at Pasadena, Whittier at L.A.T.C., Palomar vs. Arroyo Seco at Hotel Huntington.

March 14—Pasadena at Dos Robles, Monrovia at San Pedro, L.A.T.C. vs. Arroyo Seco at Hotel Huntington, Whittier at Palomar.

March 21—San Pedro at Pasadena, Dos Robles at Monrovia, Arroyo Seco at Whittier, Palomar at L.A.T.C.

March 28—Pasadena at L.A.T.C., Monrovia at Whittier, Dos Robles vs. Arroyo Seco at Hotel Huntington, San Pedro at Palomar.

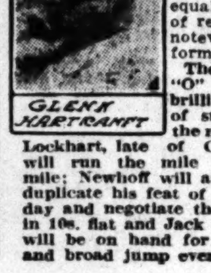
April 3—Whittier at Pasadena.

BEARS MEET OLYMPICS

California Track Team to Tackle Club Outfit on Berkeley Oval Saturday Afternoon

[EXCLUSIVE DISPATCH]

UNIVERSITY OF CALIFORNIA, March 3.—A feature of the Olympic Club-California track-and-field meet set for Saturday afternoon that is attracting almost as much interest as the clash itself, is the meeting of Glenn "Tiny" Hartranft, record-breaking shotputter, and Elmer Gerkin, the leading heaver in the Blue and Gold squad.



GLENN HARTRANFT

In the last big meet Hartranft, then with the Cards at Stanford and now a member of the Olympics, was the overwhelming favorite to capture the event, but Gerkin beat him out. Tiny is expected to stage a come-back Saturday and Gerkin is equally desirous of repeating his noteworthy performance.

The Winged "O" boasts a brilliant group of stars for the meet. Earl Lockhart, late of California, will run the mile and two mile; Newhoff will attempt to duplicate his feat of last Sunday and negotiate the century in 10s. flat and Jack Merchant will be on hand for the shot and broad jump events.

Lockhart is favored to win the two-mile event, unless Coach Walter Christie elects to run Les Schwobeda in this grind, for the former, as a member of the alumni all-stars, defeated the field. However, in the one-mile Schwobeda is the favorite and bids fair to be one of the consistent winners for the Bears.

In the sprints a real battle looms between Capt. Phil Barber of the Bears and Newhoff, while George Blum is also rated among the best on the U.C. squad. Against the alumni, Barber won both dashes, making the 100-yard dash in 10.1s. However, two watches clocked him in 10s. flat.

JOINS ACE IN HOLE

Membership in the B. H. Dyas hole-in-one golf club now has reached ninety-two, the last member to be put on the records being Dr. R. A. Warren. He scored an "ace" at the third hole, 212 yards at the Westward Ho club.

HUSKIES, CARDS TO TOUR JAPAN

BY A. P. FOREIGN CORRESPONDENCE

TOKIO, Feb. 19.—Baseball teams of Stanford University and University of Washington will tour Japan this year and a schedule of games with several colleges has been arranged. In announcing this, Director Iabe of the Waseda University athletic department, said the Stanford nine was expected to arrive in June and Washington in September.

Simpson Folks Get Ready for Hoge Workman

[BY A. P. NIGHT WIRE]

INDIANOLA (Iowa) March 3.—Harry (Hodge) Workman, co-star with his brother on some famous Ohio State football teams, and now coach at Redlands University, Redlands, Cal., will become coach of Simpson College here in September, succeeding his brother Noel, who is to be coach at Iowa State College, Ames, the board of trustees announced tonight.

In 1920 the "Workman to Workman" pass used by Ohio State became prominent in the Big Ten games. In addition to his fame as a football player, "Hodge" won letters in track, basketball and baseball. Noel played an end position for Ohio State and Hodge held the quarterback job. Both were named frequently on all-American teams in 1920 and the three succeeding years.

LARS SHUT OUT IGANS, 6-0

Angel regulars, behind the hurling of Doc Crandall and Portman, had an easy time ng out a 6-to-0 victory over Yannigans in yesterday's pracgame at Wrigley Field. As old Statz, the well-known golfwould say it, that makes the ulars one up on the Yannigans three holes.

Crandall appeared in great shape during his five-inning tenure on the mound, serving up a lot of midsummer stuff for the Yannigans to shoot at and miss. Portman also looked good for the regs. Both Crandall and Portman were given high-class support by their team-mates, who pulled off a couple of double plays. Elmer Jacobs and Clem Leverengne hurled for the Yannigans. Jacobs yielded one unearned run, while Leverengne had one wild inning during which the regulars walked and swatted their way to five markers.

Ray Jacobs, fresh from Salt Lake City, made his initial appearance of the year in a monkey suit and performed nobly. Ray held down first base in approved style and socked a rollicking home run over the left-field wall for his best batting achievement.

Ed Hemingway, who is going to hold down third base for the Seraphs this year has not yet made his appearance at Wrigley Field, but he is in the city some place and will probably be out sooner or later. Just why Hemingway hasn't shown up for work yet is a mystery to the Angel officials.

• • •

Irish Meusel and his brother, Bob Meusel, and Hollis (Sloppy) Thurston, are scheduled to depart for big league camps today. Irish reports to the Giants at Sarasota, Fla., while Bob joins the Yankee camp at St. Petersburg in the same State. Thurston, Chisox pitcher, heads for Shreveport, La., where Eddie Collins and his Pale Hose are doing their stuff.

BUD TAYLOR TO BOX ROSENBERG

(Continued from First Page)

mits payment of boxers only on a percentage basis.

While Chicago is presumed to be all set for legalized boxing, the citizens must first vote on the subject, and in case there is any slip-up Doyle might again enter the field for the match as an outdoor attraction later on.

Brown took his first work-out at Dempsey's place of business yesterday afternoon under the dictatorship of Jerry the Greek and looked to be in very good condition. He is not the fancy-boxing type of English fighters, but is more on the rip-and-tear minus the clinching tactics of Ted Moore, his countryman.

HAUSER BACK AT FIRST

[BY A. P. NIGHT WIRE]

PHILADELPHIA, March 3.—Joe Hauser, regular first baseman, whose knee injury prevented him from playing all last season, is now on the Athletics' first team at Fort Myers, Fla.

From Bradentown comes word that the Phillies are considered a week ahead of last year's training schedule.

DUESENBERGS TO COME FOR RACE

Famous Brothers Will be in Pit at Culver City

To Handle Drivers in Great Classic Here Soon

Milton, De Paolo to Get Aid from Rich Bosses

So intent is the Duesenberg automobile factory of Indianapolis, Ind., to register a victory in a championship race at the Culver City Speedway that the famous brothers have planned to be in the pits with the time rolls 'round for the 250-mile championship race Sunday, the 21st inst.

So far the Miller cars have ruled the roost over the Culver boards. The best Duesenberg cars could do was win a sprint race, which did not count in the championship standing. But victories went to the Millers, with Tommy Milton, Frank Elliot and Benny Hill at the wheels.

Peter De Paolo

Fred Duesenberg attended the last race at Culver City and saw the Indianapolis colors trailing in the dust. He was in the stand, and it was the first time, by the way, that he had witnessed a race from the stand. This time he will be in the pits and with his brother Augie, will attend to the cares of the Tommy Milton-De Paolo combination which seeks victory for the Duesenberg menage.

MILLER CONFIDENT

Harry Miller is just as sure that his fame over the Culver boards will be unsullied this time as it has been in the past, but the Duesies know of the victories registered by their entries on other tracks, and are out to add the local track to the other scalps on their belts.

The presence of Fred and Augie in the pits attending to the mechanical wants of De Paolo and Milton will spur to further efforts the mechanical brain of Harry Miller, and it can be safely assumed that his mounts will be in the best shape possible when the starter's flag waves over the boards.

Already there is being performed a deal of grooming behind the doors of the Long Beach-avenue plant. The arrival of the cars from Miami, Fla., and their subsequent shipment to the factory for overhauling is the first step in preparation for the big test.

COOPER BACK

Earl Cooper is already at work on his mount. Earl has had every reason in the world to quit racing at Culver City. He has had his hands on victory many a time over the suburban boards, but something has happened that wrested victory from him just when he was within an ace of winning. But the veteran is sure he can take the measure of the track, and is putting an extra number of hours puttering over his car each day.

If it comes down to a matter of mechanical fitness, Earl has the race. He had his car in such shape last November as to shatter the course record—and the world record—while qualifying. But his car gave out just when about fifteen laps from home and again Earl was cheated. Still he is determined.

The newer school will have a deal to say this time. These youngsters are gradually creeping up to the front and will not be denied. At Miami Bob McDonogh, the protege of Tommy Milton, smashed all existing speed records when he rambled around the track at the rate of 143 miles per hour.

Ralph Hepburn, a pupil of Earl Cooper, looked like a million dollars tying with Leon Duray for qualifying honors last time out, and was in the race for a long time until breaking an oil line, which forced him out of the reckoning.

EVANS TO SPEED

Dave Evans, the Kentuckian, who got into the Charlotte race last year, will be in the fold again, and is expected to do much better than he did last year, when he stayed in the race but rode it very conservatively.

HARD DAY FOR GOLF FAVORITES

Titular Florida Women's Tourney Sees Close Call for Leaders

[BY A. P. NIGHT WIRE]

ST. AUGUSTINE (Fla.) March 3.—Two outstanding favorites were close to defeat today in the first-round matches of the Florida East Coast women's golf championship here. They were Dorothy Klotz of Chicago, medalist, and Mrs. Dorothy Campbell Hurd of Philadelphia, former British champion and thrice holder of the American crown.

Mrs. Hurd had as her opponent Miss Ruth Perry of Philadelphia. After being 3 down with holes to go, Mrs. Hurd squared the match and won on the eighteenth green.

Miss Klotz was 1 down the route against Miss Edith wood of Uniontown, Pa., but the match, 2 up.

Miss Glenna Collett, champion and defending ran into unexpected opposition against Mrs. S. S. Laird, Jr., New York. Miss Collett 4 up, but Mrs. Laird hung tenaciously and carried the to the seventeenth before down, 2 and 1 to go.

ALHAMBRA A. C. TO FACE SEASIDE

[EXCLUSIVE DISPATCH]

ALHAMBRA, March 3.—The Alhambra Athletic Club quintet will play the Pacific Coast Club Long Beach on the A.A.C. Thursday night in an A.A.U. tilt which promises to be an exciting struggle. The two teams are tied for second place in the tournament, each with wins and two defeats. The L.A.A.C. Blues hold first place with teen wins and one loss, the beating being administered by the Alhambra five.

The Pioneer . . . something new in rackets

THE QUALITY of your racket can influence greatly the quality of your game. Among the new Gold Medal Pioneers you will find one to inspire the greatest tennis you ever played. The smaller head makes tighter stringing possible. A faster racket results. The longer handle gives a balance so perfect you marvel at it. And the new grip is a surprising development. Come in and shake hands with a Spalding Pioneer—one of the most beautiful models ever made.

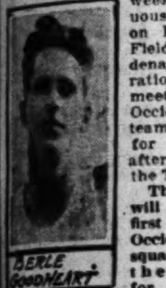
Coach Fox Stanton's California Institute of Technology track and field artists are experiencing a week of strenuous workouts on Paddock Field in Pasadena in preparation for their meet with the Occidental team scheduled for Saturday afternoon on the Tigers' oval.



BERLE GOODHEART

The meet will be the first for the Occidental squad and the second for Caltech in the southern conference race for the championship. Dope points to a victory for Coach Joe Pipal's men. His team is well balanced and should prove too strong for the Engineers.

The Caltech will rely on the ability of such men as Murray Schultz, one of the fastest men in Southern California, for points. It is conceded the sprints against the Tigers. Edwards and Meserve are also able speed merchants and will have an excellent chance of placing in both the century and the furlong.

Dick Pomeroy, national junior champion in the 440-yard hurdle event, should place well up toward the front in both barrier races against the Tigers.

The throw of 173 feet in the javelin event three weeks ago by Anderson, when Caltech and Pomona battled to a 70-70 tie, appears to be the best mark reached by any conference athlete this season. Against Occidental Coach Stanton's heaver should have little trouble in annexing a first place.

Glenn Graham, the star pole vaulter for the Engineers, who was a member of the Olympic team in 1924, will also account for another first place. Darling will give the Oxy 440 men a great battle for first place in the quarter-mile race. In the Pomona meet he made the distance in 52 2-10s.

SAGEHENS-BRANCH CLOSE

[LOCAL CORRESPONDENCE]

POMONA COLLEGE, March 3. Coach Bob Strehle, former all-American collegiate low hurdler and now Pomona College track and field mentor, began preparations this week for the next conference meet, scheduled for Saturday afternoon, against Harry Trotter's Southern Branch athletes. The meet will be held on the North Vermont-avenue cinder path.

COACH STREHLE

Dope points to the closest meet in the history of the two institutions, and for the first time since the Grizzlies put out a track team they will stand a chance of beating the Sagehens.

Snyder, who is the premier two-miler of the conference and has run the eight laps in better than ten minutes, is out with water on the knee. His absence will leave Piercy of the Grizzlies a clean sweep in the two-mile jaunt. Piercy is expected to prove one of the big stars of the meet and may also collect five points in the mile. Knox Finley, quarter-miler, will be called upon to race against Richardson, but he has yet to equal the performance of the Grizzly leader. Kenneth Pinney will also be used in the sprints and will likely place against the Branch speedsters.

Pomona has strength in the 440-yard dash, as was evinced in the A.A.U. meet, when Lyle Johnson, Knox Finley, Baldy Kettelle and Willard Rew averaged fifty-one seconds in the mile relay. Johnson will be used in the 880-yard run as well as the relay race against the Grizzlies. He has a record of under two minutes in the two-lap event and should cop his race against Drake. Frank Rentchler and Miles Fisher will have their hands full in the mile against Piercy and Schmidt.

Dan Millikan has been showing great form in the hurdles of late and his marvelous comeback has been the talk of the mediocre Sagehen season. He ran the lows in 26 5-10s. in the A.A.U. meet Saturday to nearly beat the fast-stepping Bob Maxwell, who was way off his usual form. Millikan is also timed for 15 5-10s. in the high hurdles.

CLEVELAND INDIANS' ROSTER IS FILLED

[BY A. P. NIGHT WIRE]

CLEVELAND (O.) March 3.—With two and in some instances three aspirants for each infield and outfield position, Manager Tris Speaker of the Cleveland Indians is giving his players every opportunity to prove their right to be the regular men for the several positions. With the exception of Catcher Luke Sewell, who has not come to terms, the team is rounding into playing form at Lakeland.

INTRODUCING COAST LEAGUE NEWCOMERS

BY CHARLES J. FOREMAN

ALBERT COLE, Pitcher, Mission.

Born, San Francisco, Cal., July 1, 1898.

Height, 6 feet, 1 inch. Weight, 178 pounds.

Throws left-handed. Bats left-handed.

Clubs in 1925—Detroit and Cleveland, American League.

First engagement—Seattle, 1919.

Clubs since then—Sacramento, 1919; San Francisco, 1920; Tacoma, Pacific International League, 1920; Detroit, 1921 to 1925, inclusive; Cleveland.

1925 record—Games, 27; innings pitched, 78; hits permitted, 99; bases on balls, 40; strikeouts, 16; earned run average, 6.01 per game. Won three games and lost four. Batted .208 and fielded .933.

TROJAN NINE TO LEAVE

U.S.C. Baseball Squad Departs Tonight for Games With Stanford and California

The Trojan baseball team leaves tonight for Palo Alto, where the two teams will open the southern division of the Pacific Coast Conference with a two-game series Friday and Saturday. Monday the Trojans will meet California on the Berkeley diamond. Coach Sam Crawford is taking twenty men north.

In playing three games in four days, the Trojans are facing a tough prospect. The squad has been working something less than a month on a very poor diamond, with the outfielders chasing fly balls in between the efforts of the varsity track shot-putters and discus tossers. Two practice tilts have been played and one real game, which the Trojans won, 7 to 6, in eleven frames.

HOBBS ADAMS

Stanford has had no practice tilts to date of any importance and little is known of the varsity squad. California, however, has been defeated in one effort.

Crawford is taking four catchers and a quartet of hurlers and intends to circulate them around in such fashion that the four will last through the three games. The pitchers are Gormsen, Sahlberg, Guischard and Lukin. The receivers are Gibson, Barnes, Scott and Coffman. McQuigg, Moore, Welch and Orsatti will doubtless form the infield, with Galindo, Capt. Hobbs Adams and either Manlove or Pullen in the outer garden.

DARO BIDS FOR MAT MONARCHS

(Continued from First Page)

a certain winner when he missed a vicious lunge for a flying headlock and came down on his head, knocking himself unconscious.

Londos had little trouble in pinning his limp body to the mat for the first fall. Still stunned from the nose dive, Kotsonaros was unable to come out for the second fall, and Londos was declared the winner.

With a victory over Jack Lewis under his belt, which he won last Monday night, and apparently in great condition, Kotsonaros is confident that he can defeat Londos in a return bout. There being many fans of the same opinion, and Londos being in an opposite state of mind, Daro believes he will be able to pick a "wow" in signing the men for a return contest.

Berlenbach is Signed to Box Johnny Risko

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Paul Berlenbach, world's light-heavyweight champion, was matched today for a ten-round contetst with Johnny Risko, Cleveland heavyweight, at Madison Square Garden, the 19th inst.

CHUCK PETTY LOST TO SAGEHEN FROSH

[EXCLUSIVE DISPATCH]

POMONA COLLEGE, March 3. Pomona College freshmen track prospects were hit a hard blow here today when it was announced that Chuck Petty, crack sprinter and quarter-miler, would be ineligible for at least a month, due to studies. It is possible that Petty will be eligible for the Southern Conference freshmen meet scheduled for Patterson Field, April 2.

Petty was Coach Strehle's best bet in the 100 and 220-yard dashes and was also a member of the mile relay team that won its event at the A.A.U. relay carnival in the fast frosh time of 3m. 28s. Petty formerly ran at Fullerton High.

GENE TUNNEY COMING FOR SHOT AT MOVIES

[BY A. P. NIGHT WIRE]

MIAMI (Fla.) March 3.—Gene Tunney has signed a contract to go in the movies, Billy Gibson, his manager, announced today. The light heavyweight boxer will go direct to Los Angeles after his ten-round no-decision bout with Young Stribling of Georgia at Hialeah, March 12.

He will not retire from the ring, however, Gibson added, saying he would leave for New York to seek future fights for his charge.

RAINBOW FISHING GOOD

In a report from Leigh Garnsey, manager of the Rainbow Angling Club, for the third consecutive week sleeping accommodations were all taken last Saturday. The trout are running **a size that the anglers like.**

THIS WEEK'S FIGHT CARD

TONIGHT

Pasadena Armory—Santiago Zorilla vs. Kid Esau, main event, ten rounds; Don Kennedy vs. Louis Ochoa, six rounds; Tuffy Jiggs vs. Jimmy Casper, six rounds; Tony Cecen vs. Alex Balsz, four rounds; Jack O'Brien vs. Wee Flynn, four rounds.

TOMORROW

Hollywood—Ace Hudkins vs. Johnny Lamar, main event, ten rounds; Joe Salas vs. Pico Ramies, semi-wind-up, six rounds; Frankie Tierney vs. Johnny Holley, six rounds; Billy Blake vs. Bud Oswald, four rounds; Champ Monroe vs. Oscar Trevar, four rounds.

STAR TWIRLER PUT ON SHELF

(Continued from First Page)

on the mound against the Seraphs at Wrigley Field on Friday.

The rest of the team is a good deal of a question and McCarthy probably isn't any too sure himself just what he is going to do. His present first-string infield of Grimm at first, Sparky Adams at second, Shannon at short and Freigau at third is likely to start, but the second-string crew of Tolson, Cooney, Beck and Michaels in the same positions are go good that any of them may be started in place of one of the regulars.

FIRST ACTION

As this will be McCarthy's first opportunity to see his men in action against anybody but their own team-mates he will probably shift his line-up considerably in the three games to be played before returning to the island. He figures that the pitchers and batters, particularly the later, will bear down a little harder against the Seraphs than they do in practice games and looks for considerable improvement in hitting.

Very startling improvement in form is being shown by Clyde Beck at short as he is beginning to feel at home in his position, while Michaels has been little short of a sensation at third, scooping the ball out of the dirt in fine shape and showing every indication of polish at the tough corner.

Cooney's fielding at second is sensational. There is some possibility that Tolson may start at first in place of Grimm as that young man's hand is somewhat mauled as a result of his nose dive into a gulley while chasing a foul on Tuesday.

FAST PRACTICE

Today was spent in a snappy workout without a game as it is desired to have the squad in good shape for the games on the mainland. The players are right up on their toes as a result of the nice warm weather they have experienced and they have an added incentive in the news that President Bill Veeck of the Cubs will arrive on Monday and will immediately inquire into the showing of the boys in their opening games. The team will take the boat to the mainland tomorrow afternoon, accompanied by a large number of baseball journalists, wives, etc.

DEL MONTE IN POLO VICTORY

(Continued from First Page)

sula four was going to have a rough time of it.

There was no scoring in the first period, but early in the second East hit a long shot that hit the goal posts and centered in nice position for Capt. R. C. Gibbs to score. East followed this in the third with a score from fifty yards back after riding the ball the length of the field. At the same time George Pope, Jr., duplicated East's feat, scoring San Mateo's first goal of the day. In the fifth and sixth chukkers East was at his best, riding low and fast, breaking up scrimmage after scrimmage and hitting as he has not hit before this year. Three times in these two periods he scored.

Both Del Monte and San Mateo will pack up and move south to Santa Barbara and Midwick tomorrow.

The summary:

Del Monte (8.)	San Mateo (5.)
Lieut. H. D. Galloway (1)	George Pope (3)
Harry Hunt (1)	R. C. Schwerin (1)
Harry East (4)	W. Tevis (0)
Capt. R. C. Gibbs (2)	C. Weatherwax (1)

Referee, Lord Wodehouse.

FAVORITES RETAIN LEAD IN BILLIARDS

[BY A. P. NIGHT WIRE]

PHILADELPHIA, March 3.—Percy N. Collins, Illinois Athletic Club, John A. Clinton, Pittsburgh A. A., and Edgar T. Appleby, New York A. C., maintained their unbroken string of victories today in the national 18.2 balk line amateur billiard championship.

CUBS INELIGIBLE AS BEARS

Local University Athletes Affected by Transfer Rule in Changing to Northern Branch

[EXCLUSIVE DISPATCH]

UNIVERSITY OF CALIFORNIA, March 3.—The discovery that the ruling that affects transfers from other colleges or universities also renders ineligible for one year, athletes from the University of California, Southern Branch, has practically ruined whatever chances the California wrestling team had to defeat the University of Washington in the annual grappling tilts scheduled for tomorrow evening in Harmon gymnasium.

Glenn Berry, Pacific Coast champion of the conference last season, Art Hodgo and Robert Wilson, all three transfers from the Branch last semester and all regulars on the team, are affected by this ruling and will not face the Huskies.

This is the first occasion in which the rule has ever been brought to force, although it has been discovered that one transfer made a letter in baseball his first semester at Berkeley.

Coach Charlie Andrews has not held very high hopes of beating Washington this year, though the team is strong and should give the northerners a battle. The sport is given major rating by the Huskies, while at California it is only a minor sport.

There is a feeling that the discovery of this ruling will tend to keep many athletes at the Southern Branch who would otherwise finish their upper division work at Berkeley.

PLAY SEMIFINALS OF CUP TIE SOCCER SERIES SUNDAY

With the Mercuries practically assured of the Los Angeles Soccer League pennant, interest has switched from the league games to the cup tie series, semifinals of which will be played at Loyola Field Sunday afternoon. In the first half of the twin bill, starting at 1 p.m., the Scots and Hollywood A. C. will clash. In the 3 o'clock game, Sons and Mercuries tangle. Both contests should result in hard play, the passage to the finals being generally regarded as a difficult one to make.

Danny Hall of the Hollywoods has a new flock of gray hairs as a result of last week's defeat, which practically eliminated his team from league possibilities, and it is rumored on good authority that the only way to prevent the balance of his flowing locks from suffering the same fate is for his boys to go out and battle their way into the finals Sunday.

Jim Lever, the Sons' pilot, is sending his team out to take its last shot for the season at the Mercury team, and if fight and determination can accomplish it, Sunday will see the club eliminated from further participation in the series.

The Mercuries have been smacking them all down with a consistency that is becoming a trifle monotonous to the average fan, to say nothing of the victims, and a defeat would create a very welcome diversion. Whether or not the Sons can do it is debatable, but they car at least be relied on to make a very determined attempt. In this, they will undoubtedly have the moral support of the fans.

POMONA FRESHMEN WIN

Track Team Defeats Three High School Opponents in Meet at Claremont; Times Mediocre

[EXCLUSIVE DISPATCH]

POMONA COLLEGE, March 3.—In a rather slow meet marked by but mediocre times and distances, the Pomona freshman track athletes defeated Pomona High School and Junior College and Citrus Union High here today. The frosh, without the services of several regular performers, managed to pile up 50 2-3 points. Pomona High placed second with 37 2-3 points and Citrus third with 33⅓ points. Pomona Junior College finished last with 16 points.

Bob Baynham, Pomona High sprinter, was the one bright spot on the afternoon's program. Running easily, the Cardinal dash star copped the century in 10.3s and later won the 220 with ease in the fast time of 22.3s. To finish up a perfect afternoon, Baynham brought his team into second place in the relay by passing the fourth man for the Pomona frosh second team ten yards from the tape.

The meet was held for the principal reason of putting the freshmen in better shape for their triangular meet Tuesday afternoon when they meet the crack Chaffey and San Bernardino High School teams on the Claremont oval.

Summary:

One-mile run—Kennedy (F) first; White (F) second; O'Neil (F) third; Freeland (P) fourth. Time 4m. 56.3s.

100-yard dash—Baynham (P) first; Phelps (F) second; Long (P.J.C.) third; Hooper (P) fourth. Time 10.3s.

880-yard run—Corwin (F) first; Pangborn (C) second; Scott (F) third; Hart (P) fourth. Time 2m. 16s.

440-yard dash—Oliver (F) first; Herrin (C) second; Perrin (P.J.C.) third; Holly (P.J.C.) fourth. Time 54.1s.

120-yard high hurdles—Benham (P.J.C.) first; Randolph (C) second; Bishop (F) third. Time 17.1s.

Shot-put—Richards (C) first; Pierce (C) second; Bright (P.J.C.) third; Long (P) fourth. Distance 37ft. 10in.

Pole vault—Holmes (C) first; Baird (F) and Norton (C) tied for second; Bishop (P) fourth. Height 10ft., 2in.

Discus—Crane (P) first; Bishop (P) second; Smith (C) third; McClintock (P) fourth. Distance 101ft., 8in.

Broad jump—Williams (F) first; Benham (P.J.C.) second; Shannon (F) third; Long (P) fourth. Distance 20ft. 4in.

High jump—Shannon (F) first; Williams (F) and Bishop (P) tied for second; Craig (F.) Bemis (F) and McClintock (P.) tied for third. Height 5ft., 8in.

220-yard dash—Baynham (P) first; Smith (F) second; Howell (C) third; Hooper (P) fourth. Time 22.3s.

220-yard low hurdles—Zillgit (P) first; Green (C) second; Lambert (C) third. Time 28s.

Final score:

Pomona frosh—50 2-3.
Pomona High—37 2-3.
Citrus High—33⅓.
Pomona J. C.—16.

Race Drivers Aim for New Ascot Records

New records are expected to be hung up at the Ascot Speedway next Sunday, when the array of race drivers lines up for the events slated, as each is determined to shatter the marks made last week.

Despite their unfamiliarity with the track the contestants made better time than had been anticipated in every event in the opening race bill, demonstrating that the improved grading of the dirt track has opened up the possibility of faster records than ever before at Ascot and it is confidently predicted that the records hung up by Leon Duray, Ralph De Palma and others on the five-eighth-mile oval will be left in the shade within a week or two.

It is recalled that Sig Haughdahl made the circuit in 29 seconds in an unofficial test two years ago and Ralph De Palma circled the speedway in 30 seconds several times, giving the new crop of open-throttle demons some real marks to shoot at.

HOCKEY TITLE AT STAKE

Palais de Glace Squad Can Cinch Ice Bunting by Beating Richfield Oil Team Tonight

The most spectacular ice hockey game of the season in the California League is promised for tonight when the Richfield Oil Athletic Club sextet attempts to prevent the Palais de Glace team from clinching the championship of the circuit at the Melrose-avenue rink.

Richfield at the present time is playing the greatest hockey it has shown all season and is conceded to have an excellent chance to stop the rink men. The Oilers have been coming strong in recent games, after a midseason slump. They defeated the Palais in the last meeting of the teams and tied Culver in the succeeding game in an exceptionally hard-fought game, coming from behind in that contest to hold the Realtors even.

It is particularly noteworthy that they accomplished this with Bill (Moose) Galbraith, their star defense man, on the sidelines. Galbraith has been suffering from a strained back, but is ready for action again and will probably be on the ice tonight, to increase the strength of the team. "Smoky" Harris has become thoroughly acclimated and is playing a great game, while Jack Lawrence, fully recovered from his series of mishaps, is again flashing his sensational scoring ability, with the rest of the team in great shape.

The Palais squad, however, is determined to cinch matters tonight. Newell, Morris, Cresswell and Charley Reid are receiving tremendous support now with the improvement in the work of Irving, Jack Wilson and Huffman, while Ganton Scott showed brilliant form through the greater part of the game with Culver Monday night.

PREPS IN PLAYOFF HERE

[EXCLUSIVE DISPATCH]

SANTA BARBARA, March 3.—Basketball teams in both the lightweight and heavyweight divisions of Santa Barbara High School are eligible to compete in the playoff for the Southern California championship, Coach Clarence Schuette has been informed by C.I.F. officials. The heavyweight squad won the county championship by defeating Lompoc High School, Templeton, San Luis Obispo champions, forfeited to Santa Barbara and the Olive and Gold five will meet the winner of the Compton-Van Nuys battle in the U.S.C. pavilion Friday night.

The lightweight team, coached by Harvey Holt, was undefeated in the Santa Barbara County League, trouncing Paso Robles High lightweights by a 12-to-4 score in the playoff for the Southern California championhhip. They will meet Oxnard to decide which team will meet the winner of the San Diego-Torrance lightweight battle on Friday night.

University of California, Southern Branch, and Fresno State College are on the football schedule of the Santa Barbara State College for the first time next fall, Coach O. J. Gilliland announced today. The Road Runners will meet the Grizzly eleven in Los Angeles on September 25 in the first game of the season, while Fresno State will entertain Santa Barbara during county fair week in Fresno.

RUTH GOLD WINNER AT TIA JUANA

Anderson's Filly Displays Speed in Feature; Runstar Runs Poor Race

[EXCLUSIVE DISPATCH]

TIA JUANA RACE TRACK, March 3.—Ruth Gold, 3-year-old filly from the barn of W. E. "Fatty" Anderson, who races under the name of the Chula Vista Stable, accounted for the fifth and feature race on the program here this afternoon, a condition event over the clubhouse course. The race, which appeared to be a prep for Kentucky Cardinal and Runstar, Coffroth Handicap eligibles, turned out otherwise with Kentucky Cardinal scratched and Runstar showing up not the horse he was in 1924 in taking the Coffroth Handicap that season.

The big chestnut, son of Runnymede, ran well for three quarters with Dry Moon, a plater from the Croissant stable, but tired and quit, finising unplaced.

Princess Doreen showed fine work this morning in preparation for the Coffroth, going a mile in 1:42.

Earl Sande will have the mount on Sunspero in the Coffroth Handicap. This was the assurance received by Trainer John B. McKee of the La Brea stable this afternoon when Ham Keene, trainer for the Widener stable, wired that Sande would be on hand to ride.

First race, four and one-half furlongs: Sally M. (Coltiletti) won, Shasta Pine (Elston) second, Merry Time (Laidley) third. Time, 0:55.

Second race, five and one-half furlongs: Lady Abbot (Burns) won, Malacha (McCabe) second, Scottish Lad (Renn) third. Time, 1:08.

Third race, mile and one-sixteenth: Trapnet (Hexham) won, Solimente (Charles) second, Blue Belle (Bayliss) third. Time, 1:50.

Fourth race, mile and one-sixteenth: Jay Mac (Neal) won, Yokohama Girl (Munden) second, Tight (Carpenter) third. Time, 1:50 1-5.

Fifth race, clubhouse course: Ruth Gold (Philpot) won, Dry Moon (M. Garner) second, Teton (Vesseli) third. Time, 1:35 4-5.

Sixth race, five and one-half furlongs: Al Hotfoot (White,) won, Chopsticks (Charles) second, Lady Rose (Buck) third. Time, 1:07.

Seventh race, mile and one-sixteenth: Gunsight (Munden) won, Vilna (Jackson) second, Yoshimi Freya (Hexham) third. Time, 1:46 3-5.

Eighth race, mile and one-sixteenth: Jack Fairman (Munden) won, Kingman (Edwards) second, Freya (Hexham) third. Time, 1:45 2-5.

Ninth race, six furlongs: War Bells (Munden) won, Green Springs (Schaefer) second, Norfleld (Baker) third. Time, 1:13 1-5.

TROTTERS ARE SOLD

[BY A. P. NIGHT WIRE]

LEXINGTON (Ky.) March 3.—Eighty-eight trotters were sold here yesterday by the Kentucky Sales Company for $28,120, or an average of $320 a head.

Experimental chemist: "And to think, with that test tube we had the next war as good as won!"

The Stranger

If I but knew you less, my dear,
You'd be far more a friend,
And near to me as you were near
Before illusion's end.

For when I knew you less you spelt
All that I hoped could be,
You were as close as dreams long felt,
As much a part of me.

And I have let those days slip by,
To know you as you are!
'Tis strange to find a firefly
More distant than a star.

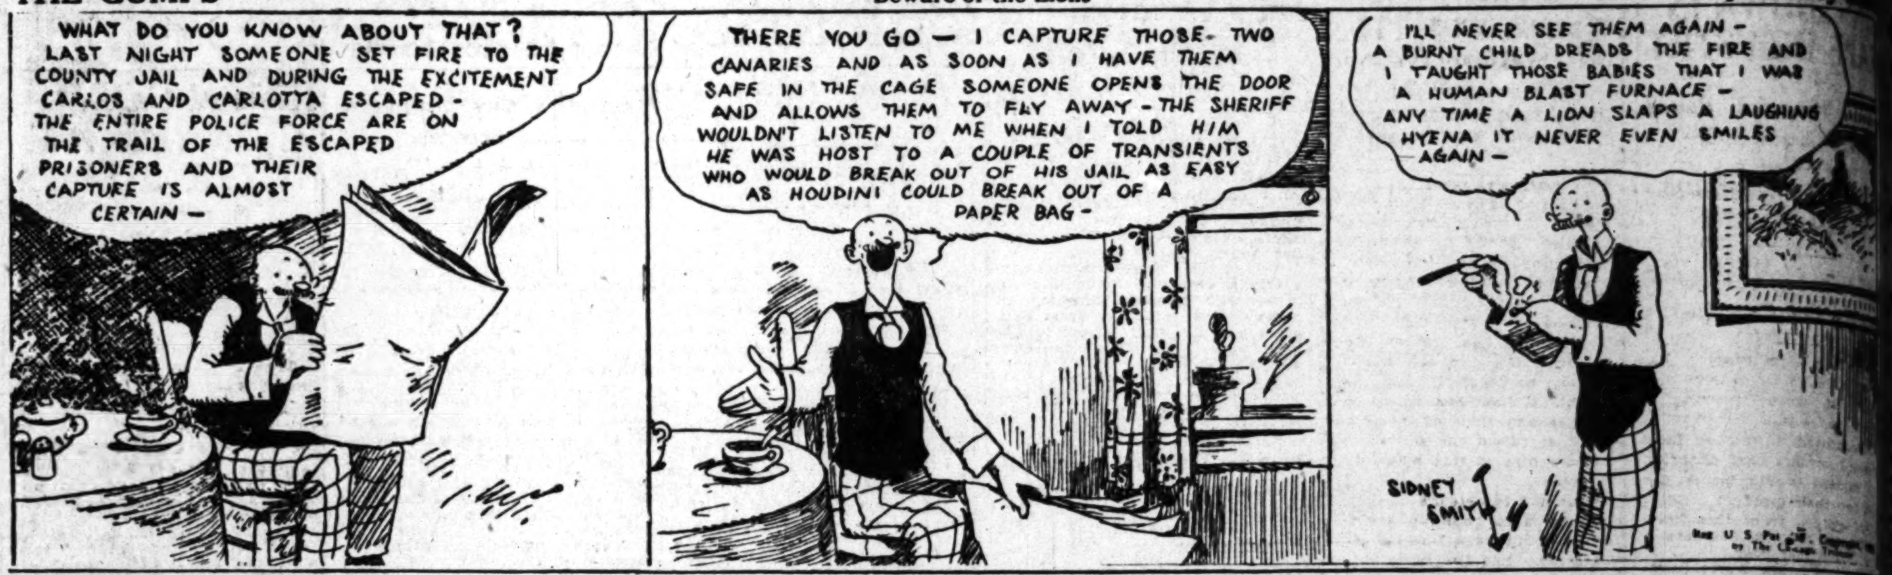
Beware of the Lions

By Sidney S



WHAT DO YOU KNOW ABOUT THAT? LAST NIGHT SOMEONE SET FIRE TO THE COUNTY JAIL AND DURING THE EXCITEMENT CARLOS AND CARLOTTA ESCAPED - THE ENTIRE POLICE FORCE ARE ON THE TRAIL OF THE ESCAPED PRISONERS AND THEIR CAPTURE IS ALMOST CERTAIN -
THERE YOU GO — I CAPTURE THOSE TWO CANARIES AND AS SOON AS I HAVE THEM SAFE IN THE CAGE SOMEONE OPENS THE DOOR AND ALLOWS THEM TO FLY AWAY - THE SHERIFF WOULDN'T LISTEN TO ME WHEN I TOLD HIM HE WAS HOST TO A COUPLE OF TRANSIENTS WHO WOULD BREAK OUT OF HIS JAIL AS EASY AS HOUDINI COULD BREAK OUT OF A PAPER BAG -
I'LL NEVER SEE THEM AGAIN - A BURNT CHILD DREADS THE FIRE AND I TAUGHT THOSE BABIES THAT I WAS A HUMAN BLAST FURNACE - ANY TIME A LION SLAPS A LAUGHING HYENA IT NEVER EVEN SMILES AGAIN -

GAINS SHOWN IN GRAPE INDUSTRY

California Vineyards Raised 72,116 Cars in 1925

Production Not Restricted by Prohibition

Prices Increase Fivefold Since Dry-Law Enactment

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, March 3.—Six years of grape growing in California under national prohibition have proved unfounded fears of vineyard owners that abolition of the saloon would injure the market for their product. Shipments of grapes from this State have increased from 21,605 cars in 1919 to 72,116 last year.

Statistics of the Agricultural Economics Bureau of the Department of Agriculture do not distinguish between so-called "wine" and "table" grapes. Therefore, they do not show whether it is hunger or thirst that has caused the more than 300 per cent increase in the demand of other States for the product of California vineyards.

Before ratification of the Eighteenth Amendment grapes sold around $20 a ton. Since the law was enacted prices have several times soared to more than $100 a ton. Acreage has increased, but not in ratio to the growth of carload shipments. Much of the increase in the shipment figures is due to the fact that a considerable part of the crops once used in wine-making within the State now goes to other markets.

As the California grape grower takes stock of his last year's business and looks to the coming season with inquisitive eye Winehaven, before prohibition referred to as the world's largest storage center for wine, is being dismantled. It was built immediately after the San Francisco fire of 1906 on a seven-acre tract on Point San Pablo at a cost of $3,500,000, including cottages for 200 employees. The winery had vats and cellars with a total capacity of 9,500,000 gallons. When filled its stock had a value of $10,000,000.

In its heyday Winehaven owned a fleet of 150 railroad tank cars, and it was in these that the last of the wine was transported under armed guards to San Francisco to be stored in bonded warehouses when the California Wine Growers' Association decided to abandon the once-famous institution and to attempt to sell the property for some other use.

RIDES STEER TO SCHOOL HOUSE

Texas Youth Also Can Round up Cattle With Strange "Mount"

[EXCLUSIVE DISPATCH]

BRYAN (Tex.) March 3. When the school bell rings, Kohler Lobello, 13 years of age, runs out the front door, "mounts his steer" and rides four miles to attend his classes.

The boy has ridden the steer about the streets of Bryan so regularly that the sight of them has ceased to create any unusual interest. Kohler raised the steer and broke him to ride single or double.

One of the steer's favorite tricks is to roundup cattle. The youth says that in the steer he has the best "cow pony" in the State.

PATROL BOAT BIDS OPENED

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—The lowest bid for the construction of a new coast guard patrol boat to replace the historic old Bear in Pacific waters, was announced today by guard headquarters as $585,000. It was submitted by the Newport News Shipbuilding and Drydock Company. Award will be announced soon.

Five Treaties Given Senate Ratification

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Five treaties, including a convention with Mexico for the prevention of smuggling of narcotics, liquor and aliens across the border, were ratified today by the Senate.

Two of the treaties are rum conventions, one with Spain and the other with Belgium, similar to pacts entered into with Great Britain and many other nations for the enforcement of prohibition laws within twelve miles of the American coast. An extradition treaty with Czecho-Slovakia and a supplementary extradition treaty with Cuba also were included.

PEARL FISHERIES TO BE STUDIED BY MEXICANS

[EXCLUSIVE DISPATCH]

MAZATLAN (Sin.) March 3.—Under the direction of the Bureau of Fisheries, a study of the pearl fisheries on the Coast of Lower California is to be made with a view to extending this industry. The mussels which produce the pearls in these waters, in addition to the possibilities as yielders of marketable gems, also have a commercial value for the meat. At present this feature of the industry is being largely neglected and efforts will be made to find a way of preserving the meat for consumption. The industry is regarded as an important source of wealth.

OPERATION FATAL TO DENVER POLICE HEAD

[BY A. P. NIGHT WIRE]

DENVER, March 3.—Washington A. Rinker, Chief of Police in Denver, died this morning following an operation performed Monday for appendicitis. Rinker, who joined the police department as a patrolman in 1900, later was made a captain, which post he held for many years. He became Chief last July. He leaves a widow and an aged father, both of whom reside in Denver.

JOHNSON'S QUIZ DEFIED BY KELLOGG

Secretary Refuses Light on Reasons for Exclusion of Countess Karolyi

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Secretary Kellogg declined today to disclose to the Senate Foreign Relations Committee, even in secret, the reasons why the Countess Karolyi was excluded from this country.

The Karolyi case, as well as that of the Countess of Cathcart, was brought up by Senator Johnson, Republican, California, but the Secretary said he preferred not to discuss them at this time.

The committee had before it a resolution by Senator Wheeler, Democrat, Montana, proposing an investigation of the exclusion of the Countess Karolyi, but this matter was not brought up, the Secretary appearing primarily to oppose the bill of Chairman Borah under which he would be shorn of the war-time powers which were invoked to deny her admittance.

Mr Kellogg was closeted with the committee for two hours and was questioned at some length. An unusual veil of secrecy was thrown around the whole proceedings. Chairman Borah declined to make any statement, other than to say Mr. Kellogg had opposed his bill.

GAME PRESERVE LEASED

[EXCLUSIVE DISPATCH]

WALTER (Okla.) March 3.—The State Fish and Game Commission has leased 3360 acres of land just south of Temple, in Cotton county, for use as a game preserve which will be stocked with quail and other birds and small game. The lease was made under authority of an act of the Legislature that provided for the establishment of several game preserves over the State.

LETTER SCORES IN BANK HEARING

Warns Bay City Institution Against Branches

Written After Taking Over of Federal Unit

Hints "Needed Protection" for Los Angeles Houses

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, March 3.—Failure of State Superintendent of Banks Johnson to analyze a letter sent from his office by a subordinate today loomed as an important incident in the action of the Bank of Italy before the State Supreme Court to obtain branch bank permits in Los Angeles.

Johnson, offering a deposition in a resumption here of the case testified today that a letter denying a permit to the Bank of Italy for a branch in the Women's Athletic Club Building of Los Angeles was dictated last March by the banking department's chief examiner, Charles B. Wingate.

The letter cites the department's arbitrary "de novo" rule as the reason for denial. The rule, invoked by Johnson three years ago, specifies that no bank shall be granted permits for branches in cities other than that where the home office is located.

"I don't remember seeing that letter or signing it," stated Johnson. "Had I done so it would have gone out in different form. I never had an opportunity to analyze it until after this action against me was commenced."

STATEMENTS VARY

Johnson indicated that had he actually dictated the letter, a basis other than the much-attacked de novo rule would have been mentioned as cause for denial.

Wingate, in a recent deposition, however, gives testimony that conflicts with the superintendent's. He said that he had been specifically instructed to write the letter and to specifically incorporate the de novo clause.

The banking department scored a strong point today by introducing a letter, which Johnson says supports the contention that the Bank of Italy, because of its Federal reserve affiliation, will not be able to invade Southern California with branches even though the de novo rule were not in effect.

This letter, from John Perrin, Federal reserve agent, written in May, 1923, to the Bank of Italy, grants the bank permission to take over the Security State Bank of Ontario, "on an understanding with the Federal Reserve Board that the action will not be used as a precedent for extension of the Bank of Italy into Southern California."

The Federal reserve has a contiguous territory rule, which prohibits one of its member banks from expanding to parts of the State outside its immediate home districts, it was pointed out.

SAYS TEST PLANNED

In this connection, Johnson testified, that he held a conversation with W. W. Douglas, vice-president of the Bank of Italy, in 1923, in the course of which Douglas announced that the bank was planning to test the Federal reserve ruling.

Johnson further testified that a branch permit was given the same year to the Bank of Italy in Sacramento but that this branch has never been opened. Violation of the contiguous territory rule is feared, he says.

Under examination by Garret W. McEnerney, attorney for the Bank of Italy, Johnson revealed further details of the Los Angeles banking situation. During 1924 and 1925, there were five banks in that city whose affairs "needed protection," he said. He refused to name them. He was also questioned about the issuance of a branch to a Los Angeles "home" bank only a block away from the location where the Bank of Italy sought to become established.

"Did you issue that permit because of priority of application?" asked McEnerney.

"It's immaterial, but you can answer if you wish," interjected James M. Oliver, attorney for the banking department.

"No instructions from your attorney," shot back McEnerney. "Here's one time when you will have to decide for yourself."

"I am afraid he will answer," replied Oliver on second thought, turning to Johnson, "I instruct you not to."

Further depositions are scheduled to be taken at Los Angeles on the 15th inst., which may close the preliminaries. McEnerney expects the case to be argued here next month.

REMAINS OF OLD CAMEL UNEARTHED

Fossilized Bones Found in Utah Said to Antedate Pleistocene Era

[BY A. P. NIGHT WIRE]

SALT LAKE CITY, March 3.—Fragments of bone unearthed in a limestone quarry in the Jordan River narrows some weeks ago were today pronounced to be fossilized remains of a pre-Pleistocene camel by Prof. Earl Douglass, fellow of the Smithsonian Institution, and in charge of the archeological laboratory of Utah University.

Prof. Douglass is in charge of the uncovering of dinosaur fossils in the Utah basin.

These camel bones, Prof. Douglass said, are the first evidence uncovered that this mammal roamed this section of the North American continent, and are particularly interesting in determining the age of Lake Bonneville, which extended as a great inland sea over this section some 200,000 years ago, or prior to the Glacial Age.

OLD STORE SOLD

[EXCLUSIVE DISPATCH]

HELENA (Mont.) March 3.—With the purchase of the entire stock by Strain Brothers of Great Falls, the firm of Gans & Klein, founded here sixty years ago, and thought to be the oldest men's goods store in the State, passes out of existence.

Three Killed When Chicago Trains Collide

[BY A. P. NIGHT WIRE]

CHICAGO, March 3.—Two trainmen and a passenger were killed and more than twenty passengers injured, fifteen seriously, in a head-on collision of an Illinois Central suburban train and a Michigan Central fast freight on the South Side early today.

Officials of each railroad immediately began an investigation of a report that an open switch was responsible for the crash. A towerman and his helper near the scene of the wreck were held for questioning by a Coroner's jury.

Those killed were Edward E. Benjamin, Chicago, conductor of the suburban train; T. A. Gryer, Chicago, fireman on the Illinois Central engine; Ole Nelson, 55 years of age, Wheaton, Ill., a passenger.

TIMEKEEPER FOUND DEAD

[EXCLUSIVE DISPATCH]

WILLIAMS (Ariz.) March 3.—Suicide is indicated in the death of Lawrence D. Walling, 18 years of age, timekeeper for a Santa Fe track gang. His body was found east of Seligman, beside it a discharged shotgun. No motive for self-destruction is known.

WOLF STAYS CRAFTY TO LIFE'S END

Tangible Assets None as Millions Left to Heirs Are Carefully Hidden

[EXCLUSIVE DISPATCH]

CHICAGO, March 3.—John W. Worthington remained the wolf to the end, it was revealed today, when a search was made for tangible assets of the notorious old swindler's estate. There was none. Worthington, craftily looking to the day of his death when the "suckers" whom he boastfully trimmed almost all his long lifetime, would come to collect, had hidden their money carefully. He left bequests totaling $2,000,000, but his agents in Chicago believe the real distribution will amount to $3,500,000. It will be strictly private.

The inventory of his securities may never be filed in court, said Attorney Robert L. Cohan, who drew Worthington's will last October.

Worthington, serving a six-year sentence on a charge of using the mails to defraud, died yesterday in the Atlanta penitentiary.

Miss Alice Worthington, a daughter, was bequeathed $1,000,000 in the will; Mrs. John Rodgers, New Rochelle, N. Y., another daughter, $500,000; Helen Rodgers, grand-daughter, $250,000, and Attorney Cohan $250,000. The will asks that his "just debts" be paid by Alice, who is named executrix.

Worthington will be buried in the prison plot at Atlanta unless relatives or friends otherwise order disposition of the body, Warden John W. Snook said. This would be in accordance with a request from Alice Worthington, who requested the warden to "give my father a Christian burial in Atlanta."

A woman, said to be a friend of Worthington, but whose name the warden would not divulge until his other daughter is heard from, has claimed the body.

SECTION FOREMAN KILLED

[EXCLUSIVE DISPATCH]

STOCKTON, March 3.—His foot caught and being unable to leap, James Anderson, 60 years of age, section foreman for the Western Pacific Company, was killed when a motor car on which he was riding was struck by a Western Pacific engine near Nile Garden. The motor car and Anderson were hurled about fifty feet. Anderson sustained a crushed skill which caused almost instant death.

JAPANESE FISH RIGHT ABROGATED

Mexico Revokes Pacific Concession on Failure to Erect Canneries

[BY A. P. NIGHT WIRE]

SAN DIEGO, March 3.—Revocation of all fishing concessions made by the Mexican government to Japanese companies and decided changes in administration of fishing affairs off the lower coast have been put into effect, it was announced here today by Mexican customs officers.

The Japanese have had a virtual monopoly in the Lower California fresh fish, lobster and abalone trade, paying $10 a ton less duty than that imposed on fishermen of any other nationality. For several years a Japanese syndicate has been operating under a concession awarded by the Department of Fomento at Mexico City, with virtually exclusive fishing rights from Todos Santos Bay to Cape San Lucas, or the entire Pacific Ocean front of the Lower California peninsula.

Under the terms of the concession, it is reported, the Japanese were to build two canneries, one at Turtle Bay, the other at Cedros Island. Mexican officials say that this part of the contract was not carried out. Local fishing interests filed a protest, which was sent to Mexico City.

Two large Japanese refrigerating steamers which are owned by the syndicate have been idle for more than a month. One is here, the other in a Japanese port, apparently awaiting word of the situation on the Mexican west coast.

News of the revocation of the Japanese concession was received with joy by local fishing interests. One local packing plant, it was reported today, already has made terms with the Mexican government for a fishing base at Turtle Bay, by posting a cash guarantee with the Mexican government as an assurance of good faith in complying with the Mexican fisheries law.

DELIVERY BODY TO MEET

[EXCLUSIVE DISPATCH]

PHILADELPHIA, March 3.—Retail delivery men from all sections of the United States, directing an aggregate of 10,000 vehicles, will meet in Philadelphia April 20 to 28 next, inclusive, for the tenth annual convention of the Retail Delivery Association. The delivery association is the delivery group of the National Retail Dry Goods Association.

CHURCH MERGER GIVEN APPROVAL

Presbyterian-Reform Faiths to be Combined

Action Subject to Sanction of Judicatories

Ratification of Plan Will Come Up in June

[BY A. P. NIGHT WIRE]

ATLANTIC CITY, March 3.—A merger of the General Council of the Presbyterian and Reformed Churches in America and the American section of the Alliance of Reformed Churches throughout the world, retaining the Presbyterian system, was effected, subject to the approval of the constituent judicatories, at a conference of representatives of both church bodies here today.

The Rev. Dr. George Summey of New Orleans cast the only dissenting vote. He said the benefits of such a union were not clear to him, inasmuch as the general council was only an executive body, while the alliance was the church itself.

The merger, according to those who approved it, will be in the interest of economy and efficiency. Ratification of the merger will be up at a meeting of the judicatories next June at a date and place to be decided later.

Among the rules set forth in the merger plan as approved and prepared for submission to the judicatories are:

(1.) That the American section adopting the rules for the conduct of its meeting and of its business regarding the bounds of the American section, shall consist of the churches belonging to the alliance on the Western Continent.

(2.) That the American section shall co-operate with the European section during the intervals between meetings of the Council to promote the objects of the alliance.

(3.) That the members of the American section shall consist of at least four representatives, ministers or ruling elders from each of the constituent churches, for each 100,000 communicants or a fraction thereof, and where a church has more than 300,000 then four representatives from each additional 200,000 communicants.

(4.) That the officers shall be a chairman, vice-chairman, secretary, associated secretary, recording secretary and a treasurer.

The merged bodies are to be directed by an executive committee, which will form other permanent committees, as follows:

Foreign missions, home missions, work on the continent of Europe, Christian education and literature, ministerial relief and service pensions, correspondence, finance and Presbyterian and reformed church history.

Henry B. McCormick of Harrisburg, Pa., reported to the resolutions committee a resolution strongly indorsing prohibition and calling for support in enforcement from the communicants.

POLICE ROUT STRIKERS AS STONES FLY

New Jersey Workers Put to Flight After Hectic Day in Woolen-Mill Area

[BY A. P. NIGHT WIRE]

PASSAIC (N. J.) March 3.—Police tonight scattered more than 3000 woolen-mill workers, who are on strike, by prodding them with their sticks after the strikers had thrown snowballs, pieces of ice and stones. The cameras of newspaper photographers were seized by the police and smashed. Eight strikers were arrested today, a Passaic hall where mass meetings had been conducted was closed and two strikers—a man and a woman—were sentenced to thirty days in jail on conviction on a charge of disorderly conduct.

Tonight's dispersal of strikers occurred one block from the Botany Worsted Mills, where a crowd of strikers was dispersed last night with streams of water from fire hose after tear bombs had proved ineffective. The scrimmage occurred at the conclusion of two mass meetings addressed by Elizabeth Gurley Flynn, former I.W.W. agitator.

PASSAIC (N. J.) March 3.—Union leaders have threatened to use women, children and babies in the picket lines of striking mill workers here as a result of use of tear gas and streams of water in dispersing strikers.

"We shall not be provoked into violence," Albert Weisbord, union organizer, said, "but we shall have a picket line composed of women and children and babies in their carriages."

DUSSELDORF TO HAVE HYGIENE EXPOSITION

GERMAN STATES TO CO-OPERATE TO MAKE SPRING EXHIBIT SUCCESSFUL

[BY CABLE—EXCLUSIVE DISPATCH]

BERLIN, March 3.—An interesting and culturally valuable exposition will open on May 7, next, at Dusseldorf, and continue until October. This will be the so-called Gesolei (pronounced Gayzohlye,) the exposition for hygiene, social work and physical culture. The national government of Germany, the governments of the various German states, the Austrian government and a great number of official and semiofficial organizations are co-operating to make the event a success. Thus far notice has been received that no less than 220 conventions, comprising about 500,000 visitors, will be conducted in Dusseldorf between May and October.

The exposition will cover every conceivable branch of hygiene, including clothing and care of the body, dwellings and settlements, the science of foods, care of the sick and dependent, factory hygiene, sport and gymnastics. There will be special departments devoted to the effect of air and climate, to baths, sanatoria and even dancing, tramping and sport dress.

Dusseldorf has been famous as an exposition city for more than 100 years.

MIDDLE WEST NEWS IN BRIEF

[EXCLUSIVE DISPATCH]

CHICAGO, March 3.—Negotiations are nearing completion for the sale of the 350,000 acre estate of the late William H. Bartlett in New Mexico to Harry J. Mallen, a Los Angeles investment broker who plans to convert the property into a sportsmen's club. Mr. Bartlett, who was one of the owners of the Bartlett Frazier Company, spent more than $1,000,000 improving the ranch which is near Vermejo Park, N. M., fifty-three miles from Trinidad, Colo. Although trustees of the estate declined to discuss the price to be paid, it is assumed it will be considerably more than $2,000,000.

The ranch is well stocked with game and fish and Mr. Mallen intends to have a limited membership club with an initial fee of $5000. Stewart Edward White, author and big game hunter is said to have tentatively accepted the presidency.

All the direct heirs of Mr. Bartlett are dead and practically all his estate belongs to the widow of W. H. Bartlett, Jr., now Mrs. Virginia Doulton, of Santa Barbara, Cal.

DES MOINES

DES MOINES, March 3.—Building permits issued during the month of February are lower in total value than for any corresponding month since February, 1921, according to figures that have been made public. Seventy-six permits for a valuation of $219,830 were issued during the past month.

Charges that her husband's "nagging and mistreatment" caused her to become a nervous wreck were made by Zola Brindley in her suit for divorce filed in District Court against Walter Brindley, former West High School football star. She asks for the custody of their 8-year-old daughter.

Some sixty years ago a young ambitious Oskaloosa youth known as "Bill" White walked toward Iowa's metropolis, negotiated a ride on the ferry across Des Moines River and landed in West Des Moines. Last night the same man, W. L. White of the W. L. White Shoe Company celebrated his sixty years in Des Moines and his eighty-first birthday anniversary with a dinner party at Hotel Fort Des Moines. His guests were old cronies of past generations, all of them Civil War veterans.

AKRON

AKRON (O.) March 3.—William Peter Smith, 68 years of age, well-known mechanical engineer and prominent in the match industry died at his home, 70 West Long street, of organic heart disease. Mr. Smith was one of the best known men in the match industry. He was an expert in development of machinery used in match factories.

The will of H. H. Ink, Canton business man and manufacturer, who died ten days ago, reveals an estate valued at more than $1,000,000. Provision is made for an annuity of $24,000 for the widow. Bequests amounting to $45,000 are made sisters, brothers and other relatives. The remainder of the estate is to be equally divided between five children.

OMAHA

OMAHA, March 3.—Mrs. R. W. Breckenridge has gone to Pomona, Cal., to spend three months.

Sale of candy in Omaha's public schools has been banned by the school board. The action followed a report showing that 2200 students at one school spent $2700 for candy since January 1, last.

The will of Henry Bargholtz, a Wayne county pioneer who died about a month ago, has been admitted for probate at Winside. The will disposes of property valued at more than $100,000. The personality property is given directly to a daughter, Mrs. Robert Graef, and the income from the real estate while she lives.

With seventy-three years residence to his credit, Samuel Book Bobst of Humboldt, former pony mail rider and son of Richardson county's first probate judge makes the claim of having continuously lived in Nebraska longer than any other man. Mr. Bobst will celebrate his eighty-second birthday on the 28th inst.

INDIANAPOLIS

INDIANAPOLIS, March 3.—Miss Mabel Heronda Sutton has left for a trip through the west. She will spend the summer in Los Angeles and Hollywood.

Martin A. Sheets, of Terre Haute, wealthy retired stockman who died Friday, was entombed yesterday in a mausoleum erected by him a few years ago and which is fitted on the interior with electric lights and a telephone. Sheets said he desired an "opportunity to talk with the outside world if he should awaken in the tomb."

Friends in Indianapolis have received word of the death at Fresno, Cal., of Miss Mary D. Vail, 65 years of age, the first teacher of domestic science in the Manual Training High School. Miss Vail was a member of the faculty of the high school here for a number of years, leaving about twenty years ago.

Options were exercised by the Roxana Petroleum Corporation for the purchase of a 500 acre site in the southern part of East Chicago and over the line into Hammond for the erection of its new Middle West oil refineries in East Chicago at an approximate cost of $32,000,000.

KANSAS CITY

KANSAS CITY, March 3.—Building in Kansas City in the month just closed shows a decided loss in comparison with February of last year. In February, 1925, there were 520 building permits issued for a total of $5,046,140. In February this year 417 were issued for a total of $1,574,950.

Charles Ray, for fifty-four years editor of the Cashville Democrat, died at his home there. Death was caused by heart and bronchial ailment. He was 69 years of age.

ST. LOUIS

ST. LOUIS, March 3.—The Board of Education's Committee on Instruction has recommended the appointment of a special committee to investigate charges of the St. Louis unit of the Steuben society that anti-German propaganda is being taugh in the St. Louis public school histories.

Mrs. Mary Anderson Orr, 81, pioneer St. Louis citizen, widow of William Campbell Orr, well-known manufacturer of a generation ago died suddenly at her residence, 5663 Bartmer avenue. Her father, Kemp P. Anderson, an attorney, was one of the first to go to California in the gold rush of 1849. Mrs. Orr, then Mary Anderson, attended school with Samuel L. Clemens (Mark Twain.) The family friendship continued many years.

A contest of the will of the late Mrs. Elizabeth Louise Dilworth, divorced wife of Jacob L. Babler, former Republican national committeeman, was filed in the Circuit Court by an aunt and twenty cousins of Mrs. Dilworth, all of whom live in Pennsylvania. They contend Mrs. Dilworth was mentally unable to make legal disposition of her property because of the ravages of disease. Her will left the bulk of the estate, estimated at $350,000, but valued by the plaintiffs at $600,000, to the Bethesda Corporation which operates the Bethesda Home and Hospital.

MILWAUKEE

MILWAUKEE, March 3.—As a result of the decision of the United States Supreme Court in which the provisions of the Wisconsin inheritance law assessing all gifts made within six years before death were held unconstitutional, an effort will be made to recover $12,000 in inheritance taxes paid by the John T. Boyle estate, of Fond Du Lac, under protest.

Judge Hubert Falgo of Manitowoc reached his ninetieth year yesterday but he had no real birthday. The judge was born on February 29, 1836, and he has a birthday only once in four years. He has been a resident of Manitowoc fifty-nine years.

An embargo has been placed by Wisconsin on shipments of corn on the ear from New England and certain other eastern sections, to prevent introduction of the European corn borer.

ST. PAUL

ST. PAUL, March 3.—The Rock County Bank of Luverne which closed January 23, last, has reopened for business. The officers are C. L. Sherman, president, and C. J. Martin, cashier.

George Englehard, 82 years of age, former State Representative, County Commissioner and one of the oldest settlers of the county, is dead at Richmond.

While digging a well near Appleton workmen brought up a well-preserved piece of cedar tree from a depth of 240 feet. The wood will be sent to the University of Minnesota for examination.

MINNEAPOLIS

MINNEAPOLIS, March 3.—Levi Longfellow, territorial pioneer, Minneapolis civic leader and national patriotic instructor of the Grand Army of the Republic, died at his home, 1806 La Salle avenue. He was 83 years of age, and had lived here seventy-four years.

Construction of a new 1,000,000 bushel grain elevator, the first to be erected in Minneapolis in more than ten years is under way here. The new plant, to be completed August 1, will have a capacity of handling from forty to fifty carloads of grain daily. The new elevator plant is being constructed by Hallet and Carey Company. The initial outlay is to be $300,000.

The Twin City plant of the Ford Motor Company by April 1 will begin enlarging its force of employees, now numbering about 2000, until by late in the summer about 4000 workers will have been engaged. The plant will begin to turn out glass from its plate glass manufacturing division within another month. Two other departments now being equipped, the battery and radiator divisions, will be ready to start in about ninety days.

TWO MEN ACCUSED OF CONFECTIONER'S DEATH

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3. Alex Anderson, 27 years of age, and Harry B. Howard are in the City Jail charged with the murder of John Bogres, owner of a corner confectionary. Bogres was killed for $25 on the night of Sunday, February 14, last, when two bandits held-up his store. Bogres thought the affair was a practical joke and moved toward the robbers. A bullet through the heart dropped him in his tracks. Before leaving, the bandits cooly plundered the cash till. After several days trailing the above named men have been taken into custody by city detectives. Bogres left a widow and two children.

BAR REQUIREMENTS IN ARIZONA UPHELD

[EXCLUSIVE DISPATCH]

PHOENIX, March 3.—The Arizona Supreme Court has sustained a new State law tightening the rules for admission to the Arizona bar. Bert H. Miller, an Idaho attorney, sought license on the showing of his Idaho certificate. The court stated its opinion that the right to engage in a profession is not a natural one, but a privilege and that "the Legislature has the right to say what qualifications a citizen must possess in order to be permitted to practice law, the same as it may determine the requirements for practicing medicine, dentistry, pharmacy or any other profession, vocation or calling."

CLOTHING SALE EXTRAORDINARY

You may roll all the other so called Special or bargain Clothing sales into one and they will look like a candle in a fog compared with the magnitude, merit and money saving opportunity of this great sale.

Dissolution of Partnership

MONTGOMERY MADE

Manufacturer's Wholesalers
923 So. Los Angeles Street
One Block East of 9th and Spring
Center of the Wholesale District

All retailing from this great $100,000 stock will come to a stop next Tuesday, March 9th, at 5:00 P. M.

Saving the retail profit to you, which means 1-3 to

½ price

Giving you an all new, fresh Spring stock of suits, top coats, cravenettes and Spring trousers to select from of the best known and highest standard brands of clothing made in the United States.

SUITS

33 to 50 Breast Measure

Lot 1. $14.50. Several styles of dark and medium colors; some with two pants, that retail up to $30.00.

Lot 2. $18.50. With a snappy conservative form fitting styles in variety of all wool casemers, cheviots, etc., to retail to $35.00.

Lot 3. $22.50. For real tailor-made, hand-felled collars, Belgian Hair cloth fronts, cold water shrunk, in the latest fashions, fads and fancies of 1926 that will appeal with telling force to the discriminating dresser. Come in all colors, including blue serges and beautiful worsteds worth to $45.00.

Lot 4. $27.50. American Gentleman productions in the choicest domestic materials, serges, whale bones, staple and novelty worsteds, cheviots, silk mixtures and casemers. Equal to the best custom productions costing from $50.00 to $65.00.

Lot 5. $32.50. An exposition full hand tailored, cold water shrunk. Fronts of Belgian Hair cloth, better than good and as good as the best tailor productions, worth up to $75.00.

Overcoats, Top Coats and Cravenettes

Montgomery, Kenyon and American Gentleman choicest Spring production. Practically saving ½ of what the retail store charges for the same brands. Surely it must mean something to you.

Lot 6. $14.50. For medium weight union frieze, satin yokes. Big $27.50 value.

Lot 7. $19.50. Light weight Spring and medium weight overcoats, hand tailored. $35.00 to $40.00 value.

Lot 8. $22.50. Puts you right into the Kenyon and Gentleman made $40.00 to $45.00 top coats, etc.

Lot 9. $27.50. Kenyon made custom tailor fabrics, full hand workmanship. A sterling $50.00 retail value.

Lot 10. The very top of elegant imported custom materials, tailored and fashioned equal to the best $65.00 to $75.00 custom tailor made.

Owing to the arrangement of this vast stock, the sale will not open until Thursday morning, today, at 10:30, and will close at 5:30 p.m. Next Saturday, the last Saturday, in order to give those a chance who cannot attend through the day, we will remain open until 9:00 p.m. All retailing positively stops next Tuesday at 5 p.m.

When you can buy the best and latest in clothing at wholesale prices or as cheap as the largest merchants can buy them from us, your good sense will surely prompt you to act now.

No Mail Orders. Alterations Free. All Sales Final.

923 South Los Angeles St.

KITES USED BY WEATHER MEN

Wind Velocity, Temperature and Humidity Recorded

Several Utilized in Taking Up Instruments

Daily Information Given to Mail Aviators

[BY A. P. NIGHT WIRE]

WASHINGTON (Neb.) March 3. The small boy likely would view as the finest kind of play, the important meteorological work carried on by the staff of the kite station at the Drexel observation bureau here.

For from the kite house in the center of an unobstructed forty-acre field, kites as big as a woodshed are flown on piano wire, sometimes six or seven on a single strand, the highest quite out of sight.

C. S. Ling, veteran government meteorologist in charge, has six assistants who devote all their time to kiting. Scarcely a dozen days a year fail to see the kites aloft, where they remain five or six hours.

RECORDS CONDITIONS

The instrument carried up is called a meteorograph. Weighing but two pounds, this aluminum cylinder records wind velocity, direction, altitude, humidity, temperature and the amount of static electricity encountered. The information transcribed from its recordings is for use in future forecasting, for possible military flying information in future years, and for immediate information to Army and mail aviators. To the latter, daily information has been furnished for several months, but no regular weather forecasts are issued.

From the circular six-ton kite house, which revolves like an astronomical observatory and has sliding round doors, the kites are put up. A large drum, bearing eight miles of piano wire, is operated by an electric motor. The whole is insulated against static electricity.

Unlike the small boy's kite, with which he must run a few yards to get it up, the weather kites are taken down the field a short distance and given a boost. The drum pulls the kite into the teeth of the wind at a speed of eleven miles an hour and the box kite scoots upward.

However, aloft a few hundred feet, the kite begins to sag as its load of piano wire increases. Additional kites are then strung on at thousand-foot intervals, each with its own lead wire of 100 yards or so. As many as half a dozen kites soon dot the sky, each perhaps in a different wind level and each tugging an opposite direction from the main line. But the load is distributed and the top kite carries on its work of supporting the meteorograph.

The kites are rectangular in shape. Their greatest dimension is eight feet. The corner struts are half inch straight-grained spruce. The muslin covering is drawn to drum-head tautness. The only tails they bear are the "weather tales" they bring down.

Frequently a kite a mile aloft breaks away. Directed by a label on the side, the finder usually returns the kite at once. Only 5 per cent of lost kites fail to reappear. However, when the wire breaks at the winch, a swishing steel tail trails along with the fleeting kites, playing havoc with rural phone lines and fences.

HEAVY STATIC

Seldom is the wire hit by lightning, but the static which causes grief to radio fans, frequently reaches 40,000 to 50,000 volts on the wire. It is safely led off through a grounded escape wire.

Thirty-inch hydrogen filled rubber balloons are released several times daily at Drexel. Watched through theodolites, their course is plotted, and from this are deduced details of the upper air strata.

Drexel also provides kites for other stations. Dahl Baxter, who has made weather kites most of his life, operates the kite shop. Fifty-two completed kites fill the loft of a large shop.

Belgians Said to Have Purchased Iron Ore Deposit

[EXCLUSIVE DISPATCH]

CUERNAVACA (Mex.) March 3. It is reported here that Belgian iron and steel interests have purchased a large deposit of high-grade iron ore situated on the Pacific Coast just to the north of the port of Acapulco. The ore is a veritable mountain, the total estimated tonnage being equal to the famous Iron Mountain which rises 500 feet above the plain in the outskirts of the city of Durango. The perpendicular side of the iron mountain is laved by the Pacific and the ore can be loaded directly into boats, it is stated.

The purpose of the Belgians in acquiring the iron ore deposit is not known here. It is so well isolated from the remainder of Mexico that it is not thought the establishment of an iron and steel plant at or near it is contemplated.

Port Will Use Surplus Funds of Philippines

[BY CABLE AND ASSOCIATED PRESS]

MANILA (P. I.) March 3.—The year 1925 was the most prosperous the Philippine government has experienced since the slump that followed the ending of the World War. It is semiofficially stated that when the books are balanced the revenues will show a surplus over expenditures of approximately $3,500,000.

Beginning this year, the insular government will adhere to a policy of diverting its surplus funds at the end of each fiscal year to Manila port works and to the irrigation fund until the entire sum authorized by law has been used in this direction.

MEXICAN BANKS SHOW GAIN

But Increase of Deposits is Due to Action of Merchants in Selling Out Large Stocks

[BY CABLE—EXCLUSIVE DISPATCH]

MEXICO CITY, March 3.—The Mexican political situation, both internal and external, may be best described as complex, and it seems rather paradoxical that in spite of the foregoing the local banking situation is showing an appreciable and constant turn for the better. Deposits as a whole show an increase, loans also, indeed the overplus of metallic currency held by the principal banks is beginning to find an exit in satisfactory investments both commercial and industrial, and finally wholesalers and industrials report that collections are easy.

From a banking point of view the situation as described is satisfactory in every sense but in order to arrive at the real financial situation it is necessary to go a little deeper into the matter. As stated, banks are receiving satisfactory deposits, but these are not coming from sources which indicate any increasing richness of the average resident in Mexico; in the majority of cases this money is the result of the policy of the majority of merchants who are gradually selling off and reducing existing stocks, but not replacing them by their usual wholesale orders, rather buying just what current necessities demand.

Whatever may be the situation, as pending between the White House government and the Calles administration, local financial experts are insistant that North American interests are coming into the Mexican banking world and further that this entry will not be delayed until after the present international situation shall have been solved.

Gold currency continues at a premium, running to between 1 and 2 per cent, but recent decrees issued from the Ministry of Finance tending to restrict gold export and rather facilitating the exodus of old silver currency will probably see a disappearance of the difference at an early date. Locally it is asserted that there is plenty of money ready for investment in the new agricultural and loan bank which is another step in the agricultural development program of President Calles. This money will be necessary in the very near future if the President's declared intention to expend 80,000,000 pesos before leaving office is to materialize.

Regarding the Mexican road-construction program, there would appear to be somewhat of a slowing down in certain sections, if the situation can be judged by notice to a number of cargo auto owners that their vehicles at any rate on the Puebla section, will not be needed for a month or so; quite a large section of owners of such means of transportation have been doing well by hiring out their vehicles to the road contractors.

The petroleum situation is wrapped up in the negotiations proceeding between representatives of foreign interests and the Mexican Ministry of Industry, Petroleum section, to find a satisfactory solution prior to the regulation of the new oil law.

ARTIST APPOINTED

[EXCLUSIVE DISPATCH]

PORTLAND (Me.) March 3.—Alexander Bower, the well-known artist, who recently decided to reside in Maine, has been appointed assistant art director for the Philadelphia sesquicentennial, and is in Philadelphia at present making plans for the proposed celebration.

SHIFT FIGHT OVER CHILD TO THIS CITY

Grandmother of Gibbons Girl Cited in Chicago for Bringing Her Here

[EXCLUSIVE DISPATCH]

CHICAGO, March 3.—Mary Ellen Gibbons, grandmother of 5-year-old Shirley Gibbons, for whose custody Walter Gibbons president of the Gibbons Box Company, and his divorced wife, Mrs. Dorothy Shaw Gibbons Mulligan, have waged a score of bitterly fought court battles, was ordered today to show cause why she should not be cited for contempt by Judge Sabath in Superior Court.

The citation was issued after Attorney Davis, representing Mrs. Mulligan, told the court that Mrs. Gibbons has taken Shirley to Los Angeles in defiance of the court order. Included in the citation are a nurse, Miss Anna Nedley, who accompanied the pair, and Gibbons.

Attorney Davis told the court that unless the contempt proceedings are successful in bringing the child into custody of the local courts he will ask kidnaping warrants.

After a prolonged hearing several weeks ago, Judge Sabath removed Shirley from the custody of her mother and gave Gibbons custody, including in the order the provision that Mrs. Mulligan might have the child on week-ends and overnight at stated occasions. He also ordered Gibbons to continue paying $150 a month alimony for the support of the child.

A week ago Attorney Davis asked that Gibbons be cited for contempt of court for failure to pay the alimony, and the hearing was continued.

Special ingredients in Ed. Pinaud's stimulate the scalp, giving new life and luxuriance to the hair

Used regularly Ed. Pinaud's Eau de Quinine absolutely prevents the recurrence of dandruff

DANDRUFF IS AN INFECTION

that can be destroyed

HAIR specialists say dandruff is a dangerous infection which causes most baldness and that only two simple things are required to destroy it and restore the hair to vigorous health.

First: In addition to soap and water cleanliness the scalp must be disinfected—freed completely from dandruff germs.

The gentle safe antiseptic in Ed. Pinaud's Eau de Quinine destroys dandruff germs more effectively than any other known preparation.

Second: The sluggish scalp must be invigorated by a tingling flow of blood.

Special stimulating ingredients in Ed. Pinaud's Eau de Quinine stir the contracted blood vessels to new activity so that they nourish the hair roots, muscles and glands.

* * *

BEGIN TODAY to free your hair from every trace of dandruff. All druggists and department stores have Ed. Pinaud's Eau de Quinine Hair Tonic. Each bottle bears the signature of Ed. Pinaud. Pinaud Incorporated, 90 Fifth Avenue, New York.

$250.00 in Gold!

An Interesting Contest Open to Everyone

To many thousands of letter writers the slogan

"WRITE THAT LETTER NOW!"

means—Economy
—Convenience
—and Service

that places Stationery Vending Machines in the foremost rank of public utilities.

At any hour—day or night—downtown or in your own neighborhood——conveniently located—always ready to serve you—will be found this new public convenience that automatically delivers to you

1 U. S. Stamped Envelope
2 Sheets Bond Writing Paper
For 5c

We have our own ideas why you should purchase *all* your stationery through our *Stationery Vending Machines*, but we want your ideas—your reasons why.

To secure the best ideas possible, a contest has been arranged and the Stationery Vending Company offers $250.00 in Gold for the four best ideas submitted.

For the four best letters on the subject, "Why I Should Buy My Stationery Through Stationery Vending Machines," the following cash prizes are offered:

1. $100.00—For the Best Letter
2. 75.00—For the 2nd Best Letter
3. 50.00—For the 3rd Best Letter
4. 25.00—For the 4th Best Letter

RULES OF CONTEST

1. Anyone except employees of the Stationery Vending Company is eligible to this contest.
2. Letters must not be over 100 words and must be submitted on stationery and mailed in stamped envelope obtained through one of our Stationery Vending Machines.
3. Name of business and address showing the location of machine where stationery was obtained upon which letter is written, must be given.
4. Contestants may submit as many letters as they desire.
5. All letters submitted must bear signature and address of contestant.
6. No letters will be returned.
7. Letters must be legible, but need not be typewritten, as prizes will be awarded solely on the merits of the ideas expressed rather than on the form.
8. Stationery Vending Company reserves the right to use all letters submitted in this contest for publicity purposes or otherwise, whether letters are prize winners or not.
9. This contest closes March 20, 1926. No letters postmarked later than 5 p.m., March 20, will be considered.
10. Prize winners will be announced in local papers on March 31, 1926.
11. Anyone sending in a letter as previously provided agrees to the foregoing rules by so doing.
12. In the event of a tie for any prize the full amount of the prize for which tied will be awarded to each fortunate contestant.

Prizes will be awarded upon the decision of the Advertising Staff of the Stationery Vending Company, their decision to be final.

Address all mail to: Advertising Staff, Stationery Vending Company, 523-27 L. A. Stock Exchange Bldg., 639 So. Spring St., Los Angeles, Cal.

FIRST GUN FIRED IN WORK ATTACK

Western Senators Assail Reclamation Law

Policy of State Financing Bitterly Opposed

Move to Speed Up Payment on New Projects

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Senators from western States today opened their long-threatened fire on Secretary Work.

Appearing before the Senate Appropriations Committee on the Interior Department appropriation bill, these Senators vigorously assailed the administration of the reclamation law by that department and opposed the policy of State aid in financing settlers, which, they contend, would spell the end of Federal reclamation.

The Secretary of the Interior and Elwood Mead, director of the Reclamation Service, were present and later Mead presented the department's side of the controversy. The proceedings were held behind closed doors.

AMENDMENT DRAFTED

The western Senators presented their case on the basis of an agreement reached at a series of conferences at which House provisions of the bill calling for State aid in the case of the Spanish Springs project in Nevada; Sun River project, Montana, and Owyhee, Vale and Baker projects in Oregon, were discussed in detail.

One result of these conferences was the drafting of an amendment under which Secretary Work would be directed to carry out more speedily the mandates of Congress for expenditure of money on new reclamation projects.

Senators Pittman, Democrat, and Oddie, Republican, Nevada, and Walsh, Democrat, Montana, called attention to the fact that Congress appropriated funds for the Spanish Springs and Sun River projects last year. None of the money had been spent. Spokesmen for the department explained that this was accounted for by necessary preliminary work in surveys and the like.

ONLY FIRST GUN

The chief complaint of western Senators before the committee today was that in requiring State aid in financing settlers on reclamation projects, the Interior Department was seeking to impose a condition that States could not meet, either because of lack of finances or constitutional inhibitions. As a counter-proposal they suggested that the States co-operate in selecting settlers.

It was explained the Interior Department officers had complained that one deterrent in making the reclamation policy a success was the taking up of homesteads by persons having little or no experience in farming.

Senator Oddie and other Senators declared the drive opened today was only the first gun in a barrage against the Interior Department because of its administration of laws governing the public domain.

LONG TERMS IN NICKEL THEFT

Pair Sentenced to Ten Years Each for Stealing Five Cents

[BY A. P. NIGHT WIRE]

KANSAS CITY, March 3. Robert Clark, 27 years of age, of Chillicothe, Mo., and John Jackson, 24, Amarillo, Tex., today were sentenced to ten years each in the penitentiary for robbery of 5 cents from Leabofer Walker, a negro.

GRAZING BILL URGED

Wool Growers Want Forage Use Regulated by Legislation

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Passage of the Stanfield grazing regulation bill as a measure to stabilize the live-stock industry of the West was advocated before the Senate Public Lands Committee today by Frank J. Hagenbarth of Spencer, Idaho, president of the National Wool Growers' Association.

Hagenbarth advocated that forage in national forests be treated by law as timber, water and other resources have been treated. Most authorities agree, the witness testified, that proper grazing is beneficial rather than harmful to national forests, and he expressed the opinion that grazing could best be controlled by legislation.

BOW GIVEN MUSEUM

[EXCLUSIVE DISPATCH]

SAN ANTONIO (Tex.) March 3. Herbert Scott, 1015 West Summit Place, has made an unusual gift of a giant bow and two arrows, used by savage Indians of Venezuela, to the San Antonio Museum, according to announcement from Miss Shultz, director. The bow is about six feet long, and is made of wood from the banana tree. Homespun threads are twisted to make the cord for it.

CADETS TO GIVE ANNUAL REVUE

West Point Men Will Mark "Hundredth Night"

Production Entirely Work of Students

Military Academy Show to be in Two Acts

[EXCLUSIVE DISPATCH]

WEST POINT (N. Y.) March 3. The annual hundredth night production of the corps of cadets of the United States Military Academy will be given in the cadet gymnasium on Saturday afternoon and evening. It is styled the "Table Top Revue," and is in two acts and sixteen scenes, all of a light vein. Every bit of the show is original, done by cadets, including the lines and the music, as well as the ideas, design and construction. The staging, costuming, lighting effects, dances and scenery have all been arranged, designed or directed by cadets. No professional coach of any kind in any capacity has been employed.

Maj. F. W. Bowley, F.A., is supervising the whole production. Cadet H. N. Toftoy of Madison, Wis., is general director and stage manager. He is responsible, also, for the design of costumes and scenery and the musical score, as well as the lighting effects. In addition, he has written five scenes and several verses to various musical pieces, and is directing the rehearsals of the second act. Cadet E. V. Heiberg of Washington, D. C., in collaboration with Cadet H. P. Ford, arranged all the dances. In addition Cadet Heiberg has written three scenes, is directing the rehearsals of the first act, and will himself perform in eccentric and soft-shoe dancing. All music has been written by Cadets M. D. Masters, J. R. Wheaton and F. E. Howard. Other cadets aiding in the production are B. Gross, working out and directing Wooden Soldier Drill; W. C. Stanton, construction of scenery, and H. M. Forde, scenic painter.

This annual hundredth-night show is produced and staged by the Dialectic Society of the Corps of Cadets, of which Cadet Toftay is president, Cadet E. V. Heiberg vice-president, Cadet T. Calhoun, Jr., of Margerum, Ala., secretary, and Cadet F. L. Ankenbrandt of West Haven, Ct., is treasurer and business manager.

The hundredth-night production is so called because, generally, it is given on the night one hundred days from June, which, to any cadet at the academy is the high spot of each year, since for each class it means something important; the first-class graduates, the second class moves up to its goal of only one more year, the third class goes on a two and a half months' furlough, and the fourth class leaves its year of plebedom with its restrictions.

DEFAMERS OF SCHOOLS DENOUNCED

Ex-Nobles from Europe Trying to Start Reign of Terror, Says Supt. Wood

[BY A. P. NIGHT WIRE]

SACRAMENTO, March 3.—Defamatory and slanderous attacks on American public schools will not go unanswered in California, said Will C. Wood, Superintendent of Public Instruction, in a statement issued here today denouncing "embittered ex-nobles from Europe and patrioteers," who, he says are back of an "effort to start a reign of terror in the public schools."

Remarking that charges of disloyalty and Communism circulated against schools and teachers and pupils are usually whispered and therefore hard to track to their source, the State Superintendent singled out one attack which was "sufficiently open to make an investigation possible."

"In this instance," he said, "an asserted baroness of the defunct Russian nobility solemnly asserted in a public address that there were more than 100 Communist pupils in the Pasadena high schools, giving as her authority a prominent Pasadena woman. This woman promptly disavowed responsibility for the statement and the school authorities in Pasadena made indignant denials. Investigation failed to reveal any basis for the outrageous charge.

"It is evident that an effort is being made to start a reign of terror in the public schools, the chief instigators being embittered ex-nobles from Europe and patrioteers whose chief interest in Americanism is to obtain contributions to the funds of their organizations.

"The American school is a fundamental American institution. It seems strange that patriotic organizations will countenance unwarranted attacks upon the schools."

WOOD LISTS VETOES

Governor General Kills Score of Bills in Philippine Session

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—The War Department made public today a report from Gov.-Gen. Wood that he had vetoed twenty-four bills and one joint resolution at the last session of the Philippine Legislature.

First importance politically was attached by Gen. Wood to the bill vetoed providing for a plebiscite on the independence question. He rated his veto of the budget bill and of the measure providing for appeal from decisions of the insular auditor as also politically important.

BOYS ACT AS AIDES TO COUNTERFEITERS

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—A round-up of ten asserted counterfeiters here and thirty "passers" of the bad money in Philadelphia, Syracuse, Detroit and other cities, has revealed a plot in which some $40,000 in Federal Reserve notes have been turned out and boys 10 years of age have been used to "shove the queer." Only a little of the money has been put in circulation.

PITTSBURGH Proof Products
Paint-Varnish-Brushes

Metropolitan Building, Los Angeles, Calif. — Interior walls painted with Velumina, Woodwork with Water-Spar Varnish.

IN every community in America you will find a great many of the principal buildings supplied with flawless glass and decorated with paint and varnish manufactured by the Pittsburgh Plate Glass Company—because of outstanding, uncompromised value and quality standards! Sold by quality dealers; used by exacting painters.

Velumina
Washable Wall Paint

combines artistic beauty with practical, enduring economy—gives walls restful, light-diffusing, beautiful tones. Shows no laps or brush marks. Easy washing takes the place of redecorating.

Sun-Proof Paint

is a genuine *protective* paint.
It fills in every pore and fibre of the surface—gives your building a moisture-proof coating that keeps out depreciation and decay. Saves repair bills! Its low cost per square foot on the building, and long service life make it economical—will not check, crack, peel or blister.

RADIO ROW IN COURT

Company Seeks Review of Ban on Making Regenerative Sets

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—Another radio controversy has reached the Supreme Court in a case docketed by the DeForest Radio Telephone and Telegraph Company, which seeks a review of the action of the Federal courts in New York City in granting Edwin H. Armstrong and the Westinghouse Electric and Manufacturing Company a supplemental injunction restraining it from manufacturing and selling a "regenerative" radio receiving set known as Type D 17.

The lower courts had held in 1921 that Armstrong was the original inventor of the "feedback" or "regenerative" circuit, and enjoined the DeForest company from infringing that invention. Four years later when Armstrong and the Westinghouse company obtained the supplemental injunction complained of, the DeForest company insisted that Armstrong and the Westinghouse company should have brought a new suit.

AGED PASTOR MILLHAND

New England Cleric's Stipend Not Enough for Necessities

[BY A. P. NIGHT WIRE]

LAWRENCE (Mass.) March 3.—Death has revealed an aged mill hand here as a former minister, who, at 63 years of age, was forced to turn to manual labor to support himself.

Samuel Sanderson was born in Rochester, N. H., in 1847. He was educated at the University of Rochester and was ordained in 1876.

For more than thirty years he preached in the smaller towns of Vermont and New Hampshire. Then illness overtook him. Bills piled up and his small savings vanished. Unable longer to assume the burden of a pastorate, he turned to manual labor.

PROFESSOR'S BRIDE DIES

[EXCLUSIVE DISPATCH]

FLAGSTAFF (Ariz.) March 3.—A bride of only two months, Mrs. C. V. Ridgely died at the home of her parents in Richmond, Ind. The husband is a professor in the Northern Arizona Teachers' College here and had been preparing a home when he received news of his wife's serious illness.

High Blood Pressure

1. Cold hands and cold feet.
2. Slight momentary dizziness.
3. Sleep unrefreshing.
4. Sleep disturbed by dreams.
5. Feeling of fullness in head.
6. Gastric disturbances.
7. Constipation.
8. Lowered vitality.
9. Nervousness.
10. Persistent headaches.

These are the indications of high blood pressure as given by Dr. F. A. Faught, instructor in medicine at the Medico-Chirurgical College, Philadelphia. Moreover, he definitely states what happens if you put off correcting your condition—a steadily increasing pressure until one of the arteries (usually in the brain) bursts.

Dr. Faught knows what he is talking about. When you disregard his advice, you are disregarding the word of the foremost authority on high blood pressure in the world. Hence isn't it a safer and saner plan to begin the Witter Mineral Water Treatment the moment the symptoms appear. Within the past 10 years alone, we can conservatively say that Witter Water has been successfully taken by 50,000 people. At least get the details. Mail the coupon.

GLAD TO SPREAD GOOD NEWS

Helped by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—The friends of Mrs. Helen M. Kowalczyk of 6819 Hope Avenue, were glad to hear that she has regained her health. For quite some time Mrs. Kowalczyk was quite ill and it was impossible for her to work. She took Lydia E. Pinkham's Vegetable Compound to build her up. After she had started taking it, she wrote to the Pinkham Company as follows: "I certainly boost Lydia E. Pinkham's Vegetable Compound. I feel stronger already and sleep sounder. I am very glad to spread the good news of how it has helped me."

"Happy to Recommend Pinkham's"

Detroit, Michigan—"I heard of this medicine through an advertisement in the 'Detroit News' and wrote to Mrs. Grace Gillem, whose letter was published. Then I started taking the Vegetable Compound and got the best results. I used the Sanative Wash, too. I am really happy if I can advise women to take your medicines."—Mrs. M. E. Murphy, 12163 Washburn Avenue, Detroit, Mich.

LACK OF AID TO HARBORS CITED

Neglect of West Coast Shown at Bay City Session.

Move Launched to Get More Government Help

Returns on Money Revealed as Good on Pacific

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, March 3.—That the Pacific Coast has been sadly neglected in comparison with other sections of the country in the matter of government support of her harbors and water ways, while other parts of the country, and especially the Mississippi Valley, have received startlingly high appropriations and produced practically negligible returns for them, was brought out at a conference of the Rivers and Harbors Committee of the Pacific Coast here today.

The findings were the result of several months of exhaustive research work, done for the committee by Joseph A. Crumb of the statistical department of the University of California. According to Crumb, the returns from the Pacific Coast in proportion to governmental expenditures here have been considerably above the average.

NEGLECT REVEALED

"An analysis of governmental expenditures on the development of rivers and harbors in the United States," said Crumb, "will disclose that one of the most important maritime problems facing the United States is a scientific and consistent policy in the matter of water ways improvement in proportion to their relative importance and return on the investment made.

"Such a study will reveal a great neglect of the Pacific Coast; that in fact it has consistently run behind in the matter of Federal support. On the other hand, the return for the money invested has been considerably above the average.

"It is a distressing commentary on the government's policy in rivers and harbor development that the Mississippi basin has received more than half of the appropriations made for all geographic divisions of the country and at the same time the return on this money has been practically negligible."

FIGURES GIVEN

Crumb presented figures and charts to back his statements. He showed that there has been no uniformity in the distribution of funds over the different areas during twenty-five years. Expenditures were given as follows.

The Mississippi River system, 40.3 per cent; the Atlantic Coast, 24.2 per cent; the Great Lakes, 13.3 per cent; the Pacific Coast, 12 per cent; the Pacific Coast, 9 per cent, and Territories and possessions, 1.2 per cent.

The resulting value of commerce in these different sections showed that the Atlantic led in both tonnage and value; the Great Lakes was second in tonnage but third in value; the Pacific Coast was third in tonnage but second in value; the Gulf Coast was fourth in both tonnage and value, and the Mississippi River system was fifth or last in total commerce from both standpoints.

COMMITTEE PLANNED

As a result of the meeting, a committee will be formed to take up the continuation of the research with the object of presenting data to Congress and asking for more adequate support of the rivers and harbors of the West.

Norman F. Titus, assistant manager of the McCormick Steamship Company and representative of the local Chamber of Commerce, was chairman of the meeting, with C. A. James of the Los Angeles Chamber of Commerce, as secretary. Other speakers on the program were Capt. W. V. E. Jacobs of the Coast Guard service, who told of the work being done by that organization and of its needs, and Col. Thomas B. Estey, Pacific Coast representative of the Inland Waterways Corporation, who spoke on "Government Aid in Inland Waterways Transportation," and told of how freight can be carried by inland waterways from the Pacific Coast to any point in the Middle West at a 30 per cent cheaper rate than by rail."

MEETING TODAY

Represented at the meeting were members of chambers of commerce, boards of trade and similar organizations from the West Coast.

The delegates will remain in San Francisco for the opening tomorrow morning of the fourth annual convention of the Pacific foreign trade council at the Hotel Whitcomb, which will continue for three days. Prominent bankers, manufacturers and shipping representatives will be in attendance.

One of the features of the foreign trade meeting will be a discussion of the need for credit extension in making shipments to foreign countries. Wallace W. Mitchell, export manager of the Standard Sanitary Manufacturing Company, will preside at the group conference under the auspices of the National Association of Credit Men, in joint session with the foreign trade convention. William Fisher, president of William Fisher & Co., and Harry J. Harding, vice-president of the Oakland Bank, Oakland, will speak.

SURVEY APPROVED TO ELIMINATE GRADE

[BY A. P. NIGHT WIRE]

SACRAMENTO, March 3.—Authorization of a survey of a proposed alternate location for the Coast highway making possible elimination of the present San Juan grade in Monterey and San Benito counties, was announced today by the California Highway Commission.

HIGHWAY COMPLETION SOON

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3. With the promised completion of the Cariboo Trail motor highway to the Fraser River Canyon and through to Prince George, word comes from McBride, B. C., seventy-five miles from Jasper National Park, that work on the connecting highway between the park and Prince George, paralleling the line of the Canadian National Railway, along the Fraser, is expected to be pushed to completion early next summer.

SHOES BOUGHT EVERY MONTH

Footwear of Palm Beach Women in Luxury Class

Total of 323,553,055 Pairs Made in America

Most of Export Trade Done With Cuba

BY FREDERIC J. HASKIN
[EXCLUSIVE DISPATCH]

WASHINGTON, March 3.—The latest shoe statistics compiled by the Department of Commerce seem to contradict the general impression, gained by observation and reading advertisements, that practically the entire population of the United States has been converted into rolling stock.

The production of boots and shoes in the United States for 1925 amounted to 323,553,055 pairs. Besides these we imported 1,984,863 pairs. These imports came from England, Canada, Germany, Japan, Switzerland, Austria, and Turkey.

Our consumption was estimated at about two and one-half pairs per person, the women averaging considerably higher than the men. In the resort sections like Palm Beach, for example, the women bought on the average of one pair of shoes every four weeks. Here shoes fell out of the classification of apparel into the luxury and accessory class. Fancy shoes to fit milady's costume are built for looks rather than wear. These are referred to as millinery footwear, for, like the hat, they must match or complement the gown or suit.

Of the 323,553,055 pairs of shoes manufactured we exported 6,874,601 pairs, or a little over 2 per cent.

CUBA IMPORTS 50 PER CENT

The Cubans came in for the lion's share and on the sidewalks of Havana and other island towns about 50 per cent of our exported shoes wended their busy and, no doubt, often uncertain way. Mexicans came second and between revolutions many a peaceful American shoe must have led a hectic life skinning itself on cactus plants as it dodged bandits and outlaws. Canada and the United Kingdom ranked a conservative third, while the remainder was divided among the rest of the ninety-five countries to whom we export.

The growth of American export trade is good from the American standpoint and from the foreign one as well. From a purely artistic angle, however, it is going to cause some readjustments. It will not be long before we must substitute our mental picture of Hollanders clumping around in queer wooden shoes with a more modern visualization of chubby Gretchens mincing along in the latest word in New England millinery footwear. The dainty Japanese butterflies are fast discarding their scuffy sandals for American versions of Parisian novelties. It is probably only a matter of time before intrepid explorers, penetrating the fastnesses of the African jungles, will come upon husky female cannibals, clad in painted stripes and Brockton brogues, doing their stuff around a missionary stew.

The output of the boot and shoe industry was valued at well over $900,000,000. The wage earners' share amounted to some $250,000,000.

The original cost of shoes is supplemented by expenditures for upkeep and repair. Establishments engaged primarily in the manufacture of blackings, polishes, stains, and dressings reported productions valued at nearly $26,000,000. No figures are given for shoe laces, buttons, and ornaments. The present popularity of fancy buckles and jeweled heels adds greatly to the original investment and might be classified as upkeep.

RUBBER HEELS

To protect this footwear from the elements, sandals, galoshes, and even boots must be reckoned with. Another item is that of rubber heels and soles. These play quite as important part in the ups and downs of pedestrianism as pneumatic tires play in motoring. Approximately $4,000,000 pounds of crude rubber went into the production of these pedal extremity casings and shock absorbers, representing a total output value of over $123,000,000.

The shoe industry has become more and more widely distributed over the country. Of the 1542 factories on record 587 are in Massachusetts, 314 in New York and 181 in Pennsylvania. Wisconsin, Missouri, New Hampshire, Ohio, Illinois, and Maine rank next in order.

LAND CONTESTS LOOM IN WESTERN STATES

UTAH COMMISSION WARNS OF NEED FOR LEGISLATION ON SCHOOL GRANTS

[BY A. P. NIGHT WIRE]

SALT LAKE CITY, March 3.—Unless relief is given by Congress at the present session this State faces 800 contests over school-land titles, and all public land or Western States are in the same position, W. Hal Farr, Deputy State Attorney-General, said in a report made public today by the State Land Commission. Mr. Farr made an effort to secure favorable action by Congress on a bill intended to remedy the situation.

At present there are five bills before the Public Land Commission and Mr. Farr said in his report he has been asked to redraft a bill embodying the major features of these measures. In his report Mr. Farr urges all public land States to impress upon their Congressional representatives the urgency of action at this session of Congress. He particularly mentioned Oregon, California and Montana.

In a report from the Interior Department, it was noted, 206 school sections are now in contest and 693 sections are being investigated to determine their mineral character, with a view of contesting their grant to the State.

INDIAN CHIEF KILLS RIVAL STOREKEEPER

[BY A. P. NIGHT WIRE]

WINSLOW (Ariz.) March 3.—Charles (Indian) Miller, an Apache Indian chief who has a widely known desert zoo and curio shop at Canyon Lodge, near the Grand Canyon, today shot and killed Elmer Cundiff, another storekeeper there. Miller said he shot in self-defense after Cundiff entered his home and declared he intended to kill Miller.

HERO CRAFT LOST AT SEA WITH CREW

Sardine Fishing Schooner Union No. 1 Fails to Come Back With Rest of Fleet

[BY A. P. NIGHT WIRE]

SAN DIEGO, March 3.—Fears for the safety of the forty-foot sardine fishing schooner Union No. 1 with its crew of seven men, were expressed today when the craft failed to return from the banks with the other vessels of the sardine fleet.

The Union No. 1 figured in a sensational sea episode a month ago when its crew rescued the schooner Elmar forty miles off Point Loma. A sea cock on the Elmar dropped off, flooding the craft at 2 a.m. The crew of the Union No. 1 sighted the frantic waving of a lantern on the Elmar and sailed to the rescue.

Officials of the San Diego Packing Company expressed the belief that a broken crank shaft may have been responsible for the failure of the Union to reach port.

All fishing craft leaving for the banks last night were requested to keep a sharp lookout for the missing schooner.

An instrument on which can be played music for violin, alto and violoncello was recently exhibited in Paris.

Pasadenan's Kin Drowned When Boat Capsizes

[BY CABLE AND ASSOCIATED PRESS]

VANCOUVER (B. C.) March 3. H. L. Bunnell of this city, and C. J. Rayner of Blaine, Wash., were drowned when their small launch was caught in a whirlpool at the mouth of Action Sound on the northern British Columbia Coast, it was reported here today.

The pair were on a timber cruising trip for a Vancouver firm. Efforts had been made to find them since February 2, when Bunnell's wife at Pasadena, Cal., reported that his mother was seriously ill there.

COOLIDGE GETS SMILES

Carload Sent by Stockton Rail Clerks Augmented on Way

[BY A. P. NIGHT WIRE]

WASHINGTON, March 3.—An imaginary carload of smiles sent President Coolidge by railway clerks in Stockton, Cal., arrived today.

A waybill, carried across the continent by freight conductors, was left at the executive offices by Frank Wahl, secretary and treasurer of a railway clerks' lodge here.

As the regular waybill for "100 pounds" of smiles crossed the country hundreds of railroad workers attached their names.

Some of them sent a message to the President, a group of night workers in Chicago, asking "how about beer and light wines for the thirsty?"

HOT WATER
WITH A
HUMPHREY *Automatic* WATER HEATER
The World's Best-Built Heater

Supplies hot water cheaper and better than any other method. All you do is, turn a faucet and it heats the water HOT, on the run—any time—night or day for any purpose. There is no waste of gas with a HUMPHREY, you pay for only what you use.

"The smoothest running stock car I have ever driven!"

Harry A Miller
Builder of Miller racing cars

AUBURN 8 EIGHTY EIGHT

THIS unqualified endorsement comes from Harry A. Miller, the celebrated builder of scores of racing motors, a man who certainly knows what successful motor performance is like.

Harry A. Miller made the above statement after driving an Auburn Straight Line Eight Sedan at all speeds from 5 miles per hour in high gear over the Ridge Route, to 70 miles per hour on the straightways. He was so favorably impressed with the remarkable demonstration of Auburn smoothness and power, that he forthwith purchased the Auburn Sedan.

He said, "The Auburn is so marvelously balanced and hugs the road so closely that I took turns at 60 miles per hour without it showing the slightest tendency to leave the road. I think the Auburn Straight Line Eight with its powerful motor, balloon tire equipment and equalized four-wheel brakes, is the smoothest-running, easiest-handled and safest car, with beauty and comfort combined, for all kinds of driving."

MINNIE FLYNN

by FRANCES MARION

THE CAST

MINNIE FLYNN, known to thousands of movie fans as June Day, a famous star, is a red-headed polite ex-shopgirl elevated to fame through a whim of Beauregard, a producer, and the genius of Hal Deane, a director. Divorced from Bill MacNally, a butcher's boy, she plans to marry Gilbert Carlton, a fashion-plate leading man. Her earnings are the mainstay of her numerous family; she squanders money, ideals, love and youth like water.

MICHAEL FLYNN, her father, a nondescript plumber, who loves only his family and his work and knows neither.

"MA" FLYNN, Minnie's mother, the result of a poverty-stricken marriage.

PETE FLYNN, Minnie's eldest brother, a bullying toady; just graduated from a job as her chauffeur and now her self-appointed business manager.

NETTIE FLYNN, Minnie's only sister, another whining parasite.

JIMMY FLYNN, youngest son; a happy-go-lucky kid.

BEAUREGARD, a producer, to whom Art means Sensuality.

ALICIA ADAMS, an extra girl whose lack of scruples brings an acceptance of Beauregard's offer of movie fame, if—

GILBERT CARLTON, debonair clothes model, who has reached to stardom in the movies; utterly selfish and self-centered, thoroughly commercial and possessed of an absolute ego. Minnie is his latest conquest.

HAL DEANE, noted director, who has through his own genius brought Minnie to fame and fortune, and who is in love with her.

HORACE G. WATSON, self-appointed representative of "New York capital," supposedly financing Minnie's latest cinematic venture.

Within voice range of the spielers' megaphone, Minnie and Gilbert found a huge show place: of bastard architecture and with a stupid conventional garden, cluttered with plaster statuary. The house itself looked delightfully like a grimacing face, in bas-relief on the side of a hall. The Flynn's all thought it was delightfully conspicuous, Michael Flynn alone was daunted by the price of it—$100,000.

Minnie laughed when the color drained from her father's face. "Poor papa! The movies will be the death of you yet! But, really, dear, there's nothing to worry about. It's a bargain and we only have to pay $10,000 cash. Think of it—why, it's almost absurd, so little down and three years to pay it in. You don't seem to realize that I'm making $260,000 a year! If I have a good break in my pictures, I'll double my salary at the end of my contract." She was looking at her father and wondering why he had aged so in the last few years with nothing to do but enjoy life, with more than plenty to eat, and the fun of watching her skyrocketing success. Minnie had never been aware of how shabby and insignificant a figure her father was until she saw him against the background of the drawing-room of this enormous, garish house. They stood in the empty room under the sparkling glass chandelier. The walls were covered with heavily embossed gold paper. Over the carved fireplace hung a Louis XV gilt mirror. Gilbert was saying:

"You'll have to sell that old stuff in your house, June, because this must be furnished absolutely true to period, Louis XV in this room. In the music room beyond, you can have a slightly Chinese motif if you want. I don't deplore the lack of the conventional in the sun porch or music room. In fact, speaking of Chinese, I'm going to do my room entirely in the oriental tone, huge carved teakwood—the old teakwood, you understand—none of this terrible stuff you see in these tourists' hotels. I'm going to put my order in right away. In fact, it wouldn't be a bad idea if you would open an account at Marsh's. They've got the only stuff in town I'm interested in."

Minnie wasn't listening to him, she was still looking at her father. His clothes were always shabby, and he would never wear gloves to hide his gnarled, veined hands. He stood there awkwardly fumbling an umbrella, which was bright and shiny against the frayed coat. Above his collar protruded his neck, red grooved, with sparse, mouse-colored hair growing unkempt upon it. His head kept jerking back as if Gilbert's words were hands flecking the tip of his nose. Minnie wanted to do something, say something which would take that beaten look out of his eyes. She floundered hopelessly. "Papa, we're going to fix you the most wonderful room of your own—a room fit for a king!"

"Please don't spend any more money on me, little girl."

"Listen to him, Gilbert. And nothing I could do would be half good enough for him!"

Gilbert's foot was tapping the floor, but he had made up his mind to be patient with Minnie's stupid affection for her father.

"Oh, papa, I've got it!—A job for you! I want you to go down in the basement and see what kind of a layout we've got in the plumbing line. There ought to be some wonderful water heaters in this house, and you heard what the agent said about the gas furnaces being the finest that money could buy."

A timid smile flickered on Michael Flynn's face. "There's one thing I can say for this house, Minnie—the man who done the plumbing job knew what he was about. Them tubs and showers and toilets has the very latest fixin's. There's too many of 'em for a place this size, but they're all up to date and work without a hitch."

Minnie felt triumphant. "You see, papa, it's going to keep you busy looking after the plumbing, and think what your experience is going to save me."

"They do charge somethin' fierce out here for just the ordinary work that I ain't too old to do myself." Michael Flynn was warming up to the subject. "I guess it won't take me no time to learn how to run them patent furnaces. My old boss used to say I was the smartest plumber in his shop when it come to workin' out any new——"

Carlton said, "S-sh!" because the agent was approaching. It jarred on his esthetic nerves to listen to this jargon which belonged to a past he wanted to forget.

* * *

In the weeks that followed, there was a noticeable change in Michael Flynn; he was busy. He had an excuse to keep out of sight. He wore overalls and carried a tool kit. His face was smeared with grease. Minnie often heard him whistling, as he disappeared down the steps into the vaulted basement, and she smiled, her father had come into his own at last. She kept his mind off the approaching wedding by giving him complete charge of the wiring for the electrical display. They were to be married in the home, and it was to be a brilliant affair. Mrs. Flynn told the reporters they were planning to spend at least a thousand dollars for decorations and supper; two thousand for the bootleggers' best! Two orchestras had been engaged: a Hawaiian orchestra for the early hours of the evening, the jazz band to arrive at midnight. Her daughter's wedding gown was made by the studio wardrobe department and cost eight hundred dollars. The bridal veil was of real old Spanish lace. She didn't know how much they had paid for that, but some big sum, no doubt, because a queen had once worn it. The reporters hid their smiles when they asked her if it wasn't rather unusual for the bride of a second marriage to wear the conventional virginal white satin and bridal veil. It was Mrs. Flynn who smiled. She asked: "Isn't it conventional for a widow to wear mournin' for her second husband if she wants to?"

As the day for the wedding drew near, Minnie was troubled. She was more in love with Carlton than ever, she could forgive his selfishness, and his egotism, but a specter crept into the waking hours of her nights to warn and terrify her: was he marrying her only because of her position? Did he really love her? Were his protestations sincere? How would he treat her after they were married? What of the sly suggestive glances she had seen exchanged between Gilbert and Alicia Adams? One evening when Jimmy had been drinking more than usual, he had blurted out his fierce resentment against Gilbert. He didn't mind Beauregard's claims to Alicia Adams, he had a right to her favors, seeing that he had made her a big star, but Alicia had no business starting a flirtation, especially when Gilbert had such a classy girl as his own sister. How this confession terrified Minnie! She felt as one does in a nightmare, as if she were standing on the brink of a precipice waiting with growing terror for the long, slow, spinning fall through space. Carlton was ugly when she questioned him about it. Said her nasty suspicions irritated and shamed him. He flung out of the house and though she searched for him all night, she could not locate him. She telephoned to the home of Alicia Adams, but there was no answer. She never knew that Gilbert and Alicia were laughing at the futile ringing of the telephone bells.

Another installment of this interesting serial will appear in The Times tomorrow.

NOTICIAS MUNDIALES DE ULTIMA HORA

Atendiendo a la importancia que tiene el estudio del español en los Estados Unidos, particularmente en esta gran metrópoli tan inmediata a territorio hispanoamericano, diariamente aparece en "The Times" esta sección española con algunas interesantes noticias de ultima hora. Tres veces por semana se insertará una lección práctica elemental de castellano, y los lunes encontrará el lector dos lecciones para estudiantes adelantados.

A cuantos deseen aumentar sus conocimientos de español les conviene leer esta columna todos los días.

NOTAS TELEGRAFICAS

Noticias de Washington

WASHINGTON, Marzo 3.—Se ha hecho ya público el programa de cinco años de construcción para la aeronáutica militar.

La comisión militar de la cámara rechazó la proposición de que fuera creado un negociado de defensa nacional.

Se le ha concedido su baja, por haberlo solicitado así, al teniente Leigh Wade, uno de los aviadores que volaron alrededor del mundo.

El ministro Kellog se negó a decir a la comisión de Relaciones Exteriores del Senado porqué se le impidió la entrada a la condesa Karolyi.

Dijo el presidente Eastman, de la Comisión del Comercio entre Estados, que no hay ni que pensar que pueda haber falla alguna en la decisión relativa al fusionamiento del Nickel Plate.

Dijo el Presidente Coolidge a los representantes de los terratenientes, que confiaba en que el congreso votaría en este período eficaces medidas de alivio para la agricultura.

Los Católicos Dirigen una Instancia a Calles

CIUDAD DE MEJICO, Marzo 3. Con motivo de los actos del gobierno hostiles a la iglesia católica, fué enviada al Presidente Calles la siguiente carta de protesta por el Comité Regional en Méjico de la Asociación de Damas Católicas, una de las más poderosas y ricas instituciones católicas del país:

"Al Presidente de la República:

"Sintiendo que se nos ha lastimado en nuestro más íntimos afectos, nos permitimos llamar respetuosamente la atención de usted hacia el hecho de que, so pretexto de cumplir con la ley, ésta ha sido violada.

"Han sido expulsados sacerdotes extranjeros, siendo así que, cuando más, podrá prohibírseles que oficien; pero no puede atentarse contra su presencia en el país. Han sido cerrados seminarios, colegios particulares, y, últimamente, templos, a pesar de que no están prohibidas dichas instituciones por la constitución.

"Se han adoptado al efecto sistemas violentos y crueles, infringiendo así la garantía fundamental otorgada por el artículo XVI de la constitución, que dice: 'Nadie podrá ser molestado en su persona, familia y residencia, ni en sus papeles y posesiones, salvo en el caso de orden escrita expedida por autoridad competente y que exprese la base y motivo de la legalidad del procedimineto.'

"Se ha violado hasta el extremo el derecho de protesta y defensa, como se vio claramente cuando, lejos de dárseles audiencia, fueron cobardemente maltratadas mujeres de todas las clases sociales, que habían formado una comisión pacífica para abogar por la revocación de una orden injusta.

"Ha sido puesta en ridículo la soberanía del pueblo, así como el carácter democrático representativo que debía corresponder al gobierno, de acuerdo con la constitución; puesto que sería absurdo que el pueblo, católico en su gran mayoría, estuviera persiguiéndose y tiranizándose a sí mismo.

"Todas estas violaciones han provocado indignación, no sólo entre los católicos, sino tambiún entre gente que profesa otras religiones.

"Respetuosamente suplicamos a usted libre urgentes ordenes para que sean devueltos la iglesia de la Sagrada Familia y los otros templos e instituciones que han sido injustamente cerrados; para que no se violen las garantías constitucionales; para que no se ultraje el sentimiento público; y para que no se haga uso de procedimientos vergonzosos que rebajan el prestigio de Méjico ante todo el mundo civilizado.

"Rogamos a usted se sirva dirigir su respuesta a la 'Unión de Damas Católicas de Méjico.'"

NOTAS LOCALES

Sesión para Discutir lo de la Fuga de Presos

El Sheriff Traeger y el "supervisor" Bean han roto lanzas con motivo de la fuga de ocho presos de la nueva cárcel del condado, desde la inauguración de ésta, hace unas cuantas semanas. Con tal motivo está anunciado para hoy un mitin de la Junta de "Supervisors", el que se cree tendrá por resultado enviar un ultimátum al Sheriff, intimándole que corrija la negligencia que reina en el manejo de la cárcel y los presos.

La ruptura entre los dos funcionarios del condado se produjo ayer, cuando Traeger manifestó a Bean que los periódicos habían expresado fielmente sus palabras, al decir que no se le había consultado acerca de los planos para la construcción del local destinado a cárcel, sino hasta después de haberse terminado el edificio.

El Ayuntamiento Aprueba que se Haya Cerrado la Frontera

La moción del concejal Randall, por la que se aprueba la orden del Presidente Coolidge de que se cierre diariamente a las seis de la tarde la línea fronteriza internacional en Tijuana, fué adoptada ayer por el Concejo, a pesar de las objeciones del munícipe Barnes, que manifestó sería mejor dejar este asunto en manos de las autoridades federales.

Charlas Infantiles para Chiquillos de Escuela

NUMERO 152

"¿Qué te pareció el cuento del árbol de Navidad en el bosque, Rosita?" ("How did you like the story of the Christmas tree in the woods, Rosie?")—"Me gustó mucho y te aseguro que quisiera haber estado en el lugar de los niños Harwoods ("I enjoyed it, and assure you that I wish I had been in the Harwood children's place) para haberme paseado en el bosque el día de Noche Buena y haber adornado y cargado de juguetes y golosinas el arbolito. (In order to have strolled in the woods on Christmas Eve and decorated the little tree and loaded it with toys and goodies).

—"Yo también quisiera haber estado allí, porque me gustan mucho los montes, los árboles y la nieve, y desearía vivir en una comarca fría" (I wish I had been there, too, for I like the hills, the trees and the snow very much, and should like to live in a cold country").

CLOG REPLACES CHARLESTON

Mount Holyoke College Girls Take up New Dance Fad

[EXCLUSIVE DISPATCH]

SOUTH HADLEY (Mass.) March 3.—The girls of Mount Holyoke College have discarded the Charleston that intriguing step which has taken so many valuable hours to acquire, for clogging. Those Charleston fans who come to the newly organized clogging classes to jeer, remain to adapt themselves to the latest fad.

A Wednesday afternoon clogging class is conducted weekly at Mount Holyoke under the auspices of the Department of Physical Education. Instructors are taxed to the utmost to impart the knowledge which the college girls suddenly crave.

PRODUCTION OF OIL IN ARGENTINA INCREASES

REFINERS' SESSION HEARS SPEAKER RELATE NEW DEVELOPMENTS

[BY A. P. NIGHT WIRE]

FORT WORTH (Tex.) March 3. Argentina as an oil-producing country is coming rapidly to the fore and although the republic's two fields at present produce only a tenth of the crude consumption of that nation, progress there is such that they eventually may reach the export stage. This was indicated by a paper read before the Western Petroleum Refiners' Association convention here yesterday afternoon by Leonidas Faermann, New York representative of the Argentine government's oil fields.

Both of the fields are in Patagonia, the southern part of the republic. The larger is the Comodoro Rivadavia field with an output of 22,500 barrels a day of which 16,500 barrels belongs to the government and the balance to private companies, including two Argentine concerns, the Standard Oil Company, the Anglo-Persian Oil Corporation, Royal Dutch and some English concerns.

More than 400 wells have been drilled in this field and less than 5 per cent have been dry holes. There are 250 producing wells in the field today.

The other and newer field is at Plaza Huincul. The government here has a reservation of 100,000 acres with a production of 1000 barrels a day. Recently a 1500-barrel well was drilled, indicating the main producing area has not been developed, Faermann stated.

SHAKESPEARE STUDENT DIES

[BY CABLE AND ASSOCIATED PRESS]

LONDON, March 3.—Sir Sydney Lee, famous as an authority on Shakespeare, died today.

SHIPPING and Los Angeles Harbor NEWS

NEW RUMOR OF SHIP RATE WAR

Conference Reported Verging on Dissolution

Shipping Board Peace Effort Proves Futile

Middle of Month Expected to Witness Break

The regular intercoastal conference is again on the verge of dissolution and rate wars and rumors of wars again impend, according to word from New York following a final effort by the Shipping Board to harmonize the conference lines with the independents.

Present indications, it is said, point to a hopeless deadlock, and unless radical changes of opinion take place, the opponents will go their separate ways to a crisis in the lucrative trade.

Final action is looked for about the 15th inst., as at that time the conference rule goes into effect permitting members to serve only fifteen days' notice of withdrawal from the conference. That several such notices may be filed that day, is said to be probable.

Independents are, reported to have held out at the Gotham meeting for differentials before joining the conference group, and to have objected to the rule whereby a single vote may veto any new proposal, even if agreed to by all other member lines.

It is reported that nonconference lines are far from agreement even among themselves, while the conference lines are again operating as amicably as possible under the strain of vigorous competition from without.

It is said the intercoastal lines, which maintain upward of 140 ships averaging 10,000 tons each, are so highly competitive that freight rates today are practically the same as in 1915, although operating costs have doubled.

The conference comprises: American-Hawaiian, Panama-Pacific, United American, Luckenbach, Munson-McCormick and Dollar. The nonconference lines are Garland, Panama Mail, California and Eastern, Quaker, Pacific Caribbean and Gulf, Williams and Transmarine.

ANTIAIRCRAFT GUNS IN FREIGHTER'S HOLDS

Fourteen five-inch anti-aircraft guns are in the holds of the Williams Line freighter Willfaro, in yesterday from the east coast, and will be discharged at Bremerton to be mounted on dreadnaughts of the battle fleet this summer. They are said to be of the type spoken of with alarm by the British press last week as secret and ominous, but which have been common knowledge in America for more than a year. The West Virginia has been armed with eight such guns for more than three months.

On the decks of the freighter also were two east coast fishing boats, used in season in the oyster trade and off-season to carry watermelons. They are said to resemble Algerian types of craft and as such will be used in James Cruz's filming of Algerian scenes in "Old Ironsides."

The vessel also is discharging 1800 tons of package merchandise and will sail north with 5200 tons more tonight. When she left Philadelphia she had six feet of snow on her deck.

Pier A, Wilmington, also was the scene of unusual unloading activities with seven ships alongside. The Shipping Board tanker Meton was discharging 500 tons of cocoa from the Philippines; the Sudbury 2000 tons from the east coast; the German steamer Sachsen discharging 3000 tons from Europe, and the Harvard, Ruth Alexander and Admiral Farragut discharging and taking on both passengers and freight.

Bids calling for a 60,000 yard fill back of the Los Angeles Athletic Club lease east of Fish Harbor, were opened by the Harbor Commission yesterday, with two companies bidding. The F. C. Franks Construction Company bid 29 cents, proposing to obtain materials from the center of Fish Harbor. The San Francisco Bridge Company bid 34 cents on the same site and 46 cents if the material was taken from East Basin.

Capt. Claude S. Cochran, former commander of the veteran Coast Guard cutter Bear, according to report, will again command that craft when she departs in May on patrol duty to Bering Sea on her last voyage. The craft is now in command of Capt. Leon C. Covell, and is at Craig's yards at Long Beach repairing.

The Dollar globe-circling liner President Van Buren will arrive Sunday, one day ahead of schedule and will depart for San Francisco at noon Monday, instead of Tuesday noon as scheduled, according to George G. Neill, district passenger agent. The liner is on her eighth consecutive circuit of the globe, and has upwards of 100 passengers aboard. Thirty will disembark here and an equal number take passage.

Nine liners are due Saturday, the London Importer and the Pacific Trader of the Furness Line, operating between the Pacific Coast and Europe; the Calawaii from Hawaii, the Bolivar and the Motezuma from San Francisco and several coastwise passenger vessels. The last two are en route to Mexican west coast ports.

More than 1,000,000 barrels of oil have gone out from Richfield Oil Company's Long Beach loading station since it opened three months ago, while more than 25,000 tons of gypsum have come into the neighboring port for the Standard Gypsum Company's new plant, from San Marcos Island, Mexico.

Four typical internal combustion ships were in port yesterday, all leaders in their classes. They are the American-Hawaiian freighter Missourian, largest intercoastal Diesel; the tanker J. W. Van Dyke, first Diesel electric tanker, recently converted for the Atlantic Refining Company; and the Norwegian freight motorships Handicap and L. A. Christensen. The former is loading 100,000 cases of kerosene and gasoline for the Orient under charter to the Dollar Line, while the latter stopped here only for bunkers, en route from Europe to the Northwest in ballast to load lumber.

SAFETY SCHOOL CAPACITY TAXED

Lectures' Attendance Shows Rapid Increase

Chamber Institution Largest West of Milwaukee

State Official Gives Talk on Accident Prevention

Attendance of the fifth annual Industrial Safety School of the Los Angeles Chamber of Commerce is increasing so rapidly that today the school is the largest ever conducted west of Milwaukee and Chamber of Commerce facilities are being taxed to accommodate the crowds attending, declared C. J. Elsasser, chairman of the school, at last night's sessions. The school listed 850 attendants as against 750 the week before and 500 February 17.

J. E. Olmstead, California Industrial Accident Commissioner, who lives in San Francisco, will address the general sessions next Wednesday night, Mr. Elsasser announced. Last night, E. G. Shiebley, superintendent of safety department of the State commission, was the general-sessions speaker. He emphasized the necessity of "clean housekeeping" in accident prevention.

Geoffrey Edwards, in the construction and allied industries division, emphasized the fact that "the foreman holds the key to safety." He pointed out that this division of employment offers the greatest per-capita accident average in the State.

Refineries were discussed in the petroleum division. The metal-working division, under direction of J. A. McCone, assistant superintendent of the Llewellyn Iron Works, considered "Safe Practices in Fabricating and Erecting Structural Steel."

The foreman's responsibility was discussed in the woodworking and lumber division under the leadership of E. R. Maule, manager of the sash and door department, Hammond Lumber Company.

H. N. Beecher, chief inspector, department of electricity, city of Los Angeles, spoke before the electrical division on "Electrical Hazards and Their Prevention." In the textile division. Henry Louis of Brownstein-Louis Company discussed "Safety and Efficiency Requirements of the Garment Industry." Laundry workers heard H. M. Wolflin speak on "Safety Operation of Machinery," and "The Foreman's Duty in Safety Work" was emphasized before the all-trades division by E. B. Lefferts.

"PLEASE STAY IN OUR NEW JAIL"

Judge Offers Bonus for Prisoner Who Won't Break Out

"I want you to be a good boy and not break out of jail before next Thursday," Said Judge Burnell yesterday to Joe Pladgett, who had pleaded guilty to violating the State poison law.

"If you promise, I won't send you to the big house. You won't have to stay if you don't like it; you can leave the way the rest do."

Pladgett was directed to serve one year and one day with the understanding he is to go to the county road camp.

Rail Company to Open New Office Here This Week

The San Diego and Arizona Railway Company will open a new office this week at 511 South Spring street, it was announced yesterday by F. B. Dorsey, traffic manager. Dorsey also said that beginning April 2, transcontinental freight rates via his railroad will apply to all points north of San Diego on the Santa Fe. C. F. Matlin has been named commercial agent of the company here.

The railroad, with the Southern Pacific and Rock Island, operates the Sunset route, San Diego to New Orleans, and the Golden State route, San Diego to Chicago, via the Carrigo Gorge and Imperial Valley.

DEFENSE IN EUREKA MURDER TRIAL RESTS

[BY A. P. NIGHT WIRE]

EUREKA, March 3.—The defense rested its case today in the trial of Jack Ryan for the murder of Carmen Wagner, 18-year-old Eureka hair-dresser, found slain in a canyon seventy miles east of Eureka last October. The prosecution began the introduction of rebuttal testimony. The case will likely go to the jury early next week. Jack Ryan was one of the last witnesses for the defense.

Boarding and day pupils received any time. Catalogue. Address Mr. C. M. Wood, Supt., R. D. 2, Box 61-T, Pasadena. Tel. Fair Oaks 380.

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour acid, gassy stomach, and relief will come instantly.

Better Than Soda

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle

Insist upon "Phillips." Twenty-fice cent and fifty-cent bottles, any drug store.—[Advertisement.

WINS COURT AS OWN COUNSEL

Girl Obtains Reduction of Charge

Mary Schunure

MARY SCHUNURE, 18 years of age, did such a good job of pleading in her own behalf before Judge Hahn of the Superior Court yesterday that the court arbitrarily reduced the price of the $1000 stolen coat she received from a male friend to $50 and thus made the charge against her a misdemeanor instead of a felony. She had been accused of receiving stolen property.

The young woman told the court that she knew absolutely nothing of the coat's antecedents, that she accepted it in good faith, that she had a child to support and that her husband had left her. She brought witnesses to testify to her good repute and the court finally consented to reduce the charge. She pleaded guilty to the misdemeanor charge and will be sentenced Friday.

MEYER WITNESS IGNORED

Defense in Millinaire Divorce Row Spirngs Surprise by Refusing to Question Co-respondent

Another surprise was occasioned yesterday in the trial of the suit brought by Mrs. Kittie Meyer to set aside property conveyances to her husband, J. Meyer, South Pasadena millionaire, when attorneys for Meyer declined to cross-examine George A. Keller, co-respondent in Meyer's divorce suit against Mrs. Meyer, and who appeared unexpectedly in Judge Craig's court Tuesday afternoon as a star witness for Mrs. Meyer.

On the witness stand Keller had corroborated part of Mrs. Meyer's statement that her husband had induced her to enter into illicit relations with Keller as part of an asserted plot to obtain divorce evidence against her and defraud her of the community property.

Attorneys for Mrs. Meyer spent most of yesterday's sessions attempting to prove that Meyer's home in South Pasadena was occupied during August, 1924, when Mrs. Meyer was said to have been in Europe. Keller had testified Tuesday that after he had put Mrs. Meyer aboard a steamer at New York, he had returnd to Los Angeles, and, together with his wife and Mrs. M. J. Lynch, a friend of his wife, had lived in Meyer's home for a period of several weeks.

Mrs. Lynch corroboratd this testimony yesterday and told of one occasion when a mysterious woman had dinner with them in Meyer's home as Meyer's companion. She said later in the evening she and other guests departed for a swimming party at the beach, leaving Meyer and his companion at home. Snapshots of Mrs. Keller and Mrs. Lynch, said to have been taken at the Meyer home, were introduced to further the plaintiff's contention that the home was occupied during this time.

Meyer is scheduled to take the stand this morning in rebuttal of the testimony given by Keller and was on the stand for a brief period yesterday prior to the examination of the Meyer children.

BACK PLAN OF CLOSING LINE EARLY

San Diego Mayor's Border Committee Asks That 6 p.m. Regulation Continue

[BY A. P. NIGHT WIRE]

SAN DIEGO, March 3.—Continued effort to keep the border at Tia Juana closed from 6 p.m. to 8 a.m. will be made by the Mayors' citizens' border committee, it was announced tonight, following a meeting of the executive committee of that organization in the Mayor's office. Petitions signed by city and county officials and heads of civic organizations will be sent to the United States Treasury Department urging a continuation of the 6 p.m. closing regulation, the creation of a separate customs district here, and the appointment of an American Consul at Tia Juana.

These petitions will be accompanied by affidavits depicting alleged vice conditions below the border.

Mayor Bacon personally sent the Treasury Department a telegram declaring that the closing of the border at 6 p.m. has been a godsend, lessening drunkenness and traffic violations on the Tia Juana highway. He added that attempts to have the border left open later each evening are stirred up, he believes, by Americans interested in gambling and vice in border towns.

"FIRST YEAR" FARE AT THE BOULEVARD

"The First Year," Fox Films version of John Golden's successful stage play of the same name, which is now playing at the West Coast Boulevard Theater, is an enjoyable comedy drama of family life.

Matt Moore is cast as bashful Tommy Tucker, who becomes the groom, and Kathryn Perry as Grace Livingston, the bride.

Gene Morgan and his Boulevard Orchestra provide the necessary musical entertainment.

ICE PALACE DEDICATION GALA EVENT

Four Thousand Persons See Fancy Skaters in Tricks at Pleasure Mecca

Los Angeles last night gayly opened the city's latest pleasure mecca, practically a capacity crowd filling the huge area of the Glacier Ice Palace, a $200,000 ice-skating rink at Van Ness avenue and Clinton street.

Fur coats and skating costumes were the dernier cri last night and as the spectators flocked to the large ice surface to give it its premiere test a little imagination would carry one to the frozen lakes of the Middle West and the East.

More than 4000 persons were present at the opening, the boxes lining the rink being filled with beautifully dressed women as well as men in evening clothes and skating costumes.

A diversified program of entertainment was offered and especially pleasing was the work of the various fancy skaters brought here for the opening night. Single and double numbers were offered by trick skaters, a form of entertainment that has heretofore been available to the cold countries alone.

One of the interesting features was a hockey match between two picked teams.

Bert Crossland and his snow men furnished music during the entire evening playing for the various events on the entertainment program and continuing when the ice was thrown open for use of the spectators. A large number of those present enjoyed short periods of skating before the evening ended.

SEWING SOCIETY TO LUNCH

The Associated Manufacturers will serve luncheon to the Loyal Women's Sewing Society at their meeting tomorrow at Patriotic Hall, 1816 South Figueroa street.

GOVERNOR DISPROVES CRITICISM

Tells Imperial Valley Club He Never Named Judges to Sit There, as Implied

[EXCLUSIVE DISPATCH]

EL CENTRO, March 4.—Denying that he has at any time appointed outside judges to preside in Imperial Valley, Gov. Richardson has written a letter to the American Conservation Club asking that it amend its recent resolution in so far as it implies criticism of his office.

The Governor's letter is in answer to a resolution adopted by the Conservation Club in January which charges that all Southern California judges are influenced by "Mexican land syndicates and power corporations," and requests that northern county judges be named in the future to preside in special cases in Imperial county.

Following is the Governor's answer:

"American Conservation Club, A. B. Kellogg, Secretary, El Centro, Cal.

"Gentlemen: I have your resolution wherein you say that you 'honestly plead with the Governor of California as to the assigning of judges of Riverside and Los Angeles counties, that they refrain from assigning judges to try Imperial legal actions.' Your resolution seems to imply that I have designated judges to sit in Imperial county in the disputed case of which you complain. A careful examination of the records in my office does not show that any outside judges have been authorized by me to sit in Imperial county. Judges Freeman, Thompson, Burnell and Jennings were not sent to Imperial county by me.

"I am glad to have your resolution as an indication of the action you recommend provided I am asked to designate judges for your county. As your resolution seems to imply a criticism and the assumption of facts that are not true, I would like to have you amend it in that particular.

"With kindest regards, I am, yours insecerely,

[Signed]

"F. W. RICHARDSON."

CHINESE IN TOILS AFTER FIRING GUN

Hong Shon, Seeking Only to Rescue Countryman, Finds Himself Arrested

The oriental mind has a hard time viewing matters in the same light as does the occidental mind, and Hong Shon very likely is still trying to figure out why he was arrested by the police last night for filling the air with .38-caliber bullets in going to the rescue of a fellow-Chinese who cried for help.

Officers Hoy, Murphy and Bowers of the police vice squad were watching an asserted Japanese gambling house on San Julian street last night. The customary native look-out was nowhere to be seen. Suddenly, however, a Chinese was seen to turn in at the door and shuffle up the stairway.

The officers followed a few stairs up. The surprised Oriental let out shouts to the effect that he was being waylaid. Hong Shon, answering the cries, was out in the street and emptying his revolver up the stairway. The officers hurried up. Finding the rooms unoccupied they tumbled out into the hall and down the back way. They were met by another fusillade of shots from more Chinese in the back yard.

After the smoke cleared away the officers found Hong Shon and arrested him on a charge of discharging a firearm in the city limits.

PAIR SEIZE MONEY FOR FAKE CRASH

Driver Tells Police How Two Men Ran Into Him Then Grabbed Damages

John W. Weber, a negro, of 919 East Thirty-sixth street, was forcibly made to hand over to two modern Shylocks on wheels all the cash he had in his pockets for asserted damages sustained in an automobile collision at Seventeenth street and Grand avenue last night.

Weber told the police at Central station that his car and a car in which two men were riding came together. The pair leaped out of the car and demanded compensation for damages to their car, asserting that Weber was to blame. Weber denied responsibility. The two claimants, however, pounced upon the protesting colored man and took $22 away from him, he said. They then drove away.

Robert Scott in Chicago for Murder Trial

[BY A. P. NIGHT WIRE]

CHICAGO, March 3.—Robert Scott, who had been serving a sentence in San Quentin penitentiary in California under the name of John Redding, was brought back to Chicago today to stand trial for the murder of Joseph Maurer, a drug clerk, a crime for which his brother Russell was convicted and escaped the noose by pleading insanity.

William Scott Stewart, criminal lawyer, who saved Russell from the gallows three hours before the death march, made two ineffective efforts in Scott's behalf. He applied for a writ of habeas corpus, naming Chief of Police Collins, and when Collins appeared and said he did not have the prisoner he asked another writ naming the State's Attorney. By this time, however, Scott had been given into the custody of the Sheriff and lodged in the County Jail.

Scott was identified not only as a participant in the drugstore hold-up in which the drug clerk was killed, but also as a participant in four other robberies.

WINNERS AT PRINT SALON DESIGNATED

Artists From All Over World Represented at Museum Exhibition

The seventh international print makers' exhibition is now on view at the Los Angeles Museum in Exposition Park. This collection of etchings, block prints, lithographs and wood cuts includes the work of artists in all parts of the world. It is brought together annually by the Print Makers Society of California, of which Benjamin C. Brown of Pasadena is president and Howell Brown of Pasadena is secretary.

The exhibition includes more than 450 prints. A number of prizes are given each year in addition to gold, silver and bronze medals. The jury of award for the present exhibition included Miss Frances H. Gearhart, Mrs. Nelbert Chouinard, Roi Partridge, H. L. Doolittle and John C. Austin, chairman of the art committee of the Los Angeles Chamber of Commerce.

The awards were as follows: The gold medal offered by the Los Angeles Chamber of Commerce to A. Rigdon Read of England, for "Carcasonne;" the silver medal offered by the Print Makers' Society of California, to Ernest D. Roth, of the United States for "Ponte del Paradiso," and the bronze medal, similarly offered, to Ernest W. Watson of the United States for "Misty Morning."

The Huntington prize, provided for by the late Mrs. Henry E. Huntington, and given to the best etching of the exhibition, was awarded to Sidney Tushingham of England, for "Gateway, Hampden Court." The Storrow prize for the best block print, was awarded to Gustave Baumann of the United States for "Summer Clouds." The Buma prize of $100, divided between landscape and figure, was awarded as follows: To E. G. Earthrowl of England for the landscape "Bathing Huts on L'Authie," and to Ethel Gabain of England, for "Un Monsieur." The Mr. and Mrs. William Alanson Bryan prize for the best American print was given to John Taylor Arms for "From the Ponte Vecchio."

The exhibition will remain during the entire month of March. The museum is open daily from 10 to 5 o'clock, with the exception of Wednesday afternoons.

VITAL NEED OF FORESTS POINTED OUT

G. H. Barnes Addresses Mt. Washington Center on Planting of Trees

George H. Barnes, president of the American Reforestation Association, last night addressed the Mt. Washington Educational Center, 3880 San Rafael avenue, using for his topic "Reforestation as to Health, Wealth and Prosperity of the Country."

Mr. Barnes pointed out the similarity of the trees functioning to the earth and that of the human heart to the body.

"The tree is vital to our water supply, food, air and general prosperity," the speaker stated.

As evidence of the relationship between trees and the water supply, Mr. Barnes cited the water shortage of last year and added that destruction of trees means undermining of water sources. He pleaded for a systematic replanting of trees over the denuded mountain areas and for the conservation of trees in parks, roadsides and streets.

Following Mr. Barnes's talk, the Mt. Washington Educational Center adopted a resolution indorsing the work of the American Reforestation Association. Music was provided by Paul Mattersteig and other artists from the Los Angeles Philharmonic Symphony Orchestra.

Star and Mother Recovering From Severe Illness

Mrs. Sadie Miller, mother of Patsy Ruth Miller, screen actress, seriously ill with pneumonia at her Beverly Hills home, was reported as much improved last night by the film star, who also has been confined to her home the past few days suffering from an attack of pleurisy.

Miss Miller and her mother were taken ill while in San Francisco, where the screen star was to make a personal appearance Saturday at the opening of a new theater. Miss Miller was forced to cancel the engagement and both were returned to their home here. Miss Miller has sufficiently recovered from her illness to be up and around, but her mother is confined to her bed. Dr. William Branch is the attending physician.

Ford, in Havana, Denies Plan to Grow Own Tires

[BY CABLE—EXCLUSIVE DISPATCH]

HAVANA, March 3.—"I am here only for pleasure," Henry Ford, here on his yacht, said this morning. He denied that he is here to obtain land for a rubber plantation to attempt to grow his own tires.

"Harvey Firestone and Thomas Edison are not with me. I left them both in Florida. I am transacting no business in Havana at all," he said.

He admitted, however, that he has heard something about a projected air route between New York and Havana, but does not know whether it is more than a rumor.

RAILWAY SHOPS BURN

[BY A. P. NIGHT WIRE]

CHANNING (Mich.) March 3. The Chicago, Milwaukee and St. Paul Railroad shops and roundhouse were burned last night, with loss of $500,000.

The New BRUNSWICK

Price $600 Terms, if desired

Panatrope

The music reproducing Masterpiece of the Century

Priced reasonably $400 $600

No words can describe it. Those who have had the privilege of hearing it say: "It's better than the original." It reproduces every known musical vibration with such absolute fidelity that it has amazed and astonished the music world—it costs you nothing to hear it.

To hear it is to want it—to want it is a virtue, and it can be purchased on easy monthly payments, if desired.

GILMORE ISSUES ANNUAL REPORT

Slight Decrease in Surplus Shown in Past Year

Decline Due to Low Price of Refined Products

Good Liquid Position Shown; Total Assets Large

Total surplus of the Gilmore Oil Company for the year ended December 31, last, after giving effect to last year's operations, amounted to $679,592.35, as compared with a surplus of $757,994 in 1924, a decrease of $78,402, according to the annual report of the company to be issued at the stockholders' meeting on the 16th inst.

While the surplus in 1925 shows a slight decrease from the previous year, the decline is in line with a general decrease in revenue shown by practically all marketing organizations in 1925, due to the low price of refined products during the year.

ASSETS LARGE

Total assets of the company at the end of 1925 amounted to $6,006,259.42. Current assets were $1,062,572.31, which compares favorably with current liabilities of $323,973.87. The satisfactory liquid position of the company is shown in the items of accounts receivable and inventories. After eliminating all doubtful accounts, net accounts receivable were carried at $328,253.51. Total investories of oil and other products, based on cost or market price, amounted to $454,552.08.

The Gilmore Oil Company is the largest and oldest independent marketing organization in Southern California, serving at present approximately 500 independent service stations, an increase of about 150 during the past year. The company owns a total of twenty-eight producing wells, and recently contracted for the crude oil production of twenty-six new wells in the Signal Hill field over a period of years. Other sources of crude supply will be acquired in the near future.

TWO REFINERIES

Leased properties of the company include 107 acres producing, 2560 acres undeveloped and 120 acres undeveloped in proven fields. The company owns fifteen acres in Los Angeles county, two refineries in Los Angeles district, general office building at Vernon, bulk distributing stations at Los Angeles, Fresno, San Bernardino and San Diego, tank farm at Hynes, casinghead plants at Maricopa and Salt Lake field, and seventy-eight motor vehicles and fifteen tank cars. The company controls a casinghead plant at Long Beach.

Production of the company in 1925 amounted to 122,000 barrels. The bulk of crude oil run through its refineries, which have a daily capacity of 6000 barrels, is purchased under contract. Sales of gasoline for local distribution in 1925 amounted to 21,195,000 gallons, a substantial increase over 1924. A considerable quantity of refined products is exported by the company to the Orient and countries bordering on the Pacific Ocean.

MITCHELL MINIMIZES DROP

National City Head Asserts Effect of Stock Break Nil; Foresees Era of Branch Bank Expansion

BY EARLE E. CROWE

Stepping consecutively into the characters of an economist, a banker, an authority on credit, and an investment dealer, Charles E. Mitchell, head of the financial organization grouped around the National City Bank of New York, commented yesterday upon some of the ramifications of business today with the directness and the clarity one would expect from a man of his stamp.

His observations first were concerned with an analysis of the significance behind the break in the stock market that should effectively dispel the fears of the timorous. And probably of equal interest, perhaps even holding an element of surprise for his friends in California, were Mr. Mitchell's remarks on branch-banking development.

Just before leaving for Santa Barbara, and after having been in constant communication with his New York office, Mr. Mitchell had definitely formulated his opinion of the market. In concise language he counseled the public to look at the collapse in security prices as the corrective process following overspeculation, and not as the forerunner of industrial depression.

PRICES READJUSTED

"I know of nothing," he said, "nor do my friends in New York with whom I am in hourly touch, that would seem to me to justify at all any such market declines as have taken place in the past few days, other than that the public has somewhat overdone the bidding up of stock prices and the economic forces are at work correcting the levels.

"The upswing carried prices too high. This little swing the other way has already doubtless carried prices in some cases too low. I only hope that market swings of this character will not appear too significant to the public mind. If properly weighed, their effect upon industry should be nil."

In reply to a question concerning excessive speculation Mr. Mitchell went still deeper into the subject to explain the basis for such breaks in security prices. He answered with a brief analysis of speculation in the last year.

"Let us recall that the advances that took place in stock prices during 1925 were justified in the large majority by the improving condition of the physical properties, their earning power and the general improvement in trade conditions. Continued advancing prices day by day and week by week result in a great and constantly increasing public interest that often is stimulated by the gambling spirit rather than by intelligent thinking and cool heads.

"The entry of such a public opinion is dangerous, for it usually carries the market level higher than justified, and in the readjustment makes easy the attack of bear operators.

"In such times as we have gone through in the last few days it is seasonable for buyers of securities to remember that the sound investment issues show the least fluctuation."

BRANCHES INEVITABLE

Bearing in mind that Mr. Mitchell is president of the largest bank in the United States, and that the statement has been made that the New York banks are strongly opposed to the rise of branch-bank systems in the interior, his remarks that follow are freighted with significance. Evidently he foresees the day when branch systems will become the accepted form of banking.

Speaking more on the trend, rather than expressing an opinion of existing practice, he said:

"In the history of the development of the United States the unit system of banking has been a very important constructive factor. In a country now broadly developed and with its division of agricultural and industrial activity largely established by climate and economic desirability, the need of unification and integration in the banking system, to the end that it may more intelligently and adequately serve the country's interests, becomes increasingly apparent.

"The tragedies that follow in the wake of the failures of small banks, operating with inadequate capital in sections that are producing a single product or crop at times when such crop is bad, continually emphasize the advantages of the branch-banking system that are fostered by practically every country of matured financial judgment.

"While not a thing to be pressed, I feel very certain that we in America will inevitably trend toward a branch system versus the present unit system, and I regard the McFadden bill as representing the tottering and possibly faulty steps of the branch-bank child that eventually will come to the full strength of manhood.

"It may be slow in development and wisely, too, perhaps, because men's minds are not one on this subject as yet. There should be sufficient practice to justify conviction of the wisdom of increasing the field of branch-bank operation."

TIME IS FACTOR

Having received his first business training in the office of the general credit manager of the Western Electric Company, and later, as assistant to the president of the Trust Company of America, Mr. Mitchell is familiar with credit practice as both a business man and a banker. With that background, his comment on installment buying, coming from the president of the National City Bank, is particularly timely and helpful.

"Installment buying," he explained, "means a pledging of expected future income for the gratification of a desire of the present. It is not like buying a piece of machinery that by its own productive operation will bring the means by which the delayed payments will be made. It usually occurs in the purchase of things that are not productive in themselves, and that rapidly become less valuable with use. The person who buys on installment that which in itself is not productive of wealth is justified so long as the income which he pledges is positively assured to him. But most of us really cannot see far into the future— a few brief months at most—and when we go beyond in prognostication we are foolish; we are gamblers in a danger zone.

"The element of time, then, is the yardstick by which safe and unsafe installment buying may be measured. When beyond the safety line, it constitutes an over expansion of credit, and it should be remembered that credit overexpansion has been at the base of most depressions."

CUSTOMER OWNERSHIP

By way of preamble to Mr. Mitchell's discussion of the customer ownership of securities, perhaps it is fitting to outline his achievements in the field of investment banking. He resigned from the Trust Company of America in 1911 to study foreign finance, and upon his return from Europe, organized his own investment banking company of C. E. Mitchell & Co. When the National City Bank decided to enter investment banking, Mr. Mitchell liquidated his own business to become a vice-president of the National City Company. In the same year, he stepped up to the presidency.

Talking, then, as an investment banker, he said:

"California has shown to the country the desirability of customer ownership of securities and the way to bring it about. I think we can agree that in America our thinking is influenced in no small degree by our pocket books. The millions who bought Liberty bonds were made safe from the depredation of anarchistic appeal. The millions who have since purchased railroad and public utility securities have made themselves immune to the enticing appeal of Socialism, to the dangers of State and municipal ownership and operation wherein politics have their sway and waste and inefficiency usually prevail.

"The millions who are today part owners of utilities and industries to whom by virtue of such interest they will give their custom, insisting always on high efficiency, have because of their investment become advocates of the rights of property and the freedom of corporations from confiscatory attack.

"The increasing size and importance of this throng of investors is one of the most encouraging factors of the times, assuring as it does a continuance of the fundamental fair principles upon which American enterprise and industry have found their being."

Charters Will Organize Fruit Sales Company

George A. Charters, originator of the Sunkist advertising plan and for twenty-five years prominently identified with the fruit business, has resigned as vice-president of the Stewart Fruit Company to head a new marketing organization for the sale of fruits and vegetables on an f.o.b. basis. The new organization will be in operation within sixty days.

Mr. Charters was associated with the California Fruit Growers' Exchange for twelve years, part of which time he was general Eastern manager with headquarters in Chicago. Later he served with the General Sales Agency as managing director of sales on both the East and West Coasts.

Officials of the Stewart Fruit Company stated yesterday that the vacancy caused by Mr. Charters's resignation would be filled at the next meeting of the board of directors of the company.

SEES NEED OF ORDERLY MARKETING

McNaughton Says Uniform Live-Stock Values Result from Central Selling

Orderly marketing of live stock originating in the section contiguous to Los Angeles in the last year has resulted in uniform values and almost complete absence of erratic fluctuations, according to a statement made yesterday by J. A. McNaughton, vice-president and general manager of the Los Angeles Union Stockyards, in commenting on the record-breaking receipts of live stock at the yards last month.

"The level of values during recent months," Mr. McNaughton said, "has been the highest since the post-war period on the Pacific Coast, although there have been some exceptions to orderly marketing of cattle during the last year, when artificial means were used in an attempt to thwart the law of supply and demand.

"Despite the warning of both packers and commission men last spring to ship stock to market when ready, interests which had gained control over large numbers of cattle refused to let them move to market when a real active demand existed. This resulted in a temporary boom in prices, but the reaction was severe, for cattle which should have moved off the grass in May and June were dumped onto the market in July and August when the market could absorb only the normal number of cattle.

"However, with the single exception of the summer period, when cattle were forced on packers, the market was uniform throughout the year. It is a fact that during the remaining months of the year, the big majority of cattle slaughtered in Los Angeles were handled through the Los Angeles Union Stockyards and the stability of the market during that period is proof of the value of orderly marketing through a central clearinghouse."

ORGANIZE FEDERAL INVESTMENT TRUST

Securities of New Firm Expected On Market in Few Days

The first Federal foreign investment trust, provided for by the Federal Reserve Act and subject to the rules and regulations of the Federal Reserve Board, is under process of organization, according to reports from the New York financial district. It is expected that securities of the new corporation will be offered to investors within the next few days.

Among those said to be concerned with the new investment corporation are Paul Klopstock, president of the Foreign Trade Securities Corporation, Ltd.; F. J. Lisman, of F. J. Lisman & Co.; James T. Monahan, vice-president of the Chatham Phenix National Bank of New York; Alfred O. Corbin, of F. J. Lisman & Co.; Julian Gerard, president of the National American Bank, New York; Chas. A. Marshall, of Rearick, Dorr, Travis & Marshall; Jeremiah W. Jenks, economist and president of the Alexander Hamilton Institute; A. De Sola Mendes, vice-president and treasurer of the new company, and Edward Froede, its vice-president and secretary.

The new investment trust will provide credits, it is reported, for municipalities, land banks, public utilities and old established industrial corporations for periods exceeding the usual time limits fixed by commercial banking practice and in amounts too small for public offerings. It is thus calculated by the organizers of the trust that the capital will be turned over very rapidly, with commensurate earnings for the capital invested.

MERGER RAIL STOCKS DROP

Flood of Liquidation in Van Sweringen Project Group Results from Federal Board Decision

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Heavy liquidation of the so-called merger rails, as a result of the adverse decision of the Interstate Commerce Commission on a proposed new Nickel Plate consolidation, unsettled today's stock market, carrying prices down 1 to 33 points. Total sales reached the record-breaking volume of 3,785,700 shares, as compared with the previous record of 3,340,600 on November 10, 1925.

Closing quotations generally were around the lowest of the day, although strong banking support was apparent throughout the session for United States Steel common and a number of other high-grade industrials and rails.

With the exception of rubber, which broke 3.8 to 4.8 cents a pound, the principal commodity markets were relatively steady.

"NICKEL PLATE" LEADS

The Van Sweringen railroad issues, with the exception of Chesapeake and Ohio, whose minority stockholders successfully opposed the financial terms of the merger, were hard hit by the day's selling. "Nickel Plate" common, which did not make its appearance on the tape until the early afternoon, scored an extreme decline of 33 points at 130 on total sales of only 1600 shares. Erie common broke 10 points to 24 3-4 and the preferred issues about 6 points each. Pere Marquette common broke 12 3-4 points to 67, but rallied to 70 at the close. Chesapeake and Ohio common was bid up over 9 points to 122 3-8, but slipped back to 116½. The preferred closed about 3 points lower at 119 7-8 after having touched 124½.

Acute weakness also developed in a number of other rails, particularly those identified with other proposed consolidations. Pittsburgh and West Virginia fell 11½ points to 97½ and then rallied to 99, and net declines of 4 to 7 points were recorded by Atlantic Coast Line, Delaware and Hudson, Kansas City Southern, Louisville and Nashville, "Katy" common, Missouri Pacific common, Frisco common, St. Louis Southwestern and Texas and Pacific. Losses in New York Central, Pennsylvania, Canadian Pacific and several other high-grade shares were held to a point or less.

INDUSTRIALS BREAK

High-priced industrial specialties also broke rather precipitously in the last hour of trading. American Can dropped from an early high of 315 to 290 and then rallied to 291, where it was off 23 points from last night's close. General Electric slumped from 324½ to 302 and then rallied to 305, off 14½ net. Among a dozen or so other issues to show net declines of 6 points or more were Hudson Motors, Internal Combustion Engineering, Belding Bros., Burns Brothers A, McGrory Stores "B," National Tea and United States Cast Iron Pipe.

Call money renewed at 4½ per cent, as compared with 5 yesterday, and 4½ the day before, holding steady at that figure all day. Time money and commercial paper rates were unchanged.

Weakness of the Scandinavian currencies featured the irregular foreign exchange market. Demand sterling ruled slightly higher around $4.85½, and French francs rallied over 5 points to around 3.74 cents in reflection of Premier Briand's latest legislative victory. Norwegian kroner broke 30 points to 21.18 cents.

FARM OUTLOOK BEST SINCE WAR

Santa Fe Reports View for 1926 Optimistic

Better Conditions in World, Cause of High Spirit

Trade Expansion Throughout Year is Predicted

Based on the more prosperous era for industrial life in the United States and on a more settled outlook abroad, there is considerable foundation for the great spirit of optimism that prevails among the farmers of the country today, according to the March report of J. F. Jarrell, agricultural manager of the Santa Fe, issued yesterday in President William B. Storey's bulletin.

Farmers of the United States are entering 1926 with a greater spirit of optimism than has prevailed since war times, the report states. Indications are that business will be good for at least six months, and, while some lines of business may slow up in the fall, it appears probable that a high rate of activity will rule all through the year.

The States served by the Santa Fe's 12,068 miles of lines, including California, Arizona, New Mexico, Colorado, Kansas, Texas, Oklahoma, Louisiana, Missouri, Iowa, Illinois and Nebraska, are the most prosperous and productive agricultural districts in the United States and face the current year with greater optimism than at any time in recent years.

There are 6,372,263 farms in the United States, an increase of only 75,735 in five years. Approximately 80 per cent of this increase has been in California and the other States traversed by the Santa Fe. The total value of crops produced in the States named, in 1925, exclusive of lemons, grapes, melons, vegetables and nuts, amounted to $3,834,018,000, or 40 per cent of all crops produced in the nation.

"Trade expansion is reflected in a general increase of building permits and postoffice receipts in nearly all of the large cities," the report says. "Oil and other mineral production was heavier in 1925 than in 1924, and the outlook for 1926 is encouraging."

MALLINSON PROFITS SHOW LARGE GAIN

Net profits of H. R. Mallinson & Co., Inc., for the fourteen months ended December 31, last, after depreciation and other charges, but before Federal income tax, were $649,957.65, including profits from the operations of the Erie Silk Mills and Pussy Willow Company, Inc., according to the annual report received yesterday by Blair & Co., Inc. This compares with a deficit of $161,454 reported for the preceding fiscal year.

Earnings in the fourteen month's period were at the annual rate of $2.50 a share on the 200,000 shares of no par value common stock. After deducting dividends paid on the 7 per cent preferred stock and after various deductions for reserves and adjustments, a balance of $318,613.81 was carried to surplus, making a total surplus, as of December 31, last of $3,501,668.73.

The Clearinghouse

News of Spring Street

G. R. Harney, at one time connected with Peirce, Fair & Co., in San Francisco, has been engaged to represent the bond department of the Bank of Italy in Pasadena and contiguous territory, according to an announcement made by the bank yesterday.

Mr. Harney has built up a large acquaintance in the communities in which he will operate and has had a wide experience in the bond sales business.

Midway Northern Pays

At a meeting of the board of directors of the Midway Northern Oil Company held on the 1st inst., the regular monthly dividend of 1 per cent, being dividend No. 50, was declared, payable on the 31st inst. to stockholders of record on the 20th inst.

STOCK MARKET CRASH TOPIC

Reasons for Drastic Slump of Last Few Days Held to be Abundant by Observer

BY PAUL WILLARD GARRETT

[EXCLUSIVE DISPATCH]

[Copyright, 1926, by New York Evening Post, Inc.]

NEW YORK, March 3.—The man who is long on stocks nowadays may know perfectly well that business conditions fundamentally are sound, but such knowledge will bring small comfort in a market such as we are now having. Nowhere in our financial annals has been recorded a period so disastrous to bull positions as was the closing hour yesterday.

That stocks had been pushed on to dangerously high ground in the bull market of 1925, many authorities felt, but the optimists somehow reckoned that a permanently improved basis for shares eventually would justify the rise. Recent market developments have left the financial community somewhat mystified, notwithstanding its very real fears that a severe break might come almost any time. Announcement of the denial of the Nickel Plate merger yesterday afternoon after the closing gong had been sounded in the New York Stock Exchange, but long before the ticker had ceased to report the unprecedented volume of final transactions, only added to the confusion. Here was one piece of news that the bulls figured would help to check selling by opening the way for future consolidations.

Experts of the financial community now are busily engaged in an analysis of the Nickel Plate decision, not so much for what they may learn upon the probable future of the railroads immediately concerned, or even of the carriers generally, but for light on the whole consolidation movement in industry. Stimulus for recent great advances in the stock market may be traced to the financial advantage of pending mergers in numerous cases.

For an explanation of the crash in stock prices it is not necessary, however, to cite the Nickel Plate decision of which the majority of persons in the market knew nothing, after all, until late yesterday afternoon or early this morning. Certainly it is too early to conclude that in its Nickel Plate decision, the government is aiming a blow at consolidations in general, and it would take no little stretching of the imagination to conclude that big combinations in industry, as a whole, now are to be frowned upon. Many will and many will not agree with the government in what it has decided about the Nickel Plate terms, but let it not be said from what has just happened that we are headed for a period of general opposition to an economic unification of great business units.

If general trade conditions continue to be satisfactory in general, why, it may be asked, is the market breaking?

Reason enough for some sort of reaction may be found in the very degree of rise that stocks had in 1925 and earlier in the present year. On the upswings, stocks generally move too high and on the downswings they usually drop too low. Many issues in the recent market got to levels not justified by even the most optimistic views of the future. In the present downswing it would be strange if many good stocks did not similarly find their way to the bargain counter. Some are very near there now, but it must be remembered that in any bear raid the good issues are pulled down with the bad.

EDISON AND OIL STOCKS IN DECLINE

Union and Associates Go Lower; Julian Preferred Strong, Common Off

Southern California Edison common featured a general decline on the Los Angeles Stock Exchange yesterday, moving off 6 points to 118 and closing at 119 1-4, a net loss of 4 3-4 points, with a large number of shares crossing the board. Edison 7 per cent and 6 per cent preferred issues, in sympathy with the drop in the common stock, lost 1-2 and 1 points to 110 and 97 respectively. Los Angeles Gas & Electric preferred closed fractionally lower at 97 5-8.

Julian Petroleum preferred was the only oil stock which showed strength, the balance of the list moving lower. Julian preferred opened steady at 30, advanced to 31 3-8, and closed at 30 5-8, a net gain of 5-8 of a point. Julian common closed a fraction lower at 8. Union Oil and Union Associates closed at 39 1-4 and 41, losses of 3-4 and 1 1-2 points respectively. United Oil broke 3 5-8 points to a close at 54 7-8, while Standard of California closed at 54 7-8, a net loss of 5-8 of a point. California Petroleum lost 3-4 of a point to 31 3-4, while Gilmore Oil closed 1-4 of a point lower at 12.

Bancitaly Corporation and Americommercial Corporation sold firm at 340 and 200 1-4 respectively, as did Bank of Italy at 440. Merchants' National sold at 317 1-2. Los Angeles Investment closed at 3.18, after selling firm at that figure during the day.

Western Lead closed 1 point lower at 2.20. North Star declined 1-2 of a point to 3 1-2. Boundary Cone advanced 1-2 of a point to 6 and closed steady at 5 1-2. Big Jim closed 1 point off at 14 1-2, while Gold Dust added 1-2 of a point to 6 1-2.

AMERICAN TELEPHONE PROFITS UP

Revenue of Bell System in 1925 Increases; Many New Connections Added

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Net income of the American Telephone and Telegraph Company for 1925 rose to $107,405,946 from $9[illegible]046,321 the year before, the annual report today reveals.

More than 813,000 telephones were added to the Bell system during 1925 and at the close of the year 16,720,000 telephones were interconnected. The system handles 50,000,000 tolls and exchange connections daily.

Total earnings of the company were $180,458,912, compared with $154,082,836 in 1924. This included telephone operating revenues of $86,584,623, dividends exceeding $75,000,000 on stocks owned and interest exceeding $18,000,000 on notes and advances on bonds owned, temporary cash investments and bank deposits. Balance of $26,360,620 remained after dividends at the rate of $9 a share, out of which $6,000,000 was appropriated for contingencies and $20,360,000 was carried to surplus. Capital stock of the company outstanding at the close of the year was $921,597,500, an increase of $33,119,400 for the year. There were more than 362,000 stockholders.

Day, on Return, Says Business Outlook Good

General business conditions throughout the country justify the promising outlook with which the New Year opened, and, despite some readjustments in security values which have resulted from speculation, business is reported generally good, according to a statement made yesterday by J. Dabney Day, president of the Citizens Banks, upon his return from Washington, where he headed a committee of California bankers in support of the McFadden bill before Congress.

"A determined effort should be made to have the Boulder Dam bill passed before Congress adjourns," Mr. Day said. "The convention of the American Bankers Association here this fall will bring several thousand of the country's most influential financiers, and the opinions and impressions they obtain will have considerable influence on the development of the Southwest. Provision must be made for our future water supplies."

Mr. Day spent three weeks in the East and in addition to Washington, visited other Eastern financial centers.

The United Oil Company
EARNINGS.

NET earnings of this Company for the year ended December 31, 1925, after depletion, depreciation, Federal Taxes and bond interest, amounted to $1,651,900.31, or 11 times interest requirements on the current issue of Serial 6% Gold Notes.

These earnings were made in the face of conditions generally unfavorable in the oil industry.

Moreover, the cost of oil lands and leases during the year, together with pipe lines, extensions to refineries, marine terminals and equipment, etc., amounted to more than $9,000,000, and only a small part of the benefits to be derived therefrom were reflected in the 1925 earnings.

With substantially increased production, much greater refining capacity, vastly improved distributing facilities, and higher prices for its products, the Company this year should show a very important increase in earnings.

All of which emphasizes the potentialities of profit in the conversion features of these notes.

Current prices provide a yield of 6% to 6.37%, according to maturity.

AMERICAN TELEPHONE PROFITS UP

Revenue of Bell System in 1925 Increases; Many New Connections Added

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Net income of the American Telephone and Telegraph Company for 1925 rose to $107,405,046 from $91,046,321 the year before, the annual report today reveals.

More than 813,000 telephones were added to the Bell system during 1925 and at the close of the year 16,720,000 telephones were interconnected. The system handles 50,000,000 tolls and exchange connections daily.

Total earnings of the company were $180,458,912, compared with $154,082,836 in 1924. This included telephone operating revenues of $86,584,623, dividends exceeding $75,000,000 on stocks owned and interest exceeding $18,000,000 on notes and advances on bonds owned, temporary cash investments and bank deposits. Balance of $26,360,620 remained after dividends at the rate of $9 a share, out of which $6,000,000 was appropriated for contingencies and $20,360,000 was carried to surplus. Capital stock of the company outstanding at the close of the year was $921,597,500, an increase of $33,119,400 for the year. There were more than 362,000 stockholders.

Day, on Return, Says Business Outlook Good

General business conditions throughout the country justify the promising outlook with which the New Year opened, and, despite some readjustments in security values which have resulted from overspeculation, business is reported as generally good, according to a statement made yesterday by J. Dabney Day, president of the Citizens Banks, upon his return from Washington, where he headed a committee of California bankers in support of the McFadden bill, now before Congress.

"A determined effort should be made to have the Boulder Dam bill passed before Congress adjourns," Mr. Day said. "The convention of the American Bankers' Association here this fall will bring several thousand of the country's most influential financiers, and the opinions and impressions they obtain will have considerable influence on the development of the Southwest. Provision must be made for our future water supplies."

Mr. Day spent three weeks in the East and in addition to Washington, visited other Eastern financial centers.

FIRM TONE ON COTTON EXCHANGE

Market Holds Steadier at Good Advance; Close Shade Off from High

[EXCLUSIVE DISPATCH]

NEW YORK, March 3.—The cotton market in the main showed a steadier tone today with prices at one time recording gains ranging from 19 to 28 points over yesterday's closing quotations. There was no specific fresh news on the general situation and outlook. The advance was brought about by a moderate amount of covering of shorts and some renewed buying by Wall-street traders and spot interests on what was termed an oversold market. Liverpool early cables were about unchanged from yesterday, having practically made a full response to our closing decline.

On the extreme advance March was carried up to 19.15 cents, May to 18.59 cents, July to 17.96 cents, October to 17.36 cents and December to 17.04 cents. These levels brought out considerable profit-taking by local traders and commission houses, as well as New Orleans and the South, with the market receding to 18.85 cents for March, May to 18.29 cents, July to 17.69 cents, October to 17.17 cents and December to 16.92 cents, a decline of 27 to 30 points on the near months and 12 to 19 on the distant from the above-mentioned highs of the day. Prices rallied about 7 to 14 points from this level by 1:30 p.m. and held around those quotations for the balance of the session. The somewhat steadier stock market was also a stimulating influence in tending to hold cotton prices firmer.

Exports of cotton today were 21,066 bales, up to 1:30 p.m., making the total from August 1 to date 6,091,039 bales, against 6,317,123 a year ago. Secretary Hester of New Orleans Cotton Exchange placed the fertilizer sales, inclusive of Arkansas, for seven months ending close of February, 1,430,779 tons, against 985,000 last year.

At Liverpool spot cotton declined 1 point to 9.81d for middling, with the day's sales 6000 bales, including 4000 American. Import arrivals were 8000 bales, all foreign product. Futures, after opening at 13 to 15 points decline, rallied in later trading, closing with net decline of 10 to 11 points on near months and 7 to 8 on distant for the day.

REPUBLIC RAILWAY INCOME INCREASES

With gross income of $1,079,786, only $12,332 above the preceding year, the Republic Railway & Light System reports $460,876 net earnings for January, last, as against $323,284 in January, 1925. The gain of more than 42 per cent in net earnings was accomplished through reduction of expenses made possible by the operation of the new power plant and other economies.

For the twelve months ended January 31, last, the system reports $11,326,856 gross, $4,319,273 net and a final balance of $1,141,769, comparing with $10,652,582 gross, $3,521,931 net and $712,763 final balance a year ago.

THE INVESTOR

Banking Business Becoming Too Competitive for Best Interests of Investor—Safety of Securities Sacrificed in Some Cases as Result—New Outlets for Nation's Wealth a Preventive

[EXCLUSIVE DISPATCH]

[Copyright, 1926, by New York Evening Post, Inc.]

NEW YORK, March 3.—That the banking business is becoming too competitive at the present time is the belief of some Wall-street bankers. They maintain that in a few instances companies have obtained loans and other credit, as a result of the prevailing systems, that do not carry the maximum of protection to investors.

This country of late has found itself faced with the question of how to spend its huge wealth. The layman simply deposits his surplus funds in the bank and expects that institution to find safe and proper use for it. Or he may purchase stocks or bonds, but in this also he must depend largely on the judgment of the banker, for who says what securities will be offered to the public but the banker?

The banker is anxious to employ these surplus funds to the best advantage, taking into consideration both yield and safety. But when he finds himself faced with a big demand for securities and the industries of the country well supplied with funds he is likely in some instances to be tempted to go just a little beyond the beaten path and accept issues that offer only modest margins of safety. Particularly is this true when his neighbor is in the same position and is competing with him for new offerings.

And here is where the harm of competition comes in. A prospective borrower approaches a banker for a loan. He may or may not include in his list of assets property of questionable value.

The first thing a banker usually does is to reduce these assets to bedrock value and then use the figures arrived at as a basis for a loan. If competition is not too keen, a deal may be consummated.

But, on the other hand, if the borrower knows he can go to another banker and obtain a larger loan on just as favorable terms there is always the temptation to do so.

Much of the enormous surplus of money in this country is being utilized—in most cases to a good advantage—in the formation of large corporations through mergers. Industries which heretofore conducted their business on individual capital or such credit as could be obtained at local banks are now coming to the large financial districts for funds.

Additional large amounts are flowing to other countries in the form of foreign loans and credits. In the foreign field the competition is much less severe and bankers are still able to conduct their business in a most satisfactory manner.

The American investor, however, is not yet thoroughly acquainted with foreign bonds and is attracted to them principally because of their high yields. The large number of foreign loans that have been floated in this country in the last year or so speaks well for the confidence of the investors in the country's big bankers though.

Were it not for such outlets for the surplus wealth of the country, it is likely that considerably more would have been heard long before th's on the evils of too much competition in the banking business.

IRON TRADE TREND HELD ON UPGRADE

Steel Mill Operations Reported Higher After Early Months

[EXCLUSIVE DISPATCH]

CLEVELAND, March 3.—More earnest efforts to bolster up prices on finished steel, which are generally unsatisfactory to producers, have followed the preliminary steps in this direction reported a week ago, says Iron Trade Review. Steel Corporation mills have brought out a new schedule on principal heavy products, such as plates, shapes and bars, and most leading independents have followed the same course.

This stiffer attitude of producers comes at a time when fresh business is showing renewed tendency to expand and the indifference and uncertainties of the last few weeks seem to be fading out. With spring in sight, new construction undertakings are shaping up more rapidly and the volume is favorable. The automobile industry is stepping up its activities and full production is expected to be reached by plants in the Detroit district in March, with one outstanding exception.

Steel works operations have moved up again after their recent fluctuations. Chicago and Pittsburgh are on a 90 per cent basis, while the Youngstown district has recovered from 75 to 80 per cent. The Steel Corporation continues at about 90 per cent.

February pig-iron production further reflected the interruptions or reductions growing out of the coal strike. On a daily basis it dropped to 104,337 tons, which was 2.5 per cent under January and was the lowest February rate since 1922. Total output for the shorter month was 2,921,449 tons, against 3,219,789 tons in January. Furnaces in blast at the end of February fell by two to 223, or 58.5 per cent of the full number. However, this loss was more than made up, as three furnaces have gone in during the last few days and others are in line.

With 20,000 tons for the Cleveland union station featuring structural steel awards of the week, were the heaviest of the year. They totaled 43,960 tons. Inquiry is active and spreading for concrete construction contracts and for reinforcing bars and this week were unusually large, totaling 8690 tons. Dullness is still the chief characteristic of pig iron.

The Iron Trade Review composite of fourteen leading iron and steel products this week is $38.90, compared with $39.17 one month ago and $41.13 a year ago.

Sharp Advance in Valuation of Mines of Utah

[EXCLUSIVE DISPATCH]

SALT LAKE, March 3.—Estimates of the value of the metal mines of Utah in 1925 show a valuation of $20,000,000 higher than the year before, according to Roscoe Hammond, secretary of the State Board of Equalization and Assessment.

Reports from all the mining companies are now in the office of the Board of Equalization and an early compilation just completed will show an assessed valuation of all of Utah's mining companies of approximately $68,413,114 for 1925.

The tentative valuation for taxation purposes by districts is as follows: Juab, $3,927,266, compared with $1,262,716 for 1924; Salt Lake, $41,440,440, as compared with $28,931,291 for 1924; Summit, $7,364,923, as compared with $8,405,420 for 1924; Wasatch, $6,168,133, as compared with $867,675 for 1924; Tooele, $375,991, as compared with $37,851 for 1924; Utah, $9,474,001, as compared with $9,400,188 for 1924.

Indications are that the net earnings of Utah's metal mining companies were around $22,804,371 last year.

WALL STREET PARAGRAPHS

Rails in Merger Projects Dumped on Board in Huge Blocks

[EXCLUSIVE DISPATCH]

[Copyright, 1926, by New York Evening Post, Inc.]

NEW YORK, March 3.—With the adverse Nickel Plate decision unsettling the merger rails, particularly those directly affected, and further heavy liquidation arising as a result of the severity of yesterday's decline and the absence of any rallying tendencies, the decline in prices was extended on the stock exchange in another 3,000,000-share day. The machinery was unable to keep pace and the ticker again was running far behind the actual market. Support was afforded some of the leaders, but it was not sufficient to offset the flood of selling. Van Sweringen rails, with the exception of Chesapeake and Ohio, were dumped over in huge blocks, and other so-termed merger rails were freely sold. Some industrials developed better resistance, but motors continued to meet with a deluge of selling to certain of the popular specialties tumbled badly, with American Can breaking below 300 for the first time since crossing that level. Utilities were in better demand, however, and the local tractions stood out as the day's strong features, moving sharply upward in response to distinct improvement in earnings.

Strong Support Appears

Soon after the opening it was reported that strong banking support would be extended to the leading shares and, that big interests were taking active measures to arrest the decline, was made apparent during the day. There was a highly irregular tone in the general run of stocks, but it was plain that selling in such pivotal issues as Steel common, Baldwin, General Electric, General Motors and the like was being steadily absorbed. Offerings at times were overwhelming, but on the whole these shares behaved in a manner indicating that the situation was well in hand. While the market was still visibly weak in spots, a much better tone was displayed in many of the industrials, particularly in some of the higher-priced issues like Allied Chemical, American Snuff, Commercial Solvents and Woolworth, which had been hard hit on the break.

Ray of Sunshine

A ray of sunshine broke through the dark clouds which blackened the financial horizon. Many observers whose memories carried them back to the disheartening days of March, 1920, recalled a situation at that time strikingly similar to that now prevailing. And it was a decision rendered by the Supreme Court which checked a then badly breaking market and turned prices upward in a rally that carried the averages forward some 25 points from the low of the decline. At that time all eyes were on the Supreme Court, which had before it for decision the matter of stock dividends. The market had been subjected to heavy liquidating and little hope was held out for a real recovery. But the decision of the court holding stock dividends nontaxable turned the tide. The same observers were of the opinion that the Nickel Plate decision, being highly constructive in its bearing on the railroad merger situation in general, would prove a big bull argument when the present hasty liquidation had run its course.

Utilities Rally

Notwithstanding the verdict in favor of the company in litigation involving its offer of rights to the stockholders, General Gas and Electric "A" stock reacted sharply. Other utilities, however, were in strong demand, being regarded as comparatively cheap at levels to which they had dropped in the course of yesterday's hysterical selling. Public service of New Jersey, American Water Works, North American, Electric Power and Light and American and Foreign Power snapped back vigorously when it became apparent that strong support was being extended. Speculators who had sold for the decline made haste to take up their contracts, but much of the buying was for the account of traders whose liquid position made it possible for them to take advantage of the opportunity to acquire cheap stocks. General Gas "A" stockholders as a result of the favorable decision handed down by the courts will be entitled to take additional class "A" stock at $25 a share to the extent of the cash dividends due on the issue on April 1.

Selling of Motors

The bear party, flushed with victory, helped stabilize the general list for a time, through the procedure of reaping its share of the spoils by covering. That element kept a watchful eye for fresh indications of weakness, however, and did not hesitate to launch a new drive against the motors when that group showed signs of wavering. The more speculative issues in that quarter were singled out for particular attention, with Hudson again bearing the brunt of the attack. Concentrated selling uncovered further heavy liquidation, touching off stop-loss orders and driving the stock down close to the low levels reached on its precipitate break late yesterday. Chrysler was another issue in which necessitous liquidation was acute, one transaction involving a block of 13,000 shares carrying it down to the lowest levels since the present stock was issued. Jordan was pressed for sale and General Motors was reactionary along with Studebaker.

INSECTS ASSERTED TO ENJOY TOBACCO

[BY A. P. NIGHT WIRE]

SACRAMENTO, March 3.—Widespread use of tobacco as an insecticide does not prevent many insects from chewing tobacco and liking it, says Firman Thompson, chief of the State Department of Agriculture's division of chemistry. Some insects, for instance the tobacco beetle, like the weed so well that they are a source of grief and annoyance to cigar manufacturers. However, if a soft-bodied insect is bathed in tobacco juice he absorbs enough nicotine to paralyze and kill him. Hence the effectiveness of tobacco sprays against many of the plant pests encountered by California farmers.

YOUR INCOME TAX

[This is No. 3 of a series explaining the provisions of the 1926 Federal income tax law. The articles are supplied by the Bureau of Internal Revenue, Washington.]

If you are single and support in your home one or more persons closely related to you and over whom you exercise family control, you are the head of a family and entitled under the Revenue Act of 1926 to the same personal exemption allowed a married person, $3500. In addition a taxpayer is entitled to a credit of $400 for each person dependent upon him for chief support, if such person is either under 18 years of age or incapable of self-support because mentally or physically defective. Such dependent need not be a member of the taxpayer's household. For example, an unmarried son who supports in his home an aged mother is entitled to an exemption of $3500, plus the $400 credit for a dependent, a total of $3900. If from choice the mother lived in another city the son, although her chief support, would be entitled only to the $1500 exemption, plus the $400 credit. The mother not living with him, he is not considered the head of a family.

An exemption as the head of a family can be claimed by only one member of a household.

The $400 credit does not apply to the wife or husand of a taxpayer, though one may be totally dependent upon the other.

$350,000
Pacific Electric Railway Company
Refunding Mortgage 5% Gold Bonds
Dated March, 1911 Due Sept. 1, 1961
Interest Payable March and September First

The salient features of this issue are:

This issue of bonds is secured by a refunding mortgage on all the properties of the Pacific Electric Railway Company which operates 1130 miles of trackage and is the largest electric interurban railway system in the world. The territory served is uniformly prosperous with a constantly increasing population now estimated at over 2,000,000. The Company is constantly making substantial additions and betterments to its properties in the form of subway construction, improved terminal facilities and modern transportative equipment.

The Company has not created or sold to the public any issue of bonds since 1911 to take care of the enormous expenditures made to its properties necessitated by the growth of Southern California. These large expenditures have all been paid for either out of current earnings or advances made by the Southern Pacific Company, which company owns the entire outstanding $34,000,000 common stock of the Pacific Electric Railway Company. In addition the Southern Pacific Company as of December 31, 1924, owned $23,757,000 or 74% of the total outstanding $32,080,000 Refunding Mortgage 5% Gold Bonds due 1961 (this issue) leaving $8,323,000 bonds outstanding in the hands of the public.

The entire funded debt of Pacific Electric Railway as of December 31, 1924, was $56,007,000 and, according to the reports made to the California Railroad Commission, the sum of $95,142,183 has been invested in the Company's properties. In addition the Company has invested in affiliated companies the sum of $9,860,950, this item consisting principally of land or non-operative property, making a total of over $105,000,000 security for the total funded debt of $56,007,000 of which amount the Southern Pacific Company, as of December 31, 1924, owned $26,979,000 of 48% and guaranteed both as to principal and interest $5,811,000 additional outstanding bonds not owned by the Southern Pacific Company.

The following summarizes the growth of the Company's business for the past five years as indicated by the increases in both passenger and freight revenue and the percentage of freight revenue to the total revenue:

Years	Cash Passengers	Total Passenger Revenue	Freight Revenue and Percentage of Total Revenue
1920	84,492,579	$10,829,804	$4,079,055—27%
1924	100,917,063	14,044,010	6,096,296—30%

The Company is earning its bond interest requirements by a comfortable margin of safety.

For those investors who desire a long-time, seasoned, discount California public utility bond of a strong corporation, we recommend these bonds for investment at

80 and interest to yield 6.45%

COMPARE—

Security
Yield
Convenience

Then You'll Want

"CERTIFIED" FIRST MORTGAGES

A comparison of "Certified" First Mortgages, with other investment offerings from a viewpoint of security, yield and convenience, the three most important requisites of any investment, will convince you that "Certified" First Mortgages are the best of today's investment opportunities.

The security, an individual home or income property; new, well built and in a desirable location; property that you *see* and *select* and actually worth at least twice the amount of the mortgage, is just the kind of security you would want.

The yield 7% or 8% is exceptionally good when you consider the security you have and the convenience of the investment, for "Certified" First Mortgages are just as convenient as a Bond investment.

Let us explain in detail about these features and send you our complete list of over 100 mortgages in amounts of from $1500 to $20,000.

Call, write or phone.

BOND QUOTATIONS

Rails Collapse

[BY A. P. NIGHT WIRE]

NEW YORK, March 3. — The wave of liquidation which swept over the stock market today was extended to bond dealings, and prices plunged downward from 1 to 6 points in the most excited trading of the year. The so-called merger rails, whose rise over many months had been predicated on consolidation prospects, were the principal sufferers from the heavy liquidation which followed the Interstate Commerce Commission's rejection of the Nickel Plate plan.

Selling of the Erie Railroad issues, which were vitally affected by the collapse of the merger plans, reached unusual proportions with the turnover of the company's 6s, general, convertible and consolidated bonds, aggregating $1,500,000. The convertible 4s D crashed 6½ points to 76, and declines of 1 to 4 points took place in the other obligations. Nickel Plate 5½s broke more than a point, but Pere Marquette bonds held steady. Chesapeake and Ohio convertible 5s followed the rise in this road's stock, but after soaring about 10 points the bonds reacted and closed only 2⅛ points net higher.

Other railroad liens were dumped on the market in profusion with similar declines of 1 to 6 points, embracing Baltimore and Ohio, Chicago and Alton, St. Paul, Delaware and Hudson, Denver and Rio Grande, International Great Northern, Iowa Central, New Haven, New York, Susquehanna and Western, Peoria and eastern, Seaboard, Frosco and Wilkes-Barre and Eastern issues.

Indications were present that investment holdings were being liquidated to supply funds for distressed speculators in the stock market. Several large blocks of Liberty bonds and foreign government issues were thrown on the market at substantially lower prices.

As the selling movement gained momentum the quoted values of many semispeculative industrial bonds also melted rapidly away. Skelly Oil convertible 6s dropped 6 points, Wilson & Co. convertible 6s 5 points, and Virginia-Carolina Chemical 7½ per cent certificates four points. Acute weakness also developed in Anaconda and Andes Copper, Brooklyn Union Gas, Pacific Telephone, Pierce-Arrow, Republic Steel and Bethlehem Steel issues.

Despite the unsettlement of the bond market, the $36,000,000 offering for the Philadelphia Electric Power Company today was quickly oversubscribed. Public offering will be made tomorrow of $2,400,000 7 per cent Marine equipment, bonds for the Lloyd-Sabaudo Steamship Line at prices ranging from 96 to 100 for the various maturities.

Following are yesterday's high, low and closing prices of bonds on the New York Stock Exchange and the total of each bond.

SUGAR PRICES

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Raw sugar, unchanged; granulated, 5.15 to 5.25.

NEW YORK CURB

Pressure Eases

[BY A. P. NIGHT WIRE]

NEW YORK, March 3.—Heavy liquidation of public utilities again unsettled transactions in today's curb market, but better buying support was in evidence and declines were not as severe as yesterday. Several of the popular issues showed net declines of 1 to 6 points, but in many instances the low prices of yesterday were not broken.

Owing to the adverse decision of the Interstate Commerce Commission, trading in securities of the new "Nickel Plate" company, which the Van Sweringens had set up in connection with the plan and had been dealt in on a "when-issued" basis, was suspended by order of the board of governors. Failure of the plan to go through automatically cancels all transactions.

Selling of the public utility shares affected chiefly American Light and Traction, which closed 6 points lower; American Superpower B, down 4⅝, and United Light and Power off 5. In contrast to the general downward tendency of this group, American Power and Light gained more than 2 points on the day.

Banking issues also were weak, Continental B losing nearly 3 points, General Baking A 2 and the B 1½.

Declines of 1 to 2 points were recorded by various oil issues, Standard of Kentucky closing 3 points lower.

[Furnished by Logan & Bryan]

New Issue

$2,500,000

Cities Service Transportation Company

First Mortgage Marine Equipment 6% Gold Bonds

Dated March 1, 1926 Due March 1, 1936

Interest payable at the office or agency of the Company in New York City March 1, and September 1, without deduction for any Federal Income Tax not in excess of 2%. Coupon bonds in denominations of $1,000 and $500 registerable as to principal only. Redeemable as a whole or in part at any time on 60 days' notice (30 days' notice for sinking fund) at 103½, less ½ of 1% for each expired year or part thereof to March 1, 1933, and at par thereafter, plus accrued interest to date fixed for redemption. As provided in the Trust Indenture, the Company agrees to reimburse resident holders for payment of Pennsylvania, California and Connecticut Four Mills Tax, Maryland Four and one-half Mills Securities Tax, Michigan Five Mills Tax and Massachusetts Income Tax on interest not exceeding 6% per annum, upon proper application within 60 days after payment. Total amount of bonds authorized to be issued under the Trust Indenture, $5,000,000.

EMPIRE TRUST COMPANY, NEW YORK, TRUSTEE

A sinking fund will be provided sufficient to retire $100,000 principal amount of bonds per annum operating quarterly, beginning March 1, 1927, by redemption at the then current redemption price and/or purchase in the market.

Mr. Henry L. Doherty, President of the Company summarizes his letter as follows:

Business and Property Cities Service Transportation Company operates a fleet of tank steamers engaged in transporting crude oil and refined products principally from California and Mexico to refineries of affiliated companies located at Philadelphia and Boston, and also engaged in conveying petroleum products from time to time, to Europe and the Orient. The Company owns four tank steamers, HAGOOD and HALO, each of 10,000 tons; HADNOT and WATERTOWN, each of 9,300 tons, and has contracted to purchase another of 12,600 tons.

Security and Indenture Provisions These bonds will be secured, in the opinion of counsel, by a first mortgage upon the tank steamers "Hagood," "Halo," "Hadnot" and "Watertown" and upon the tank steamer presently to be acquired. The present market value of the tank steamers now owned by the Company and the additional tank steamer to be owned is approximately $3,500,000, based on the cost price of the additional tank steamer being purchased; and the reproduction cost new in the opinion of competent shipbuilders would exceed $5,000,000. The issuance of additional bonds under the Trust Indenture will be restricted by stringent indenture provisions.

Earnings For the twelve month periods ended November 30, 1925 and 1924, the earnings of the Company were as follows:

	1925	1924
Gross Earnings	$1,375,300.14	$1,211,535.82
Operating Expenses, Maintenance and Taxes	974,246.28	809,317.69
Net Earnings available for Interest and Reserves	$401,053.86	$402,218.13
Annual Interest charges on these bonds	150,000.00	

The above earnings for twelve months ended November 30, 1925, are more than 2.6 times the interest charges on these bonds. Such earnings include only four months of operations from the S.S. "Hadnot," which was purchased in August, 1925. On the basis of a full year's earnings from that ship at the current rate, together with the annual earnings expected from the additional ship now being purchased, the estimated annual rate of such earnings is 4 times such interest charges.

Management All of the Common stock except directors' qualifying shares, of Cities Service Transportation Company is owned by Cities Service Company. The operations of this company are supervised (under the direction and control of the Board of Directors of the Company) by Henry L. Doherty & Company.

All legal matters in connection with this issue of Bonds will be under the direction of Messrs. Chadbourne, Stanchfield & Levy, and Messrs. Freeauff, Robinson & Sloan, New York, N. Y.

This offering is made in all respects when, as and if issued and accepted by us and subject to the approval of counsel. Deliveries of said bonds may be made in temporary form.

Price 98¾ and Interest, to Yield about 6.15%

DIVIDEND NOTICE
Utilities Power & Light Corporation
7% Cumulative Preferred Stock
The Board of Directors of Utilities Power & Light Corporation at the annual meeting held this day declared the regular quarterly dividend of One Dollar and Seventy-Five Cents ($1.75) per share upon the outstanding Preferred Stock of the Corporation, payable April 1, 1926, to stockholders of record at the close of business March 5, 1926.
Class A Stock
The regular quarterly dividend of Fifty Cents (50c) per share on the Class A Stock also was declared, payable April 1, 1926, to stockholders of record at the close of business March 5, 1926.
Under the resolution of the Directors, the holders of Class A Stock have the right and option to accept, in lieu of their cash dividend, additional Class A Stock at the rate of one-fortieth of a share for each share of Class A Stock standing in their names on March 5, 1926. Unless by the close of business March 5, 1926, the stockholder advises the Corporation that he desires his dividend in cash, the Corporation will send to him on April 1, 1926, the additional stock (or scrip for fractional shares) to which he is entitled.
Class B Stock
A quarterly dividend of Twenty-Five Cents (25c) per share was also declared on the Class B Stock, payable April 1, 1926, to stockholders of record at the close of business March 5, 1926.
Under the resolution of the Directors, the holders of Class B Stock, or Voting Trust Certificates representing such stock, have the right and option to accept in lieu of their cash dividend, Voting Trust Certificates for additional Class B Stock at the rate of one-fortieth of a share for each share of Class B Stock standing of record in their respective names at the close of business on March 5, 1926. Unless by the close of business March 5, 1926, the stockholder advises the Corporation that he desires his dividend in cash, the Corporation will send to him on April 1, 1926, the additional stock (or scrip for fractional shares) to which he is entitled.
Chicago, Ill., February 23, 1926. H. L. CLARKE, President.

LOS ANGELES MARKET

CATTLE—Demand continued narrow for steers and a very dull trade resulted with declines of 15 cents to 25 cents being noted. Two cars of good 1178 and 1184-pound northern steers topped at 9.10, while a few plain kinds sold down to 8.25, with part loads of common kinds from 7.35@7.75. Several loads of steers still remained unsold at a late hour. Late steer sales include two loads of 1170-pound northerns at 9.00.

Good cows and heifers were scarce and in active demand at strong prices, while plainer kinds sold readily at fully steady prices. Odd head of cows sold up to 7.75, while half a load of 877-pound weights made 7.10, with the other half, heifers, averaging 708 pounds at 7.35. Odd head of plainer kinds sold down to 6.50, while the bulk of she stock, common and low medium kinds, went over from 4.50@6.25. Canners and cutters held steady, the bulk clearing from 2.50@4.00. Bulls were scarce and remained practically unchanged, most bolognas clearing from 4.50@5.25, with beef types around 5.50.

CALVES—Today's small supply cleared readily at sharply higher prices, unevenly 50 cents to 1.00 higher. Several lots of milk veal turned from 12.00@14.00, with odd head higher, while common kinds sold down to 9.00. Outstanding in the calf division was a load of 304-pound Imperial Valley fed calves at 12.00. Common kinds and heavies turned largely from 6.00@9.00.

HOGS—Today's supply was all California, mostly local fed butchers, and a fair trade cleaned them up readily at steady to strong prices. A load of 189-pound weights topped at 14.50, while 199-pound kinds made 14.00 with 242-pound weights at 13.75. Two loads averaging 238 and 287 pounds cleared for 13.00 and 12.50 respectively. Several lots of packing sows went over from 11.00@11.50.

SHEEP—None. Good and choice lambs are quoted from 12.00@12.75, with common to choice ewes from 5.50@8.00.

TODAY'S QUOTATIONS

SLAUGHTER CATTLE AND CALVES—Steers: (1100 pounds down,) medium, 7.75@8.75; common, 5.75@7.75. Heifers, (850 pounds up,) good, 6.90@7.65; (all weights,) common and medium, 4.25@6.90. Cows: good, 6.75@7.40; common and medium, 4.15@6.75; canner and cutters, 3.00@4.15. Bulls: Good (beef yearlings excluded,) 5.25@5.75; (canner-bologna,) canner to medium, 3.75@5.25. Calves: (Milk fed excluded,) medium to choice, 9.00@11.50; culler and common, 5.50@9.00.

HOGS—Medium weight, (200-250 pounds,) medium to choice, 13.65@14.40; light weight (160-200 pounds,) medium to choice, 14.00@14.75; light lights, (130-160 pounds,) common to choice, 14.25@14.85. Packing hogs, smooth and rough, 10.50@12.00. Slaughter pigs, (90-130 pounds,) medium, good and choice, 12.75@14.25. (Soft or oily hogs and roasting pigs excluded in above quotations.)

SLAUGHTER SHEEP AND LAMBS—Lambs: (84 pounds down,) medium to choice, 11.50@12.75; (all weights,) culler and common, 9.00@11.50. Ewes, common to choice, 5.50@8.00; canner and culler, 3.50@5.50.

Outside Markets

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, March 3.—Hogs: steady, light lights active; good to choice 180-200 pound eastern butchers, 14.75@15.00. Most 140-170-pound Idahos bid 14.75; few 180-pound Californias, 14.75.

Cattle—Steers slow, weak to 25 cents lower; 8 cars good 1110-pound California steers, 8.50. Good 950-1000-pound steers steady, around 8.75@9.00. Good heifers steady, few loads 7.00@7.25; cows weak, numerous loads from packers' ranches. Canners and cutters mostly 3.00@3.50. Bulls barely steady, one car 5.25. Calves, steady, choice veal scarce, one car Californias, 9.00.

Sheep—Lambs weak, most feed lot supplies above 87 pounds draggy. Few decks 80-84-pound Californias, 12.00@12.50. Ewes steady, good wooled around 8.00@8.25. Choice spring lambs quotable 13.00@13.50.

CHICAGO, March 3.—Hogs, receipts 15,000; moderately active; mostly steady to strong; spots 10 cents higher; bulk 240-325-pound butchers, 11.90@12.50; better 200-225-pound averages largely 12.50@13.20; majority sorted 180 pounds down 13.30@13.60; top on 130-pound up, 13.70; 160 pounds up, 13.65; packing sows, 10.25@11.00; good and choice killing pigs, 13.75 down; heavyweight, 11.80@12.60; medium weight, 11.95@12.25; lightweight, 12.15@13.65; light lights, 12.20@13.70; packing sows, 10.25@11.00; slighter pigs, 13.25@13.50.

Cattle—Receipts 6000; snappy trade on most classes better grades fed steers fully 25 cents higher on shipper account; spots lower; 11.25 paid for heavy and medium weights; numerous loads with weight 10.75@11.15; bulk, 9.00@10.50; fat cows and heifers very scarce; sharing steer advance; vealers 50 cents higher; mostly 12.00@13.00 to packers; outsiders upward to 15.50 and better.

Sheep receipts 18,000; fat lambs slow; practically no early sales; choice handyweight held above 14.75; indications generally 25 cents lower; spots off more on heavies; nothing done on feeding lambs; talking around steady; very few fat sheep offered; odd lots ewes, 8.00@8.50; steady.

KANSAS CITY (Mo.) March 3.—Cattle, 5000; calves, 800; fed steers and yearlings active; strong to 25 cents higher; top heavy steers averaging 1402 pounds, 10.50; long yearlings, 10.10; bulk fed offerings, 8.50@9.75; plain dogies downward to 8.00; fat she stock sharing portion of steer advance; seven loads fed heifers, 9.00@9.25; butcher cows, 5.00@6.50; canners and cutters steady; bulls weak; veals steady; practical top, 11.50; stockers and feeders scarce, steady.

Hogs—8000. Mostly steady to 10 cents higher than yesterday's average; light weight showing most advance; shipper and packer top, 13.00 on 190-pound weights; bulk of sales, 11.90@12.90; desirable 180-230-pound, 12.60@13.00; light lights, 12.00@13.25; 240-325-pound butchers, 11.75@12.45; packing sows, 10.50@11.00; stags, 9.00@9.75; stock pigs scarce, mostly 12.75@13.60.

Sheep—7000; lambs 25-50 cents lower than yesterday's mean close; one load to shippers 13.50; top to packers, 13.25; others mostly 12.50@13.00; heavies downward to 11.50; clippers, 10.75@11.00; sheep steady, shorn wethers, 8.60.

OMAHA (Neb.) March 3.—Hogs, receipts, 12,500; light offerings 10@15 cents higher; other classes generally steady; closing slow, weak; desirable 150 to 200-pound butchers, 13.00@12.00; strong weight butchers downward to 11.50; packing sows, 10.50@10.75; bulk of all sales, 11.00@12.75; average cost Tuesday, 12.02; weight 250.

Cattle—Receipts, 5800; fed steers and yearlings strong to 25 cents higher; mostly 10@15 cents up; bulk, 8.75@9.75; yearlings, 10.40; medium weights, 10.65; she stock active, 25 cents higher; bulls about steady; veal strong to 25 cents higher; stockers and feeders steady; bulk butcher cows, 5.75@7.25; weighty cows up to 8.00; heifers, 7.50@8.75; light heifers, 9.00; canners and cutters, 3.85@4.75; bologna bulls, 5.75@6.00; heavy bulls, 6.00@6.25; practical veal top, 11.50; two loads Wyoming feeders, 9.20.

Sheep—Receipts 14,500; lambs slow at big quarter decline; bulk of fed wool lambs, 12.75@13.00; top, 13.40; fresh shorn lambs, 11.00@11.35; fat sheep strong; ewe top, 8.50; feeders weak; no early sales.

SOUTH ST. PAUL (Minn.) March 3.—Cattle, 2200; active, opening strong to 25 cents higher on fed steers and fat she stock; part load of heavy steers early 9.60; bulk steers and yearlings 8.00@9.00; fat cows and heifers largely 4.75@7.00; lighter weight heifers upward to 8.00@8.50; canners and cutters active, 3.50@4.00; bulls unchanged; strong; bulk 6.75@7.75. Calves, 3200; steady to 25 cents or more higher; good lights largely 11.50@11.75; choice 12.00.

Sheep—1000; slow; sentiment lower on lambs; sheep practically no early sales; run includes several double decks of choice fed westerns; fat ewes steady, 7.50@8.50, according to weight and finish.

Hogs—Receipts 14,000; good and choice 160-200 pound averages, 12.75@13.00; small lots lights and light lights up to 13.25; butchers averaging upwards from 200 pounds, 12.00@12.75; packing sows mostly 10.00; pigs, 14.00@14.50.

ST. JOSEPH (Mo.) May 3.—Hogs, 8000; about steady, top 12.90; bulk, 11.75@12.80.

Cattle—3000; strong to 25 cents higher; bulk of steers, 8.50@9.75; top, 10.00; cows and heifers, 3.75@9.25; calves, 5.50@11.50; stockers and feeders, 6.75@9.00.

Sheep—6000; slow, 25@50 cents lower; lambs, 12.25@13.50; ewes, 7.75@8.50.

Tone of Wheat Market Firmer and Prices Up

[EXCLUSIVE DISPATCH]

CHICAGO, March 3.—Heavy buying of wheat futures, generally regarded by traders as short covering for large eastern operators, was responsible for the market showing a strong undertone throughout the day, and while scattered liquidation was in evidence at times, May failed to get more than a fraction under the finish on Tuesday, touching 1.58, only to advance to 1.60⅝, later and close 1⅝c higher at 1.59⅝ to 1.60. Deferred deliveries gained ⅝c, with July 1.40⅛ to 1.40⅝, and September 1.34⅞ to 1.35. The action of the stock market in New York had no effect on grains throughout the day.

All deliveries of oats sold at a new low on the crop, with May down to 39⅞c, but the greater part of the loss was recovered later and the finish was only ⅛c to ¼c lower, with May 40c and July 41c. Corn was easier early, but rallied on short covering and buying by locals and closed ⅛c to ⅜c higher, with May 77⅜c to 77⅝c, and July 80⅜c to 80⅝c. Rye was 3¼c higher, with May 87⅛c and July 88⅛c to 88⅜c.

Houses with eastern connections were aggressive buyers of wheat throughout the day, taking millions of bushels, the buying order appearing on all the minor breaks. Price changes were extremely erratic, belated longs taking advantage of all swells to unload. A number of the pit element, who have been operating on the bear side of late, expressed a more friendly feeling toward the market and helped sustain values. Selling against offers was a factor in checking the upturn. There was buying of July against sales of May here by spreaders, and also selling of July here against purchases at Winnipeg at about 4c difference.

Dry weather continues in India and Australia and had some effect on wheat in Liverpool, where the close was ⅛d to ⅜d higher. No increase in acreage is anticipated in Australia. Buenos Aires was ⅛c to ⅜c higher at the opening, but was 1⅛c to 2c lower at the close, with March 1.35⅛ and May 1.42⅜. Winnipeg gained ⅝c to 1c. Messages from the seaboard indicated a more general demand for cash wheat from abroad, but sales in all positions were estimated at only 300,000 bushels. Favorable crop reports were received from Kansas and claims of Hessian fly in that State had little effect.

An eastern house, recently a good buyer of corn, was a free seller early, and caused the decline to the low point, 76⅝c for May, but the market received good support and with wheat strong an upturn of 1⅛c from the inside figure was easily attained. Cash basis was 1c lower to 1c higher. The action of the market suggested to many that it had been well liquidated.

Stop-loss orders were uncovered in oats and prices declined sharply. There was nothing in the news that attracted attention. Export demand for rye showed improvement. Duluth making good sales late Tuesday, and there was some business at the seaboard. Futures showed independent strength.

Trading in provisions was limited and price changes small. At the close lard futures were unchanged to 2½c lower, short ribs 2½c to 5c lower and bellies 5c to 7½c lower. Green and pickled hams were ¼c to ½c higher. Hogs were higher with arrivals small and under last week's and last year's. Export of lard from the seaboard on Tuesday were 2,178,950 pounds and bacon 31,000 pounds.

CAPITAL

ARE you planning to organize a company? Or have you a stock issue to place?

Our financing service is for organizers desiring to form and finance companies under the guidance of qualified legal, industrial and financial specialists. We are interested in legitimate projects in need of financing. Not all propositions are acceptable to our service—every new project cannot succeed by this or any other plan. But if your proposition is meritorious, the Los Angeles field, where we have specialized for five years, offers a real opportunity for capital whether small or large.

Before organizing your company or deciding your financing plans, you are invited to consult with us personally.

EARNINGS OF BRUSH FIRM GROW

Business of Prophylactic Company Shows Large Gain in Year Just Closed

Net income of the Prophylactic Brush Company for the year ended December 31, last, after all charges and taxes, was $523,411, equivalent, after preferred dividends, to $4.47 a share on the outstanding 100,000 shares of common stock, as compared with $844,103, or $3.01 a share in 1924.

Last year was one of the most successful in the company's history. Domestic business showed a good gain, while the foreign trade made consistent progress, export sales creating a new high record, exceeding those of 1924 by approximately 33 per cent. To meet the Canadian demand, a plant was opened in Montreal. In the past Prophylactic was compelled to pay a duty on its export to the Dominion of 35 per cent. Business in Canada gained about 300 per cent in 1925 over 1924.

Of the tooth-brush production of the United States, it is estimated by William Cordes, president, that 90 per cent is produced by Prophylactic. Commenting on the extensive advertising of the company's products, Mr. Cordes said:

"In each of the last three years, substantially $250,000 more was spent in advertising than in any previous years in the company's history, and if the advertising expenditures for 1925 had been no greater than the greatest amount spent in any year prior to 1923, the earnings of the company for the year 1925 would have been the largest in its history."

During 1925, $41,700 of the company's preferred stock was retired. On December 31, last, current assets amounted to $2,580,590, of which $757,352 was cash and $391,130 accounts and notes receivable. Current liabilities totaled $66,243, leaving a working capital of $2,514,347.

PRODUCE MARKET

[United States Bureau of Agricultural Economics]

Trading was generally moderate on the fruit and vegetable market yesterday morning. Few price changes occurred. The apple market was dull. Artichokes were 50c@1.00 per box lower. Best peas were mostly 1c per pound lower. Good eggplant was scarce, best San Diego stock selling at 22c per pound. Imperial Valley strawberries in limited supply sold at 3.00@4.00 per tray; northern loquats at 10 per pound.

APPLES—Northern California, Newtowns, loose, 3.00@4.00, mostly 3.25@3.50 cwt. W. W. Pearmain, loose, best 5.00 per cwt., poorer low as 3.50. Washington, Idaho and Utah, Jonathans, loose, mostly 4.50 per cwt. Ganos, loose, 3.50@4.00 per cwt. Winesaps, extra fancy, 2.25@2.75 per box; fancy, 2.00@2.50; C grade, 1.65@1.85; Romes, extra fancy, 2.15@2.50 per box. Oregon, Spitzenbergs, 2.65@3.00 per box.

ARTICHOKES—Northern, Crates, No. 1, 2.50@4.00; No. 2, 2.50@3.00; boxes, 2.25@3.75.

ASPARAGUS—Northern, Imperial, local, 30@32, few 35 per pound; No. 2, 28.

BANANAS—Best, 5½@6½ per pound; ripes, low as 4½ per pound.

BUNCHED VEGETABLES—Local: Per dozen bunches: Beets, 30; carrots, 25; onions, 10; parsley, 20; red radishes, 20; white radishes, 30; spinach, 25; turnips, 25.

CABBAGE—Local, round type, 1.25 per cwt.; Winningstadt, 1.50.

CAULIFLOWER—Local, Pearl, mostly 90@1.00 per field crate; few best, 1.25.

CELERY—Chula Vista, 6.25@6.50 per crate. Local, 4.00@5.00 per crate.

GRAPEFRUIT—Arizona: 80s, 64s, seedless, special marks, 4.00@4.50 per box. Imperial: Special marks, 3.00@3.50; market pack, 2.50@3.00 box. Local: Market pack, 2.00@2.50.

LEMONS—Local: Special brands, 4.00@4.50 box; loose, 2.00@2.25 per box.

LETTUCE—Imperial, 4s, 3.00@3.25; 5s, mostly 3.50; 6s, 1.50@1.75. Local, best, 75@1.00 per field crate.

ONIONS—Closing Tuesday: Stockton, sacked, per cwt., White varieties, 3.00@3.25. Oregon, sacked per cwt; yellow Denvers, 1.90@2.00; Idaho, yellow varieties, sacked per cwt., 2.25.

ORANGES—Local: Navels, best brands, 4.25@4.75 per box; market pack, 3.50@4.25 box.

PARSNIPS—Local: 65c lug.

PEAS—Imperial, best 10@11, poorer, 6@9 per pound. Northern, best, 12 per pound.

"PROCRASTINATION"

At times will dip down into your wallet and rob you of plenty of Jack if you don't put a strangle-hold on the thief that he is.

Remember that while you are sitting around wearing out your pencil figuring how much you have lost from day to day by not taking my tip, that in my opinion, "WESTERN LEAD" has not even started on her skyward trip yet, and if you could hear the daily startling reports that I receive from the mine you could appreciate why I make the statement that I firmly believe I will be strenuously advising you to buy this security when it is three to four times its present market price.

QUICKSILVER
Quick Action Quick Prof

The greatest supply of Quicksilver in America was ered in California during the gold excitement when it was needed. Otherwise the miners would have had to obtain far away Spain.

Everybody knows of the value to the world of the covery in California. Few, even today, know of the simultaneously of quicksilver (mercury) and the large made mining it. California leads all other states in the tion of quicksilver and the Helen Mine in Lake County is as one of the great producers of California. It has a producing a fortune already with promise of greater in the future.

This famous property was recently acquired by the Mountain Mines Corporation on most favorable terms. of men were employed under the management of a superintendent and under the direction of one of well-known mining engineers.

Development work brought quick results not only in out ore, but also in opening up new lodes.

Quickly the furnace and retort were prepared to ore and within a day or so from the time you read plant should be running to full capacity.

The plant has a capacity of fifty tons daily and an of only ten dollars per ton would indicate a production hundred dollars daily.

Mineral Mountain Mines is capitalized at one million of one dollar each. Non-assessable. Stock listed on the Francisco Exchange, where it is being actively traded in.

Telegraph or telephone your order at the market.

This is the time to buy these shares—quick action gested. Engineers' reports and additional information fully furnished. We are about to take a party of and investors up to the property in Lake County on inspection and investigation. If you would care to join party call and make reservations now, as only a limited ber can be accommodated.

The full and complete report of this trip should cause a big demand for the stock resulting in much higher prices.

Over the long distance telephone yesterday our San cisco broker said:

"There positively isn't any floating stock on the market. Orders for thirty or forty thousand shares will put the stock to fifty cents per share."

We would like to see our clients—if able and willing ulate—get in on this before a spectacular advance takes

Write, call, telephone or telegraph, but quick quick profits in quicksilver.

OIL NEWS

BY ROBERT J. PRITCHARD

The Ahlberg Gasoline Company is the name of a new corporation entering the California petroleum industry, beginning its operations in this State by building a gasoline absorption plant at Signal Hill to handle gas from wells in the new extension.

The Ahlberg company is understood to be financed by Canadian interests and to contemplate an immediate expansion into other fields in the Los Angeles basin.

The new Ahlberg plant is being built at Lime and Thirty-fifth streets and is a single-unit plant with a daily capacity of about 5,000,000 cubic feet of gas. A contract has been let for the construction of a pipe line from the plant to the northwest extension, a distance of about a mile. The pipe line will be laid with eight-inch pipe, and it is understood that Robertson & Co., Los Angeles contractors, will do the work.

Rebuild Burned Rig

The Coombs Syndicate, whose No. 5 well in the northwest extension of the Signal Hill gave that district its sensation last week by burning down, already has a new derrick built over the old hole and is going to see if it cannot reclaim the well. The well is located at Elm street and Pacific avenue.

Rigs to Pump

The Rainbow Petroleum Company is putting its No. 2 well in the northwest extension of the Signal Hill field on the pump, according to field reports. The well is located at Linden avenue and Crest Drive and was finished at about 4420 feet several weeks ago with an output of about 300 barrels a day. Decreasing gas pressure caused production to sag until it was judged advisable to run tubing and put the well on the beam.

Makes New Deal

King C. Gillette's proposed wildcat on the Buck property at Huntington Beach field, is being delayed by negotiations for a new lease, according to field reports. Gillette had his derrick built and a diamond drilling outfit installed, but this has been taken out.

Shut Down Well

The Okel Oil Company, headed by William E. Garner, Long Beach operator, has shut down its second project in the area near Wilmington, east of the Torrance field, according to field reports. The second well stopped at 640 feet, forty feet shallower than the depth reached by the first well, which has been idle for several months at 680 feet.

The Garner project has attracted attention chiefly because of the peculiar geological condition which exists in that area. According to geologists, the surface formation is unusually thin at this locality, allowing the drill to find the sedimentary formations where oil is found much nearer the surface than is common in the Los Angeles basin. Garner claimed that his first well had showings when it stopped drilling, and started his second hole on the strength of his first. At 640 feet No. 2 was in sandy shale, it is said.

Marland Gets Shut-off

The Marland Oil Company has succeeded in getting a water shut-off in its Wickham wildcat well near Santa Paula, according to field reports. A production test is now under way.

The Wickham well stopped drilling at 2688 feet, where it was said to have penetrated eighty feet of oil sand and shale, and set pipe at 2605 feet. Marland officials believe there is sufficient oil-bearing formation to make a commercial well.

Pumps 100 Barrels

The United Oil Company has placed its Lineberger No. 3 well in the Los Cerritos district of Signal Hill on the pump with an output of about 100 barrels a day, according to field reports. The well is located at Cedar avenue and Hathaway Road.

Lineberger No. 3 is of particular interest because of its proximity to the Lineberger No. 1 which was the discovery well of this area, and created a sensation, besides starting a new drilling campaign when it came in at 750 barrels a day several months ago.

Official Report

Oil-field operations reported to State Oil and Gas Supervisor R. D. Bush during the week ending February 27, 1926, show thirty-four new wells started, as compared with thirty-eight during the previous week. Of the thirty-four notices to drill filed this week, thirteen were for wells in the Long Beach field, two in the Inglewood field, two in the Montebello field, two in the Torrance field, one each in the Richfield, Dominguez and Brea-Olinda fields, one in Los Angeles county, one in the Ventura field, one in the Simi field, eight in the fields of Kern county and one in the Coalinga field. The total new wells this year is 288, as compared with 161 at the same date last year.

Tests for water shut-off this week numbered thirty-two, as compared with thirty-one during the previous week. Yearly total to date, 233; total to same date last year, 220.

Deepening or redrilling jobs this week numbered eleven as compared with thirteen during the previous week. Total to date this year, 149; total to same date last year, 150.

Abandonments this week, numbered seven, as compared with ten during the preceding week. Total to date this year, eighty-nine; total to same date last year, sixty-nine.

COMPARATIVE CITRUS SALES

NEW YORK, March 3.—Thirty-seven cars of Florida oranges averaged $4.75 a box; fifteen cars of Florida grapefruit averaged $4.75 a box; five cars of Florida tangerines averaged $2.80; forty cars of Porto Rico oranges averaged $2.90 a box; nineteen cars of Port Rico grapefruit averaged $4.40 a box.

PHILADELPHIA, March 3.—Seventeen cars of Florida oranges averaged $4.25 a box; seven cars of Florida grapefruit averaged $3.80 a box.

ST. LOUIS, March 3.—One car of Florida oranges averaged $4.20 a box; one car of Florida grapefruit averaged $4.

CLEVELAND, March 3.—Six cars of Florida oranges averaged $4.50 a box; four cars of Florida grapefruit averaged $3.80 a box; one car of Florida tangerines averaged $1.90.

BOSTON, March 3.—Nine cars of Florida oranges averaged $4.80 a box; seven cars of Florida grapefruit averaged $4.65 a box.

CINCINNATI, March 3.—Nine cars of Florida oranges averaged $4.25 a box; two cars of Florida grapefruit averaged $4.10 a box.

CHICAGO, March 3.—Two cars of Florida oranges averaged $4.20 a box; nine cars of Florida grapefruit averaged $4.25 a box.

PITTSBURGH, March 3.—Ten cars of Florida oranges averaged $4.35 a box; three cars of Florida grapefruit averaged $4.35 a box.

OIL FIELD ANNEX SETS FAST PACE

Signal Hill Extension is Bidding for New Record in Completions

By a "Times" Staff Correspondent

LONG BEACH, March 3.—The beginning of the present week set a pace for new completions, which, if continued until Saturday, should hang up a new record in the northwest extension of the Signal Hill field with four wells put on production Monday, three more on Tuesday, and swabbing operations going on at a number of rigs today.

Tuesday's completions were the Temple No. 1, on Linden avenue, with a yield of 300 barrels; Boles No. 1, adjoining the Foster seventy-five gusher, yielding a small amount of crude on the pump, and Playter-Bunny No. 2, American avenue, north of Thirty-fifth street, also on the pump with a yield not given out in actual figures.

Temple No. 1, started swabbing operations on Monday and the well made a few intermittent flows during that day. A steady yield was started yesterday. Boles No. 1 emphasized the gas depletion in the street area, as did the Playter-Bunny.

Monday's completions included the Cooper-Schenck and Wallace No. 1, formerly the Black Tony No. 1, Linden avenue, near Thirty-fifth street, yielding 800 barrels. The hole is down 4450 feet and a six-and-a-quarter-inch string was cemented at 4237 feet. Pressure on the casing was 550 pounds and on the tubing 175 pounds.

Getty No. 13, on Weston Place, near the Lindauer well, showed an initial yield of 700 barrels, with hole down to 4440 feet. The well was cemented at 4300 feet. The flow is expected to simmer down to 500 barrels. Craig-Burns No. 11, Locust avenue and Cameron Place, started a flow Monday night estimated at 700 barrels. The well was drilled to 4430 feet and is located on a lease south of the Keck & McWhorter No. 4, which blew in recently as a big producer.

Marine No. 54, located just north of the Coombs Trust No. 5, which was destroyed in last week's fire, was completed Monday with a flow estimated at 1250 barrels a day, but water content spoiled the big production, cuts showing from 8 to 22 per cent water. This, operators declare, offers additional proof that the two Los Cerritos blowouts in the vicinity of Pacific avenue and Bixby Road, have seriously damaged the formation in the locality. The Marine 54 was completed at 4430 feet and has about sixty feet of oil sand showing.

The McKeon No. 7, also in this area, which started a flow several days ago, is showing water. The well adjoins the lease on which the Johnson No. 5, which blew out, following last week's fire, is located.

WOOL UNCHANGED

[BY A. P. NIGHT WIRE]

BOSTON, March 3.—Wool inquiry is still centered principally on stock suitable for the worsted trade. More interest is noticeable in woolen mills. There is a fair business at the moment in domestic territory, but sales are irregular. Good three-eighth-blood combing has sold at around 95c clean, and one-quarter-blood at about 90c. A little short wool is also moving.

BUILDING PERMITS

Permits issued yesterday and valued at more than $3000 follow:

DWELLINGS

W. 64TH ST., 1247-49, 8 rms., 36x40. W. Grinton, 4252 Walton ave., owner and builder, $4000.

NO. ORANGE DR., 753, 6 rms., 36x61. R. Roseberry, 502 No. Alta Vista Blvd., owner and builder. $4750.

EDINBURGH AVE., 404, 7 rms., 41x57. B. Schieve, 403 Heliotrope Dr., owner and builder. $5000.

POTOMAC AVE., 3018, 5 rms., 28x42. H. Van DeGrift, 1038 Tremaine ave., owner and builder. $3000.

COMMERCIAL

W. ADAMS ST., 1744-52. Offices and stores. 22 rms. C. and J. Lovinguth, 1734 Middleton Place, owners. Myers Bros., 143 No. Toluca st., builder, $32,500.

RUBBER MARKET

[EXCLUSIVE DISPATCH]

NEW YORK, March 3.—Another reaction was in evidence today throughout the crude rubber market when spot prices were quoted at 53½ cents in New York, down 3½ cents from Tuesday's quotation. The rubber exchange of New York reflected a fair amount of activity during early and late trading, listing 152 lots at the close of business. Cables from London denoted a slight recession there quoting spot prices at 27¾ pence, down 1¼ pence. Ribbed smoked sheets sold at 55½ cents and other leading grades gave in from 2 to 3½ cents.

It is believed throughout the rubber trade that spot prices during the next few days will suffer another reaction. Manufacturers are still withholding their buying, believing that the market will fall to a lower level before it is necessary for them to purchase their stocks.

Quotations for leading grades:

	Spot.	March.	April-June.
Ribbed smoked sheets	.55½	.55	.54½
First latex crepe	.56½	.56	.55½
Amber No. 3	.52½	.52	.51½
Clean thin brown crepe	.52½	.52	.51½
Para upriver	.48	.48	.47

FLAXSEED MARKET

[EXCLUSIVE DISPATCH]

DULUTH (Minn.) March 3.—The market for flaxseed was again slow and featureless, with crushers and pit trade holding back for developments. Prices were steady during the early trading, but fractionally easier at the close, the decline ranging from ¼ to ½ cent. Close: March, 2.28¼; May, 2.29; July, 2.30¾; track, 2.28¼@2.32¼; arrive, 2.28½.

Minneapolis: Flaxseed demand fair to good. No. 1 seed on spot quoted at 2.26@2.31½; to arrive at 2.26¼@2.28½; receipts, 9 cars; last year, 17 cars; shipments, 2 cars, last year 3 cars.

COFFEE MARKET

[Furnished by E. F. Hutton & Co.]

	Open.	High.	Low.	Close.
March	16.22	17.66	17.50	15.65
May	17.30	17.50	17.25	17.48
July	16.75	16.95	16.70	16.85
September	16.23	16.40	16.20	16.55
December	15.95	16.10	15.90	16.05

Sales, 88,750 bags.

NAVAL STORES

[BY A. P. NIGHT WIRE]

SAVANNAH (Ga.) March 3.—Turpentine, firm, 90; sales, 67; receipts, 40; shipments, 60; stock, 7471.

Rosin, F and above, nothing; B, firm; nothing doing E and D; sales, 828; receipts, 197; shipments, 1431; stock, 41,382.

Quotations: B, 9.50; D, 11.75; E, 12.00; F, G, H, I, 12.50; K, 14.00; M, 14.10; N, 14.80; WG, 15.00; WW, X, 15.20.

NEIGHBORS SEARCH RUINS

[EXCLUSIVE DISPATCH]

BIDDEFORD (Me.) March 3.—Neighbors for miles around were aroused the other night when the bungalow of Mrs. J. A. Lamontague, 65 years of age, at Biddeford, burned and it was thought that she had burned to death. Since it was known that Mrs. Lamontague seldom went out, the ruins were searched for her body. Two hours later, she was located at a neighbor's house.

BUSINESS PHILOSOPHY

BY WILLIAM FEATHER

I AM constantly running into a type of man who is wasting his life looking for a chance to make a quick "killing."

The minds of these men are filled with fairy tales of other men who have planted navy beans one day and harvested gold dollars the next morning.

Having convinced themselves that these stories are true, the poor dupes become as restless as bird dogs and spend their lives chasing from one job to another, accomplishing nothing for themselves or their employers.

To spend one's life waiting for the favor of luck is as foolish as sitting by the roadside hoping to be picked by by a motorist when one might as well be on one's way afoot.

Julian
Petroleum
Corporation
Stockholders:

JULIAN PREFERRED on Wednesday's market was selling around 31⅝, showing an increase of 12½ points since the Stockholders' meeting, and this in the face of a serious break in other leading securities on the New York Exchange as well as other exchanges, and this, in my judgment, is the best evidence that my prediction that it will range from $45.00 to $50.00 per share in the near future is fast becoming a reality.

The stockholders who have visited our offices and are availing themselves of the facilities afforded them for the transfer of their stock and the latest information on the market, as well as receiving copies of our house organ "LIGHTNING FLASHES," are rapidly taking advantage of the market, AND A FURTHER INVITATION IS RESPECTFULLY EXTENDED TO EACH AND EVERY STOCKHOLDER IN THE VICINITY OF LOS ANGELES TO CALL AT OUR OFFICES AND OBTAIN COPIES OF THIS PUBLICATION AT THE EARLIEST POSSIBLE MOMENT, SO YOU MAY BE FULLY ADVISED IN TIME TO GET IN ON THE MARKET, if it is your desire to accumulate additional stock.

IT IS MY JUDGMENT, THAT THE PREFERRED at the price at which it is now selling is the best buy on the stock market today, and you cannot go wrong in investing in it from any standpoint.

THE DIVIDEND OF $1.00 PER SHARE CASH ON THE PREFERRED, PLUS THE COMMON STOCK, WHICH WILL BE A MINIMUM OF ONE SHARE TO EACH SHARE OF PREFERRED OWNED OR ACQUIRED AND TRANSFERRED INTO YOUR OWN NAME BY MARCH 20th, gives you, in my judgment, an accumulated value greater than one-half the present selling price of the Preferred. In other words, in my judgment, the Common stock is worth considerable in excess of $15.00 per share, and buying Preferred at the present time and transferring it to your own name, will entitle you to receive both the Common stock and cash dividend.

You must admit that a stock that can take care of itself on a market such as has existed in the past few days is a splendid stock to hold on to, as well as to accumulate additional blocks.

Our facilities on the EIGHTH Floor of the Pershing Square Building are available to you without cost or expense, and in executing your orders on the Los Angeles Stock Exchange you are invited to make use of them.

WHILE IT IS MY JUDGMENT STOCKHOLDERS SHOULD NOT SELL, IN THE EVENT YOU SHOULD DESIRE TO DISPOSE OF YOUR STOCK, IF YOU WILL DELIVER IT TO MY OFFICE ANY TIME DURING BANKING HOURS THURSDAY, I SHALL PURCHASE SAME FROM YOU AT THE MARKET PRICE, WITHOUT ANY DEDUCTION FOR COMMISSION OR EXPENSE TO YOU. I am anxious to get this stock in the hands of the original stockholders, but in the absence of that I desire it for my associates and myself, eliminating the "SPECULATORS," and you will confer upon me a favor, if you wish to sell, to come to my office.

S. C. LEWIS

My Offices in the Pershing Square Building, Fifth and Hill Streets, are open from 9 a.m. to 9 p.m. every day except Sunday. Telephone TRinity 4161.

WHAT'S DOING TODAY

Delta Kappa Epsilon luncheon, University Club, 614 South Hope street, noon.

THINKS MISS LIBERTY NEEDS ALARM CLOCK

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, March 3. — The editorial paragrapher of the Star this afternoon writes: "The proposal to put a wrist watch on the Statue of Liberty is a step in the right direction, but what she seems to need is an alarm clock."

VALUABLE BRACELET VANISHES

Was to Have Been Presented to Queen of Mardi Gras at New Orleans

[EXCLUSIVE DISPATCH]

NEW ORLEANS (La.) March 3.—Somewhere in the hands of a visitor to the New Orleans Mardi Gras, possibly in the hands of a native, is a valuable diamond, onyx and platinum bracelet, intended as a prenuptial gift for the queen of the Mardi Gras.

Whoever has it, unless a judge of precious stones, may think it merely one of the bright trinkets always thrown to the crowd from the floats in the parades. These are valueless, but are treasured for their sentimental value. This trinket is said to be worth $1200, and it was carried away by some lucky person.

The bracelet had been purchased by Theodore Simmon, superintendent of the Pan-American Insurance Company, to be presented to Miss Katherine Williams, carnival queen of 1926, as she sat in the place of honor in the Canal-street reviewing stand. Simmon was impersonating a character of Greek mythology in the Momus parade. As he climbed on the float he thrust the bracelet in his costume, intending to present it as his float passed the stand.

During the journey he, like all others on the floats, cast strings of beads and other ornaments into outstretched hands. In some manner he reached into the pocket containing the bracelet and threw it into the crowd.

CHEMIST HONORED

[EXCLUSIVE DISPATCH]

ORONO (Me.) March 3.—Prof. C. A. Brautlecht, head of the department of chemistry and chemical engineering at the University of Maine has been elected by the New England Association of Chemistry Teachers to the Senate of Chemical Education of the American Chemical Society. This new department of the American Chemical Society consists of three Senators from each State. One a college teacher, another a high-school teacher, and the third, an industrial chemist.

TOMBSTONE PIONEER DEAD

[EXCLUSIVE DISPATCH]

TOMBSTONE (Ariz.) March 3. C. B. Tarbell, who died recently in Long Beach, at 74 years of age, was a pioneer of this camp, where for a while he was express agent. In 1884 he operated the first hotel ever known in Charleston, then the mill camp for this section.

Steamer Donovan Held to Blame in River Crash

[EXCLUSIVE DISPATCH]

VANCOUVER (B. C.) March 3. In the Exchequer Court of Canada Justice Maclean has reversed the judgment of Justice Martin in the Admiralty Court of British Columbia in the suit brought by the United States concerning William Donovan Steamship Company, against the Norwegian steamer Helen.

The litigation arose out of collision in the Chehalis River near Grays Harbor, Wash., between the two ships. Justice Martin found that both vessels were to blame and assessed them equal damages, despite the fact that the Donovan had her damages appraised at $10,000 and the Helen at $1200.

When the case came to Justice Maclean he found that as the accident happened in daylight with both vessels proceeding in the same direction, the Donovan should have been on the starboard side of the channel to let the Helen pass, and was a little critical of the Donovan's captain for not giving fairway to faster vessels than his own.

NO VAMPS THEN

Lecturer Tells Why Shakespeare Wrote No Sex Plays

[BY CABLE AND ASSOCIATED PRESS]

PARIS, March 3.—Shakespeare did not write a lot of plays with sex complexes in them because there were no beautiful young leading actresses in his day to save a mawkish play with their personal charms.

At least, that is the reason Granville Barker advanced here in a lecture for the comparative cleanness of the great master's dramas.

"Shakespeare had to rely on boys to play the feminine roles. Consequently he had to make the love speeches so poetic and beautiful that they would get across the footlights without the aid of real feminine charm."

THE WEATHER

[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, March 3.—[Reported by H. B. Hersey, Meteorologist.] At 5 o'clock a.m. the barometer registered 30.05; at 5 p.m., 30.01. Thermometer for the corresponding hours showed 57 deg. and 63 deg. Relative humidity, 5 a.m., 61 per cent; 5 p.m., 74 per cent. Wind, 5 a.m., east, velocity 3 miles; 5 p.m., southwest, velocity 4 miles. Temperatures, highest, 66 deg.; lowest, 56 deg. Rainfall for season, 9.63 inches; normal to date, 11.27 inches; last season to date, 3.60 inches. Barometer reduced to sea level.

WEATHER CONDITIONS. — March 3: Light snow has fallen during the past twenty-four hours at some stations in the North Atlantic States, and light snow or rain in New Mexico and extreme Southwestern Texas, but fair weather has prevailed generally in other portions of the country. It is colder this morning in the Atlantic States, but the temperature has risen considerably in Nebraska and the Dakotas. In Southern California fair, warm weather was experienced yesterday and last night, and it is clear or partly cloudy at all stations this morning. Fair, moderately warm weather may be expected to continue in this vicinity Thursday.

SUN, MOON AND TIDES.—Los Angeles, March 4: Sun rises 6:13 a.m., sets 5:53 p.m. Moon rises 10:42 p.m., sets 9:15 a.m. Los Angeles Harbor, March 4: High tide, 11:53 a.m.; low tides, 6:10 a.m. and 5:53 p.m.

LOCAL TEMPERATURES.—March 3: Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations—	Max.	Min.
Bonita	82	42
Corona	82	39
El Cajon	82	40
Escondido	80	38
Imperial	90	49
Los Angeles Harbor	75	52
Mt. Wilson	62	45

MILLER. March 2, Henry P., beloved husband of Ella Miller, aged 57 years.

Funeral Friday, March 5, at 9 a.m., from chapel of Cunningham & O'Connor, 1031 South Grand avenue. Requiem mass at Cathedral of St. Vibiana at 9:30 a.m. Interment, Calvary Cemetery.

MLAJENOVICH. March 2, 1926, Visko Mlajenovich, beloved father of Mary Andriasevich and Kate Arkulin.

Funeral Friday, March 5, from the residence, 933 Centennial street (formerly Ramona avenue,) at 9 a.m. Requiem mass at 9:30 a.m., at St. Anthony's Church, Alpine and Grand avenue.

O'DONNELL. The funeral of Jessie May O'Donnell will be held from The White Company, 664 West Washington street, today at 9 a.m. Requiem mass at St. Thomas Church at 9:30.

PAESCHKE. March 2, Herman, aged 70 years, at Willowbrook, beloved husband of Mrs. Mary J.; father of Mrs. Joseph Kashuda of Milwaukee, Mrs. A. F. Barker, Mrs. Clinton Urtubees and Mrs. E. E. Trowbridge and Hilbert Paeschke; survived by nine grandchildren, all of Los Angeles.

Services will be held Friday, March 5, at 2 p.m., from the chapel of Edwards Brothers. Interment, Hollywood Mausoleum. (Milwaukee papers please copy.)

DEATHS

With Funeral Announcements.

PETERSON. George W., aged 7 residence, 329 West Avenue Remains at Edwards Br

PHELPS. March 3, Evelyn B. Remains at the chapel of W. South Flower street. Notice of

REIFSNYDER. At 1137 West March 3, Henry Reifsnyder, Katie T. Ayers and uncle of Gage. Remains at Bresee Brothers Funeral private.

RHODES. March 2, 1926, William years, beloved husband of of Lucile and Herbert Salisbury of El Monte, Mrs. of Alhambra, and Horace York City. Funeral services at J. H. parlors, El Monte, Cal. terment, Whittier Heights

ROOK. Funeral services for today at 10 a.m., from Pierce 720 West Washington street.

ROTH. In this city, Aaron Roth beloved brother of Esther and Funeral today at 11:30 a.m. geles Crematory chapel. Co., directors.

SHAFER. March 1, Caroline mother of Gertrude Shafer Richards, H. Worthington Shafer, and loving sister of Funeral today from the Rockingham avenue, Brentwood Requiem mass at St. Monica's Monica, 10 a.m. Interment tery. Cunningham & O'Connor,

SMITH. The remains of Earl warded today to Portland, Or. by Reed Bros. Co.

STOLTZ. At 914 South New David Stoltz, aged 84 years, Mrs. James M. Foley and husband of the late Lena Funeral Friday at 10:30 a.m. E. Clair Overholtzer Co., Services private. Kindly Francisco papers please copy.

WHITE. The funeral services of White will be held today at chapel of W. A. Brown, street.

WILLSON. March 2, at ert H. Willson, aged 73 years, Mrs. Leona J. Willson; son, Mrs. Robert Hart of Los J. J. Anderson of San Francisco Byard Detler of Long Beach. Funeral services will be March 4, at 10:30 a.m., from Strother & Dayton,

WOODRUFF. Thomas Grant Remains in care of George Funeral Home, 1133 South tice of funeral later.

WYMAN. At Long Beach, Cal. beloved wife of John D. Wyman Charles W. of Claremont, and sister of Elizabeth lee, Cal. Funeral services at chapel, 224 American avenue Friday, March 5, at 2 p.m.

SPECIAL VOTE TO COST DEAR

April Extra Election Means Draining Treasury

Will Take Two-thirds of All General Fund Left

Temporary Permit Possible; Would Save the Money

The Finance Committee today will return to the Council, without recommendation, Mayor Cryer's veto of the Venice Sunday dancing ordinance. If the Council sustains the veto it will mean the expenditure of $110,000 or more on a special election of April 30. If the Council overrules the veto it may give Venice a temporary dance permit until the regular August primary and save the money.

The committee met late yesterday afternoon to consider the situation and, while reporting the veto, took no action on City Clerk Dominguez's request for election funds, in the hope that the Council might find a way to avoid the special election and thus avert a serious financial situation.

The city's general fund, from which the money for the election expenses will be drawn, stood at [illegible] yesterday. After the appropriation for the election is made there will remain only $58,000 to tide the city over the financially lean month before the new tax funds come in.

"The expense of the election will cripple the general fund," said Councilman Ash, chairman of the Finance Committee. "Already we are denying requests for appropriations to operate various departments. If the date of the dance-law vote is forced forward from the regular State primaries in August to April 30 we will be spending the tax money at the rate of nearly $1000 a day."

If the April 30 election is held the initiative petition filed by the police and firemen asking for increased pay amounting to $1,410,000 additional annually will be placed on the ballot. Otherwise this question will be voted on later.

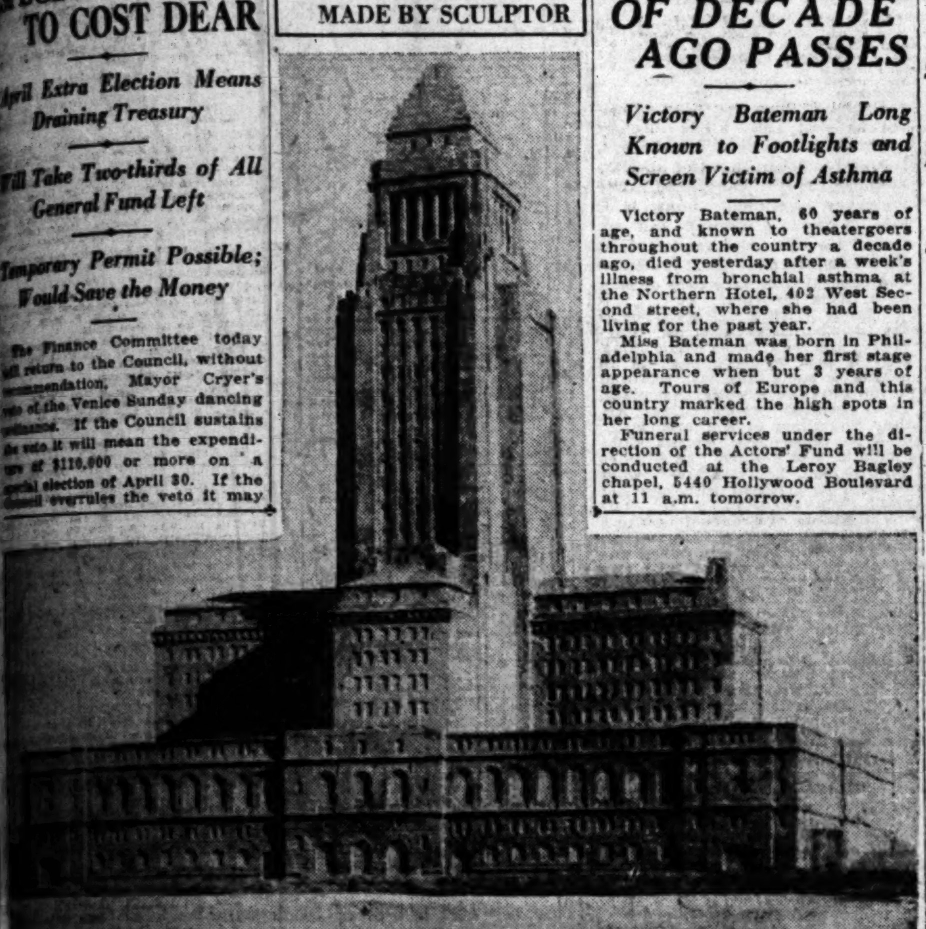
The Finance Committee yesterday adopted a resolution instructing the City Attorney and Efficiency Director to draw up an adequate occupational-tax ordinance for presentation to the Council. In case the increased pay is voted the Council expects to pass the occupational ordinance to secure funds for the pay rise.

Mr. Dominguez first requested [illegible] for the election, with the understanding that the precincts would be consolidated. However, Councilmen have demanded that each polling place be opened up on election day. As there are [illegible] polling places in the city this year Mr. Dominguez estimated that the $110,000 will be needed, provided that the number of election officers is reduced from six to four. In case the two additional officers are employed the expense will be increased $26,000 to a total of [illegible].

PLANS WALK TO DETROIT

Seeking to regain his health, William Wolf, a disabled World War veteran, will leave Los Angeles this morning on a walking tour to Detroit. Wolf, who has just been discharged from the Veterans' Rest Hospital at Altadena, will carry a letter from Mayor Cryer to the Mayor of Detroit.

CITY HALL MODEL MADE BY SCULPTOR



Clay Design of Proposed Building, Main-Street Entrance

A WAX and clay model of the new City Hall, with the proposed 430-foot tower, was placed on display yesterday at the offices of the associated architects, John C. Austin, Albert C. Martin and John Parkinson, in 700 Title Insurance Building, at Fifth and Spring streets.

The model was made by C. Gruenfeld, a sculptor. It is about thirty inches high and thirty inches wide, as the plans call for a building 432 feet long, parallel to Spring street. It is planned to retain the model in the architects' offices and to use it in working out various designs and changes as the plans progress.

At 2:30 p.m. today ceremonies at the site of the new building will attend the commencement of the excavation. Various civic and governmental bodies will participate at the start of actual work on the $5,000,000 building.

Public Works Commissioner Delorey will call the spectators to order and introduce President Workman of the Council, who will preside. The invocation will be by Bishop Locke of the Methodist Episcopal Church, whereupon there will be addresses by Mayor Cryer, Supervisor McClellan, Chief Deputy District Attorney Fitts, fromer Councilwoman Estelle Lindsey and Mr. Austin. The benediction will be said by Bishop Cantwell of the diocese of Los Angeles and San Diego. The ground-breaking ceremony proper will then take place.

GOPHERS MEET TOMORROW

Minnesotans are offering a program for tomorrow evening when their March reunion is held in Music Art Hall, at 233 South Broadway. Mrs. Theresa Lee, Duluth, will be soloist, and Mrs. Pearl Mead Berry will read. There will be community singing, roll call of counties, dancing and refreshments. All the Minnesotans are invited.

STAGE STAR OF DECADE AGO PASSES

Victory Bateman Long Known to Footlights and Screen Victim of Asthma

Victory Bateman, 60 years of age, and known to theatergoers throughout the country a decade ago, died yesterday after a week's illness from bronchial asthma at the Northern Hotel, 402 West Second street, where she had been living for the past year.

Miss Bateman was born in Philadelphia and made her first stage appearance when but 3 years of age. Tours of Europe and this country marked the high spots in her long career.

Funeral services under the direction of the Actors' Fund will be conducted at the Leroy Bagley chapel, 5440 Hollywood Boulevard at 11 a.m. tomorrow.

CLIMAX TODAY IN JAIL CLASH

Supervisors Probably to Lay Escapes to Traeger

Eighth Prisoner Departs and Stirs Up Arguments

Sheriff Brands New Prison as Sieve in Statement

With Sheriff Traeger and Supervisor Bean at loggerheads as the aftermath of the escape of a total of eight prisoners from the new County Jail since its occupancy several weeks ago, a meeting of the Board of Supervisors is scheduled for today which is expected to result in the issuance of an ultimatum to the Sheriff to correct asserted lax conditions in the management of the jail and the prisoners.

The rift between the two county officials came yesterday when Traeger admitted to Bean that he had been quoted correctly in the newspapers to the effect that he had not been consulted on the plans for the construction of the jail quarters until after the building was completed.

CLASH IN VIEWS

"I have not made any statements to the newspapers about the jail up until today and I would never have made any if the Sheriff had not made his statements to the newspapers," Bean said yesterday. "I will make the proper statements when the board meets in the morning to take some action on this situation.

"Sheriff Traeger was consulted and a great many changes were made in the original plans at his request or the request of his officers."

Charges against the management of the jail, it was learned, will be filed with the board today by the County Efficiency Commission, which comprises the members of the County Civil Service Board and County Auditor Payne. This commission, it was said, has been making an investigation of jail conditions for several weeks.

While Traeger attributes the escape of the eight prisoners to the faulty construction of the jail quarters, it was learned from an authoritative source the Supervisors are of the unanimous opinion the breaks were due to mismanagement.

EIGHTH ESCAPE

Traeger will be asked to attend today's meeting of the board to hear the charges and Bean's statement. It also was anticipated yesterday that the board as a whole will issue a signed statement in connection with the controversy, which will express the sentiment of the members.

Shortly before the break between Traeger and Bean, the escape of the eighth man from the jail was announced by Jailer Croushorn. The man is Sacarias Jiminez, who was being held charged with violating the Wright Act. How he escaped has not been definitely established, but it is believed he made his getaway when four men broke out on Tuesday by picking a lock on a door leading into a so-called emergency stairway.

Traeger was examining a lock similar to the one which was opened by the four men on Tuesday when Bean entered his office yesterday morning. When the Sheriff admitted he had made the statement he had not seen the plans for the jail until after the building was completed Bean walked from the office.

"That's all I wanted to know," he said as he closed the door.

MORE DEPUTIES

According to Traeger, the elimination of a master combination on the locks on the doors to the fire escapes and to the emergency stairway will make the jail safer. He will recommend that this be done immediately.

As an extra precaution, ten more armed deputies were placed on duty yesterday by Traeger, locks and chains were placed on all elevator doors and a deputy Sheriff, armed with a sawed-off shotgun, was stationed on the ninth floor of the emergency stairway.

Bean suggested to Traeger yesterday that all prisoners be kept in their cells and fed in their cells until the defects in the jail are corrected. This the Sheriff said he could not do because of lack of equipment to feed the men in this manner instead of in the dining-room.

As a result of a statement made by Fred Dietman and Joe Murray, two of the men who escaped on Tuesday and later were recaptured, that they gained their liberty with a spoon and a fork, Traeger asked for a demonstration which was given by Capt. Peoples, of the robbery squad, who questioned the men.

EXPLAINS METHOD

With one instrument, Peoples told the Sheriff, the master combination was pushed into place and with a second instrument another tumbler on the lock was manipulated and the lock opened. By removing the master combination, the Sheriff said, it would be necessary to manipulate six tumblers instead of two, making it almost an impossibility to open one of the locks without a key.

Jiminez and the other two fugitives, Harold J. Whitaker and Wesley E. Eudy had not been recaptured at a late hour yesterday. They all worked on a "mop detail" and gained their freedom while working in one of the corridors.

D. W. Flashmann, county locksmith, told Traeger yesterday that if the master combination on the locks were removed it would be almost impossible to open them.

Jailor Croushorn said yesterday he is drawing up a series of recommendations for a number of corrections which he will turn over to Bean. The Supervisors previously had asked for suggestions

PROVES PLAZA BEST SITE

Commission Engineer Shows Advantages There of Union Depot for Majority of Population

The following table showing the great accessibility of the Plaza union railroad passenger depot site was introduced in evidence yesterday at the Railroad Commission's terminal hearings by the commission's transportation engineer, A. G. Mott:

Los Angeles population (for purposes of check,) 1,125,000.

Plaza union depot more accessible than Arcade-Santa Fe depots by street cars for—921,000 people or 82 per cent of population.

Arcade-Santa Fe depots more accessible than Plaza union passenger depot for—204,000 people or 18 per cent of the population.

Plaza union depot more accessible by automobiles and taxicabs than Arcade-Santa Fe depots for—620,000 people or 55 per cent of the population.

Arcade-Santa Fe depots more accessible by automobiles and taxicabs than Plaza union depot for 505,000 people or 45 per cent of the population.

That the union railroad passenger depot located in the Plaza area as ordered by the Railroad Commission, approved by the Interstate Commerce Commission and resisted by the railroads will be more convenient and accessible to the people of Los Angeles than the present twin Arcade and Santa Fe depots was strikingly shown to the Railroad Commission by its transportation engineer, A. G. Mott, who was the witness at the commission's resumed terminal hearing yesterday.

Since the adjournment of the commission's hearings in January, the commission's engineering department under the direction of Transportation Engineer Mott has made a comprehensive and unbiased investigation of the accessibility of the depot sites and the results of this investigation were graphically set forth to the commission yesterday in elaborate charts and maps.

CHECK PASSENGERS

These showed that of the persons having business at the Arcade and Santa Fe depots, 45 per cent arrived or departed from there in street cars of the Los Angeles Railway, 18 per cent in taxicabs, 23 per cent used private automobiles and 8 per cent used street cars of the Pacific Electric Company. A check of pedestrians using the stations was not taken.

The commission's engineers then made hundreds of trips in taxicabs and street cars to the Plaza depot site, the Arcade depot and the Santa Fe depots. These trips, Engineer Mott testified, showed that on a Los Angeles population basis of 1,125,000, the Plaza union depot site was more accessible than the other depots for 921,000 people, or 82 per cent of the population. For 204,000 people the Arcade-Santa Fe depots, to be retained under the carriers' plan, were more accessible than the Plaza site.

The charts showed that for the great population living in residences, hotels and apartment-houses west of Main street and north of Fifth street the Plaza union depot site was more accessible than the Arcade-Santa Fe depots by street cars and vehicles. This great area included the Hollywood and Wilshire districts and the downtown hotel district west of Main street. The tables of the investigations also showed that the taxicab fares from the greater part of the city and lying west of Main street and north of Fifth street, were lower to the Plaza depot site than to the other depots. Tables were presented showing the running time of street cars from various parts of the city to the two depots and to the Plaza site and these tables showed that from the great part of the city lying west of Main street and north of Fifth street the running time to the Plaza depot was less than to the two present depots and that there were many more lines available to the Plaza site than to the two existing depots.

Transportation Engineer Mott also testified as to the result of his investigation of the adequacy of the present Arcade depot, and declared that there is a tendency now to overcrowding in the waiting room of the depot, and that within ten years it would be entirely inadequate for the city's needs. He also testified that at the peak travel hours conditions were approaching train congestion now at the station due to the lack of sufficient tracks, and he said that there was no space for two additional tracks needed without encroaching on needed space at the coach yards.

Under the carriers' plan proposed as a substitute for the Plaza union depot, the present temporary use by the Southern Pacific and the Union Pacific of the Arcade station would be continued permanently.

Engineer Mott also testified that the present temporary joint use by the Southern Pacific and the Union Pacific of the Arcade union depot has increased the traffic congestion on Alameda street.

The importance of the testi-

ANGELENOS TAKE OVER HUGE RANCH

Bartlett Estate at Raton to be Turned Into Hunting Lodge for Sportsmen

Purchase of the 400,000-acre ranch of the late William H. Bartlett near Raton, N. M., for approximately $3,000,000, was announced yesterday by Harry J. Mallen, president of the H. J. Mallen Company, Los Angeles investment brokers.

Mallen said the property will be converted into a hunting and fishing club for wealthy sportsmen. Stewart Edward White, novelist, will be president of the Vermejo Club, as it is to be called, Mallen announced. Other officers are said to include Edward H. Hoak, vice-president and managing director; Wallace T. Miller, vice-president; Richard L. North, sec-

The Lancer

by Harry Carr

TOO much publicity is tough on kings.

No great conqueror in the days of Imperial Rome ever had a more gorgeous ceremonial than the frisky Harri Singh of Kashmere when he ascended the throne the other day. . . .

Processions of elephants, with jeweled harness; swarms of magnificent retainers.

And perched in the royal howdah, wound around with ropes of pearls and glittering with huge diamonds . . .

Sat the world's champion butter-and-egg man—little "Mr. A." who fell for a ludicrously obvious badger game—in which the bait was a shopworn blond.

"NICKY"

Kings are only potent as long as they are shrouded in mystery.

Those silly "Nicky" letters—and the incidents that revealed him as a little henpecked husband, did more to demolish the Czar than all the acts of frenzied cruelty of his ancestral monarchs.

THE OPENWORK JAIL

The new jail seems so easy to get out of that those prisoners who stay in must have developed an affection for the place.

The moral of the tale would seem to be this:

That a jail ought not to be sandwiched on the twelfth—or any floor—of any building. A jail can be only as safe as it is isolated.

TRAITOR

The traitorous letters of Benedict Arnold give everyone, no doubt the proper thrills of horror.

But . . .

The wicked Arnold was not the only traitor. He was the one who suffered by publicity.

There have been thousands of them in every war. The number of prisoners of war who will cheerfully consent to give information that must inevitably result in death and disaster for their comrades are the extraordinary ironies of every war.

PRINCE IN LIVERY

The startled owner of a yacht cruising around in the gulf makes the uncomfortable discovery that his steward is a prince of the royal house of Russia.

That's nothing. In Hollywood even the elevator man is quite likely to turn out to be a king or a famous Cossack general, or almost anything exalted and grand.

The appealing fact about these faded grandees is the sporting spirit they show. Most of them take up their new lives cheerfully and, furthermore, most of them make good.

PINK VESTS

Pink silk vests, speckled with little embroidered rosebuds, are to be the fashion, if some of the fashion makers can push the idea across.

Well, they will never be able to. Too many honest and sensible bricklayers have come to sport themselves of an evening in these clothes with the top open.

Evening dress is no longer the exclusive covering of fashionable young things who suggest pink rosebuds.

WYOMING REUNION SET

Former residents of Wyoming will meet in Sycamore Grove on the 13th inst. for their annual all-day round-up and reunion. A program will be given.

McCLELLAN TO RUN FOR GOVERNOR

Chairman of Supervisors Enters Contest to Obtain Republican Nomination

R. F. McClellan, chairman of the Board of Supervisors, announced yesterday that he will be a candidate for the Republican nomination for Governor at the primaries next summer. His announcement was a brief statement of his intention to run, which he said will be followed in a few days with a more extended expression of the policies he proposes.

R F McClellan

Mr. McCellan has been a member of the Board of Supervisors ten years, and chairman six years. His statement follows:

"In response to the urgent request of many prominent citizens and various civic organizations throughout the State, and after careful consideration, I have decided to announce my candidacy for Governor."

Mr. McCellan has been a resident of Sawtelle for nearly twenty years, during which time he has been closely identified with the business and civic life, not only of that community, but of the city. He is chairman of the board of the National City Bank, a director of the Citizens' Trust and Savings Bank, and president of the Citizens' State

(Continued on Page 2, Column 3)

SHOUP MAY QUIT OIL POST

McLaughlin Slated to Become New President of Associated-Tidewater Combination

BY HOWARD C. KEGLEY

Details of the probable organization of the prospective Tidewater-Associated Oil Company were forecast yesterday following the news that Blair & Co. of New York is to transfer control of the Associated Oil Company of California to the Tidewater Oil Company of New York.

Proceedings have reached the point, it is said, where even questions of future management have been disposed of. It is reported upon good authority that Paul Shoup, president of Associated Oil, and executive vice-president of the Southern Pacific Company, is to relinquish the presidency of Associated, and continue at his important post in the transportation world. He was until recently president of the Pacific Oil Company, which was purchased by the Standard. Pacific and Associated have been petroleum subsidiaries of the Southern Pacific Company.

A.C. McLAUGHLIN

According to unofficial information obtained yesterday in petroleum circles, A. C. McLaughlin, vice-president and general manager of the Associated Oil Company, is expected to be elevated to the presidency of the Tidewater-Associated Oil Company, while L. J. King, who has been in charge of field operations for years, is expected to become superintendent of operations. It is understood

(Continued on Page 2, Column 5)

INVENTOR PLANS HUGE AIRSHIP

All-Metal Dirigible for Commercial Flight to New York Will Be Built Here at Ross Field, According to Program Announced by T. B. Slate

An all-metal, commercial, dirigible airship experiment, on which [illegible] will be expended for preliminary work, will begin at Ross Field, Arcadia, within a few days, Thomas B. Slate, an eastern inventor of note, announced last night.

Slate has just returned from Washington where he leased one of the two hangars of the Army's balloon school at Arcadia for a year. He said his project will [illegible] the work of ten to twenty men, some of whom already have moved to Arcadia, for the next few months.

"I have enough faith in this experiment," Slate said, "to finance it entirely with my own money and without asking anybody else to do anything for me. When I succeed I'll put a Los Angeles-New York, thirty-six-hour, airship service into effect. The $2,500,000 necessary to do that already has been arranged for and that financing will be done by a closed corporation."

Slate said he has enjoyed two big inventive successes. One, he said, is the air-driven motor used by Army airplanes during the war for generating radio broadcasting power, and the other is the "Dry-Ice" refrigeration system.

ACQUIRED FORTUNE

He is said to have made a fortune from the last invention and came here from New York City last year to begin work on his all-metal dirigible idea. Last fall he toured the country, visiting aviation centers, demonstrating a model in order to acquire criticism of other experts, and now is ready to build a half-sized flying vessel—of the type he intends ultimately to put into service.

President T. B. Young of the Western Aero League, said last night that he has been studying

(Continued on Page 2, Column 6)

TODAYS BIBLE TEXT

"For everyone that doeth evil hateth the light, neither cometh to the light, lest his deeds should be reproved." John iii, 20.

DAM FIGHT HEARING BEGUN

Controversy of Pasadena and County on San Gabriel Site Presented to Commission

The long-drawn-out controversy between the city of Pasadena and the Los Angeles Flood Control District over right-of-way for dam construction purposes in the San Gabriel Canyon went to hearing yesterday before the three commissioners appointed by the Secretary of the Interior to decide the issue.

The hearing had been continued from a week ago yesterday in the hope that a compromise might be arranged, but this was found to be impossible, the commission was informed.

WITNESSES HEARD

Practically the whole day was devoted to examination of witnesses called by Roy Dowds, flood control district counsel, in support of the district's petition for right of way up the canyon, whereon to construct a railroad to convey materials for the great San Gabriel flood control dam.

The commission having ruled that it would open the gate to free discussion of the contention of Pasadena that the dam site, chosen by the flood control engineer at the forks of the canyon is not the best available location, much testimony was heard on this point. Pasadena wants to build a reservoir in the canyon, too, and

CLIMAX TODAY IN JAIL CLASH

Supervisors Probably Will Blame Traeger

Latter Says He Never Saw Plans of Building

Bean Declares That He Did; Row Over Locks

(Continued from First Page)

along this line from Traeger and Croushorn, Bean said.

His recommendations will include the barricading of a number of corridors leading to the fire escapes; the removal of the master combinations from sixteen locks on doors leading to the fire escape and to the emergency stairway and the placing of two doors at either side of a series of tank blocks to be used for an opening to the fire escapes in the place of the corridors.

Asked about the locks yesterday, Bean said he is not a locksmith and that it is up to the Van Dorn Iron Works Company of Cleveland, O., to make an explanation.

"Experts told us we were buying the best locks in the world and we took their advice," Bean said.

WIRES TO FACTORY

According to L. J. Lang, Los Angeles agent for the iron works, whose office is at 1623 South Hill street, a factory expert is now on his way to Los Angeles to examine the County Jail.

"The company I represent has been building prisons for the last fifty or sixty years and it has never had a situation arise like this one," Mr. Lang stated. "We are having more trouble right here than in the entire history of the firm. I cannot say what the trouble is and for that reason I wired for the factory representative."

Sheriff Traeger later issued a statement in which he likened the jail to a sieve. He declared he recommended that the fire escape doors have locks only on the outside and that he had gone on record against the construction of the emergency stairway. The only safe way to eliminate this danger of escape, he said, would be to barricade it at the ninth floor, but this cannot be done on account of building regulations.

He pointed to the fact that women prisoners are able to carry on conversations with some of the men prisoners and that some of the conversations are unfit for publication. He also declared another defect was the placing in the hands of elevator operators, who are not deputy sheriffs, of keys for the elevator doors to the jail. These same keys given to the elevator operators, he said, also will open the doors of the emergency stairway.

Wonders How to Keep Prisoners In

Sheriff Traeger Examines Jail Lock

PLOT REPORTS RIFE IN COUNTY JAIL

Rumors and reports of jail break plots spread like wildfire yesterday through the new County Jail as a result of the escape of a total of eight prisoners within the several weeks the prison has been occupied.

Sheriff Traeger got a report yesterday morning that Howard Hall, 23 years of age, and James Thompson, 34 years of age, bank robbery suspects, were going to try to break while they were being taken to court.

They didn't.

At 3 p.m. sharp, another report said, there was to be another break. Nobody seemed to know just who, when or where, but 3 o'clock passed as peacefully as 2 o'clock did and when it came time to check up, all were accounted for.

Breaking jail is just naturally in the atmosphere of the new jail, one of the jailors commented. With the prisoners, it is pretty much of a joke.

But Sheriff Traeger and Chief Jailor Croushorn are more concerned. Thompson and Hall were placed in cells from which it will be impossible for them to make their way to any one of the doors which, it is declared, can be picked with a fork and a spoon.

A number of other prisoners also were transferred to cells considered more safe.

M'CLELLAN OUT FOR GOVERNOR

(Continued from First Page)

Bank of Sawtelle, which he founded and its branches. He has served on the Sawtelle Council and school board at various times, but aside from this local service, he has held no public elective office except that of Supervisor of the Fourth Supervisorial District.

A native of the State of Maine, Mr. McClellan spent most of his early life in Minnesota, being taken to that State by his parents when he was 8 years of age. He was educated there and became a civil engineer at Princeton, Minn., serving as County Surveyor and on various government surveys. For a period he was chief timber cruiser of the State.

In 1898, Mr. McClellan went to Alaska and engaged in mining. At the same time, he established his family in Sawtelle, and for the next eighteen years he divided his time between Southern California and Alaska. He was connected with the Kennecott mining interests, in Alaska.

Thousands Have Found Health

Hundreds of thousands of people have traveled to Hot Springs, Ark., to drink Mountain Valley Water during the last half century. Now it is available to you in your home.

This delightful mineral water that has helped to make Hot Springs, Ark., famous as a health resort, is prescribed by leading physicians as a distinct aid in the more successful treatment and prevention of Bright's Disease, Diabetes, High Blood Pressure, Rheumatism, Neuritis and Kidney, Bladder and Stomach Troubles.

Many Los Angeles people will tell you of the wonderful benefits they have derived from drinking Mountain Valley Water. Ask us their names and for free booklet.

PLAZA DEPOT RECOMMENDED

Engineer Gives Figures to Prove Contentions

Views Based on Lengthy and Unbiased Inquiry

New Site More Accessible to Great Majority

(Continued from First Page)

mony presented by Engineer Mott from data applied by the railroads themselves is that it answered the claim of the carriers that the permanent joint use of Central Station by the Southern Pacific and the Union Pacific passenger services would abate the Alameda street train traffic nuisance, as ordered by the Interstate Commerce Commission and as declared yesterday by Engineer Mott as "intolerable."

The testimony of Engineer Mott also showed strikingly the tremendous increase in population of Los Angeles during the past fifty years, the increase in automobile ownership and in industrial development in recent years, resulting in traffic congestion at Alameda street and other crossings for which the commission is now seeking to find a permanent remedy.

INTOLERABLE DELAYS

"Conditions on Alameda street," Engineer Mott testified, "as shown by the various checks of delays due to train movements across these crossings are intolerable. Relief must be afforded. This is the problem before the commission. There are three solutions proposed—the Plaza union passenger station, by which the passengers of all lines will be kept north of First street; the carriers' plan, providing for the continued use of the Arcade depot by the Southern Pacific and the Union Pacific, the trains of which will reach this depot by trestles from the east bank of the Los Angeles River, and a union passenger depot on the east bank of the Los Angeles River at Sixth street, as proposed by the Municipal League, or at Ninth street, as proposed by W. H. Daum.

Data presented by Engineer Mott showed, for example, that from 1918 to 1923 the traffic delays at the Fourth-street crossing of Alameda street, due to Alameda-street train movements, had increased 186 per cent, and at Ninth street and Alameda streets, 155 per cent. During this period from 1918 to 1925-1926, vehicular traffic on Alameda street had increased 562 per cent, largely due to the increase in motor vehicle ownership. Mr. Mott then showed that since August 16, 1926, whn the Railroad Commission permitted the Southern Pacific-Union Pacific joint use of the Arcade depot, now proposed as permanent arrangement by the two railroads, there had been a slight increase in these traffic delays at Alameda-street crossings due to train operations on that street.

"This temporary arrangement," testified Mr. Mott, "of the joint use of the Arcade depot by the two railroads has resulted in a further interference with traffic conditions on Alameda street."

TRAFFIC FIGURES GIVEN

As a basis for his testimony to show how vehicular traffic of all kinds has increased in Los Angeles in recent years, Engineer Mott presented data showing that in 1860 the population of Los Angeles was 3700, in 1920 was 576,000, in 1923 was 1,070,000 and in 1924 was 1,182,000. In 1912 the Pacific Electric and Los Angeles Railway lines carried a total of 183,000,000 passengers, while in 1925 these lines carried a total of 342,000,000 passengers. Automobile registration in Los Angeles county in 1914 was 43,000 and in 1925 was 578,000. Automobile registration in the combined counties of Los Angeles, Orange, San Bernardino and Ventura in 1914 was 51,468, and in 1925 was 657,379. The three steam railroads were carrying each week in January of this year an average per week of 209,000 passengers, and are handling now in and out of Los Angeles per hour 1508 passengers on an average day or 1837 on an extra busy day.

These figures were presented by Engineer Mott to show that, due to the tremendous increase in population of Los Angeles, the increase in the passenger business of the steam roads and street railways, and of street vehicular traffic since the Railroad Commission issued its Plaza union depot order of 1921, the problem of eliminating train movements from traffic-congested Alameda street and of affording adequate and convenient steam-railroad terminal facilities was greater than it had ever been, and the need for its solution greater than existed in 1921, when the Plaza union-depot order was issued.

The engineer called attention to the fact that this traffic congestion problem and the necessity for removal of train operations from Alameda street was more acute than ever, despite the $6,000,000 viaduct-building program now under way and the relief which has been afforded by the construction of the Ninth-street viaduct and will be afforded by the completion of the others at Macy, Aliso, First, Fourth and Seventh streets. He called attention to the fact that the Railroad Commission in the interest of traffic congestion relief had ordered the separation of grades at Butte street and Santa Fe avenue, so that the Southern Pacific and Santa Fe tracks would pass under Santa Fe avenue at this point.

Health Officer Lists Ten New Smallpox Cases

Ten new cases of smallpox were reported in Los Angeles yesterday, according to City Health Officer Parrish. Daily reports at the Health Department this week were: Sunday, three; Monday, seventeen; Tuesday, eleven, and Wednesday, ten.

There has been a total of 555 cases reported this year to date. The total for last week was fifty-five cases. Totals for the three preceding weeks were 113, 112 and thirty-eight cases, respectively. The total for last month was 329 cases.

LAYS SLAYING TO ATTACK ON WIFE

Daniel J. Sims

HEARING BEGUN ON CANYON DAM

(Continued from First Page)

the site chosen for a dam cuts across the right of way asked by the flood control district.

City Attorney Howard of Pasadena proposed to show that there is a better site for a flood control dam at Granite Dike, lower in the canyon, and that there will be no conflict of right of way if the flood control district will change its choice of location.

CHANGE OPPOSED

Any proposal for a change of site is bitterly opposed by residents of territory to be protected by the San Gabriel dam, and a score or more of witnesses, representing city bodies and other interests in practically every community along the San Gabriel River were heard yesterday. They all testified that they and their fellow-voters had voted for the bonds to build the dam with the desire and understanding that it would be built at the forks.

The Department of the Interior is conducting the hearing because the right of way requested by each party is on government land, and the commission, consisting of F. J. Safley, F. E. Bonner and H. D. McGlashan, was appointed to make a finding as to which request would be granted.

What Pasadena wants is a location for a dam behind which to store water from the canyon, which it hopes to have allocated to it in proceedings now before the State Water Rights Commission.

STORAGE OFFER

The flood control district has offered to store for Pasadena any water so allocated to it, up to 65,000 acre feet annually, and this proposal was the basis of the compromise under consideration last week. But Pasadena, Counsel Dowds said yesterday, demanded control of the storage and release of this water, and the Board of Supervisors did not feel they could consent to any division of control that might interfere with the use of the great reservoir for strictly flood control purposes.

The hearings are being conducted in Room 252 of the Courthouse. It is considered probable they will continue several days. Yesterday's session was attended by a crowd that packed the room, drawn chiefly from the communities along the San Gabriel River, clear down to Long Beach. Among those listening to the proceedings was E. W. Kramer, hydraulic engineer, attached to the Federal Power Commission, who was present to pick up such information as might interest the commission.

SHOUP TO QUIT OIL COMPANY?

(Continued from First Page)

that the Associated organization will be retained intact.

No announcement has yet been made as to the basis upon which the exchange of securities between stockholders of Tidewater and Associated will be conducted, but it is expected that this will be forthcoming within a few days. It is understood that shares in the new company will be offered to stockholders of both the old companies.

The asserted deal would give California a greatly enlarged company, valued at approximately $225,000,000, and equipped to carry on in all branches of the petroleum business. The Tidewater Oil Company of New York is reported to have assets listed at $94,432,000, and it is asserted that Blair & Co. paid $132,000,000 for Associated several weeks ago.

Tidewater is an Atlantic seaboard holding company engaged in producing, refining, marketing and exporting petroleum and its products. It has a nation-wide marketing organization known as the Tidewater Oil Sales Corporation. This organization has been engaged in the distribution of Tidewater products in California for five years, maintaining headquarters in San Francisco and a district office in Los Angeles. The Tidewater Oil Company produces oil in Oklahoma and Texas, and has refineries in both those States as well as at Bayonne, N. J. The company is reported to be controlled by Standard Oil interests.

The Associated Oil Company, which absorbed the Amalgamated Oil Company of California about two years ago, is one of the four leading oil companies in this State. It stands fourth from standpoint of crude oil output, producing between 50,000 and 55,000 barrels of crude per day. During the last quarter of 1925 it ranked fifth in the State as a marketing organization, selling 21,416,717 gallons of gasoline during that period. It operates a refinery at Avon on San Francisco Bay and a topping plant at Watson Junction.

Associated, in addition to its acquisition of Amalgamated, has absorbed numerous other companies in this State. It owns the West Coast Oil Company, now operating in Los Angeles county, the Miley Keck Oil Company at Huntington Beach, the Pantheon Oil Company, Reward Oil Company, Sterling Oil Company, and a number of other small producing organizations in the San Joaquin Valley fields.

ADMITS KILLING BURBANK MAN

Suspect Says Slaying Due to Attack on Wife

Victim Formerly Helped to Care for Woman

Mystifying Deed Solved by Sims's Confession

Daniel J. Sims yesterday admitted he shot and killed Robert Cromwell at Burbank, February 4, last, Capt. Bright, head of Sheriff's homicide squad, announced late yesterday afternoon. Sims, it is said, declared Cromwell had attacked his wife, who was adjudged insane about a year ago. Cromwell had been helping take care of Mrs. Sims, it is reported.

Sims is a truck driver living at 115 South Alameda street, Burbank. His wife, Mrs. Bertie Sims, who is said to have been in ill health for some time, was removed to the Burbank Hospital last night. Three persons, Police Officer Arthur F. Palmer of Burbank, sister of Mrs. Sims, Mrs. Estelle Cunningham, her mother, and Charles Cunningham, her stepfather, were arrested as material witnesses last night.

The killing of Cromwell, a truck driver living at 307 Lake street, Burbank, had been a mystery until yesterday. Cromwell, who was 38 years of age, was shot twice, in the eye and in the neck, as he was putting his automobile into his garage on the night of February 4. He had driven his wife home from a hospital where they had spent the evening with their little son, Robert, Jr., who had been injured by an automobile a few days before.

MAN FLEES

Mrs. Cromwell, it is said, told police she had hurried out at the sound of the shots, and saw a man fleeing across a vacant lot. Investigation by Sheriff Traeger, Undersheriff Biscailuz, Capt. Bright and Chief of Police Long of Burbank brought no result until recently. Then it was learned Cromwell had once been employed as attendant in an insane asylum and had been helping take care of an insane woman in Burbank.

This woman, the Sheriff's office said, is Mrs. Bertie Sims. She had been adjudged insane a year ago and paroled to the custody of her husband. After that, it was stated, Cromwell had been engaged to assist in caring for her at her home.

OPERATION PERFORMED

About a month ago, it was declared she had been taken to a hospital in Burbank, where an operation was performed upon her. Sims was arrested yesterday afternoon and after being grilled for hours, according to Capt. Bright, admitted killing Cromwell, asserting as the motive that Cromwell had attacked his wife.

The arrests were made by Deputy Sheriffs Hunter, Hanby, Stensland and Blasdel. Mrs. Cunningham, mother of Mrs. Sims, contradicted Sims's story at several points, they said. She denied, they stated, that her daughter had undergone an operation. Mrs. Cunningham, the officers said, had been sought on a warrant issued about a year ago, in which she was charged with obtaining several thousand dollars on promise of marriage from an elderly man living at Sawtelle.

Police officer Palmer, brother-in-law of the asserted slayer, is said to have been dismissed from the Los Angeles police force in 1924. As a Burbank officer he was assigned to aid in the Cromwell murder investigation. The deputies declared he proved a hindrance to their work.

The three persons being held as material witnesses may have known the identity of the slayer and remained silent, the deputies believe They base this opinion on Sims's asserted statement that he said, at his home after the shooting: "Well, I got that guy."

HUGE DIRIGIBLE PLANNED HERE

(Continued from First Page)

Slate's idea and models for some time and that he has "a lot of faith" in Slate's project.

The experimental ship, Slate said, will be fifty-three feet in diameter and 212 feet long, capable of carrying twenty-five passengers and baggage. Two motors providing 450 horsepower will propel the craft. Hydrogen gas in metal containers will provide the lifting power. The ship will be shaped somewhat like an elongated egg with the propeller on the forward and blunt end. A crew of three men will operate the craft.

The airship that Slate hopes to develop for transcontinental commercial travel will be a 200-passenger craft, 424 feet long, 106 feet in diameter and having three 800-horsepower motors. It will be made to develop an average speed of seventy-five miles an hour with a maximum of 100 miles. It will carry all the conveniences of a Pullman railroad car and then some, Slate said. He believes a passenger could profitably be carried from Los Angeles to New York for $130.

Slate has lived in Glendale since he came West and the Glendale Chamber of Commerce, of which Dr. Young is a vice-president, has given the inventor encouragement.

AIR-MAIL HEAD HERE TO INSPECT PLANT

Col. W. Irving Glover, Second Assistant Postmaster-General in charge of the national air-mail unit, will arrive in Los Angeles this morning from San Francisco to survey and give his final approval on inauguration, April 1, of the Salt Lake-Los Angeles service of the Western Air Express.

Col. Glover will leave for Washington Friday noon. Thursday, shortly after his arrival, he will confer with Postmaster O'Brien and then visit the Western Air Express's new landing field near the Bandini industrial tract.

Adoption of the Neon gas light now in use on the airways of Europe for illumination of commercial airways centering on Los Angeles was discussed at a conference yesterday between Harris M. Hanshue, president of Western Air Express, Inc., and H. T. P. Hollingsworth, president of the Claude Neon Lights, Inc., and Paul D. Howse, Sr., president of the Electrical Products Corporation of this city.

FOREIGN MAILS SWELL ENTRIES

Every Ship Brings Letters in Idea Contest

"Times" Circulation Abroad Shown by Returns

De Mille Busy Appraising Suggestions Offered

With the decrease in domestic mail after The Times-De Mille photoplay letter contest closed for good February 27, the European entries picked up by leaps and bounds.

Hundreds of letters from all European and many Asiatic countries are still coming in on the late boats. All of these letters so far are postmarked before February 27, and are therefore eligible for the first prize award of $1000 or one of the thirteen succeeding prizes aggregating $1100.

One of the surprises of the contest was the large number of entries from Hawaii, written in French, German and English with really worth-while suggestion.

THE TIMES ABROAD

Even San Salvador was represented with two neatly typed letters in Spanish. The writers declared that they had read a copy of The Times brought to them by a visitor from America and that they intended passing the newspaper on to other movie fans.

England was a liberal contributor, as was France, Germany, Spain and Italy. One German was so afraid that his letter would get lost that he cabled his suggestion. It cost him many hard-earned marks but he believed the effort was well worth it.

For the past few weeks a translator of eight languages has been working overtime deciphering Chinese symbols, Rusian and German script and scores of letters in the painstaking style of the French. Swedish, Belgian and Czecho-Slovakian letters have also been received.

These letters are typed out in English and are being sent Mr. De Mille in New York with the other entries.

So great has been the flow of meritorious suggestions that Mr. De Mille is finding it harder to make his decision than he had supposed. The present contest is vastly different from The Times-De Mille contest of 1922 in that the contributions as a whole were more intelligently planned. Less than 1 per cent of the letters received have been declared negligible. This means that very few "nuts" sent in their mental ravings.

IMMENSE TASK

The task of sorting out the best of these ideas is taking all of Mr. De Mille's working time at present. He is visualizing the picture possibilities of the best entries carefully classifying and filing them for the time he will make his decision.

When Mr. De Mille finally decides on the winning idea he will go over all entries of a similar character and the first prize of $1000 will go to the writer of the best presented one.

This work will take him at least three weeks. In all fairness to late European contestants, announcement of the prize-winning idea will be deferred until it is reasonably certain that no letter bearing postmarks before February 27 will be received.

When the winner is announced, there will be no delay in forwarding the checks. It is hoped that a decision will be ready by the last of March.

BUYS SITE FOR TRUCK STRUCTURE

White Motor Company Pays $500,000 for Large Tract to be Headquarters

Impressed by increase in sales since establishment of a branch factory here six months ago, the White Motor Truck Company of Cleveland, O., yesterday completed the purchase for a sum of approximately $500,000 of the property bounded by Washington, Maple and Twentieth streets, R. D. Sangster, manager of the industrial department of the Chamber of Commerce, announced.

The proposed building to be erected by the White company will be the sales and accounting headquarters for the entire Southern California territory, which includes Santa Barbara on the north, San Diego, Bakersfield, the State of Arizona, and the State of Sonora, Mexico. It will be constructed on the general lines of the White building in San Francisco, but will be twice as large, G. A. Urquhart, vice-president of the White company, said. It will be the largest White service plant on the Pacific Coast, he added.

Tentative plans are under consideration, Mr. Urquhart stated, and it is expected that actual work will be started in the near future.

Mason, Cole & Co. negotiated the deal. The property has a frontage of 475 feet on Washington street, 240 feet on Maple street and 475 feet on Twentieth street.

Kley Quits as Studio Chief for De Mille

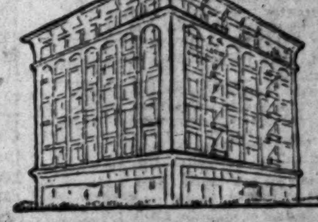
Fred Kley, general manager of the De Mille studio at Culver City and for ten years studio manager for Famous Players-Lasky, has resigned and left the motion-picture business, he announced yesterday. He will be vice-president of the West Coast Mortgage Securities Company and will continue on the board of directors of the Metropolitan Mortgage Company and as chairman of the board of the Culver City branch of the Bank of America.

Kley came to Los Angeles with De Mille in 1913 and leased a barn at the corner of Vine street and Selma avenue, which was the original Lasky studio. Kley made considerable investments in Los Angeles real estate, and his holdings have increased greatly in value.

INAUGURATION · MONTH · AT · BULLOCK'S

1907

Bullock's first Building March 4·1907·164,061 square feet of floor space



TODAY—Thursday, March 4th—will be a very important day at Bullock's. Ushering in Inauguration Month and Bullock's Twentieth Year.

Since the first day of Bullock's, March 4, 1907, opportunities for Service have never been broader or more inspiring. Today's responsibility, therefore, is great. That an unusual occasion has been anticipated is a fact evident in much New Merchandise in every Section of Bullock's.

A great deal has been accomplished in the way of Special Values throughout the Store. A responsive chord has been struck in every heart at Bullock's, for the traditions of Inauguration Month are rich in inspiration.

The Story of Bullock's progress from its first meagre beginnings, with a comparatively small floor space of 164,061 square feet in 1907, in the building at Seventh and Broadway, is a series of graphic strides forward. In less than five years—March 4, 1912—work had commenced on an additional building for Bullock's on the North, which, when completed, brought Bullock's total floor space to 288,156 square feet.

In 1917 the first stride to the West was made with the acquisition of the Pease Bros. Furniture Building on Hill Street, giving Bullock's an increase of floor space to 393,141 square feet.

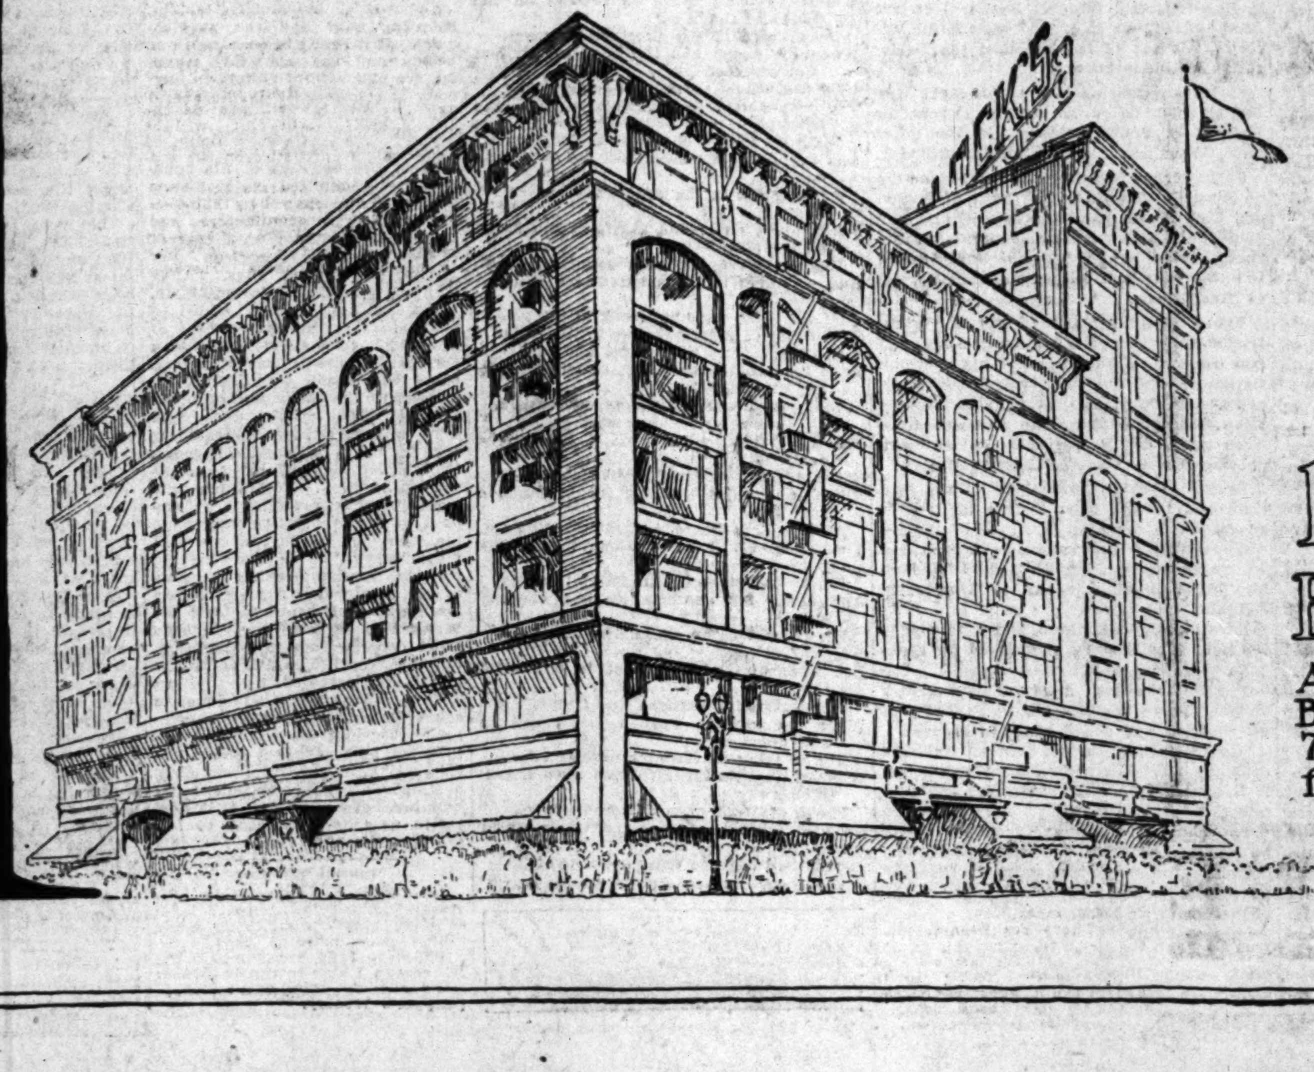
Two years later in 1919, Bullock's acquired the building now known as Bullock's Seventh Street Building and the property on Seventh and Hill Streets, making available immediately a total of 450,061 square feet of floor space, and leaving the way open for further development of an inspiring character.

March 4, 1923—another Inauguration Month beginning—and work under way for a 10-Story Building for Bullock's adjoining Bullock's on the North, fronting on Hill Street—increasing floor space to 506,227 square feet.

Another short year and a momentous chapter in the history of Bullock's was written. Another 10-Story Building on Hill Street and a block long Service Building on Stanford Avenue, between 10th and 11th Streets, bringing Bullock's to its present imposing stature of 739,156 square feet of floor space.

This is the story briefly: It turns the thoughts of Bullock's towards the future with determination to advance until the full measure of possibility shall have been accomplished.

Inauguration Month holds to the vision, steadfast. Its activities are a concentration upon making Bullock's Service noticeably appealing and satisfactory. It sponsors Courtesy, Cheerfulness, Friendliness and Sincerity as means toward making Bullock's a pleasant place to shop. It has as its ideal, "The Satisfaction of Every Customer."



The usual distribution of violets will commence at 10:00 and continue.

LOS ANGELES (Loce Ahng-hayl-ais)

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is exclusively entitled to the use for republication of all news credited to it or not otherwise credited in this paper and also all local news published here within.

The Times aims at all times to be accurate in every published statement of fact. Readers who discover any important inaccuracy of statement will confer a favor by calling attention of the Editorial Department to the error.

THEY DISAPPEAR

Riches that have wings are mostly flying in the wrong direction.

FOUND WANTING

If the coal man got on his own scales he might give himself a weigh.

BARK OR BITE?

A husband complains in the divorce court about the wife biting him. But possibly this is better than if she kept barking all the time.

NOTHING STIRRING

The Democratic National Committee has found a press agent, but unless he has a remarkably vivid imagination he won't be able to dig up any stuff worth putting over.

SELF-PUNISHMENT

Senator Jim Reed's advice is: "Whenever you see a head, hit it." He may have been spending some time before the mirror because he has damaged his own bean more than anybody else's lately.

STUDENTS' PRANKS

Founder's rock, the huge granite boulder which has been set up on the new college campus in Westwood, weighs seventy-five tons, but this may not prevent a male quartet of the studentry from transplanting it to the dome of the administration building some Holloween.

MUCH PUBLICITY

If the Countess Vera Cathcart planned and negotiated the publicity that came to her she certainly got a trunkful. She would make some of the Hollywood press agents look like wooden Indians. Whether the notoriety is all in the form the Countess craved is another question.

AIMING HIGH

The ancient Greek boxers would be horrified at the way the fight game is carried on in these days. The Spartan battlers were not supposed to hit an opponent beneath the chin. They aimed only at the head. When they spoke of knocking a guy's block off they meant just that.

CRAMPED STYLE

A lady book-keeper who developed writer's cramp through her attention to business has been awarded $20 a week under the Industrial Compensation Act. Maybe here is a chance to put some of our forgers, check-kiters and other fountain-pen financiers on the pension roll and save them from preying on the community.

WIRELESS WAVES

Why do breakers roar? The breaking of the wave produces no sound, but the bursting of air bubbles when the wave strikes the shore causes the rythmic roar. And the roar, says Dr. Clark of the National Museum, being wirelessed through the water, warns fishes to turn tail and speed for the open sea. A fish and a human are alike in one respect; both run from roars.

SAVING AND SPENDING

Since the Coolidge administration has been on the job there has been a lessening of the people's taxes to the extent of more than $1,000,000 for every day. But the pitiful thing is that during the same time the State, county and local taxes as spread over the land have increased nearly $2,000,000 a day. If a man saves $1 a day with one hand and spends $2 with the other, how long will it be before he is in the poorhouse?

MORE PRISONS NEEDED

There are nearly 3500 names on the prison roster at San Quentin, but only accommodations for about 2400. As a result more than 400 are out in road camps or working on the highways. There are a great many paroles and pardons, but the prisons are still playing to standing room only. The bulk of the business comes from the southern part of the State and that is a reason why there is a crying demand for a new penitentiary in this section of the State. If we had a Governor like those of Illinois or Texas we might not need any prisons, but in California there is still a belief that criminals should be kept in confinement.

SUN-SPOTS

Using smoked glass a person with good eyesight can detect a spot on the sun about every thirty days. There are many spots, but it takes telescopes to see the others. The sun rotates faster in some places than others, the total rotation requiring from twenty-five to thirty-eight days. Dr. George Ellery Hale, of the Mount Wilson Observatory, has discovered that the whirling of wind around a storm center on the earth corresponds with the whirling of gases around the spots on the sun. A big tornado up there is liable to cause a tiny one down here. From our point of view the tiny tornado seems very tumultuous.

TRANS-PACIFIC TRADE

One of the leading men in the American Foreign Service, for over twenty years a resident of China, observed during a recent visit to Los Angeles a lack of appreciation here of the extraordinary opportunities presented us in possessing the most central port on the American Pacific Coast for handling oriental trade.

For instance, last year raw silk to the value of $400,000,000 from China and Japan passed through our Pacific ports. This raw material was shipped across the continent to eastern manufacturers and then a part of the manufactured goods in the shape of hosiery, silk fabrics; etc., shipped back to users in the West, thus entailing a double charge for freight. Freight rates on silk are very high, so that it will not take long for the people on this coast to pay to the railroads the price of a factory for making their own silk goods. In Los Angeles we have the port and can get the raw material. Why do we seem to prefer paying freight rates to building our own factories?

The same argument applies to China's vegetable oils, used in a number of industries in the United States, passing through our ports to eastern cities to come back to us in the shape of manufactured products. Our trans-Pacific import trade from China, Japan, the Philippine Islands and India aggregates nearly $1,000,000,000 a year, which for us is mostly goods that pass in the night. Another trans-Pacific import of world-wide value is Australian wool. Australia produces about half the wool the world consumes and this largely goes to British manufacturers. Yet the nearest port for Australian exports is Los Angeles, and Californians buy an immense quantity of manufactured woolen goods.

The port from which the largest shipments of crude rubber are made is Singapore, most of which rubber goes to American factories. The nearest harbor for receiving these rubber consignments is Los Angeles. If some day the Philippines compete with the Malay Peninsula and the Dutch East Indies in the production of this staple the Pacific will still be the ocean to transport the major part of the world's rubber supply. Why, then, should not the largest center of the American tire industry be located on the California coast?

In the export trade, too, this same authority declares our Pacific ports might be a greater factor than they are at present. These Pacific ports make good distributing centers. Our Los Angeles jobbing houses could work up a large trade with China if they exploited the value of expeditious shipments and guaranteed careful handlings and reasonable forwarding charges. He gives one example of what American capital might do in China.

"There is in China a province of the size of Texas with a population of 50,000,000 or 60,000,000 without one mile of railways and without one motor car. Yet these people have a rich civilization. Think what it means to give these people railways and how the country will then open up and develop." Eighty per cent of the Chinese are engaged in agriculture and are still using primitive implements, most of the work being done by hand. Here is a large field for introducing American machinery to the advantage of both China and the United States. Los Angeles is the logical port through which this vast business would pass and the logical city wherein to establish headquarters for the vast oriental commerce certain to follow such an awakening.

Reports of internal disorders in China may possibly at present appear discouraging to those who get their reports over the cable only. Americans who have been in long accord with Chinese civilization and others who are on the spot and can give unprejudiced views of the present situation agree that fears for the safety of foreign investments there are based chiefly on rumor. At any rate, the Belgians are constructing a railway in China with Belgian and Dutch capital and are carrying on the work successfully, in spite of the sporadic instances of disturbance and disorder. This concession of 1500 miles of railway will soon be completed. What Belgium can do certainly America can do in forming trade relations with this supposedly unstable republic.

The present possibilities of Los Angeles are many and varied. Its position on the map and the advantage it gives us for handling trans-Pacific commerce is certainly a point we ought not to overlook. The following words of advice, spoken by one in possession of facts concerning China after twenty years' residence there, deserve serious consideration by all who are promoting the welfare of the Southwest:

"We should have here in Los Angeles an oriental institution connected with the university where we could make a study of these problems. It may be linked with the Chamber of Commerce and other institutions that might helpfully co-operate. I think the time has come to remind our people here in America they should look across the Pacific."

OUT OF THE FRYING PAN

Speaking of lightning-change artists, what have we here?

After promising to tear Mexico into shreds the Hearst papers suddenly reverse themselves and begin to carry love and kisses to the border.

They charged that Gov. Rodriguez of Lower California was not only directly responsible for vicious conditions in Mexicali, but was fattening on them. Because of the license system there was a hint of partnership. Mexicali was draining the life blood of the Imperial Valley, a lure for the manhood of America. Visitors were led into pitfalls of iniquity. Robbery and murder were among the least of its crimes. Throughout the Governor was depicted as a fat spider in a slinky web.

It would seem that the only relief would be to have Congress and the army get together and mop Mexico off the map.

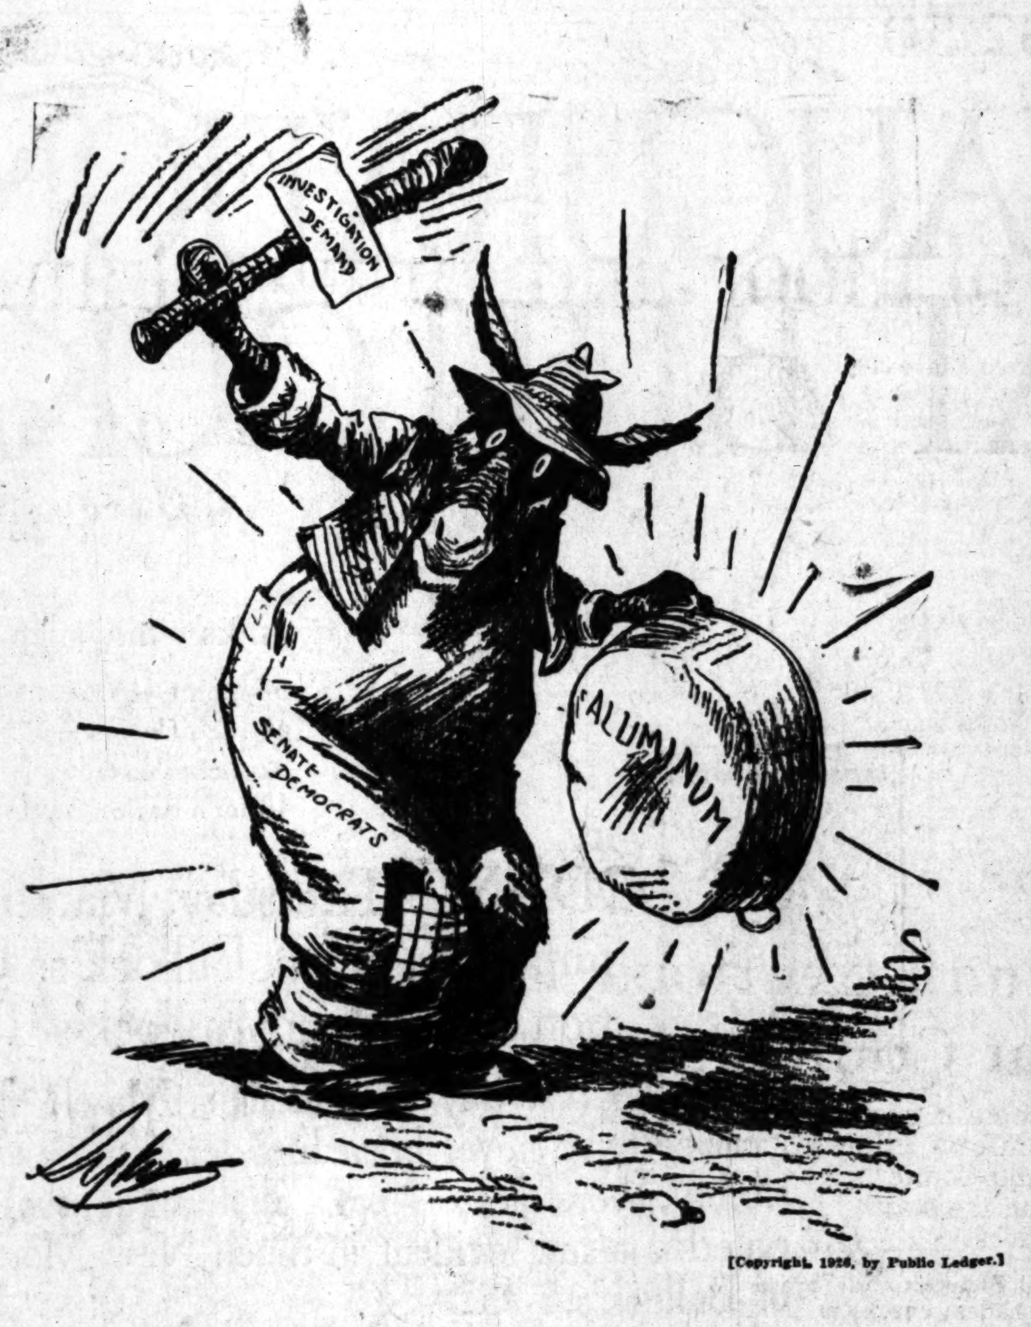
The Hearst papers promised further thrilling disclosures. Mexicali was to be revealed in all its fiendishness.

But the promise blew up.

About this time the intimation came from Gov. Rodriguez that if Mexico was as black as painted the northern neighbors should be protected from its hazards by all means. Anyhow, he promised himself that Mexicali and other ports in this district would be closed to American commerce. The usual contacts would be severed and the travelers would have to go elsewhere for their iniquity.

Whereat there was a lightning-like reversal of Hearst form and Hearst policy.

Just Noise



[Copyright, 1926, by Public Ledger.]

The promised disclosures were forthwith abandoned.

They were never made.

The foamy investigators were hastily pulled off the trail.

Not only that, but abject apology was made. It was intimated that if there was anything wicked in Mexicali it was due to the low-down Americans of the vallety who went there to parade their sin. The Americans and not the Mexicans were responsible for such pollution as could be found.

It was a noble gesture of groveling.

It was an admission of the untruthfulness and insincerity of all that had gone before, made because of loss of business threatened for the Hearst papers by reason of the indignation of those whom the closing of the line would most affect.

But Hearst jumped out of the frying pan into the fire.

First he insulted the Mexicans.

Then to soothe the Mexicans he insulted the Americans.

And now they are both after him with a club.

GO-GETTERS

March 4 is more than the quadrennial anniversary of the inauguration of a President. It is the 150th anniversary of "one of the most remarkable achievements of any war in history." At least so says Robert Shackelton.

Boston was the hot-bed of disaffection. Gen. Howe held the city with 11,000 redcoats. Washington, who had just been elected commander-in-chief of the forces of the colonists, was investing the Briton.

The beleaguered invaders had difficulty finding food and forage. Bunker Hill had been taken; but it proved a doubtful victory. For out of it blossomed the Declaration of Independence.

"With an amazing lack of foresight" the British had failed to fortify Dorchester Heights in South Boston. On the other hand, Washington had no guns to utilize it.

So he turned to Harry Knox, a 26-year-old newlywed. The youth had been in Boston and Gen. Howe was suspicious of him and denied him leave from the city. But the young bride sewed her husband's sword into his coat and helped him steal away to Washington.

Young Knox set out to get the guns. Immediately after the battles of Lexington and Concord, Ethan Allen of his own initiative rushed out and took Ticonderoga and Crown Point, two strongholds between Lake Champlain and Lake George. Here were guns, but it was a herculean engineering feat to transfer them to Boston.

Horses proving worthless, Knox got oxen and by the most terrific toil finally succeeded in dragging fifty-nine of them—some weighing 5000 pounds—through the winter snows over the Berkshire Hills on all but impassible roads to Dorchester Heights.

Feverishly, Washington began to fortify the hill. A wild storm that raged for three days weakened the British assaults. Under the frowning guns of Dorchester Heights Howe realized the untenability of his position and sailed away to Halifax.

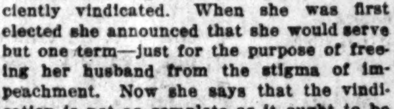
"Go to Halifax" is not just an ordinary consignment. Nor is it a mere substitute. It is loaded with historic content and contempt.

The plans of the most illustrious would be nullified without the go-getters. The councils around the mahogany in times of peace would not be realized without the go-getters in field and factory.

So March the 4th is the 150th anniversary of the miracle of Harry Knox trampling upon impossibilities. More than guns were lashed to the sledges that were dragged across the full length of Massachusetts that hectic year of 1776. The independence of a mighty people was in that train.

THE WOMAN OF IT

Mrs. Miriam Ferguson will again be a candidate for Governor of Texas. This is not because there are still a few prisoners in the penitentiaries to be freed, but because the Fergusons have not been sufficiently vindicated. When she was first elected she announced that she would serve but one term—just for the purpose of freeing her husband from the stigma of impeachment. Now she says that the vindication is not as complete as it ought to be and that another term is necessary. She asserts that it has been the custom in Texas to renominate the male Governors—when they have been good—and she demands like consideration on the part of the voters. She concedes that if she is elected there will be two Governors—just as is now the case. She says that her experience has taught her that filling the office is a little too big a job for one man or one woman. She naively puts it: "It takes both Pa and Ma to get over the rough places."



A DISMAL OUTLOOK

By James J. Montague.

Mr. Stefanssen says that when beef is crowded from the range the reindeer, caribou and musk ox will supply us with meat.

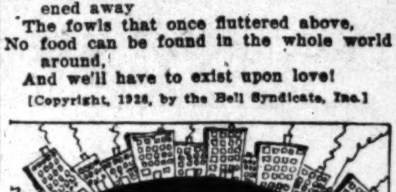
When the cows cease to browse on the plains of the West
On account of the shortage of space,
When the sheep and the hogs are at last dispossessed
By the widely spread out human race,
The reindeer will calmly step into the breach
Walk up to the shambles and die,
Aud supply all the meat that we ever need eat,
As they did in the ages gone by.

When night clubs and movie shows stand on the site
Where the reindeer once sounded his call,
And we think that ere long there will not be a bite
Of rib roast or round steak at all,
The caribou boldly will step to the front
In droves from the tundra and fen,
Bend his neck to the knife and by departing this life
Will provide us with meat once again.

When business blocks stand where the caribou trod,
And bungalows reach 'round about—
When real estate's selling for so much a sod
And we fear that our meat will give out,
The packers will travel along toward the pole
Where the musk ox his habitat makes,
And again for a while we can cheerily smile—
For there'll be an abundance of steaks

But when the whole planet is one solid town
Of apartments, garages and shops,
When the gasoline wagons that speed up and down
Are as thick as the now useless cops,
When the sputtering airplanes have frightened away
The fowls that once fluttered above,
No food can be found in the whole world around,
And we'll have to exist upon love!

[Copyright, 1926, by the Bell Syndicate, Inc.]



THE CRIME WAVE

BY ELMER ELLSWORTH HELMS

Even the deaf have heard. "Prohibition has given birth to a crime wave in America unparalleled in history and, therefore, should be repealed."

There has been an increasing crime wave for thirty-five years. In 1885 there were 1000 murders in the United States. In 1906, twenty years later, there were 9000; an increase of 900 per cent. Nineteen twenty-four, eighteen years later, 11,000, an increase of 27 per cent. From 1910 to 1923 burglary in the United States increased 1096 per cent; robbery, 1017 per cent. Sixteen years ago President Taft said, "The rapid increase of crime is due largely to the failure of the law and its adminfstration to bring criminals to justice." As early as 1914 a committee of the City Council of Chicago, after long investigation of the causes of the crime wave in Chicago, reported: "The crime condition in Chicago is the result of a crime trust regularly organized and officered, involving and including criminals, police, members of the bar, public prosecutors and public officers, and even judges of our courts—a crime trust whose commandment is, 'They shall not be found out.'" The American Bar Association, after long and thorough investigation, recently reported, "We do not find the proportionate increase in crime from 1916 to 1924 greater than from 1910 to 1916." The coming of the high-powered automobile making get-away easy and the get-rich-quick spirit that has possessed our people and the wholesale manufacture and sale of pistols to anybody and everybody is the secret and explanation of much crime. The American Bar Association recently said, "More than 90 per cent of the murders of the country are committed with pistols and revolvers, and yet in 1921 450,790 pistols were manufactured and sold in this country at a cost of $6,204,426." The American Bar Association further says, "After long and painstaking investigation, while prohibition has added a heavy load to the enforcement of law and has led to violations of a certain character, it has more than offset this result by contributing largely to the reduction of other crimes." The crime wave was here and has been increasingly here for thirty-five years and more. Prohibition did not bring it. It was in solution. Prohibition only precipitated it, revealed it, reflected it, and the revelation came none too soon. The World War revealed great groups of foreign-speaking peoples, foreign-thinking peoples, in our country who were in America, but not of America. And the World War revealed our country's great danger from this condition, but the World War did not cause it. It only revealed it.

Thus has prohibition done to crime. It has turned on the searchlight. Turning the searchlight on to a rat hole does not create the rats. It only reveals their dirty nesting place. The criminal rat hole has been revealed. It is now up to us true Americans to kill the rats, the dirty rats.

Musical Warning

Landlady: You seem to be musically inclined Mr. Jones. I have so often heard you singing while taking your morning bath.

Roomer: I do enjoy music but the reason I sing in the bathroom is because the door won't lock.—[Capper's Weekly.

LETTERS TO The Times

Violation and Repeal

LOS ANGELES, Feb. 28.—[To the Editor of The Times:] When I read some of the objections voiced by Dr. Nicholas Murray Butler to the prohibition amendment and his reasons for the repeal of the measure and everything connected with it, including the Volstead law, somehow I had the same idea you express in the editorial, "Prohibition—and Dr. Butler," in today's paper; that because the law was violated it should be repealed. I cannot quite understand just why Dr. Butler does not go a little farther and go on record in favor of legalizing the various laws that are persistently violated such as counterfeiting, homicide, burglary and a few other of the minor laws. Should he declare that these are not laws affecting "appetites" and "passions," in the observance of which each person ought to be his own guide, why does he not tackle the various laws concerning domestic relations, urge the repeal of them and legalize everything they are designed to prohibit and regulate?

What is the matter with legalizing all the prohibitions of the pure-food laws?

J. SHERMAN RILEY.

"Prohibition—and Dr. Butler"

RIVERSIDE, Feb. 28.—[To the Editor of The Times:] Your editorial under the above caption, with its innuendos against Dr. Butler, is not calculated to advance the cause of temperance—which we all desire. When a man of Dr. Butler's standing makes the assertion that "to drive prohibition out of the country has become a moral issue" his pronouncement will receive the respectful consideration of all thoughtful men. Dr. Butler, for many years president of our largest university, is accustomed to weigh his words carefully and, instead of railing at him, it would be more to the point to ascertain what cause he has for his opinions. It is also well to remember that President Wilson, one of the most far-seeing men of his time, vetoed the spirit of the Eighteenth Amendment. He foresaw the effect of persecution under the law. Cardinal Hayes, archbishop of New York, confirms the opinions of these eminent men when he says: "Extreme measures lack the spirit and the guidance of reason." In this he is backed by Cardinal O'Connell of Boston, the ranking cardinal of his denomination in America, who states: "Compulsory prohibition in general is flatly opposed to Holy Scripture and to Catholic tradition. Moreover, it is grossly untrue to say that pathology and dietetics have brought in a verdict of guilty against the immemorial beverages of the Old World." A democracy must be governed by law, but let our laws be just and equitable. Public opinion is more potent than jails. The American people can be relied upon to enforce any just law. Let us have peace—and temperance in all things.

W. L. AUSTIN.

Silver Spray

LOS ANGELES, Feb. 10.—[To the Editor of The Times:] Ellen B. Churchill, writing in "Letters to The Times," appearing on the editorial page, takes exception to calling California's coast-line highway "Silver Spray Boulevard," which has been suggested for several years as a distinctive name—although something more descriptive might be evolved.

The critic declares the coast highway to be El Camino Real. Let us see.

From Oceanside north to San Juan Capistrano; from San Juan Capistrano north to Laguna Beach and on through other Orange county beach cities to Long Beach the new State Highway diverges from El Camino Real. New links through Palos Verdes to Redondo and Santa Monica are not El Camino Real. The coast highway through Malibu Rancho is not El Camino Real, nor is it El Camino Real through Ventura county along the Rincon causeway. Only in part of Santa Barbara county do we find a trace of the King's Highway—over which no "king" has ever passed.

From San Luis Obispo new coast highway is being built through San Simeon and on to Monterey Bay with its seventeen-mile drive along the sea, which is not El Camino Real.

Our critic craves for information. She asks why El Camino Real should ever be changed? So far as this writer knows it has not been changed. But in many places the course of scenic highways have been changed as the student of California learns—but not from history books.

GIL A. COWAN.

Give 'Em the Ax

LOS ANGELES, Feb. 24.—[To the Editor of The Times:] It is rapidly becoming evident that some genuine effort must be made to enforce the national law regarding prohibition. The present condition of affairs cannot continue.

It is well known to close observers that in our own county and city of Los Angeles no real effort is made to enforce the dry laws. It is said that some of the roadhouses on the Culver City to Venice highway have been raided as many as fifteen times each.

On most of these occasions it was found that the liquor laws were openly violated. The only real remedy for this condition of affairs is to padlock the above places for one year. The United States officials have the necessary authority to do this.

If the American people desire a new system of handling the liquor evil I would suggest the Canadian system as now in effect in our sister city of Vancouver, B. C.

Coulter's own brands and the fine Sealy Tuftless.

In fact, as fast as good new ideas are developed in bedding you may depend upon finding them at Coulter's.

(Second Floor—Coulter's)

Dainty! The New Silk Bags

ONE'S accessories of course, are just as important as one's apparel; they must be in harmony.

These new bags, in pouch and tapestry effects and black, show all the new spring shades; the frames are of beautiful knurled antique gold finish, some jeweled, and will make a most attractive adjunct to Spring costumes.

Inexpensively priced at **$2.95 and $3.50**

(Main Floor—Coulter's)

Fashionable Coats That Will Be Favorites This Spring

Judge the Coat of Spring By Its Cape

ANY Coat which has a short cape to back it runs a very good chance of standing in Fashion's front line of favorites. Sometimes the cape cuts a circle, rounds the shoulders and ties in front.

A sure way of making a Coat look youthful is to add a cape to its back; this also gives a slenderizing, animated line. Let's all go out and get a Cape-back Coat!

$69.50 to $120

To Be Really Smart, Wear a Sports-y Tailored Coat

THERE'S a jaunty air about them which is delightfully satisfactory—and there's an infinite amount of wear in every one, too!

Shown in novelty mixtures of the newest Spring shades—rose, tan, brown, blue, these strictly-tailored garments are almost essential to the wardrobe—

$25—$29.75—$39.75

The Short Box-Coat Suits Are Very Fashionable

SHORT, trig, saucy box coats, the skirt made with kick-pleats; the materials of almost any novelty weave that you can ask for, in Spring's most fascinating colors. You wear them with a novelty blouse or with the mannish tailored blouse and a smart tie—they become nearly everyone. **$25**

(Third Floor—Coulter's)

Value in Handkerchiefs at 1/2

TWO styles—a fine white linen, with different colored whipped hems; or one with narrow white Val. edge on solid colored linen, in various shades.

Your choice at just half the regular selling price—

Six for 75c

$1.50 a dozen

(Main Floor—Coulter's)

FabricGloves 95c

SPRING and summer's favorite glove—that of fabric—these, in fancy cuff and pull-on style, in shades of tan, beige, natural, white and grey, will add much to any costume; sizes 5½ to 8; special, pair **95c**

(Main Floor—Coulter's)

New Shears All-Steel 95c

The golden crust and the light, fluffy inside are a combination to delight anyone's palate. Nourishment in its most tempting form! Every bite gives pure, body-building food.

It's *always* fresh and fragrant. For Gordon's Bread is delivered straight from our ovens to your own grocer twice every day. Insist upon Gordon's. Twenty times the price couldn't buy better bread!

GORDON'S BREAD

How Beautiful New York Actresses Get Slender With

Silph Reducing Gum—Fat Rolls Off WHILE YOU CHEW

No diets—No exercises—No dangerous drugs—3 pieces of delicious and refreshing chewing gum a day and gone is the FAT!

IT IS no secret today that New York's most beautiful actresses, models and chorus girls are chewing SILPH Gum to reduce and keep trim and slender because they have found it the easiest, safest and cheapest way to get their weight down without having to ruin their health or looks with weakening diets or tiresome exercises.

SILPH Gum works while you chew—Nothing to do—Nothing to take internally—It is better than eating candies—It's just as pleasant and it tones up your entire system while it reduces you. SILPH Reducing Gum contains the extracts of sea plants and herbs which have a peculiar and wonderful effect on eliminating excess fat. At the same time SILPH is remarkable to relieve indigestion and stomach troubles.

"SILPH Reducing Chewing Gum keeps me slender and well," says Tynia, beautiful actress from Earl Carrol's Vanities.

For those who are only plump, but fear the dreaded enemy FAT creeping on one piece of SILPH a day will do—It will keep those rolls of FAT away and you'll be able to eat all you want—SILPH is guaranteed absolutely harmless—DOES NOT CONTAIN THYROID OR ANY DANGEROUS DRUGS—it is the ideal way to reduce because it is so safe and cheap! *Try it today.*

Miss Mable Sears, Sabino, Ohio, writes, "I have already reduced 30 pounds—I think SILPH is wonderful—there is not any excuse for anyone being over weight now, with this easy, pleasing way to reduce."

"Eleven doctors above our store and ⅔ of these doctors recommend Silph" Hover Drug Co., Bay City, Mich.

Louise Mele—winner of contest for most perfect girl in America, advises SILPH Reducing Gum to the woman who cares to get a beautiful figure.

If You Are Too Fat Chew SILPH

Miss Bonna O'Dear beautiful "Vanities" girl "says that she owes her slender figure to "SILPH."

IF YOU ARE BOTHERED WITH STOMACH TROUBLES AND INDIGESTION CHEW SILPH, providing of course you are willing to lose weight as SILPH seldom takes off less than 2 or 3 lbs. a week. You chew SILPH as you would any ordinary chewing gum. SILPH is so agreeable, pleasant and refreshing that you will hate to give it up after you have attained the ideal proportions.

I have lost 8 pounds this week with SILPH, and HAVE EATEN EVERYTHING I WANTED—writes Miss M. T. Valentine, Wilkinson, Indiana.

"The first order of SILPH has helped me wonderfully—I lost 7 pounds in a week," Miss C. Collins, Geneseo, Ill.

"Chew SILPH and be SYLPH-LIKE" In case your druggist is out of Silph you can get it from the Silph Medical Co., 9 W. 60th St., N.Y.C. Silph sells for 50c per box or two full weeks' supply, $1.00. Silph is the name of the original and genuine reducing gum. The only one we personally guarantee to be safe and harmless. BEWARE OF IMITATIONS.

On sale at any OWL or any other good drug or dept. stores.

Of Interest to Women.

SOCIETY

BY JUANA NEAL LEVY

One of the delightful affairs of yesterday afternoon was the elaborate high tea with which Mrs. Jesse Dunham Hampton entertained at her home in Kingsley Drive honoring her attractive young niece, Miss Polly Hampton, daughter of Benjamin E. Hampton of St. Andrews Place, who announced the date of her coming marriage to Walter D. K. Gibson, Jr., as Wednesday the 31st inst. The announcement, of Miss Hampton's engagement to Mr. Gibson of San Francisco and Coronado was made several years ago and the ceremony will take place at 8 a.m. in the picturesque little Church of The Angels, Garvanza Way, when the two sisters of the bride, Mrs. Robert Paulsen (Catherine Hampton) and Mrs. Carleton E. Ames (Mary Hampton) will be her only attendants at the ceremony while David Hampton will serve Mr. Gibson as best man.

The house yesterday afternoon was a bower of spring flowers and ferns and the hostess was assisted by Mrs. Harry Parker, Mrs. H. Browning Landes, Mrs. Joseph E. Wallis and Mrs. William E. Thompson who presided at the tea and coffee urns while asisting about the rooms were Mrs. Carl Guercio (Betty Bundy,) Mrs. Nathaniel Gray Jeffras (Audrey Workman,) Mrs. Robert Paulsen, Mrs. Charleton E. Ames, Miss Dorothy Henry, Miss Jane Mann, and Miss Mary Louise Corbin of Spokane, Wash. One hundred and fifty guests were bidden.

Buffet Dinner

Mrs. William A. Barker was the charming hostess last evening at her home in West Adams street entertaining a coterie of friends at a buffet dinner and card party. Spring flowers, roses and ferns were used in profusion about the rooms and thirty-six guests responded to the invitations. Bridge and mah jongg featured the evening's entertainment.

For Voyageur

Among the charmingly planned affairs of the week will be the luncheon and bridge with which Mrs. John T. Coleman of 716 South St. Andrews Place is planning to entertain Saturday afternoon in honor of Mrs. Edward H. Platt, who is leaving with Mr. Platt, Monday, aboard the S. S. Mongolia for the West Indies where they will remain several months. Those included, all intimate friends of the honor guest, are Mrs. Charles Backus, Mrs. Benjamin Rimpau, Mrs. Rodney Rowan, Mrs. E. B. Lacer, Mrs. Paul A. Burgere, Mrs. James McGiffin, Mrs. George Salm, Mrs. Harold Rose, Mrs. S. L. Wiley and Mrs. James L. Robinson.

For Sister

Honoring her sister, Mrs. Garnette Joslin (Jessie Heber,) from Chile, South America, Mrs. Guy Cameron La Touche (Bernice Heber) entertained a coterie of old friends of both sisters at a charmingly appointed tea Saturday afternoon at her home, 5007 Elmwood avenue. The house and tea table were both attractively decorated with a profusion of spring flowers, roses and ferns, blue shaded candels lighting the tea tables. Mrs. Joslin is being gladly welcomed by her many old friends and is planning to remain for several months' visit.

At Country Club

Mr. and Mrs. W. D. Longyear entertained Saturday at El Caballero Country Club honoring eight friends. Among the hosts who entertained with dinner parties at the same dinner dance included Mr. and Mrs. G. R. Dexter, Mr. and Mrs. Harry Blythe, Mr. and Mrs. G. W. Clemson, Mr. and Mrs. Harry Baker, Mr. and Mrs. Donald Fulwinder, Mr. and Mrs. H. B. Nelles, Mr. and Mrs. Thomas K. Case, Mr. and Mrs. William Reddin, Mr. and Mrs. R. S. Payne and Mr. and Mrs. C. F. Seccomb.

Founders' Day Luncheon.

Phi Omega Pi sorority at University of California, Southern Branch will observe Founders' Day tomorrow with a formal luncheon at The Elite. This annual commemoration of the founding of the sorority at the University of Nebraska in 1910 is always a festive occasion. This year it will be a real home-coming at which the members of the active chapter welcomes more than fifty alumnae representing eight of the eighteen chapters. Miss Sara Sebastian, president of the local chapter, will be toastmistress, and among those to contribute to the toast program will include Mary Rose Borum of Sigma chapter, Miss Pauline Kimball, Delta chapter and Sigma chapter deputy; Miss Marie Wilson, Mu chapter, and president of the Alumnae Club of Los Angeles; Mrs. Olive Fish, Sigma alumnae and Edwina MacDonald, Sigma chapter. The scholarship trophy for the past semester will be presented by the scholarship chairman, May Rose Borum and the sorority prophecy will be given by Margaret MacLean. The colors of the sorority, sapphire blue and white, will be used in the table decorations and favors.

Luncheon Musicale

Mrs. Daisy Bannerman Coates is planning to entertain 150 guests at a luncheon and musicale Tuesday afternoon in the East Indian Room of The Ambassador. Mrs. Hector Geiger, Mrs. J. C. Brown, Mrs. Fred Enderley, Mrs. George G. Hunter, Miss Ada Dryden and Miss Myra Belle Miller will asist the hostess in receiving her guests.

European Trip

Miss Margaret Porter, attractive daughter of Dean Frank M. Porter of the school of law, University of Southern California, left last Sunday for some months' sojourn in Europe. Miss Porter was accompanied by her cousin, Miss Cybil Hayes, daughter of E. A. Hayes of San Jose, and they are planning an extensive tour through Spain, Portugal, Italy and parts of France. Miss Porter is an alumna of the class of 1919.

Interfraternity Affair

Fraternity women of the University of California, Southern Branch, will be given the opportunity of meeting at the only all-sorority affair of the year when the women's interfraternity formal is held tomorrow in the Fiesta room of the Ambassador. More than 300 couples are expected. Alumnae and active members of the twenty-eight women's fraternities both local and national, have been invited, and will attend. Margaret Chisholm, Alpha-Omicron Pi; Peggy Kennelly, Delta Gamma; Helen Johnston, Sigma Kappa, and Elizabeth Fontrom, Kappa Alpha Theta are officers of the National Pan-Hellenic while Elcey Eddy, Gamma Phi Beta, and Anne Spellacy, Delta Delta Delta, of the dance committee, are to receive the guests. The favors will be unusually novel. Patrons of the affair will include Dr. and Mrs. Ernest C. Moore, Mayor and Mrs. George E. Cryer, Dean and Mrs. Charles Reiber, Dean and Mrs. Earl J. Miller, Mr. and Mrs. Joseph Francis Sartori and Regent and Mrs. Edward A. Dickson.

Consul's Wife Ill

Mme. Manuel L. Ayulo, wife of the Consul of Peru in Los Angeles, is recovering from a critical operation at St. Vincent's Hospital and due to the delicate state of her health Mme. Ayulo was unable to accompany her husband on his recent trip to South America.

For Bride-Elect

The first of many lovely affairs planned in honor of Miss Anna Belle Sasnett, assistant registrar of the University of Southern California, who recently announced her engagement to Prof. Hugh C. Willett, was a luncheon given Saturday by Mrs. Maxine Robertson and Miss Mary Hood at the home of the former in Fortieth Place. Covers were arranged for fourteen guests. The table held as centerpiece a basket of daffodils and the same flower motif and yellow color scheme was effectively carried out in the favors and decorations and appointments of the luncheon. Mrs. Roberts and Miss Hood were assisted in entertaining by little Georgiana Jones, the 4-year-old niece of Mrs. Robertson who after the luncheon passed unhemmed tea towels among the guests to be finished for the dower chest of the bride-elect.

NEWLY PLEDGED FOR SORORITY

Honor Guests at Affair in Pasadena

[National Illustrated News Syndicate]

Miss June Greenwood and Miss Louise Fulton

OF MORE than usual interest in collegiate circles this season is the pledging of the many new members of the various sororities on the campuses of both Southern California University and Southern Branch of California. Among the newly pledged members of Alpha Tau Zeta at the latter university are Miss June Greenwood and Miss Louise Fulton, who were among the honor guests at a dinner for the sorority at the home of Miss Geraldine Birk in Pasadena. After the dinner all motored to the basketball games at the Olympic Auditorium.

Women Thank

Science for this new hygienic pad that discards easily as tissue—no laundry

THERE is now an exquisite successor to the old-time "sanitary pad." A new way that offers far greater protection. A way that ends the old problem of disposal.

Eight in 10 better-class women now use "KOTEX."

✓ Discards as easily as a piece of tissue. No laundry. No embarrassment.

Five times as absorbent as ordinary cotton pads.

Deodorizes, thus ending ALL danger of offending.

Obtainable at all drug and department stores simply by saying "KOTEX." You ask for it without hesitancy.

Package of 12 costs only a few cents. Proves old ways a needless risk. In fairness to yourself, try it.

KOTEX

No laundry—discard like tissue

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health" and "Diet for Children"

ANSWERS TO CORRESPONDENTS

DIET IN STOMACH ULCERS

Miss G. If you have ulcers of the stomach you must certainly be under the care of a specialist and go carefully by the diet he advises.

Have you been having a diet deficient in vitamins for a long period? We know that such a diet will produce inflammations of the intestinal tract and finally ulcers. There are other things that are thought to be causes of ulcer: infectious spots in the body, such as diseased tonsils, teeth, etc.; the habit of taking very hot foods or liquids, alcohol; and too much smoking.

The dietary treatment of acute ulcers varies with the case and the physician in charge. Complete fasts, exclusive milk diets, eggs and milk, or milk and cereals, or milk and cream are some of the treatments. After the ulcers have gone beyond the acute stage, more foods are gradually added, but all stimulating or irritating foods must always be avoided. Mild purees of fruits, bananas, dates, apples, avocadoes, purees of vegetables, cereals, strained cream soups, frozen cream, unsweetened custards, olive oil, butter, cream, cottage cheese are allowed at the Battle Creek Sanatorium.

However, let me emphasize again that if you have an ulcer of the stomach you must be under the personal care of a physician, for you should probably be in bed and having other treatments also.

THE ARCUS SENILIS

H.—In elderly people there may be a whitish circle or part of a circle formed around the inner edge of the iris (the colored part of the eye.) This is called the arcus senilis. This whitish circle or part of circle which occasionally may be found in younger persons also. May says is due to a deposit of fatty granules. He doesn't give a reason for this deposit but I imagine it is due to some slight disturbance in the blood vessels so the blood supply is not perfect.

This condition doesn't mean approaching blindness or anything like that, but I would see a specialist and also have a check-up.

Are you living so rapidly you are going to be old your time? How about your ing and other habits?

MENTAL TROUBLES

Mrs. D.—There are certain of mental troubles that are ently inherited, but the studies on mental disorders disclosed that a lot of mental ness is just as amenable to ment as the sickness of any part of the body. Children are born of parents of mental and nervous systems require particular care.

Whether there is an the family or not, each should have some books treat of child psychology. will go to your library you will such books.

Mrs. L.—No, as you have ered from the effects of the you took, they will not affect expected child. But such dangerous to the mother and dom are effective in a woman.

K.—We have been having reports right along from the cles on Constipation and Bal Diet. Send for these if you them. (Inclose only self-add stamped envelope with request.)

HOUSEHOLD SUGGESTIONS

Leftovers

If you have just a small amount of vegetables left over try combining two and serving them together. Carrots and peas, stewed tomatoes and celery, corn and lima beans are suggestions to the housewife to have at the same time. Then the leftovers can be warmed together for a pleasant change.

Snappy Thoughts

Salt eaten with nuts is an aid to digestion.

Save coffee cans with good lids. They are splendid containers for cereals, lard or matches.

A knitting needle is much better than a straw or toothpick for testing foods in the oven.

The shine on a serge suit can be removed by sponging with vinegar and pressed in the usual way.

A Welcome Addition

If the dinner is composed of leftovers and seems a bit "skimpy" make hot muffins or biscuits and bring out a jar of homemade preserves and the skimpiness will never be noticed.

Rubber Corsets

Never wash rubber corsets in soapy water, as the alkali in the soap is likely to rot the rubber. Wash them in lukewarm water with a soft brush and dry on a Turkish towel immediately.

Keep Their Color

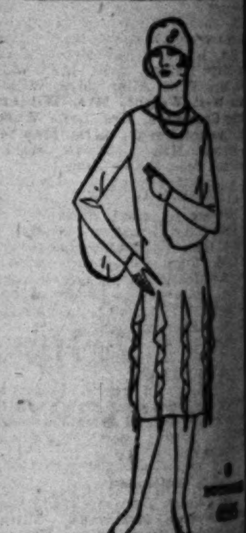
Soak colored handkerchiefs in tepid water to which one teaspoonful of turpentine has been added and allow them to soak for ten minutes. Then wash in the usual manner. This will prevent the color from running or fading.

No Waste

See that your gas water heaters are clean at all times. Brush off the coils and burners so that you always have a blue flame. This saves gas, likewise money.

FASHIONS & FOIBLES

by Shirley Sh



Wraithlike cobwebs of Georgette drift and cling girl's frock of destined for the Mi mer of the South.

FEBRUARY and March being washouts as far as the North cerned, those who can flock Beach and Havana and the Miami. In the far South Summer frocks of Georgette and thin crêpe de Chine. Diet and Health

by Lulu Hunt Peters, M.D.

Author of "Diet and Health" and "Diet for Children"

ANSWERS TO CORRESPONDENTS

like that, but I would see an eye specialist and also have a general check-up.

Are you living so rapidly that you are going to be old before your time? How about your eating and other habits?

MENTAL TROUBLES

Mrs. D.—There are certain forms of mental troubles that are apparently inherited, but the newer studies on mental disorders have disclosed that a lot of mental sickness is just as amenable to treatment as the sickness of any other part of the body. Children who are born of parents of unstable mental and nervous systems will require particular care, naturally.

Whether there is an insanity in the family or not, each family should have some books which treat of child psychology. If you will go to your library you will find such books.

Mrs. L.—No, as you have recovered from the effects of the pills you took, they will not affect your expected child. But such pills are dangerous to the mother and seldom are effective in a normal woman.

K.—We have been having good reports right along from the articles on Constipation and Balanced Diet. Send for these if you need them. (Inclose only self-addressed stamped envelope with request.)

Miss O.—Our article on Headaches may give you some help. Please send for it. (Inclose self-addressed, stamped envelope with your request.)

Tomorrow—Answers to Mothers.

My dear Followers: When sending for material which we offer you, please remember to inclose a stamped, self-addressed envelope bearing your full name and address. The pamphlet on reducing and gaining is the only one for which you must inclose 10 cents in stamps extra. Address your letters to me in care of this paper. Make them as brief as possible, not over 200 words, and type or write them legibly with ink. Please sign your name as evidence of good faith—I will not use it any way. Remember it is impossible for me to diagnose for you or to answer you personally. I appreciate very much the beautiful letters you send me and regret it is impossible to give you individual advice. The questions you ask will be answered in the column as soon as possible, if they are of general interest. Don't forget the stamped, self-addressed envelope if you expect me to send you the information I have offered.

FASHIONS & FOIBLES

by Shirley Sharon

Wraithlike cobwebs of transparent Georgette drift and cling to a young girl's frock of sea-swallow gray, destined for the Midwinter Summer of the South.

February and March being complete washouts as far as the North is concerned, those who can flock to Palm Beach and Havana and the gold coast of Miami. In the far South one must have Summer frocks of Georgette and silk voile and thin crêpe de Chine. For the tea dances at the clubs, the Casino and the Coconut Grove, dress gets entirely away from the sports type and is formal, feminine and with the new movement toward fulness below the hip. On straight frocks, the fulness takes sometimes the form of vertical frills.

Goodcell Says Politics Gives Way to Business

Californians are less interested in politics than in practical and business-like conservation and development, Rex B. Goodcell said yesterday at El Monte, addressing the Chamber of Commerce in his campaign for Governor. In his platform, which he will issue after his resignation as Collector of Internal Revenue becomes effective, he will pledge himself, he said, to a careful survey of the State's resources to foster industrial development.

He will advocate also, he said, the maximum storage and the greatest development of water and the greatest possible use of hydroelectric power, so that there may be an abundance of both water and power for industry, agriculture and domestic uses. This was the candidate's first declaration on State issues.

COUNCIL CLERK RECOVERS

Acting Minute Clerk Browning will return to his duties within a few days in the Council chamber. He has been at his home as the result of an indisposition during the early part of the week.

Clubs Society

Of Interest to Women

Health Fashions

What Women are Doing

Reciprocity Club

Mrs. James B. Lorbeer will be the speaker of the afternoon at the next meeting of the Reciprocity Club, Wednesday, the 10th inst., at their clubrooms, twelfth floor of the Brack-Shops, beginning with luncheon at 12 o'clock.

A program of unusual merit will be given through the courtesy of Mrs. Mae Hatfield, presenting Grove Lindsey, baritone, in several selections, and Miss Eva Yorgesen, reader.

Howard Griffith, young and exceptionally talented pupil of Calmon Luboviski, who was appointed by him to the position of second violinist of the Russian String Quartet, will offer several numbers.

Mothers' Club

A gay and festive occasion will be the annual banquet of the Echo Park Mothers' Club, which will be held Saturday evening, the 6th inst.

The entertainment will be, for the most part, furnished by members of the club. Miss Frances Mehl, whistler; Mr. Charles Booen accompanying Miss Mehl on the new instrument loaned to the club through the courtesy of the Fitzgerald Music Company, the Panatrope; Miss Gladys Kinmont, pianiste, will offer several interesting numbers.

Friday Morning Club

When gardens were sage brush and houses were adobe—of these times will Sarah Bixby Smith talk before the Friday Morning Club tomorrow at 10:30 a.m.

Mrs. Smith, daughter of the Alamitos and Cerritos ranches, has the intimate knowledge of pueblo Los Angeles and is able to convey it to her audience. "Her reminiscence is delightful," states Mrs. Frank A. Gibson, club historian.

Dr. Albert Mansbridge, luncheon speaker for Friday, will hold the interest of every member present, asserts Mrs. W. A. Bonynge, chairman.

Dr. Mansbridge is without a university diploma, yet was chosen by the British crown to assist in the reorganization of the curricula in Oxford and Cambridge. His topic is "Adult Education," of which he himself is a product.

Will Present Play

Fifty people will be in the cast of the play now in rehearsal by the amateur dramatic department of the Friday Morning Club.

The play is a romantic comedy by Percy Mackaye, entitled "A Thousand Years Ago," and will be presented at a matinee on Friday, April 9, in the auditorium of the clubhouse.

Mrs. Park French is directing and the principal parts are taken by Mrs. Richard Stanley Davis, Mrs. Mark Kelsey, Mrs. May Chadwick, Mrs. F. E. Allen, Mrs. Willodeane West Wright, Mrs. William Kirtley Chambers, Mrs. Lena West, Mrs. Charles Lewin, Mrs. Maribel H. Fennell, Mrs. Andrew Blackmore and Miss Helen Westbrook.

Parisian Club

There are so many members of Le Petit Club Parisien studying French that it became necessary to divide them into four classes, two of which meet in the library of the Hollywood Book Store Tuesday and Thursday mornings; one on Harvard Boulevard on Mondays at 7 p.m., and the fourth class at 6323 Lexington avenue on Fridays at 7:30 p.m.

The Tuesday morning class is devoted to conversation on daily topics when French is spoken exclusively, except for occasional translations.

Initiation

Susan Cables, Dorothy MacPherson, Josephine Monkman, Elinor Tims, Mildred Smith, Myra Waterman, Bradford Adams and Milton Norwitz were formally initiated into the Quill Club, national literary organization, the University of Southern California, last week, at the home of Miss Elinor Ives, 1603 Marguerita street, Alhambra. Miss Maude Miller, president of the organization, presided at the meeting.

Hollywood Woman's Club

"Hollywood's Own Soprano," Margaret Messer Morris, with Eunice Laundrum Brigham, pianist, will appear in concert at the auditorium Wednesday morning, the 10th inst. With great success Margaret Messer Morris has assisted in the programs each year at the Hollywood Bowl, and is the chosen exponent of Charles Wakefield Cadman's works. Mrs. Brigham, who has recently entered the field of chamber music, is a former chairman of the music section. Several pupils of Mrs. Brigham, as assistant to Alfred Mirovitch, have won honors both in Los Angeles and New York.

The public affairs luncheon on this date promises much of interest. The program is to be given by the Los Angeles Traffic Department, with Capt. Johnson as speaker. A special film will be brought to the club and shown by the traffic officers. Mrs. Sidney T. Exley, public affairs chairman, will preside, and will give current events of world-wide scope as her share of the program. Members of the State Board, Daughters of the American Revolution, are to be honor guests.

At 2:30 o'clock the Browning section meets in the Hollywood Congregational Church. Mrs. Noah Beery, Mrs. Martha Fowlkes Haun and Mrs. William S. Abbott will give readings from "The Ring and the Book," after which there will be a discussion.

The Junior Auxiliary meets at 4 o'clock.

West Jefferson

Miss Una E. Foyler of the faculty of Manual Arts High School, will lecture before the West Jefferson Woman's Club, Wednesday, the 10th inst., at the Odd Fellows' Temple on Washington street.

Miss Fowler is the conductor of the "Castle Tours" to Europe, leaving every summer, and will undoubtedly have many interesting experiences to relate in her own delightful manner.

A card party will be held in the evening to which the public is invited. Proceeds to go to the clubhouse fund.

Santa Monica Club

Programs designed to show the progressive development of music have been featured by the music department of the Santa Monica Bay Woman's Club, of which Mrs. Louis Jackson is chairman. Monday, the 8th inst., "The Development of Song" will be presented by Arta Rogers and Florence Russell at 11:30. The program of the afternoon is a lecture-recital by Dorothy Warren with O. Henry as the subject. There will also be songs by Madeline Cherry, soprano. The luncheon session will be under the direction of Mrs. S. E. Hamilton, conservation chairman, who will present Mr. C. W. Sanders in a talk on "Conservation of Water and Forests."

Collars are frequently made of the same material as the coat.

CHEF WYMAN'S Suggestions For TOMORROW'S MENU

Breakfast

Orange Juice
Coddled Eggs
Toast Jam
Milk Coffee

Luncheon

Crab Flakes Creole
Palmdale Salad
Hot Biscuits
Prune Whip
Milk Tea

Dinner

Cream of Spinach
Salted Nuts
Clopino Santa Barbara
Boiled Rice
Hearts of Lettuce
Roquefort Dressing
Zabaione
Orange Cookies
Milk Coffee

CRAB FLAKES CREOLE

Heat in a saucepan four tablespoonfuls of olive oil, add two finely chopped onions and one finely shredded green pepper; fry until the onions are a light golden brown, drain off the oil and add one crushed clove of garlic, and, if liked, three sliced canned or fresh mushrooms; cook two minutes and add two peeled and chopped tomatoes or one cupful of thick canned tomatoes, four tablespoonfuls of hot water; simmer slowly for fifteen minutes; add two cupfuls of cooked crab meat, heat, season with salt and paprika, and serve on a plate bordered with steamed rice.

PALMDALE SALAD

Peel, core and cut in halves lengthwise three even sized pears and drop in cold water to which has been added two tablespoonfuls of lemon juice. Mix one cupful of peeled and chopped white celery with five tablespoonfuls of chopped walnut meats, one tablespoonful of chili sauce, one chopped pimiento, and two tablespoonfuls of French dressing. Lay a half-pear on a bed of shredded lettuce on a cold plate, fill the core hole with the mixture, cover with lemon mayonnaise and sprinkle with finely chopped pimiento and nut meats.

CLOPINO SANTA BARBARA

Place a large canful of tomatoes in a one-quard saucepan and add to them a seasoning of salt, paprika and half a teaspoonful of sugar, one teaspoonful of rosemary, one teaspoonful of thyme, half a teaspoonful of cloves, and half a teaspoonful of mace; bring to a boil and simmer slowly for half an hour; strain into a clean saucepan, add one tablespoonful of lemon juice and one tablespoonful of finely chopped parsley and let simmer slowly. Place in a thick iron pot half a cupful of olive oil, two finely chopped onions; and two crushed cloves of garlic; cook until the onions are a light yellow; add three pounds of boned and skinned halibut cut in three-ounce pieces; season with salt and cook until lightly browned on all sides; add the tomato mixture and simmer slowly for two hours. Serve in a border of spaghetti.

ROQUEFORT DRESSING

Place in a bowl half a pound of roquefort cheese and one teaspoonful of butter, mash and rub to a smooth paste, and work into it gradually one teaspoonful of salt, two teaspoonfuls of Wrcestershire sauce (if liked;) one-quarter of a teaspoonful of black pepper, four tablespoonfuls of vinegar, and a scant half cupful of olive oil.

ZABAIONE

Beat hard for six minutes six eggs and half a cupful of powdered sugar; place in a double boiler and beat over the fire with a rotary eggbeater until stiff enough to hold a small spoon upright; while whipping work in four tablespoonfuls of orange juice and one tablespoonful of maraschino syrup. Serve hot or cold in tall, thin glasses.

THE NEW

IN STORES AND HOMES

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS

By Olive Gray

Green for Harmony

Never anywhere, it seems, can green be so very green as in California in early spring. Wise Dame Nature was she not, to choose this color for her ensembling. None other could so harmonize all the natural growths; none could so satisfy the eye, so content one's chromatic sense. Those versed in occult lore declare that adoption of green, in personal surroundings, in our homes and in our dress, indicate that we have arrived upon a new plane of harmonious understanding. If waving a red flag—or rag—makes animals fighting mad—let's try a green one to pacify. Hurrah for a new world peace pennant!

Flaunting Fine Feathers

At a recent gay little, if rather formal dinner, Editha wore a shoulder boa of love-bird green ostrich feathers—a boa which broadened somewhat shawl-like at the back, and she carried—or rather I should say flirted—a huge fan, to match. This accent to a gown of filmy black, with a single somewhat exaggerated spray of exotic foliage, in the same tropic green—a corsage ornament, placed most graciously—completed a singularly striking costume.

∴

Enveloping Tunics

Again are tunics becoming arrogant. Some, in fact, come near to being the entire dress or gown. The skirt, scarcely appearing below the edge of the elongated top garment, is cut so short in its career, as scarcely to have needed a certificate of birth. Little more than a hem-length of skirt is allowed visibility—so all absorbing is the tunic, when a tunic is at all.

∴

Extremely Coatish

Coat, dress, or smock? Who can distinguish one from the other? Coats are made to resemble dresses; dresses look like coats; smocks are cut upon lines replicating both. Yes, and the latest mimicry is the suit-looking coat—one pretending to be both skirt and jacket. In fabric lies the distinguishment, not in line or trimming. The tailored garments, certainly, fashion themselves from standard wools, or heavy silken mixtures; but dresses and smocks may be outlined in either silk or cotton. A smock exhibited in an exclusive local shop required the labeling placard "smock" to distinguish it from its neighboring dresses in similar material.

∴

In the Arms of Fashion

Small hats are still clinging to the heads of the most fashionable.

Pastel green suede alligator makes a pretty oxford shoe.

Printed dress fabrics are coming in very large and colorful designs.

Velvet is made into frocks which flare and frocks which are straight.

There is much color and brightness displayed in all the new clothes.

Velveteen makes a fashionable, snug and warm dress for the small girl.

We see pink, bright yellow and green, also white, worn in the evening.

Frock coat, hat, shoes and other accessories should be designed to go together.

Alpaca and crepe de chine are much-favored materials for two-piece costumes.

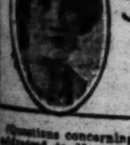
Lines are very finely drawn this season, with very exacting attention to details.

Pastel blue and pink chiffon make a charming combination for an evening frock.

Beaded gowns are good for the older woman's evening frock.

Evening frocks have practically the same outline as day frocks.

The afternoon frock may or may not have an accompanying coat.



The Woman and Her Job

BY VALERIE WATROUS

(Questions concerning the problems of women will be answered in this column if addressed to Mrs. Watrous at The Times.)

THE WAYS OF SYNDICATES

Dear Mrs. Watrous: I have some material ready for publication and want to try to syndicate it. Could you tell me where I might get practical information as to where to go and whom to see in the city?

Sincerely,
D. H. K.

There is no one in the city who is making a business of syndication, so far as I know. Almost all the big syndication companies are in New York or Chicago, although there are several individual syndicates scattered throughout the country. I am writing you personally and inclosing a list of some of the better-known firms.

The road to syndication is a rocky one, my dear Dorothy. It is not usual to contract for material from one who has no publication background. To promote the work of any writer means the outlay of many dollars for advertising. You can easily understand that any concern would be reluctant to spend money which might never be returned.

If your material is in the nature of a column, for example, how can any publisher be sure that you will continue with your output day after day, or month after month? Perhaps you might produce for six months, then grow stale and finally expire. Before the syndicate was fairly well under way, you would have died by the roadside.

The writer who has a background of production may reasonably be depended upon. If she has been conducting a column two or three times a week, or every day, as many columnists do, across two or three years, it gives the syndicate company some assurance of continued production.

Every type of feature builds up its own following, every writer has friends, and newspapers know that the more popular their features and writers the greater the number of subscribers.

Columns are looked upon as circulation builders, and when material is submitted by a syndicate company, Mr. Editor will judge it from the standpoint of circulation.

Even the comic strip, which is the type of feature most easily sold by the syndicates, requires time to win its friends. I know many brilliant men who are reluctant to read stories from the typewriters of new authors; they like the familiar line, they are acquainted with the style of this or that writer, and they look for the name before they concern themselves to inquire about the type of story they are to read.

This is even more true of the daily or weekly feature whether it be classed as a comic or as an editorial comment on current events.

If your material is in the nature of a story, then the complete tale must be submitted. If it is a daily or weekly column, or story, it is wise to submit twelve to fourteen pieces of typewritten matter. If it is a human story of 1000 to 3000 words, or fairy tales woven about some particular character, no less than twelve should be sent out to the syndicate company.

Of course, you understand that your material should not only be typewritten on letter-size sheets, but your typewriter ribbon should be new, the lines double-spaced, with generous margins at top, bottom and sides.

The appearance of your material when it reaches an editor must make a favorable impression, even though the product itself is unusually superior. Editors are human beings, easily impressed by externals. A carelessly typed sheet showing a time-worn ribbon may bring a rejection even before your story has been read.

—Cut with the high back that insures plenty of room—with elastic at waist and the double elastic at the knee. At much less than regular price—65c—Friday (not today) in Bullock's Basement Store.

Sunset Cliffs

On Point Loma, San Diego

The American Riviera,—San Diego's most exclusive and most highly restricted residential district will be officially opened for sale on Saturday afternoon, March the 6th, at 2:00 P.M.

For years many people, not alone in Los Angeles and San Diego, but in the east as well, have awaited the announcement of the day when this most wonderful of all wonderful properties would be placed on the market.

In all the world there is no spot which offers the setting and natural beauty to be found here. Here you will find a distinctiveness and an individuality which cannot be duplicated elsewhere, as it has been restricted to conform with ideas to be found only on the French and Italian Riviera. All villa sites located on the Cliffs have a minimum restriction of twenty-five thousand dollars, some farther back from the Ocean front ten thousand dollars. All buildings must have red tile roofs and be of a light color. All improvements, consisting of paved streets, curbs, sidewalks, electroliers, sewers, water, gas and electricity, are included in the purchase price.

These properties are priced and sold on terms running over a period of four years, if desired, in such a manner as to be within the reach and means of any person seeking a home in a district of this kind.

We invite your inspection of this wonderful property.

AUTOMAT HEADS FACE CHARGES

Complaints Against Eight Officials Filed Here

Action Based on Indictments Returned in St. Louis

Reduction in Bond Specified at $20,000 Requested

United States Commissioners' complaints were filed yesterday against eight officials of the Automat Sales Company and Automat Service Company believed to be in Los Angeles. The complaints were based on indictments returned at St. Louis against nineteen officials of the companies charging use of the mails to defraud.

The men named in the complaints are H. B. Chessher, G. F. Wollcott, G. M. Ferguson, James A. Hool, William A. Readey, J. L. O'Brien, L. T. McCann and J. H. Grahman.

At a conference with U. S. Atty. McNab yesterday, Attorneys H. H. Harris and Culver L. Olson, representing the men named in the complaints here, stated, it was said, that their clients will surrender today prepared to furnish bond.

The indictments specified bond of $20,000 for each of the nineteen defendants. McNab, it is said, has asked reduction to $10,000 for each of the men named in the complaints here, with the exception of $15,000 for Chessher and Hool.

According to information here, $400,000 was obtained from investors in the two companies, which were incorporated in March, 1925, for $100,000 each under the laws of Missouri, to operate in California. The specific charge, it is said, is based on a letter said to have been sent to Josephine G. Guhman, 4531 Washington avenue, St. Louis, telling of machines known as the "Sunny Jim Servers" which were to bring in $90 a year each.

IRISH WILL PAY TRIBUTE TO PATRIOT

Local Societies to Honor Robert Emmet by Program of "Old Country" Airs

A memorial program in tribute to Robert Emmet, Ireland's beloved patriot and national hero, will be given tonight at the Knights of Columbus Hall by the United Irish Societies. The program will commemorate the Irish patriot's birthday anniversary.

DOROTHY EDWARDS

A number of unusual features have been arranged. Attorney Frank J. Barry will read Emmet's famous "Speech From the Dock," and a number of ancient Irish songs and melodies recently unearthed by folksong students of Ireland, will be rendered for the first time at this meeting by Dr. Thomas Taylor Drill, founder and director of the Irish Choral Society of Chicago, who will be in charge of the entire program here. A concert also will be presented by a number of noted artists, assisted by the St. Thomas Choir.

Among the artists who will appear are May A. Trude, Mrs. Dorothy Edwards, Burling M. Stump, Miss Karen Jacobsen, Armand L'Ecuyer, Mrs. Ethelyn Fridley and Agnes Real. The committee in charge of the anniversary celebration is composed of Mrs. Frank J. Barry, Mrs. William E. Donovan and Mrs. Teresa McSweeney.

Pair in Prison Are Free From Marital Bonds

Although Arthur Pollock and Claude Porter both are under sentence for felonies, they were accorded a certain sort of freedom yesterday.

Judge Summerfield did it with his fountain pen. First he signed a decree of divorce for Irene Pollock. Then he signed one for Beatrice M. Porter.

Pollock is under sentence to San Quentin for embezzling $57,000 from the Union Oil Company. Porter has been sentenced to the prison at Leavenworth for stealing postoffice funds. The wives of both appeared before Judge Summerfield yesterday, both represented by Attorneys Milton Cohen and R. D. Knickerbocker, and each pleaded commission of a felony by her husband as cause for divorce.

ACTS ON TRAFFIC FUND

Proposed Ordinance to Aid Street Plan Given Council

City Attorney Stephens yesterday referred to the Council the proposed ordinance creating a revolving fund to expedite work on the Major Traffic Street Plan. The Council did not get to the matter and will take it up today.

The fund, termed the street improvement revolving fund, will be established by transfers from the general, reserve, permanent improvement and general street improvement fund. It is contemplated that moneys from the fund will be expended for acquiring condemned properties and the construction of various necessary improvements, which will later be repaid to the fund from the created assessments district.

ACTOR'S BROTHER KILLED

Allen Elder, member of the cast of "Desire Under the Elms" at the Orange Grove Theater has been replaced temporarily by Jerry Young in order to attend the funeral of his brother who was shot and killed by Mexican bandits near Phoenix, Ariz.

FREIBURG PLAYERS IN FILM

Will be Seen on Screen at Shrine Auditorium in "Passion Play"

A picturization of the Freiburg Passion play will be the premiere attraction at the Shrine Civic Auditorium on Sunday, the 14th inst. The roles in the drama are delineated by the Freiburg Passion players who, like those of Oberammergau, since 1600 have been producing the play at intervals.

The utter simplicity of the picture, entirely free from anything that savors of sensationalism, and the accurate, reverent manner in which the various events of the New Testament are delineated, have made it most popular wherever it has been shown.

It will be presented in Los Angeles supplemented by an impressive prologue, special music, lighting effects and other beautifying amplifications.

Carthay Center Theater Ready Late in April

With three shifts working construction of the Carthay Circle Theater of the Far West Theater Corporation, is progressing rapidly. The house is expected to open the latter part of April.

More than $500,000 is being spent on this amusement enterprise which is to have many novel features.

Chief of these is that the auditorium is being built in a complete circle. The building is of Spanish design, with 150 foot tower overlooking the entire Wilshire and Beverly Hills section.

Local and eastern factories are now making to order the furniture, drapings, carpets and fixtures. The theater is being built under the direction of Fred Miller.

MADGE BELLAMY IN CIRCUS GIRL ROLE

Madge Bellamy and Leslie Fenton will appear in the leading roles of the William Fox production of "Thunder Mountain," which opens at the Criterion Theater for a week's run, beginning Saturday.

In this story of the crude folk who live in the Blue Ridge Mountains, Miss Bellamy portrays a little circus girl who runs away from the show and takes refuge among the mountaineers.

Leslie Fenton is seen as the worst boy on Thunder Mountain who later develops into an idealistic lad, ambitious to raise his people from ignorance and poverty to knowledge and prosperity.

Others in the cast include Alec Francis, Emily Fitzroy, ZaSu Pitts, Paul Panzer, Dan Mason, Otis Harlan, Arthur Houseman, and Maine Geary.

ALICE JOYCE FILM FOR METROPOLITAN

What happens to the family when mother "steps out?"

That mother is forced to "step out" to save the family, is the theme of the society drama, "Dancing Mothers," which Herbert Brenon has produced for the screen from the successful Broadway stage hit. The picture will open at the Metropolitan Friday.

Alice Joyce, the mother, Clara Bow, the daughter, and Conway Tearle as the "other man" are featured. The husband is portrayed by Norman Trevor.

Verne Buck and his musical buckaroos are rehearsing their next presentation which will be on the same bill, entitled "Red Hot Week." The setting will represent the North Pole.

MAY ROBSON DRAWS CROWDS TO MASON

May Robson is now enjoying a successful second week at the Mason in "Ma Pettengill," dramatized from the popular stories of Harry Leon Wilson's, by Owen Davis, whose many successes are familiar to the literary world.

Davis has written a play, which the public is welcoming with unanimous approval as a restful diversion from the deluge of problem plays and others of the questionable caliber.

CROSLAND TO DIRECT BARRYMORE'S NEXT

John Barrymore, star of "The Sea Beast" at the Figueroa, will start work at Warner Brothers studios shortly in Rafael Sabatini's "The Tavern Knight" under the direction of Alan Crosland, who is the only director ever having received an opportunity to direct Barrymore in more than one picture, according to Jack L. Warner.

WILL JOIN FILM COLONY

Henry Santrey, and his wife, Anna Seymour, now at the Orpheum, expect to become permanent residents of Los Angeles. They have picked out a home in the hills out Hollywood way, and will establish their residence there. Of course, it is not expected that they will refrain from playing the Orpheum circuit from time to time, but they'll move their establishment here from New York.

SIGN FOR "TOM" ROLES

Arthur Edmund Carew and Lucien Littlefield have been signed for important roles in "Uncle Tom's Cabin," Harriet Beecher Stowe's classic which Harry Pollard is to direct. Carew will play the role of Harris, the young mulatto husband of Eliza, and Littlefield will play the part of Marks, the lawyer.

DOROTHY SEAY SIGNED

Dorothy Seay, child actress, has been signed by Warner Brothers for a role in "Silken Shackles," starring Irene Rich. Dorothy played with Irene Rich as a child in "Compromise."

EASY WORK FOR OLAND

Warner Oland is enacting a unique role in "Technic." He is playing a theatrical manager and his long experience on the speaking stage qualifies him excellently for this characterization.

FLASHES

LASKY DOINGS

DOROTHY GISH, NOAH BEERY BOTH MADE HAPPY

By Grace Kingsley

Scouting around and seeing old friends at the Lasky studio yesterday was no less an interesting person than Dorothy Gish.

NOAH BEERY

Miss Gish came West to see her sister, Lillian, a week or so ago, you remember, but she is hardly to have what you might call a glimpse of her, inasmuch as she has to hurry right East again in order to sail for England on the Aquitania on the 20th inst.

When Dorothy Gish reaches England, she will start work almost at once on her new contract with the British National Pictures, Ltd., of which J. D. Williams is managing director. Her former picture, "Nell Gwynne," made in England, was purchased by Paramount.

Miss Gish's first picture to be made abroad will probably be "Mme. Pompadour." This will be made partly in the new studios being erected just outside of London by British National, but it is quite likely that a good deal of it will be made in Paris.

"The English picture makers are beginning to recover from the setback which the war gave them," said Miss Gish, "and I think they are going to do very great things."

The star is to remain abroad to make four pictures, which she estimates will take about a year. Her husband, James Rennie, cannot accompany her on this trip, as he is playing in a big success in New York on the stage, and cannot get away at this time, but may be able to take a flying trip this summer.

An important announcement emanating from the Lasky studios yesterday was to the effect that Noah Beery is to have the greatest character role he has ever played.

This is the part of Sergt. Lejune, "the bravest and most brutal soldier in the French Foreign Legion," according to the description of Maj. P. C. Wren, author of "Beau Geste," which Herbert Brenon is directing.

Ever since it became known that Paramount had purchased the screen rights to this dramatic story of the Sahara Desert, every available character actor in Hollywood has been hoping for this part. Beery himself considers it the greatest opportunity of his career.

In the principal roles are Ronald Colman, Neil Hamilton, Alice Joyce, Mary Brian and Ralph Forbes.

CHARLES BRABIN IS STARTING BIG FILM

Charles Brabin signed yesterday to direct a picture for First National. The picture is to be made in New York, and Mr. Brabin leaves tomorrow for the East, where he will at once start work on the feature.

Theda Bara, who, in the more or less private life of a movie star, is Mrs. Brabin, will accompany her husband.

She went East a few months ago, spending but a week in New York, and had the misfortune to be robbed the minute she stepped her foot from the train, when some one, recognizing the noted actress, and doubtless considering that she was bringing her famous jewels along, those she had worn in all her noted vamp pictures, grabbed her suit case and made off with it.

Lilyan Tashman In It

Just dashing from height to height in pictures is what Lilyan Tashman may be said to be doing these days.

Miss Tashman yesterday, in her upward flight, signed a contract with Warner Brothers to play the leading feminine role in Ernst Lubitsch's next picture, "Rebellion."

Miss Tashman began in pictures about thre years ago. Since that time she has made rapid progress, and has proven her ability in each new role she undertook. She will play the part of a French dancer in "Rebellion."

Carroll Nye Signs

Carroll Nye, who has been giving such a good account of himself of late, playing juveniles in pictures, has been engaged to portray an excellent part in Evelyn Brent's next starring picture, which Chet Withey will direct for F.B.O.

Louise Fazenda as Topsy

Unless all signs and portents fail, Louise Fazenda will play the role of Topsy in "Uncle Tom's Cabin," which Universal is producing.

Louise Fazenda, because of her experience in comedy and her genius for it, would seem to be ideal for the role of the famous little negro girl who "wasn't borned, but just growed."

No confirmation of the report that Miss Fazenda would play the part could be gained from Universal, yesterday, but what appears to be well-authenticated rumor has it that she will.

Harry Carey to Start

Harry Carey will start riding herd today on a new picture. This one wil be a Charles R. Rogers production, "Satan Town."

Edward Mortimer, who has directed previous Carey vehicles, will hold the megaphone, and the supporting cast includes Charles Clary, Ben Hall, Richard Neill, Charles Delaney, Trilby Clark and other prominent names. The story is by Jack Boyle.

CORPER GOES EAST IN QUEST OF NEW PLAYS

With Lynn Starling's comedy hit, "Weak Sisters," continuing to draw capacity audiences to the Majestic Theater, Producer Michael Corper is making a flying visit to New York in search of other attractions.

Corper expects to be gone about two weeks and on his return will complete arrangements for the tour of the Starling play. Its success in this city, he believes, is ample indication of the success it is sure to meet with in other cities on the Pacific Coast for which Corper has the production rights.

Appear in Popular Productions

Dolores Costello and May McAvoy

The former is John Barrymore's leading lady in "The Sea Beast," now showing at the Figueroa, and the latter in "Lady Windermere's Fan," opening at Tally's Saturday.

SCHNITZER SHOWS LITTLE IMAGINATION

Series of Piano Recitals Opened by Playing of Technical Brilliancy

BY ISABEL MORSE JONES

Germaine Schnitzer opened a series of six piano recitals last night at Chickering Hall with an hour of Weber and Schubert.

As an opportunity, rare enough in this city, to hear the romantic composers played with clean technique and traditional interpretation, this series is to be highly recommended. Every serious piano student should be in attendance.

As a way for the mature musical mind to renew his knowledge of these older works, I am not so sure I can commend the evenings without reserve. Mme. Schnitzer's playing has no tenderness, no lingering over a beautiful phrase. It is precise, rhythmical, obvious and to be regarded as a technical feat for the most part. She certainly does not let her heart flow through her fingers and knows not the value of a pause.

The Weber sonata No. 2 was skillful. The succeeding "Polacca," by Weber also, was a clever, brilliant piece of work. Weber has little thrill for modern ears at best. The way Mme. Schnitzer plays Weber would, no doubt, have seemed very fine indeed a generation or two ago. Now it is colorless.

The second group consisted of Weber's Rondo Brilliante, op. 62, "Rondo Presto" and a minuet by Schubert.

The fantasie in C major, (Schubert,) revealed Mme. Schnitzer's idea of deep feeling. Her method of expression in the tragic passages of this "Wanderer" fantasie was to play pianissimo. Other than this lessening of tone, the ear could detect little difference in moods.

Friday night, Mme. Schnitzer will play the Schubert sonata in B flat major and other well-known Schubert and Mendelssohn works.

POTBOILERS TO OPEN NEW HOME

Carmen Sharpe

"Six Characters in Search of an Author," has been selected by the Potboilers for the inauguration of their new home in the Gamut Club Theater Wednesday night.

This fantasy by Luigi Pirandello, which was considered the most successful production of last season is to be repeated by popular request with several of the original Potboiler cast resuming their roles.

The piece is being directed by Ole M. Ness and the players are Carmen Sharpe, Hanley Stafford, Olga Ve Olin, Charles C. Gillman, Farrah Bisson, Sylvia Lodge, Cecelia M. Weingarten, George Appell, Jr., Richard Fielding, Jerome C. Death, Earl G. Whitehead, Irving Victor, Germaine Ballow, Irene Alexander, Ann Stokes Wheatley, Frank Cummings and Roland Ray.

IN PERSON AT LOEW'S

Norma Shearer, who returns to Los Angeles from an eastern tour tomorrow, will be the guest of Loew's State Theater at one of the performances on the same day.

Miss Shearer canceled all her New York appointments in order to arrive in Los Angeles in time for the premiere of "The Devil's Circus."

The other members of the cast, including Charles Emmett Mack, Carmel Myers, John Miljan, Claire McDowell, Joyce Coad, as well as Benjamin Christianson, the director of the picture, also will be on hand.

Ernest Torrence is playing a featured role in "Padlocked" a Rex Beach story being directed by Allan Dwan.

Maud Allan to Appear With Philharmonic

Miss Maud Allan, the dancer, will appear in conjunction with the entire Philharmonic Orchestra, Walter Henry Rothwell conducting, tomorrow night at the Philharmonic Auditorium.

The repertoire will include her interpretation of the "Blue Danube" waltz, with which she created a deep impression recently in London.

Miss Allan has only just returned from a protracted absence abroad and in her latest efforts shows that she has lost none of that distinctive grace and that lissomness of movement which have always embellished her art. Her full program follows:

Symphony No. 6 in B Minor, Op. 74, "Pathetique" .... Tchaikowsky
Adagio-Allegro Andante-Allegro Vivo.
Allegro con grazia.
Allegro molto vivace.
Adagio.
Maud Allan.
"Scherzo" from "A Midsummer Night's Dream" .... Mendelssohn
Philharmonic Orchestra.
Two Hungarian Dances, Nos. 5 and 6..Brahms
(Arranged for orchestra by A. Parlow.)
Maud Allan.
Intermezzo No. 2, from "The Jewels of the Madonna" .... Wolf-Ferrari
Philharmonic Orchestra.
Prelude in C Sharp Minor.........Rachmaninow
Maud Allan.
Waltz, "On the Beautiful Blue Danube".Strauss
Maud Allan.

Italian Art Club to Stage Three-Act Play

The Italian Dramatic Art Club presents its seventh entertainment at the Gamut Club Theater tonight at 8:15 o'clock.

The club has been so successful in its monthly presentations of theatrical offerings that the officers have decided to launch out into a more pretentious program of which the first number will appear this evening.

The cast of their earlier performances has attracted so much attention in this city among Americans, as well as Italians, that the executive is determined to demonstrate that Italian drama and comedy will be received by the Los Angeles theater-going public with no less enthusiasm than the Italian opera which recently closed such a brilliant season at the Philharmonic.

Hence the new venture this evening of a three-act comedy by Nicodemi, entitled "Scampolo."

Fanny Ferrari is booked for the leading part in "Scampolo." The lady needs no introduction as she is well known as a Hollywood screen player.

The leading man playing opposite Ferrari is Guido Trento in the character of Tito.

"Student Prince" Nearing End of Biltmore Run

"The Student Prince" with Roy Cropper is in the last three weeks of its long engagement at the Biltmore Theater.

The Romberg operetta is undoubtedly the largest traveling musical organization to ever visit the Coast. Its reception here has encouraged the Messrs. Shubert to send their "Princess Flavia" here next season.

"The Student Prince" is a happy combination of tuneful music laid in gorgeous settings with a love story of charm and grace running through.

Unlike "Blossom Time," the "Student Prince" will not return to the Coast next season, since the organization is too heavy to play other than extended runs, it is stated.

The work of the student male chorus still remains one of the outstanding features of the entertainment.

"FIG LEAVES" UNDER WAY AT FOX STUDIO

"Fig Leaves," an elaborate and dramatic history of clothes from the Garden of Eden to the twentieth century, started in production yesterday at Fox Films West Coast Studio, under the direction of Howard Hawks.

OLIVE BORDEN.

George O'Brien plays Adam and Olive Borden is Eve. Adrian has designed what is said to be the most original and vivid array of gowns ever shown on the screen.

In the modern version O'Brien and Miss Borden will be seen as Adam and Eve Smith. Others in the cast are Phyllis Haver, Dorothy Dunbar, Eulalie Jensen and Andre de Beranger.

With famous archeologists assisting Fox experts, some amazing animal effects have been built for a specially constructed Garden of Eden. Magnificent sets, designed by Menges, famous for his work with Douglas Fairbanks in "Robin Hood," will be used in the Eden sequences.

PLAYDOM

AN ACTING TRIUMPH

LIONEL BARRYMORE OFFERS RARE INTERPRETATION

By Edwin Schallert

Whatever plans you may have for theatergoing in the ensuing weeks be sure that you do not deprive yourself of one pleasure and experience.

Set all other engagements aside, indeed, to be present at the Playhouse during the run of "The Copperhead" in order to see (and to hear, too—for in case there should be any question—this is a stage production,) the performance of Lionel Barrymore.

It is something truly enriching to become acquainted with the character of Milt Shanks as he interprets it in the drama by Augustus Thomas—a drama that reawakens in its inspiration the strangely troubled mood of the Civil War days—and that also weds itself during its unfoldment peculiarly and definitely with the present.

An atmosphere uncanny filled the theater where this play was given its first presentation here last evening. A curious brooding humanness — an encompassing spell of reality—a vital and heart-warming pathos, that is rare in the make-believe world of acting.

I do not know of any play that I have seen in months that progressed so evenly, and so quietly, and still so tensely. I do not recall any that so curiously and compellingly held enthralled even between the acts, almost, in a spell of silence, or at least of stillness and placid calm, its audience. Even conversation and laughter appeared magically subdued while the curtain was down so perfect was the influence of the theme of patriotic sacrifice, which is incorporated in "The Copperhead," and its interpretation.

Barrymore became veritably an idol by virtue of his portrayal. Curtain call after curtain call besieged him; the applause after the third and final act, it seemed, would not subside.

Yet he would not step out of character and make the curtain speech that it was more than evident the public desired. And he is one of a few stars of first magniture who has not done this in recent years.

Barrymore remained throughout the evening Milt Shanks, the mysterious holder of a secret commission from Lincoln—the apparent southern sympathizer—the man who remained an enigma to his family and an outcast in order to maintain a trust.

I do not know whether or not "The Copperhead" as a play is well known or not in this locality. It was presented on the screen some years ago—the picture being at that time considered one of singularly worthy quality. It was played on the stage in New York seven or eight years ago, and was from that time undoubtedly familiar to a number of the player folk who attended the presentation last night.

The period that has elapsed since its original production has not robbed it of its power and its interest, when it has as its central figure the man who created the role. Even the creaky machinery of the opening scenes was lost sight of in the growth and power of its motif of well-nigh tragic loyalty to an ideal and the simple and heart-touching humanness of the Barrymore portrayal. To this was added also the excellent and highly qualified work by the members of the company as a whole.

I think that in all respects the performance of "The Copperhead" was one of the most finely tempered that has ever been given here. In many ways it was a climax of easy fluent art in acting. Not only Barrymore himself but even certain of the other members of the cast seemed to show no trace of that self-consciousness which is the weakness of so much modern play production.

There was very little of the usual ostentatious display — I would there had been a little less in one or two instances for the perfect effect — that one could almost completely forget the existence of aught except the play and its characters. And it was the star himself who in particular achieved the most splendid note of simplicity.

Barrymore's characterization is a fascination not alone for his public. Its superior fineness is a study for almost any actor that might be named. In fact, it might be said that his portrayal almost reinstates acting in its rightful place—and that is sincerity in interpretation.

Mabel Julienne Scott as the wife of the leading character measured up splendidly to the standard. She doubled also in the scenes that occur after a lapse of forty years, portraying the young granddaughter wearing a blonde wig in this impersonation. Finest, I felt, was her emotional sorrow as expressed at the close of the second act. In view of her excellence in this and other parts of the play it is regrettable that we do not see her oftener on the stage.

I cannot bring as many names into this review as is possible in the case of certain other plays, because it is a test for any actor to appear with a Barrymore.

Zeffie Tilbury, experienced trouper that she is, gave a good account of herself in a character role in the later scenes. Ian Keith also impressed in his character bit toward the end of the play. Ethan Allan had an effective dramatic moment as Lem Tollard. His work was good. Ed Russell will gain some approbation. Douglass Montgomery's young enthusiasm pleased, although it needs balance in a performance of this type.

Clark Gable and John Merkyl were satisfactory in their roles, and the staging was pleasing, except that a quieter mode would have been desirable in the setting of the third act. The backdrop particularly was rather dizzily modernistic.

I need hardly reiterate that "The Copperhead" is a play that should be seen, especially by those who desire to behold an example of fine acting.

"TUMBLEWEEDS" HOLD OVER

William S. Hart in "Tumbleweeds" has seemingly registered a hit at the Forum Theater and will be continued for a second week beginning Saturday.

This second week will be the last one of the run, as the new Universal production of "Stella Maris," starring Mary Philbin, has been definitely booked.

Hart is supported by a cast of capable players, including Barbara Bedford, Lucien Littlefield, J. Gordon Russell, Richard R. Neill, Lillian Leighton, Gertrude Claie and others.

GLENDALE TO GET PUBLICITY

Burbank Man Boosts Stock of Thriving City

Attracting Factories Big Part of Job

Links Work Up With Efforts of Chamber of Commerce

[LOCAL CORRESPONDENCE]

GLENDALE, March 3.—J. W. Charleville of Burbank was today appointed to fill the recently created post of publicity director for the city of Glendale, his appointment being signed this morning by City Manager V. B. Stone, to take effect on March 15.

In his new position Mr. Charleville will be mainly charged with the task of bringing more industries to Glendale besides supervising the expenditure of the city's advertising and publicity budget set aside by the City Council for inducing immigration to this city.

His experience during the past two and one-half years, in which he has been manager of the Burbank Chamber of Commerce, has fitted him for this task, as his efforts there were largely responsible for the addition of ten important industrial plants to the list of those already operating in Burbank.

The decision to appoint an industrial expert in Glendale has been brought about as the result of a movement launched by the industrial unit of the Chamber of Commerce, whose members considered that an organized effort should be made to add more pay rolls to those already here. Only those industries that have been established long enough to have attained a degree of stability, or those that are able to prove their ability to finance themselves, will be sought by Mr. Charleville, who, although an official of the city administration, will work in close co-operation with the Chamber of Commerce.

The final step toward insuring official sanction of the employment of an industrial commissioner for Glendale was taken yesterday when the City Council adopted an amendment to the salary ordinance providing for the creation of the post and for the payment of the salary that Mr. Charleville will receive, and the action of City Manager Stone in making the appointment today will be ratified by the Council at tomorrow morning's session.

WAS REAL AMERICAN

Forefathers of Lindsay Man Came From England in 1640

[EXCLUSIVE DISPATCH]

LINDSAY, March 3.—Private funeral services were held this afternoon from Webb's Parlors, for William Pomeroy Burnell, 74 years of age, native of Massachusetts, who died at the home of his son, Kingsley A. Burnell at Lindsay.

Mr. Burnell was a descendant of one of the early American families. One of his ancestors, William Burnell, came from England to Boston in 1640. His great-grandfather, John Burnell, fought in the Revolutionary War, while his father, Kingsley A. Burnell, was a chaplain in the Civil War, and his son, Kingsley A. Burnell, II, was an officer in the World War.

Mrs. Helen M. Burnell, stepmother of the deceased, a resident of San Diego, is one of the few surviving Civil War nurses. Mr. Burnell is survived by his widow and seven children, Kingsley A. Burnell, II, and Mrs. H. S. Bennett, both of Lindsay; Mrs. Nana B. Kemp of Joliet, Ill.; Mrs. Helen B. Lawrence, Pacific Grove; Mrs. Rose Reyburn and Mrs. Lynette B. Hill of Los Angeles, and Mrs. Ruth B. Deitsch of Beaverton, Or. There are also three brothers in various sections of the United States.

RAID BEER GARDEN

San Diego Place was Doing Thriving Business

[EXCLUSIVE DISPATCH]

SAN DIEGO, March 3.—Raiding an apartment-house at 1567 Fourth street this afternoon, a detail of police seized seven cases of beer, a number of empty bottles and placed two men and three women under arrest. Police say a thriving business in beer and sandwiches has been conducted at the place, which is in the heart of the residence and apartment district and within a stone's throw of the city's most fashionable churches.

The beer was taken to the police station as evidence and the three women were charged with violating the Wright Act and being present in a disorderly house. They gave their names as Mrs. E. A. Swartz, 28 years of age; Mrs. Neill, 28, and Grace Ryan, 29. George Amus, 70, and R. J. Shaw, 52, were booked for visiting the place.

PUPILS EXPERIMENT WITH RUBBER TREE

[LOCAL CORRESPONDENCE]

OWENSMOUTH, March 3.—Apparently everybody is ready to do something to reduce the cost of auto tires. Owensmouth High School students especially appear willing to do their part in the matter of producing rubber from American soil, it having been asserted generally that American interests must grow rubber if they hope to contend with foreign markets. Yearly at the Owensmouth High School each class plants a tree on the school yard. This time the sophomores have planted a rubber tree in the rear yard. An experiment is now being made in the western end of San Fernando Valley to see if rubber can be grown. When the students heard of the experiment they decided to start their own tree and nurture it. A record of growth will be kept, which from time to time will be contributed to the knowledge being gained from other experiments with rubber trees in this section.

TELLS THE WORLD ABOUT GLENDALE

J. W. Charleville

ELDERLY TRAVELER

Ninety Years Nothing to Globe-Trotting Tourist

[LOCAL CORRESPONDENCE]

SANTA ANA, March 3.—W. H. Zimmerman, 210 West First street, has returned to Santa Ana following a forty-day trip, by land and water, to the east coast. Mr. Zimmerman will be 90 years of age July 17 of this year. He made the trip alone.

While in Washington, the Santa Ana man spoke briefly with Congressman Phil D. Swing. He made an effort to see Senator Hiram Johnson, but the California solon was ill.

Despite the fact that four days at sea, on the trip from Los Angeles to New York, were decidedly stormy, the Santa Anan didn't miss or lose a meal, he said today. Ofttimes half of the chairs at the table were empty, but the Zimmerman chair always was occupied.

The passage through the Panama Canal was especially pleasing to the Orange county traveler. In New York, during the time Mr. Zimmerman was there, the temperature was 15 deg. above zero. There was a foot of snow on the ground, most of which fell while he was in the city. Mr. Zimmerman plans to visit Seattle and Alaska in August, if his health continues good.

BOTTLE IN POCKET COSTS PLENTY MONEY

By a "Times" Staff Correspondent

PASADENA, March 3. — Blind justice made no allowance for the fact that Floyd G. Sosey is the son of Constable John Sosey of this city when young Sosey appeared in Police Court today on a charge of illegal possession of liquor. Judge Dunham fined him $100, with the alternative of 100 days in jail. Sosey paid the fine.

He was arrested in his car by Detectives Beal and Beck of the local vice squad Sunday when about to drive away with two young women and another man. His companions were not held, but the officers said they found a bottle of whisky in Sosey's pocket.

ALHAMBRA OBSERVES TREE-PLANTING DAY

[LOCAL CORRESPONDENCE]

ALHAMBRA, March 3. — Arbor Day, next Sunday, is to be appropriately observed by this city, a program of tree-planting and other features having been prepared by the City Planning commission.

The exercises will be held at the municipal park, starting at 1 o'clock Sunday afternoon, and every organization of Alhambra has been invited to take part by providing a tree to be planted in the park.

Among the speakers of the affair will be George W. Barnes, president of the American Reforestation Association.

INTEREST IN ELECTION

[LOCAL CORRESPONDENCE]

LA HABRA, March 3.—Interest in the first municipal election of the city of La Habra, which was incorporated last year and which is to be held April 12, is gaining considerable heat and last night, at the regular meeting of the La Habra Brotherhood, a resolution was passed which puts that organization on record as indorsing the "law-and-order" movement under way. A civic club was organized Monday night with L. E. Smith as executive, and its aim will be to assist all movements for the betterment of La Habra. Four Trustees are to be elected.

SEWER BOND ISSUE

By a "Times" Staff Correspondent

PASADENA, March 2.—A bond issue of $150,000 for the construction of a new and modern outfall sewer in the eastern section of the city and the Lamanda Park district, Warren C. Earle, City Engineer-Street Superintendent, announced today. Complete plans have been drawn up, he stated, and the proposal will be placed before the Board of City Directors in the near future.

SECRETARY RESIGNS

[LOCAL CORRESPONDENCE]

ALHAMBRA, March 3.—Edith Cowles, who has been assistant secretary of the Alhambra Chamber of Commerce for the past two years, has resigned to become manager of a local tea room. Her place will be filled by Mrs. Madelyn Foerster, who is also assistant secretary of the Alhambra-San Gabriel Community Chest.

Japan is not taking to the radio and dealers are selling out their stock at reduced prices.

OXNARD TO BOOST SONG CARNIVALS

Arrange Contests in Cities in Advance of County-wide Eisteddfod

[EXCLUSIVE DISPATCH]

OXNARD, March 3.—Interest in the third annual Ventura county Eisteddfod, to be given here next month is increasing through the county, while plans for the event are being perfected by Oxnarders in charge of the competitions. In Oxnard, Ventura, Santa Paula and Fillmore Rotary, Lions' and Kiwanis clubs are preparing for the service-club song contests, which promise to be a big feature in this year's event, as there will be eight clubs contesting against each other. These contests are held in the largest warehouse in the city and the building has been crowded to capacity at previous Eisteddfods.

Insuring an interesting program on the last day of Eisteddfor week is the decision of the Orpheus Club of Los Angeles to appear again. James O. Westervelt, chairman of the executive committee, has completed plans with W. R. Berry of Los Angeles for the appearance of the club as well as the Orpheus Quartet. The club consists of about ninety or 100 male voices and the club members always bring their ladies with them on a special train. They are entertained after the concert. Oxnard is the only city outside of Los Angeles visited by the club, which charges for expenses only.

Jay Fetters, chairman of finance in this year's Eisteddfod, has mapped out the county and stated today there will be no difficulty in raising the necessary finances for successfully staging the big event. Season tickets have already been engaged. An art exhibit and contest held at the Community Center promises to be a big feature this year. A wonderful collection of paintings has been secured for this section of the Eisteddfod.

PROSECUTE PHYSICIAN

Medical Examiners May Revoke License to Practice

[LOCAL CORRESPONDENCE]

GARDEN GROVE, March 3.—Dr. Franklin E. Kerr, Garden Grove physician, has been ordered to appear before the State Board of Medical Examiners March 9 in Los Angeles to show cause why his license to practice medicine should not be revoked. Dr. Kerr was convicted in the Federal Court in Los Angeles of sending poisoned candy to his former wife, Mrs. Luella Kerr of Fillmore. He was denied an appeal to the United States District Court of Appeals and must serve the sentence imposed upon him.

Kerr was convicted last year of sending poisoned chocolates through the mails to Mrs. Kerr, who, since she secured her divorce, has been living in Fillmore. The crime was said to have been committed on Thanksgiving Day, 1924.

Mrs. Kerr, who also is a physician, became suspicious on receiving the candy and did not taste it. She had it analyzed instead. It was found to contain a formidable proportion of cyanide, such as is used by orchardists to spray trees, it was brought out at the trial.

PAYS FINE ENOUGH TO REPAIR HIGHWAY

[EXCLUSIVE DISPATCH]

VENTURA, March 3.—An agreement that a fine of $125, sufficient to cover actual damage to streets, would be assessed in return for a plea of guilty resulted in the release of a steam shovel belonging to the Land Transportation Company of Los Angeles, which was held by local police when it was being moved through the street by the Belyea Truck Company on a trailer, one wheel of which was minus its rubber tire. The charge was that of overloading. The shovel was removed from the trailer and permitted to proceed to the Associated Oil lease under its own power. The truck company was represented by the truckmen's association.

PEACEFUL REDLANDS

[EXCLUSIVE DISPATCH]

REDLANDS, March 3.—Proof of the fact that Redlands is a law-abiding community is shown in the monthly report of City Recorder P. G. McIver, who today announced that only thirty-two persons were convicted in his court during the month of February, "and a large portion of that number came from other cities," he added.

Fines for the month totaled $346. Of this sum $150 was collected for violation of traffic laws, $106 for intoxication convictions and $90 for gambling fines.

SET BOND ELECTION

[EXCLUSIVE DISPATCH]

VENTURA, March 3.—April 20 has been set by the County Supervisors as the date for voting on a $35,000 bond issue by citizens of Hueneme, who seek the establishment of Ventura County Water District No. 2. The election is called in response to a petition by residents of the section.

LARGE POSTAL GAIN

[LOCAL CORRESPONDENCE]

HUNTINGTON BEACH, March 1.—Postmaster Walter L. Cleveland states that February this year shows an increase in receipts over February last year of 40 per cent. The total receipts for February just passed reached $8846.

GOOD ONES THEY TELL

Judge Edward Dixon told this one at the Optimist Club the other day. A certain judge had to fine an obstreperous litigant $5 for contempt. The litigant marched up to the clerk's desk and slapped down $10.

"What's the idea?" demanded the clerk. "The judge only fined you $5."

"Yes, I know," replied the man, "but $5 wouldn't show my contempt for that judge."—[Cincinnati Enquirer.

OLD LOVE IS REVIVED

Couple Seek License Clerk After Having Been Divorced and Set Second Ceremony on the Anniversary of First Attempt

[EXCLUSIVE DISPATCH]

SANTA ANA, March 3.—Gordon I. Hamblin, Inglewood automobile dealer, married Anna Adele Hamblin twenty-two years ago on March 2, 1904. History repeated yesterday when they celebrated their twenty-second anniversary here by getting married again. The Hamblins separated some years ago and were divorced; recently they picked up the broken thread of their romance and mended it. A trip to Santa Ana was the result.

Hamblin was as bashful as any "one timer" when he approached the marriage license bureau yesterday. "I want a marriage license," he confided to the license clerk. "You see, we were married twenty-two years ago and—"

"And you're just now getting the license," interrupted the scandalized clerk.

"No, no, that is—I mean, we were married the first time twenty-two years ago. We were divorced and now we want to get married again and today is our wedding anniversary."

"And were more in love with each other than we were twenty-two years ago," added the ex-Mrs. Hamblin, bride to be, gazing fondly on her divorced husband.

"They must be," muttered the wise young woman behind the counter as the Hamblins departed arm in arm.

DOUBLE BOW KNOT

Young Couple Who Secured License by Proxy Have Second Ceremony Performed

[EXCLUSIVE DISPATCH]

SAN BERNARDINO, March 3.—Kenneth Filer, 19 years of age, and Mary Olive Kelly, 16, who were wed a month ago with a license obtained by proxies were issued a valid license today by County Clerk Harry L. Allison. An hour later, in Ontario, Filer and his bride stood before Rev John B. Toomey, the same minister by whom they were wed at midnight on February 8 and again heard the ceremony read.

As witnesses to the marriage today were D. L. Filer, superintendent of the Mutual Life Insurance Company, in Los Angeles, and Mrs. Alice Tetwill, foster mother of Miss Kelly, both of whom gave their consent to the remarriage when County Clerk Allison threatened to swear to perjury complaints against the lovers.

Today the young couple, whose plot to deceive their parents included the obtaining of the license by proxy, admitted in the District Attorney's office their coup, which collapsed when Filer's father became suspicious.

Mrs. Tetwill, mother of the bride, had been told by Miss Kelly, she admitted, of the plot to obtain the license. She said Jack Driscoll and Mrs. Blanch Hutterman of Long Beach were the obliging proxies who represented themselves as Filer and Miss Kelly at the marriage license bureau and signed falsely to the marriage records.

After obtaining the license, Driscoll and Mrs. Hutterman returned to Los Angeles and Filer and Miss Kelly drove to Ontario, where they were married.

It was apparent today that there is a break between Mr. Filer and Mrs. Tetwill, they having as little to say as the new license was issued. Filer was not told of the secret wedding until he saw his son's forged signature on the marriage license records in San Bernardino a week ago. He then began the investigation, which ended when Mrs. Tetwill admitted she knew of the marriage by proxy.

"We're sorry to have caused so much trouble, but we're mighty happy," young Filer said today when he was issued a legal license.

LONG BEACH SENDS DELEGATION TO SHOW

THOUSANDS PLAN VISIT TO COMPTON INDUSTRIAL EXPOSITION

[LOCAL CORRESPONDENCE]

COMPTON, March 3.—More than 6000 guests from Long Beach are expected tomorrow night at the Compton Industrial Fur and Rabbit Show when Long Beach night will be observed. The program is in charge of J. A. Frenzel and H. B. Coleman, representing the Junior Chamber of Commerce of Long Beach.

The 100 different breeds of rabbits, represented by 1600 different animals, is attracting large crowds. The rabbit show is the largest that has ever been held in the United States. Awarding of thirty silver cups and blue ribbons to the various winners by a committee headed by Judge S. C. Gibson is now in progress.

Approximately 500 are expected to attend the annual banquet of the National Association of Rabbit Industries, Inc., which is holding a convention during the show. It will be held Friday night in the Compton American Legion Hall. Speakers will be Sheriff Traeger, Judge Robert M. Clarke, Judge Harry Hollzer, Speaker Frank C. Merriam, Councilman Charles H Randall, Justice John M. York and M. W. Meek. Ernest King will be toastmaster.

REDLANDS TEACHER TO STUDY IN PARIS

[EXCLUSIVE DISPATCH]

REDLANDS, March 3.—Miss Christine Springton, assistant professor of music at the University of Redlands, has been awarded a scholarship at the Conservatoire American, Fontainebleau, France, it was announced at the university today. Miss Springton probably will sail June 21.

The scholarships have been established by the French government in return for scholarships given French students here during the war. One hundred and fifty American students are chosen each year and eighty of these are piano students.

Under the able direction of M. Philippe, in charge of the piano department, Miss Springton will receive an intensive three months course. She will reside at the Palace of Fontainebleau at the outskirts of Paris.

THUGS BEAT HOTEL CLERK AT SAN DIEGO

[EXCLUSIVE DISPATCH]

SAN DIEGO, March 3.—Attacked by two men with blackjacks as he was showing them a room, Phillip Miller, night clerk at the Merchants Hotel, was severely beaten on the head early this morning. Miller told the police that after the two men had asked for a room he took them to the fourth floor and when he turned on the light in a vacant room they jumped on him and hit him several times with blackjacks.

Miller's lusty cries for help frightened the men away and the night clerk made his way to the police emergency hospital where he was treated for lacerations of the scalp. One of the men, Miller said, was in sailor's uniform and the other wore civilian clothes.

AWARD CONTRACT FOR NEW COUNTY HOSPITAL

[EXCLUSIVE DISPATCH]

VISALIA, March 3.—Kump and Johnson, Fresno architects, have been awarded architectural contracts for the first unit of the new Tulare County Hospital in Tulare. This award was made by the Board of Supervisors, who spent the greater portion of a day studying a set of plans submitted. This set was secured for a working basis and another set will be submitted to the board on the 18th inst.

PRAISES LOS ANGELES

[LOCAL CORRESPONDENCE]

GLENDALE, March 3. — The need for the adoption of a systematic program of city planning was emphasized by Harlan Bartholomew, nationally known planning expert, in an address before city officials, Planning Commission members, real-estate men and Chamber of Commerce directors last night, in which he praised Los Angeles for having had the vision to organize one of the first city planning commissions in the country.

AUTOIST KILLED

Drives Car on Tracks in Front of Train

[EXCLUSIVE DISPATCH]

FULLERTON, March 3.—Driving his automobile past several waiting cars onto the tracks in front of an approaching Santa Fe passenger train, J. R. Cooper, 30 years of age, of Maywood, was fatally injured at the Brookhurst-avenue crossing last evening. He died in the Fullerton General Hospital last night. At an inquest this afternoon a verdict of accidental death was returned.

Cooper, with a number of other employees of the Newton Process Works, where he is employed, had just left his work and started for home. While others waited for the approaching train, Cooper, according to eyewitnesses, drove on past them and his car was struck by the locomotive. He leaves a widow and 3-year-old son.

ARRESTED FOR DRIVING WHILE INTOXICATED

[LOCAL CORRESPONDENCE]

ALHAMBRA, March 3.—As a result of the collision of two automobiles on Valley Boulevard early this morning, J. W. Wilson, a salesman of San Bernardino, spent several hours in the local jail on a charge of driving while intoxicated. Mrs. Leslie Wood of Willowbrook, an occupant of the other machine, was injured in the crash, but was able to go home after her cuts and bruises were treated at the Alhambra Hospital. Both cars were badly smashed in the wreck.

Local police reports state that Wilson was "hogging" the road at the time of the collision.

BURBANK SCORES IN BUILDING AND LOANS

[LOCAL CORRESPONDENCE]

BURBANK, March 3.—In comparison with 1924 Burbank during the year just closed made a gain of more than 44 per cent, according to reports of building and loan associations. According to these reports, but four cities in Los Angeles county made a better showing. They are Inglewood, Beverly Hills, Glendale and Culver City. Long Beach showed the same gain in building and loan transactions that Burbank did.

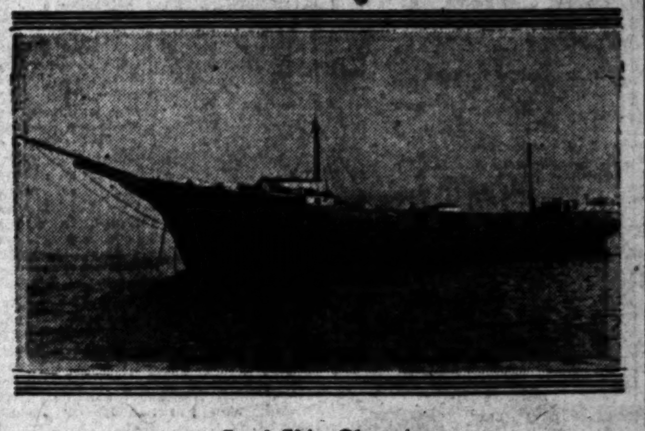
OPPOSE ANNEXATION

[LOCAL CORRESPONDENCE]

INGLEWOOD, March 3.—A meeting of representative business and professional men and pioneer citizens last night met to declare themselves as definitely opposed to annexation to Los Angeles. Sanford M. Anderson was chosen unanimously to head a permanent antiannexation body and authorized to appoint a committee from the membership of service clubs and other civic bodies.

CLIPPER SHIP ON RETIRED LIST

Famous Boat Comes to Redondo Beach



Good Ship Olympic

[LOCAL CORRESPONDENCE]

HERMOSA BEACH, March 3. The barkentine Olympic, clipper ship of the South Seas, begins the next chapter of her life tomorrow when the boat is to be thrown open to the public as a fishing barge offshore at Hermosa Beach. The Olympic has a creditable and varied history among mariners, varying from South Sea hazards to peaceful maritime pursuit of commerce. Her career has included the hectic setting of melodrama in the motion pictures, where she was in use for a couple of years, furnishing the background for some of the most spectacular productions.

The Olympic was built in Bath, Me., in 1900, and has been brought to Hermosa as a pleasure ship by Capt. J. M. Anderson and E. Duncan.

City Employees Large Factor in Valley Section

[LOCAL CORRESPONDENCE]

VAN NUYS, March 3.—As one indication of the growth of San Fernando Valley and the Van Nuys section within the last several years, new figures just compiled disclose that there are 566 city employees in Van Nuys and the valley and that the total pay roll for each month is between $65,000 and $75,000.

The Water and Power Department employees record at present shows 289 workers in Van Nuys headquarters, in the valley, and near-by territory, with a pay roll approximating $35,000 each month. The engineering and street maintenance workers under the direction of Assistant City Engineer J. W. Cook, number 178. In the various fire department stations and the mountain patrols there are forty-one men on the rosters. Thirty-nine officers and patrolmen comprise the Valley Division police department, with Van Nuys headquarters under Capt. L. L. Oakley.

In the building department, health department and emergency hospital, operating with Van Nuys as center, there are seven employees each, with three men in the electrical department and two librarians in the Van Nuys branch library.

ATTRIBUTE DEATH TO UNAVOIDABLE CRASH

[LOCAL CORRESPONDENCE]

ONTARIO, March 3.—No responsibility was established by the Coroner's jury today for the death of Thomas E. Cross of Pomona, who was instantly killed last night on the Colton road east of Ontario when the motor car in which he was riding with B. A. Tucker of San Gabriel collided with the rear end of a trailer behind a truck in charge of Jacob Bertschinger of Chino. Unavoidable accident was the verdict of the jury at the inquest, which was held before Deputy Coroner Emmett Waters at the Owen funeral home, 319 North Euclid avenue.

Bertschinger said that he had just started his truck after having examined his tail lights and found them burning in good order, when the Tucker car struck the trailer, which was loaded with roof tile. The right side of Tucker's coupe was crushed in and Cross struck on the right temple and killed instantly. In attempting to cut around the truck and trailer, Tucker is believed to have misjudged the distance.

Funeral arrangements for Cross have not been completed.

BURGLARS VISIT TWO HOMES IN ONTARIO

[LOCAL CORRESPONDENCE]

ONTARIO, March 3.—Solid silverware, furs, clothing and jewelry valued at approximately $1000 formed the loot of burglars who late last night entered the homes of Edward B. Kennedy, 317 North Cherry avenue, and W. W. Roblee, Jr., 319 North Cherry. The police are engaged in an investigation today. In both cases, entrance was gained by forcing rear windows. At the Kennedy home, the loot consisted chiefly of solid silver wedding gifts, women's gowns and two suits of men's clothes. At the Roblee home, plate and furs formed the principal loot.

PICTURE ACTORS AT WORK NEAR VENTURA

[LOCAL CORRESPONDENCE]

VENTURA, March 3.—Douglas Maclean, motion-picture actor, with a company of twenty-five, is here for the purpose of filming "That's My Baby." Filming will take place near Ojai, and it is expected four or five days will complete the scenes.

While the picture is being made, MacLean, with his company, is stopping at the Glen Tavern, Santa Paula. The cast of the company, in addition to MacLean, includes Margaret Morris, Claude Gillingwater, Richard Tucker, Fred Kelsey, Eugenia Ford, Lilie Leslie, Wade Boteler and Larry Steers.

OBJECT TO PRICES OF SCHOOL LAND

[LOCAL CORRESPONDENCE]

GLENDALE, March 3.—Opposition to the proposed issue of $370,000 in bonds for the purchase of three additional sites for high school buildings, as planned by the board of trustees of the Glendale Union High School District to be voted on at the election on the 9th inst., was expressed today by the Glendale Realty Board, the opposition being based on the assertion that the prices which it is proposed to pay, for the sites are out of all proportion to the value of the land.

STABS IN THE DARK

Two Mexicans Severely Injured by Unidentified Man

[EXCLUSIVE DISPATCH]

REDLANDS, March 3.—Because they called from their automobile to two girls whom they had just passed, Alfonso and Joseph Solgado of 520 East Stewart avenue, were attacked and severely stabbed by an unidentified Mexican who was following the girls, according to a report at police headquarters.

The incident occurred last night on Colton avenue. The assailant was said to have leaped onto the running board of the slowly moving car and to have slashed the arms of both youths with a knife. The man then ran west on Colton avenue and disappeared in the darkness.

Dr. K. L. Dole, city physician, administered first aid to the wounded motorists. The accused Mexican is described as being about 30 years of age, weighs 150 pounds, is 5½ ft. tall, smoothly shaven and wore a black coat, grey trousers and a cap.

TUJUNGA IS EAGER TO PUT OVER BOND ISSUE

[LOCAL CORRESPONDENCE]

TUJUNGA, March 3.—For the purpose of getting up interest in the coming high school bond election and contriving a way to get out a large vote, H. H. Bredit, president of the Tujunga Chamber of Commerce, will preside at a mass meeting that will take place Friday night at 8 p.m. in the Tujunga school auditorium. The proposed bond issue is intended to provide a twenty-acre site for high school purposes in Tujunga Valley, and it is apparent all citizens are in favor of it. The obtaining of the site is necessary for the development of the local school facilities. President Bredit maintains that if all favorable voters will go to the polls, the bond issue will easily carry. Members of the chamber are making a man-to-man canvass getting pledges from voters.

LANKERSHIM PLANS NEW LEGION POST

[LOCAL CORRESPONDENCE]

LANKERSHIM, March 3.—Following the address here by Allen Bixby, State Commander of the American Legion, work has started to organize a Legion post at Lankershim. Post Commander Edward Mann of the Burbank post, is heading the move. Lankershim is the only town in San Fernando Valley without a Legion post. Of late Lankershim ex-service men have been joining the Burbank post. As soon as the sufficient quota will have been obtained, the membership will be transferred back to Lankershim and the new post organized here.

NEW PAVEMENT IS OPENED TO TRAVEL

[LOCAL CORRESPONDENCE]

LANKERSHIM, March 3.—All "cure" dirt has been cleared off the new pavement on Whitsett avenue, between Ventura Boulevard and the Los Angeles River, and the thoroughfare has been opened to traffic. The bridge at this point is the final link in another north-and-south travel artery running across San Fernando Valley, from Ventura Boulevard in a northerly direction. The bridge has been under construction for the last several months, and workmen are now putting on the final finishing touches.

DEPUTY ASSESSOR STARTS IN VALLEY

[LOCAL CORRESPONDENCE]

VAN NUYS, March 3.—Deputy Assessor Russell B. Bogardus has begun the work of assessing the Van Nuys townsite. He will not assess merchandise houses, but their statements will be referred to him for approval in the matter of personal property listed. While in the Van Nuys district, Mr. Bogardus will have headquarters in the Chamber of Commerce on Saturdays, between 8 a.m. and noon.

Prosperity Here to Stay, Says Financier

Florida Boom Beyond Bounds of Prudence

By a "Times" Staff Correspondent

PASADENA, March 3.—National prosperity, apparent now in a degree little short of amazing, is on a firm economic basis and will continue, in the opinion of Ernest A. Hamill, chairman of the board of directors of the Illinois Merchants' Trust Company of Chicago, one of the largest banks in the country. Mr. Hamill is at the Hotel Raymond here for the season.

"People of the United States are wealthy, broadly speaking," he said today, "to a degree that frequently surprises the bankers. This is strikingly demonstrated when important stock or bond issues are put on the market.

"The morning newspapers announce that a great bond issue is placed on the public market and the evening papers of the same day report that the entire issue has been subscribed. The rapidity with which these issues, representing millions of dollars, are subscribed is absolutely amazing."

Labor's wages are high everywhere, Mr. Hamill says, and, what is most important, the people of the country are saving their money as never before. Nearly every indication would point to continued prosperity, he believes.

His only word of warning was against the growing tendency to "overdo new building operations" and against excess real-estate speculations of the Florida type, which he characterized as reaching somewhat beyond the bounds of prudence.

Mr. Hamill is enthusiastic over Southern California. In fact, Pasadena is the favorite winter resort of the directors of the Illinois Merchants' Trust Company. Henry A. Blair, John G. Shedd, Chauncey Keep and Edward B. Butler are all directors of the institution, and are now here. John J. Mitchell, president of the bank, has a winter home in Pasadena, but is taking a trip around the world this year.

The Illinois Merchants' Trust is a consolidation of the Illinois Trust and Savings Bank, the Corn Exchange National Bank and the Merchants' Loan and Trust Company, all large financial institutions.

HOLD SANTA ANA MAN IN JAIL IN KANSAS

ACCUSED EMBEZZLER WILL FIGHT EXTRADITION TO CALIFORNIA

[EXCLUSIVE DISPATCH]

SANTA ANA, March 3.—On information furnished by Sam Jernigan, Sheriff, E. E. Boyle, 35 years of age, wanted here on three charges of conspiracy, violation of the Security Corporation Act and embezzlement, has been arrested in Wichita, Kan., and is being held there for Orange county officers.

F. W. Keller, charged with the same offense, and said to have been a partner of Boyle in the California Investment Finance Corporation of Santa Ana in January, 1924, was arrested in Miami, Fla., several months ago and was brought back here by Sheriff Jernigan.

He was convicted of misdemeanor embezzlement and is now serving his sentence in the Orange County Jail. Boyle was arrested by city police of Wichita, who have informed the Sheriff's office that the prisoner will fight extradition from the State.

GETS PRISON TERM FOR SHOOTING WIFE

[EXCLUSIVE DISPATCH]

BAKERSFIELD, March 3.—For endeavoring to murder his wife and instead only wounding her, after which his own life was saved because his pistol jammed, Archibald Phillips, 30, colored, was sentenced to serve from one to fourteen years at San Quentin by Judge J. W. Mahon, sitting in judgment today.

Phillips called on his divorced wife last week during the early morning and asked to see his two small children, according to the statement he made in court. When his wife refused him, he said he drew his pistol and opened fire on the woman. The first bullet struck her in the groin and the gun jammed. Phillips declared that he pointed the muzzle at his own head and tried to fire it again. It failed to operate.

CHIEF SHOWS SIGHTS TO CITY FATHERS

[EXCLUSIVE DISPATCH]

OXNARD, March 3.—Police Chief G. S. Welch, who has been on the job here about a week, is "hard-boiled" with liquor law violators, dope addicts and peddlers. He is out to clean up the tenderloin of Oxnard and in order to get the whole-hearted support of the City Trustees and the public at large he took members of the City Council for a little trip through the underworld section of about four blocks last night. They were shown many things they had never seen and had their eyes opened to some conditions which they will attempt to better.

NEW SECRETARY

[LOCAL CORRESPONDENCE]

INGLEWOOD, March 3.—Garner White, attorney, who has been counsel for the Inglewood Brokers' Exchange since its inception, has accepted the secretaryship of that organization, to fill the vacancy caused by the resignation of Ellsworth A. Sylvester. The latter has served in that capacity since the exchange was formed about a year ago. He resigns in order to pursue a special college course.

MORE SCHOOLS ENTER CONTEST

Private Institutions Show Oratory Interest

Benefits to Participants Emphasized

Ebell Club Praises Feature as Educational

> Has your school entered the National Oratorical Contest on the Constitution? If not write at once to Alan Nichols, contest director for The Times.

Private schools in Southern California are showing greater interest in the National Oratorical Contest on the Constitution this year than during any previous contest, the indications at this time being that they will be enrolled almost 100 per cent before the entries close.

Two new private institutions reported entrance yesterday. They were the San Diego Army and Navy Academy, which participated in the 1924 and 1925 contests, and Cathedral High School of Los Angeles, a school recently established.

NOTES BENEFITS

Col. Thomas A. Davis, president of the Army and Navy Academy, writes that he is very glad to have the school participate in this contest each year, because of the excellent results that have been observed in the students taking part in former years.

Brother Philip, principal of the Cathedral High School, reports that all the students in that institution are required to take part in the contest.

The contest came in for much laudatory comment at the meeting of the public-speech department of the Los Angeles Ebell Club yesterday, being, in fact, the principal topic of discussion at the meeting. Charles Crail, Jr., son of Judge Crail of the Superior Court, and a participant in The Times finals in 1925, delivered the oration which won him honors in last year's contest.

ORATORY REVIVAL

In introducing young Crail, Mrs. Ida Ballard Shively, curator of the public-speech department, told the audience briefly of the development of the contest movement, in that connection pointing out the efficiency of the contest as an educational agency.

"We have been told that oratory was in a fair way to become a lost art in this country," said Mrs. Shively. "If the achievements of the young orators who have taken part in the contests of 1924 and 1925 are any criterion, I should say that oratory is coming back in America. Certainly this movement is doing more than any other one thing to maintain the art of public speaking."

Debate Befogs Hearing Until Subject's Lost

The proposed opening of Rosedale avenue between Court and Temple streets, a distance of 275 feet, was abandoned by unanimous vote of the Council yesterday after a lengthy discussion which ended in the proceedings becoming so involved that no one in attendance knew what it was all about.

Rosedale avenue is now being opened between Court and First streets under running proceedings. A majority protest against the opening to Temple street had been filed, but proponents of the matter declared that numerous withdrawals from the protest had been made after the legal time limit had elapsed. Under the action taken yesterday by the Council the residents of the district can bring in a new petition after the lapse of six months.

Father Named Administrator of Dead Star

William W. Watson, father of Barbara La Marr, was appointed administrator of the estate of the late motion-picture actress by Judge Willis in Probate Court yesterday. Atty. R. B. Knickerbocker appeared for the petitioner.

The value of the estate is estimated at about $10,000. No will was left.

COUNCIL APPROVES CLOSING OF BORDER

Councilman Randall's resolution, approving the action of President Coolidge in ordering the international border at Tia Juana closed every day at 6 p.m., was adopted by the Council yesterday over the objections of Councilman Barnes, who said that this was a matter best left with the Federal authorities.

LIONS' CLUB IN RADIO HIT

Civic Organization Entertains KHJ Listeners With Share in Delightful Program

BY PAUL SHEEDY

Members of the Lions' clubs of all Orange county participated in the unusual program broadcast last night from 8 until 10 p.m. from the tower studio of KHJ, with a real feature in the appearance before the microphone of Jack Riley, governor of District 4 of the Lions' International, giving an address, and Harold E. Wahlberg, president of the Santa Ana club, also speaking briefly.

Participants of the evening came from five different Lions' clubs, with the program opened by the Orange Belt Melody Makers, directed by Harry I. Bates, through the courtesy of the Anaheim club. Cecil Willits, soprano, accompanied by Ruth Garden, then followed with a solo, "Valse" and Olliemae Matthews, violinist, with Ione Peek, accompanist, in "Canto Amoroso." These latter four all came through the courtesy of the Santa Ana club.

LIONS SUPPLY TALENT

Several excellent readings were given by Mrs. Lina Russell, from the Brea Lions' Club, followed by the Santa Ana Quartet. Roy D. Fordham, tenor, accompanied by Mrs. C. P. Smith, appeared for the Placentia club, as did Jack Harmony, basso, and his accompanist, Mrs. C. B. Pukenbaugh. Several additional bass solos were given by Chad Robinson, of the Orange club.

The children's hour was opened by little Dick Winslow, the screen juvenile reporter, followed by Vivian Marple, the "Blue Bell of KHJ;" Mickey McBan, the "Scotch Laddie;" the "Listener-In," in old-time plantation melodies and jubilee songs; Eileen June, juvenile singer; Glenn Fitz, youthful reader; then four talented pupils of Lewis D'Ippolito of the Thompson Progressive School for Saxophone. These were Kenneth Larsen, Roy Mahon, Virgil Love and Donald Webster. Dr. Mars Baumgardt, widely known astronomical authority and leading optometrist, then gave his weekly lecture on the wonders of the heavens, followed by the nightly talk on American history by Prof. Walter Sylvester Hertzog.

EXPERTS ON SAXOPHONE

Pupils of the Thompson Progressive School for Saxophone also participated in the special daylight program from 3:30 until 4:30 o'clock, featured by the presence of Kathryne Thompson and Lewis D'Ippolito, both concert saxophonists and heads of the school, with Gertrude Wilson also giving several delightful solos on the saxophone. Janet McGregor Wilson, soprano, appeared in a group of excellent compositions.

The noon program was another frolic of the Motor Transit Company, presenting Sol Hoopii and his Novelty Three, Collins and Miller, with their guitars and songs; "Clarence," the unknown quantity, substituting for Uncle Remus; Jack Williams, pianist, and Charles Craver, the "Arkansaw Charlie." At 230 p.m. Fred C. McNabb came on the air with his regular weekly talk on plants and flowers through the courtesy of the Aggeler & Musser Seed Company.

Radio listeners are to be given another novel feature from the tower studio. Commencing tomorrow evening, W. D. Waterman, president of the Professional Pilots' Association, is to give the first of a series of ten interesting talks on airplanes and air travel, appearing each Friday evening at 7:15 p.m. Waterman is one of the oldest pilots in this part of the country, conducting a large commercial business, and he is recognized as one of the best authorities on air transportation and its safety.

SUBSTITUTE PARK LANDS PLAN LOST

Proposed Purchase by City of Banning Property for Wilmington Rejected

A resolution presented to the Council by Councilman Ash, designed to halt the condemnation suit for five sites for parks in Wilmington, substituting therefor the purchase of the Banning property, was lost yesterday by a tie vote. The suit goes on trial today in Superior Court.

Wilmington citizens, who have been urging the acquisition of the Banning property, brought to the Council certified checks for $15,000 to repay the court costs which the city has undergone so far in the condemnation actions. The checks were returned with the information that they must bring in $20,000, which they said they would do today.

Some of the Councilmen said that the change in locations on the parks looked "fishy," but Assistant City Attorney Whitehead explained that the five sites now under consideration are industrial properties, amounting in all to $711,000, and that in one case the appraisal had placed a value of $45,000 an acre on one parcel. The Banning property has been offered for $275,000.

Husband Brings Woman Boarder, Wife Brings Suit

When Harry P. Murphy brought a young woman to his home to board, he told his wife he regarded her simply as a sister, Mrs. Louise C. Murphy told Judge Gates yesterday. But when he began taking the boarder out nights she made her move out, and when she missed some linoleum and found it on the floor of the boarder's new apartment, she decided matters had become altogether too fraternal between her husband and the other woman, she declared.

Under examination by her attorney, George Acret, Mrs. Murphy related that she had watched her husband and the other woman together in the latter's apartment.

"What did they do?" asked Attorney Acret.

"They turned down the lights," Mrs. Murphy replied.

"Decree granted," ruled Judge Gates.

MATCHES SET FIRE TO GARMENTS OF CHILD

June Newbold, 5 years of age, found some matches yesterday and took them to the rear yard of her home at 1126 Mignonette avenue. The inevitable followed. Mrs. A. Smith, a neighbor, reached the child and succeeded in tearing the burning clothes from the girl, but not before she had been so seriously burned that she may die as a result. The child was treated at the Receiving Hospital.

DISTRICT MAP APPROVED

The assessment district map for the opening and widening of Exposition Boulevard between Main and Figueroa streets, and between Vermont avenue and Mesa Drive yesterday was approved by the Council.

FURNITURE MAKER MAY BUILD HERE

Eastern Manufacturer in City on Survey of Plant Location for Coast

For the purpose of conducting an extended survey of manufacturing and distributing conditions in Los Angeles, Mike Karpen, vice-president and sales manager of S. Karpen and Bros., manufacturers of upholstered and fiber furniture, has arrived in this city.

Mr. Karpen's survey is being conducted with a view toward the erection of a furniture factory in Los Angeles of a magnitude comparable to the great plants maintained by the company in Chicago, New York and Michigan City.

The survey, according to Mr. Karpen, will consist more or less of checking over possible sites and a recapitulation of data as officials of his company have long realized the necessity of a branch plant on the Pacific Coast.

"We did a manufacturing business in excess of $10,000,000 last year," explained Mr. Karpen, "and an amazing amount of this business came from Los Angeles and surrounding territory. Eventually we must build a factory on the west coast and it has been our policy to select the largest city of the section in which we locate.

"Our furniture can be manufactured as cheaply in Los Angeles as any other place, while it can be shipped east to points as far away as Texas much cheaper than it can be shipped to these same points from our eastern factories."

Mr. Karpen has been a close follower of business development in Los Angeles and predicts a continued and greater industrial development in the years to come. He is a member of numerous local organizations.

Burglars Make Jewel Haul in Passkey Thefts

Two major jewel robberies by pass-key burglars were reported to police yesterday.

Mrs. A. M. Barnes of 445 North Larchmont avenue reported that the pass-key thieves forced a way into her home through a rear door and departed with $5750 in jewelry. The theft occurred some time early yesterday morning.

At about the same time Lawrence Stoll of 4636 Franklin avenue, Hollywood, reported pass-key burglars made their way into his home and lifted $2900 in jewelry. Detectives are checking each burglary in an effort to obtain finger prints.

MUSICAL TEA PLANNED

Arrangements Will be Made for Eisteddfod at Gathering

Plans for the Los Angeles metropolitan district eisteddfod will be formally launched at a musicale-tea to be given Sunday at 3:30 p.m. at the Hollywood Conservatory of Music, 5402 Hollywood Boulevard. Mrs. Alfa Wood Anderson, chairman of the Los Angeles district, will preside. Hostesses will be Mrs. Gladys T. Littell of the Hollywood Conservatory, Mrs. W. J. Kraft of the University of California, Mrs. Annie Mottram Craig of the college of music, University of Southern California, and Miss Mary Alice Jones of the drama committee of the Los Angeles district eisteddfod.

Arthur S. Bent, president of the Los Angeles Chamber of Commerce, has been invited to be one of the speakers of the occasion. J. Harold Powers of the University of Southern California will speak on "The Eisteddfod as a National Movement." Other speakers will include Mrs. W. E. Mabee, F. J. Hokin, Dudley Warner Fitch and Ben F. Pearson.

The Los Angeles metropolitan district contests will be held the week of April 24 to May 1, inclusive.

LEGION IN NEW HOME

Los Angeles Post Meets Tonight in Veterans' Building

After conducting meetings since 1919 in temporary headquarters in various parts of the business district, Los Angeles Post of the American Legion tonight will be the first American Legion post to meet in its permanent home in the Veterans' Memorial Building, Eighteenth and Figueroa street, according to O. C. Wyman, commander of the post. Tonight's meeting will be in the auditorium of the new building.

Past Commanders Walter Brinkop, Henry O. Wheeler, Jr., J. W. McKinley, D. C. Kemp and H. H. Harris are on the program to relate the history of the post during their administrations.

Other matters expected to come before the meeting are information regarding veterans claiming exemption on taxes; reinstatement and conversion of government insurance; the Legion's trip to Europe, known as the "Second A.E.F.;" discussion of a monster Boy Scout night in honor of the post's Boy Scout troop on the 18th inst.

CITY TO CONTINUE DESERT BILLBOARD

The Council Public Welfare Committee's report, stating that arrangements had been made for the temporary continuation of the bathing girl billboard in the Mohave Desert without cost to the city, was adopted yesterday by the Council. The billboard will be repainted, the report stated, with subject matter approved by the committee, and will continue to advertise the charms of the Venice beach until somebody comes along and rents the board for other purposes.

CLUB TO HEAR PROFESSOR

Dr. F. P. Woellner, professor of education at the University of California, Southern Branch, will speak on "The Psychology of Jesus" before a special meeting of the membership of the Brotherhood Club of the united churches of Los Angeles today at 12:15 p.m., in room 402, Y.M.C.A., 715 South Hope street.

ATWATER KENT RADIO

"Now I'm ready for a fine radio set!"

HE had been experimenting with radio for several months, he said.

"You don't have to tell me about Radio," he began. "We get more fun out of it, more sheer enjoyment, than anything we ever had in the house, even with the set we've got.

"But now I want a really fine set—an Atwater Kent. I'm tired of apologizing for my set.

"Friends come in—everything ready—then poor results.

"It's a regular joke in our house. The set never performs before company!

"To tell the truth, it doesn't always perform in the bosom of the family!

"That's why I want an Atwater Kent. I hear them in the homes of my friends. I know good performance when I hear it—and that's it!

"Like so many people I've limped along with unsatisfactory results because—well, to tell the truth, I always thought Atwater Kent was a high-priced set.

"You know how it is. You hear so many people praising it that you just form an impression. I thought it was 'way up in the hundreds.

"But it isn't, is it?"

And when we told him the installed price, everything included, he said:

"To think that I've stayed away so long! Here's where we really start enjoying radio!"

Perhaps you, too, are ready for a really fine set—one that performs in your own home, evening after evening—and before company, too! Are you?

Better reception comes through an Atwater Kent Radio Speaker, The Model H, shown here, price $24.00.

Model 20 Compact, cable attached. Price $85.00

Tune in KNX

Tune in KNX any evening of the week (except Sunday), between 6:30 and 7:00, at which time the Atwater Kent Radio Orchestra will entertain you with the very finest of concert programs rendered by an orchestra, every member of which is an artist.

Pimples

What can I do?

"OH, why can't I have a skin like other girls? Why do I have to have these ugly pimples, blotches and blackheads?

"If I could only find something that would clear up my skin and give me back my soft, rosy complexion, I know I would be the happiest girl in the world! What can I do?"

Is that you talking? If it is, you don't have to worry a minute! Just build up the rich, red blood in your body. Then your skin will be as clear and soft as anybody's.

That's what S. S. S. has been doing for generations—helping Nature build rich, red blood! You can build red-blood-cells so fast that the impurities that cause breaking out on the skin hardly get into the system before the pure blood annihilates them—kills them right out—stops them from breaking out through the skin.

And then this rich, red, pure blood feeds and nourishes the tissues of the skin and keeps it looking healthy.

That's all there is to it. Healthy, vigorous red blood such as S. S. S. helps Nature build, makes you healthy all over. It beautifies your skin — drives away pimples, blackheads, blotches, rash, boils and eczema—gives you back your appetite—builds firm, plump flesh and fills you full of new life and energy.

All drug stores sell S. S. S. Get the larger bottle. It's more economical.

S.S.S.

STOP SKIN TORTURE

Liquid Zemo Heals Every Skin Blemish

The smarting agony of sunburn, itching, heat rash and skin disorders of all kinds quickly disappears with the use of Zemo. It heals and cools the skin.

For eczema, blackheads, tetter, pimples and acne, Zemo is the safe and dependable remedy. Liquid Zemo does not show and may be applied freely in daylight. Rubbed into the scalp, it stops itching scalp and dandruff.

For overnight use apply Zemo ointment, and as a preventive of skin troubles bathe regularly with Zemo soap. Any druggist can supply you with Zemo in either form. 60c and $1.00.—[Advertisement.

What happened to Mrs. Mills

Indigestion—terrific gas pains—intestinal irregularity—bilious attacks and physical exhaustion, all these were the intolerable lot of Mrs. C. H. Mills of Worcester, Mass., until she took up internal bathing with the J. B. L. Cascade. A state of physical misery sufficient to break the spirit of the most courageous.

A year later Mrs. Mills reports:

"I haven't been near a doctor for over a year, have no more gas pains and have not had a bad attack since using the 'Cascade.' My digestion has improved wonderfully."

This is but one illustration of the health marvels worked by this modern, hygienic health practice. 800,000 homes can testify to new health and strength brought by the J. B. L. Cascade. Of health regained—misery tossed off. By all means inquire into this famous sanitary way of combating disease and preserving vitality. For your convenience the drug store named below holds a booklet for you describing in detail the treatment. It is called "Why We Should Bathe Internally." It is FREE—to you. Get it, for health's sake, today.

HARBOR PAYING ALL OWN COSTS

Self-Supporting Over Period of Fourteen Years

Every Item Deducted From Audit Just Issued

Reduction in Staff Saves $58,330 Annually

That Los Angeles Harbor, representing an investment of $57,808,-989, has paid practically all of its own expenses for operation and construction activities for the fourteen-year period ended June 30, last, it was disclosed in an audit made public yesterday by the Harbor Commission.

Although the audit shows a deficit of $209,289 in operating for the same period, it was estimated yesterday by Commissioner Allen that the indirect benefit to the community is probably in the neighborhood of $1,000,000,000.

He predicted that revenues from operation for the current year will offset the gross operating loss and leave a net profit of $500,000 to $[illegible].

"If a former City Council had not allowed the full payment of interest on a certain block of bonds, which were sold nearly a year after they were issued, the harbor department would show a net profit of $51,000 at present," the commissioner stated.

FIRST COMPLETE AUDIT

The audit is asserted to be the first in the history of the local port showing accurate statements of what the development of the harbor actually has cost the taxpayers and the result of its operation.

The balance sheet shows that provisions were made to cover all interest on bonds and pay depreciation losses from the gross revenue, and that after all such deductions and others for accounts payable were made, the total deficit was only $209,289.

The principal items listed under assets were lands valued at $35,-162,369, and other properties and equipment valued at $16,170,656. There were at the close of the period $4,759,595 unexpended bond funds. Current revenue funds on hand, accounts receivable, deferred charges and materials on hand were listed at $1,716,467, making the total assets $57,808,989.

Principal liabilities were outstanding bonds amounting to $22,-160,500, expenditures of $5,493,-923 for the harbor account from funds raised by taxation and deferred revenues of $1,316,346.

VALUE INCREASES

During the period harbor properties increased $28,365,105 in value, according to a surplus named in the report as arising from the appreciation of harbor lands to sound appraisals as reported by the American Appraisal Company.

The summary of the gain or losses by years shows a profit of $474,[illegible] in 1923 and $529,040 in 1924 and a loss in operating expenses of $278,056 in 1925. This was due, Commissioner Allen stated, to a readjustment of depreciation losses.

He stated that depreciations not fully covered in previous years were added to the fiscal year of 1925, making the total deduction for depreciation for that year $749,270, as compared with $286,-180, for 1924, the highest depreciation deducted in any previous twelve months.

The commission authorized the termination of employment of William T. Days as assistant traffic manager on account of the asserted lack of work.

Reduction in the harbor department staff that will result in a saving of $58,330 a year in salaries [illegible], was approved on the recommendation of General Manager [illegible].

[illegible] stated that port operations are now as heavy as they ever have been, but the department heads are securing more work from each employee and discontinuing duplications, making the reduction possible.

KEYSTONERS TO PICNIC

Pennsylvanians of Southern California will rally for their annual picnic in Sycamore Grove Park all day Saturday. President Barron will offer all the picnic features, including county registers and hot coffee. Picnickers will carry their own baskets. A program will follow the dinner hour.

FLOOR COVERING BOOKLET FREE

"Times" Information Bureau Will Send Copy for Postage Cost

Floor covering should not only be attractive to look at, but being a permanent part of the house, should be of durable materials, well laid, and suitable to each room. Federal government experts have made a study of the subject, embodying the results in an interesting booklet for free distribution.

To obtain a copy write name and address clearly on the coupon, inclosing 2 cents in stamps for return postage, and send to Los Angeles Times Information Bureau, Washington, D. C. To avoid wrong delivery at Washington, use full address as given. Do not send to The Times' Los Angeles office.

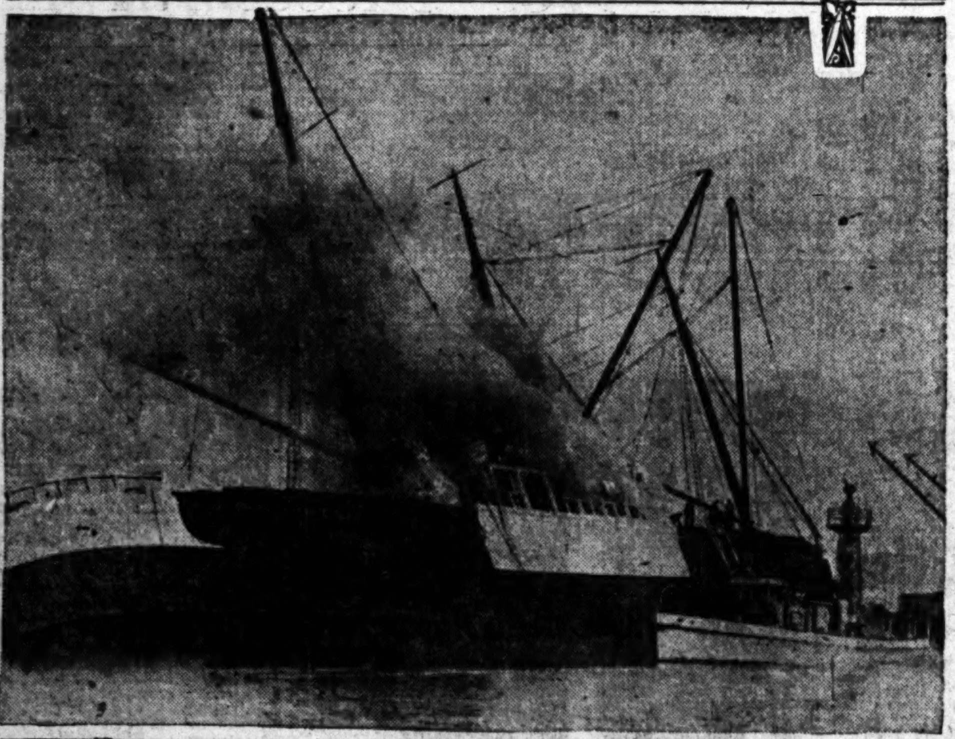
Firemen Fight to Save Burning Lumber Vessel



Steamer Sierra in Flames

STEAMER BURNS AT HARBOR

Damage of $50,000 Sustained by Lumber Vessel Owned by E. K. Wood Company

Damage totalling $50,000 was suffered by the wooden lumber steamer Sierra at the harbor yesterday, when fire originating in the boiler room practically destroyed the machinery section and spread to the forward cargo compartment before it was extinguished by four engine companies and Fire Boat Number Two. Two firemen were overcome by smoke.

The fire was discovered by Chief Engineer Francis Dick shortly after 6 o'clock, having already spread from the boiler-room to the after-section of the engine-room. It was four hours later when the fire forces under Chief Ralph J. Scott and Assistant Chief Jack Baly got it under control. A. C. Campbell of Truck Company Fourteen, and Harry Drake of Engine Company Fifty-three were carried out of the ship's hold unconscious during the height of the fire. Drake was still in a serious condition at the Hillside Hospital last night as a result of inhaling fumes, while Campbell late yesterday was taken to his home in an improved condition.

The fire was the third serious accident to the Sierra in as many years. Just before being purchased by her present owners, the E. K. Wood Lumber Company, while entering port from the north she was rammed by the submarine H-7, running submerged. The lumber vessel managed to make her dock, but sank alongside before lines could be made fast.

Her name was then the Virginia Olson. She was refloated, her cargo removed and repaired, after being bought by her present owners and renamed the Sierra. The terms of the sale were that she should be owned by the E. K. Wood interests as soon as her lines were cast off from the wharf. She had just cast off and was warping into the stream when she was rammed and sunk by the steamer Claremont.

The Sierra arrived here from Columbia River ports on the night of the 2nd inst., with 1,250,000 feet of lumber for her owners, on which discharge was to have commenced yesterday. She is in command of Capt. William Banke, one of the veterans of the Wood coastwise fleet.

Work of the firemen was seriously hampered by the deckload, which prevented their reaching the seat of the fire. The entire vessel thus had to be flooded, which caused it to take a list of 27 deg. to port, eventually returning to an even keel when the weight of water aboard brought the hull to the bottom of the channel.

The Sierra, valued at $260,000, is a wooden steamer of 704 net tons and was built at North Bend, Or., in 1917.

FAST ACTION IN SEMINARY FUND DRIVE

First Days of Campaign Bring Encouraging News; Special Endowments Given

Endowment of two professorships and six permanent scholarships has been guaranteed by special gifts to the Junior Seminary Campaign, according to Rev. William E. Corr, general director of the campaign.

An endowed professorship is placed at $25,000, while a permanently endowed scholarship is named at $7500, which means that approximately $95,000 has already been contributed to the fund through special donations.

Yesterday's report covering the solicitations of Tuesday, the second day of the campaign, added approximately $100,000 to the total, which was given an encouraging start by $250,000 in advance gifts.

St. Elizabeth's Church yesterday passed its $12,000 quota. Culver City, Ocean Park and Venice early yesterday morning reported their goals achieved. Ventura and Escondido also have reached their marks, while El Monte was among the first to go over, reporting 150 per cent more than its assigned quota reached the first day.

Bellflower yesterday turned in a report that it was 200 per cent over its quota, while Torrance, Hawthorne, El Segundo, Watts and Colton achieved their quotas yesterday.

While $1,000,000 has been set as the goal for the Junior Seminary Campaign, this figure is the minimum amount to be raised, and it it is hoped that the total will exceed this sum when the final reports are made the 10th inst.

PAIR FIGHT DUEL UNTIL BOTH DROP

Bakersfield Men Engage in Pistol Fray, Falling After Being Wounded

[EXCLUSIVE DISPATCH]

BAKERSFIELD, March 3.—A feud of many months between L. Laurence and D. Adena, both residents of this city, reached its dramatic climax today in a spectacular gun duel at close range, with both men firing until they fell. The duelists both were wounded so seriously that they are not expected to recover. They met unexpectedly, according to officials, and their smoldering duel was resumed without a warning.

Both drew almost simultaneously. They fired at each other again and again. Both were wounded in the first exchange, but supporting themselves by holding onto tables they continued to blaze away at one another until both crumpled to the floor, suffering from what physicians declare will prove fatal wounds.

It was learned from the authorities that the two men quarreled many months ago about some work. Their feud was punctuated by a number of vicious fist fights, in which one or the other would come out victor.

But the affair, apparently, had never been settled definitely. Physically, the two men were about on a par.

Their enmity became a public matter and they had announced generally that their next meeting would be final for one of them. As the two men met each other in the pool hall the other players, aware of the enmity between them, drew back.

They exchanged but few words and then the hand of each flashed to a hip pocket and out again, both guns spouting lead. The first shots took effect, but the two men remained upright despite their wounds and continued to fire until they fell.

A number of youths in the place escaped death by narrow margins as the bullets spattered about them and through the plate-glass window into the streets. By the time the police arrived, the two men were on the floor bleeding from their numerous wounds.

Deputy Sheriff Getchell is investigating the case.

A school has been opened at Belgrade to teach women to drive steam locomotives.

TEMPTATION IN PATH OF GIRL SHOWN

Principal Gives Cause as Motor Sheiks and Lack of Home Discipline

"A good-looking boy in a high-powered car is a serious temptation to the unchaperoned girl. Given the car and the gas such a boy can pick up a different girl every night in the week and stage a petting party," George M. Green, principal of the Inglewood Union High School, told the Parent-Teacher Association yesterday afternoon was the substance of an investigator's report.

"This condition is appalling," Mr. Green declared, "and it is the result of allowing young girls to go about the streets unchaperoned at night. The girls are to blame rather more than the boys and I think the court records will prove that.

"The remedy lies in the home: if girls are out late at night it is the mother who is to blame rather than the girl."

Mr. Green does not believe that conditions are worse or better in Inglewood than they are in any other section. The problem is country-wide and has been aggravated by parents allowing boys of high-school age to use the family car.

He also condemns the use of rouge by the girls and the extremely short skirts they are wearing. This is one of the problems which the Girls' League, of which Miss Grace E. Wilcox, faculty member and one of the advisers of that student organization, is trying to solve.

DEATH IN PIONEER FAMILY

Mrs. Caroline E. Shafer's Passing Marks Loss in One of Prominent Groups of State

By a "Times" Staff Correspondent

SANTA MONICA, March 3.—The death of Mrs. Caroline E. Shafer yesterday marks the passing of a member of one of Southern California's most prominent pioneer families, her father, Don Mateo Keller, having operated as a vineyard most of the property between Central avenue and the Los Angeles River now crowded with the warehouses, factories and wholesale establishments of the Los Angeles industrial district.

Mrs. Shafer died at her beautiful Brentwood Park home, 115 Rockingham avenue, following a stroke of paralysis. She was 59 years of age.

Mrs. Shafer was born in the old Don Mateo Keller home, a fine hacienda on what is now Alameda street, near Mateo street. This property was then a vineyard, but years have completely altered the surroundings and today the Los Angeles Chinatown occupies this district. Don Mateo Keller came to California in 1849, landing at San Pedro after a voyage from Ireland. He was formerly owner of the Malibu Ranch on the coast north of Santa Monica, now belonging to the Rindge family.

Mrs. Shafer leaves two daughters and two sons, all residing in Brentwood Park. They are Mrs. Gertrude Shafer McGill, Mrs. Jane Shafer Richards, Worthington Shafer and George Shafer. Her death leaves her brother, Henry W. Keller, Los Angeles capitalist and owner of large holdings here and on the coast of Northern San Diego county, the only surviving child of Don Mateo Keller. She was a cousin of William Workman, former Los Angeles Mayor and father of Boyle Workman, president of the City Council.

Funeral services will be conducted at the Brentwood Park home at 9 a.m., and at St. Monica's Roman Catholic Church, Santa Monica, at 10 a.m., Thursday. Father Nicholas Conneally of St. Monica's will officiate at the church. Burial will be in Calvary Cemetetry, Los Angeles.

Mrs. Caroline E. Shafer

CLEAN-UP OF BAR URGED BY SPEAKER

Lawyer Who Tries to Free Guilty Client Assailed in Club Address

Public confidence in the legal profession has been much harmed by the lawyer who tries to free a man whom he knows is guilty of crime, Hubert T. Morrow said in a talk before the Justinian Club in the Hotel Clark yesterday.

"A lawyer should see that his client gets a fair trial but the idea of trying to free a man guilty of crime is one that we are going to get away from in time," Mr. Morrow said.

Mr. Morrow was at one time president of the Bar Association here and for five years was chairman of its grievance committee. His talk before the club of attorneys and judges yesterday was directed toward strict adherence by judges and attorneys to a high order of ethics.

"You older heads," Mr. Morrow said, "must promulgate among the young attorneys and the new ones who come here the canons of ethics of our profession.

"We've got to clean up the bar of unscrupulous lawyers.

"I have been told by a judge of high standing that not more than 50 per cent of the lawyers who come before him are morally fit or are capably prepared to present their cases. I believe that of our judges about eight out of ten conduct themselves rightly.

"The Bar Association must give its support to the right men and use its influence against the wrong men."

Mr. Morrow said that a meeting of a committee of judges and members of the association has adopted a resolution against soliciting judges for contributions to various advertising causes and against "refined extortion" of money from them by various publications, making exceptions, however, for reputable publications of wide circulation.

ANGELENOS BUY UP HUGE RANCH

(Continued from First Page)

retary, and M. Crowe, treasurer. Mallen is executive vice-president.

The huge tract has for twenty years been in possession of the Bartlett family as a summer home. All the direct heirs of Mr. Bartlett are dead and the bulk of the estate belongs to the widow of W. H. Bartlett, Jr., now Mrs. Virginia Doulton of Santa Barbara.

According to Mallen more than $8,000,000 has been expended by the Bartletts in improving the enormous ranch. W. H. Bartlett until his death in 1918 was head of the Bartlett-Frazer Company of Chicago, one of the large firms of grain dealers in the world.

The property is equipped with golf links, tennis courts and a polo field, Mallen stated. The game consists of 10,000 head of deer, 5000 elk, and unnumbered wild turkeys. In addition, there is a fish hatchery by which nine lakes are kept stocked. The live stock includes 10,000 cattle and 450 riding horses.

A palatial mansion of thirty-one rooms and sixty-five shooting lodges already are on the property, it is stated.

Rights to drill for oil have been sold to the Union Oil Company for $200,000, Mallen said. White and Mallen are to leave for the property the first of the week to complete plans for opening the club. The novelist will spend the summer in one of the hunting lodges.

Tailor Shot by Shop Proprietor Following Fight

Cruz Nino, 38 years of age, a tailor living at 7300 Graham avenue, was shot in the abdomen last night by Joe Schonberg, his former employer, who runs a tailor shop at 224 South Spring street, according to police.

Nino, it is said, had been drinking and went to Schonberg's place to obtain some money due him. After being paid, it is reported, he started the fight and Schonberg shot him.

Schonberg went to the police station and was supported in his story by several witnesses, police said. He was not held.

Nino was treated at the Receiving Hospital. Police Surgeon Sebastian said his wound is not serious.

SEARCH STARTS FOR HIGH-SCHOOL YOUTH

Search was begun yesterday for Conrad Haas, 17 years of age, of 318 North Townsend street, Belvedere, who left home Tuesday to go to a physician's office and is reported to have disappeared. He is 6 feet 1 inch tall and extremely slender. The youth objected to being withdrawn from high school on account of his health and may have left home voluntarily, said his uncle, L. H. Howe, but his absence has made his mother ill from worry.

MOTHER SEEKS WORD FROM WAR VETERAN

Red Cross officials here are seeking to find George O. Schrader, war veteran, at the request of his mother, who last heard from him in March, 1923. At that time the veteran was living in Los Angeles. He served with Company C of the Thirty-ninth Infantry and was wounded in action. Communications regarding the veteran should be forwarded to Mrs. Margaret Behr, case worker for the American Red Cross, at 1110 Transportation Building.

P.-T.A. TO HOLD SESSIONS

Sessions of the Los Angeles Federation, Tenth District, California Congress of Parents and Teachers, will be conducted at Barker Brothers' Auditorium today at 10 and 11 a.m. and at 1:30 and 2 p.m. Among the speakers will be Mrs. Charles F. Gray, Prof. Alice M. Robertson and Mrs. Gordon Groves. Mrs. Guy Bush will give a musical program.

VERDICT IN SCALDING OF CHILD OPEN

Jury Finds it Impossible to Tell if Death Due to Homicidal Intent

An open verdict as between accident and murder was found yesterday by a Coroner's jury which heard testimony concerning the death of the 3-weeks-old child of Mrs. Bonita Hernandez, which died Sunday from being scalded. The inquest was conducted at the burial rooms of Z. Ramirez, 4545 Brooklyn avenue.

Mrs. Hernandez was a witness at the inquest. She also was scalded but is able to be out.

The scalding took place Friday at the joint home of Mrs. Ramirez and Jose Guzman at 236 North Clarence street, and Mrs. Ramirez asserted Guzman poured boiling water on her and the baby during a quarrel. Guzman was arrested Tuesday and is being held on suspicion of murder. He asserts the scalding was accidental.

According to Detective Lieutenants Jarvis and Shannon, Mrs. Ramirez said she was sitting in the kitchen near the stove with the baby in her arms asleep when Guzman came in and in a fit of anger threw the contents of a pot of boiling coffee on her and the child.

Guzman said that when he entered the house Mrs. Ramirez asked him to pour a cup of coffee for her from the pot on the stove and that in taking the handle he used a piece of paper to protect his hand. He said the heat burned his hand and he was forced to drop the pot. The boiling coffee was spilled on both the baby and the mother, he said.

The Coroner's jury said it was impossible to tell whether there was any homicidal intent.

A SPARE supply of Boyce-ite insures its continuous use and benefits.

By simply adding Boyce-ite every time you fill your tank you protect the vital points of your motor from carbon deposits and enjoy a quick start, a sure pickup and a quiet, steady, velvety, yet vigorous surge of power—all the time.

Guarantee

REGARDLESS of the design of your motor, or the grade of gasoline used, if after adopting Boyce-ite treated gasoline as your standard motor fuel, you ever again find it necessary to remove carbon, have that carbon burned out and send the bill covering to Boyce & Veeder Co., Inc., Long Island City, N. Y., U. S. A. A check will be sent you immediately.

SECOND DEAD IN BUS CRASH

Further Fatalities Likely Among Score Hurt

Inquest Set for Tomorrow at San Fernando

Detectives Check Story of Driver Now in Jail

MRS. BEATRICE SUNDSTROM

While the Van Nuys police yesterday continued their investigation into causes of the accident that led to the overturning of a realty sightseeing bus on San Fernando Road late Tuesday, another victim of the crash died, bringing the casualty total to two dead and twenty-eight injured. The second death was that of Henry Craven, 45 years of age, 249 Whittier Boulevard, at the San Fernando Hospital. Mrs. Beatrice Sundstrom, 50, 837 Rosella avenue, Watts, was killed instantly in the accident.

An inquest over the bodies of the dead will be conducted at 1:30 p.m. Friday at the undertaking parlors of W. G. Noble in San Fernando. In the meantime Roy Smoot, driver of the bus, is being held in the Van Nuys jail, while detectives seek facts to substantiate or refute his story that sand piled on the roadway caused the vehicle he was driving to skid and turn over.

At the inquest it is expected several of those less seriously injured will testify as to the speed the bus was traveling and the care Smoot exercised in its operation.

Reports from the San Fernando and General hospitals last night were to the effect that several of the more seriously injured may yet die. The most serious cases are skull fractures, several of the victims being women.

TRIO SOUGHT IN ASSERTED GIRL ATTACK

Music Store Clerk Picked Up in Hysterical Condition Taken to Hospital

Detectives yesterday were making a detailed investigation into the lurid attack story told them by Mrs. Betty Bender, 22-year-old music-store clerk, in an effort to trace her three abductors and assailants.

She was found wandering in the street at Sixth and Western avenue early yesterday morning in a hysterical condition and near collapse, and taken to the Receiving Hospital by a passing motorist for treatment. There she told Detective Lieutenants Jarvis and Craig that she was waiting for a car at Sixteenth and San Pedro streets late Tuesday night to carry her to her home at 610 South Oxford avenue, when three men in a coupe drove up and volunteered to take her to Seventh street and Broadway.

Instead, she said, they set out for Long Beach, and on the outskirts of that city came upon a truck loaded with liquor. From this truck they obtained a gallon of moonshine and began drinking. On their way back, she said, each of the men attacked her and then flung her out of the machine near the spot where she was found. The liquor truck followed the coupe in which she was held a prisoner into Los Angeles, she said. She expressed the belief that her attackers were rum runners.

CHILDREN WILL GIVE PHANTASY AT CHURCH

Children from 3 to 14 years of age will appear in a childhood phantasy to be presented tonight and tomorrow night at the St. James Methodist Church, Twenty-second street and Union avenue. The leading roles will be taken by a boy, 4 years of age, and a girl of the same age. The play, "The Wedding of the Princess," will be directed by Miss Eva V. Dunbar of Chicago. Some fifty children from the church will appear in it. Miss Dunbar will give a group of dramatic readings.

RUNAWAY SON ASKED TO COME BACK HOME

Roy Hester, 14 years of age, is a runaway from his home at Yorba Linda, his father, W. B. Hester, announced yesterday, and if he comes home all will be forgiven. The lad left home at 9 p.m. Saturday, following a dispute, and may be making his way to the home of his grandmother in San Antonio, Tex. He is 5 feet 3 inches tall, 130 pounds in weight, has fair complexion, gray eyes and brown hair, wore blue overalls, a gray cap, brown shoes and two sweaters. He had no money.

ILLNESS AND FINANCE WOES CAUSE SUICIDE

T. G. Woodruff ended his life yesterday in his room at 709 East Sixth street, because he could no longer endure the agony of physical illness and the worry of financial misfortune. A bullet through the head ended his troubles. He was found by his landlord, Robert Pattinson, and the body was taken to the J. H. Riedeman mortuary. His wife is confined at the Lark Ellen Home.

ICELANDIC SYMPHONY TO BE PLAYED HERE

An Icelandic suite by Sigurd Frederiksen, Los Angeles composer and musician, will be given its world premiere Saturday morning in the Biltmore Hotel ballroom when played by Adolf Tandler's Little Symphony Orchestra. The work is in four movements, portrays the folk life of the far northern island of which Frederiksen is a native. The name of the symphony is "Norreena Suite" and it will be played by Tandler in addition to a regular symphonic program.

PLEDGES VERACITY TO GET ANNULMENT

Mary D. Silverstein

ONE TINY LIE CAUSES LOT OF TROUBLE

Repentant Girl Declares She Fibbed About Age to Become Married

Hereafter, Mary Doris Silverstein told Judge Summerfield of Superior Court yesterday, she will tell the truth, the whole truth and nothing but the truth, come what may.

"I only told one lie in my life," she explained, "and now look where it's got me."

That lie, she set out, was told when she was married to Hymen Silverstein. She was 16 years of age at the time, but she told the marriage license clerk she was 18. But the lie led her into a peck of trouble. She found marriage wanting in a number of respects, she said.

Judge Summerfield, after hearing the young woman's pledge of truth, annulled the marriage. But he made her promise that she will not go near a marriage license bureau until she is 18, which won't be for another six months.

INTERSTATE DEBATE SCHEDULED TONIGHT

The University of Utah and the University of California in Los Angeles will clash tonight at the local institution in the first interstate debate in which the local university ever has participated. The question for discussion is to be, "Resolved: That war, except in cases of rebellion or invasion, should be declared by a direct vote of the people." The local team, which will uphold the negative of the proposition, is composed of Arthur White and Harold Kraft, both of whom have participated in numerous intercollegiate contests, including debates, oratorical and extemporaneous competitions. This is the first debate this year in which a decision is to be rendered.

PUBLIC INVITED TO FILMING OF PICTURE

Universal Pictures will be host at a circus Sunday, in connection with the production of "Spangles," a story of circus life. The public is invited to take the children to the Al G. Barnes winter quarters at Bundy Station, Culver City, at 10 a.m. The big tent is about a half-mile east of the tracks. No ticket will be required and seats in the tent are free. Visitors will see the circus acts and film stars at work, and will later see themselves on the screen.

GAMUT CLUB HOST AT STAG DINNER

Harley Hamilton, former president of the Gamut Club and founder of the Los Angeles Symphony Orchestra, was among the speakers at a stag dinner given by members of the Gamut Club 1044 South Hope street. Other speakers included Sigurd Russell, founder of the Potboilers, and Joe E. Light, traffic manager of the Southern Pacific. A musical program was also presented.

BULLDOG CLUB TO EXHIBIT

The Pacific Coast Bulldog Club will hold their fourth annual specialty show at 320 South Spring street Saturday. Doors will be open from 10 a.m. until 10 p.m. A large number of "sour mugs" will be on exhibition consisting of the best English bulldogs of Southern California. Many sterling silver trophies and satin ribbons will be awarded to the winners. S. Almond, lately of Canada, breeder and judge of this breed, will officiate in the ring as judge for this show.

CALL ISSUED FOR APPAREL

Members of the Laurel Parent-Teacher Association who are making garments for children of the Hooper-street school, have been asked to deliver the articles of apparel to Mrs. F. M. Wright, 744 Edinburgh street, West Hollywood, or to leave them at the school building. The Laurel P.-T.A. has discontinued meetings until the new school is completed.

THINK GIRL KILLED SELF IN DESPAIR

Disappearance Two Weeks Ago Leads Police to Hold Suicide Theory

The theory of suicide arose yesterday as a possible explanation of the mysterious disappearance of pretty Minnie Clare, 21 years of age, who dropped from sight on February 20, last, and is still on the police missing persons roll.

Detective Lieutenant Casey, checking the movements of the young woman from the time she left home at 166 West Fiftieth street to go to work at a downtown department store, which she never reached, reported that the girl had sought to end her life about four months ago because of a disastrous heart affair.

She had gone to a rooming-house at Long Beach, he said, rented a room there and then turned on the gas. Other roomers, attracted by the death fumes, broke down the door and found her unconscious on the bed. She was resuscitated and sent home.

It is possible, he said, that she may have made another attempt on her life and that this time she was successful.

City Scores in Broadway Bore Franchise Row

The city scored a point yesterday in the court battle over the laying of railway tracks in the North Broadway tunnel when Judge Hanby sustained a demurrer to the suit brought by John W. Arnold to enjoin the City Council from granting the Los Angeles Railway Company a franchise for the maintaining of tracks through the bore. Arnold's suit was temporarily thrown out of court by the judge's action, but he was given ten days in which to file an amended petition for an injunction.

Arnold based his suit on the ground that property owners gave the city the right to drill the tunnel under the provision that no franchise ever would be granted for the use of the tunnel for railway tracks. The city demurred to the suit on technicalities. Since the filing of the Arnold suit the city has instituted action to condemn the tunnel for street purposes, it being pointed out that such condemnation would place the tunnel in the jurisdiction of the Council.

SPEED KINGS TO BE GUESTS

Swinging into its second year of existence, the Breakfast Club will entertain the kings of the auto speedway at its Friday morning meeting. The drivers, including Peter De Paolo, 1925 champion, will be accompanied by A. M. Young, president of the Los Angeles Speedway Association. Another guest will be M. E. Forbes, president of the Pierce-Arrow Motor Company. Host is to be Bob Mason. Preceding the breakfast a horseback ride is scheduled over the Griffith Park bridle trails. A polo game for Sunday morning at 11 is announced by Secretary Ralph Braddock.

Richard H. Hilf Elected Ruler of Elks' Lodge

RICHARD H. HILF

Los Angeles Lodge, No. 99, B.P.O.E. at its meeting last night, elected the following officers to serve for the year beginning April 1, next: Richard H. Hilf, Exalted Ruler; John J. Doyle, Esteemed Leading Knight; Judge Thompson, Esteemed Loyal Knight; Leland S. Davis, Esteemed Lecturing Knight; Charles Burr, Secretary (re-elected); Ralph J. Scott, Trustee; Clarence D. Hudson, Treasurer (re-elected); Frank W. Akers, Tiler (re-elected); Fred E. Pierce, delegate to the Grand Lodge convention, and Norman A. Bailey, alternate.

The election of each of the officers was unanimous, there being no opposing candidates.

THOMS GETS POST AS CHIEF TRIAL DEPUTY

Deputy City Prosecutor Thoms was appointed yesterday by City Prosecutor Friedlander to be chief trial deputy. He succeeds Chief Trial Deputy Lickley, who has been named a deputy district attorney. Thoms has been four years in the City Prosecutor's office and was placed in charge of prosecutions under the Wright Act at University Police Court and its successor in the Municipal Court.

DR. PETTY CALLED TO NEW POST

Son of Glendale Man Will be Pastor of Philadelphia Baptist Church

DR. ALONZO R. PETTY

Dr. Alonzo Ray Petty, for the last twelve years pastor of Judson Memorial Baptist Church of New York City, has accepted the invitation to the pastorate of Grace Temple of Philadelphia, Pa., according to a telegram received in Los Angeles yesterday by Dr. A. M. Petty, father of "Ray," as the latter is known to his friends in this city.

Since the death of Dr. Russell Conwell several months ago the Grace Temple congregation quietly had been looking over the field to find a worthy successor to the pastor, and many of the ablest clergymen of the Baptist denomination had been "fishing" for the position, which carries a salary of $10,000 a year. Dr. A. M. Petty did not deny that he felt like singing and dancing when he received from his son the message anonuncing the honor that had been tendered him.

A graduate of Occidental College, from which he received his degree of doctor of divinity, Dr. A. Ray Petty began his ministerial career as pastor of Trinity Baptist Church of Los Angeles. Following his successful pastorate of that church Dr. Petty became head of the men's and boys' work department of the Y.M.C.A. and later served for three years under Dr. J. Whitcomb Brougher in charge of boys' work at Temple Baptist Church. From Los Angeles he went to New York as pastor of the Memorial Baptist Church.

Dr. A. M. Petty, whose home is at Glendale, has been prominent in church work in Southern California for more than twenty-five years and now is field secretary of the American Baptist Home Mission Society, with offices in the Columbia Building.

INSURANCE CONVENTION CONDUCTED

Home Office Agency of Pacific Mutual Honors Manager at Banquet

The nineteenth annual convention of the home office agency of the Pacific Mutual Life Insurance Company was conducted here yesterday with executives of the company, managers of branch agencies and a large number of insurance agents present.

The convention was brought to a close last evening with a dinner and dance in the auditorium of the Pacific Mutual Building. The dinner, which was given by President George I. Cochran, was in honor of John Newton Russell, manager of the home office agency, and his associates in recognition of their achievement in writing $25,000,000 worth of new business during the last year. An informal program of short addresses was presented, with President Cochran as toastmaster. Executive Vice-president Lee A. Phillips and other officials also spoke.

The principal speaker of the morning session was Frank L. Jones, president of the National Association of Life Insurance Underwriters, who spoke on "Latent Power." Prof. C. A. Gummere of the University of Southern California discussed "Just What Happens When a Sale is Made and How to Make It." Arthur C. Parsons, vice-president of the Pacific Mutual, took for his subject, "Life Insurance from the Prospect's Point of View."

A discussion of various phases of life insurance was conducted at the afternoon session by C. C. Day of Oklahoma City, president of the Pacific Mutual Agency Association. Talks also were made by Jack Russell, associate manager of the home office; and L. C. Pierce and Walter Hoessling, assistant manager of agencies.

L. E. Behymer Escapes Peril of Infection

L. E. Behymer, widely known impresario and president of the Gamut Club, has been confined to his home, 623 South Carondelet street, since Monday night with a serious leg infection, it was revealed last night when he failed to attend a meeting of the club.

According to attending physicians, Mr. Behymer is now out of danger, but will be confined to his bed for several days.

SCHOOL SALE TEST BEGUN

Mandamus Action Started to Decide Constitutionality of Board's Power

A mandamus action to compel Robert A. Odell, president, and William A. Sheldon, secretary, of the City Board of Education, to sign an agreement for the sale of the northwest corner of Eighth street and Grand avenue was filed by the County Counsel's office yesterday.

The action is brought in behalf of the City School District in proceedings to test the constitutionality of the law giving boards of education power to dispose of land.

The City Board of Education, it is said, had instructed Odell and Sheldon to complete the sale of the land, known as the Grand-avenue school site, to the Capital Company for $1,575,539.

The two officials, it is said, withheld their approval, in effect raising the point as to whether the law is discriminatory, as the power to sell land is given only to school districts having a daily attendance of 55,000.

The question also was raised, it is stated, as to whether the land can be disposed of while the property is being used by the City High School District, which leased it from the City School District for the use of a trade school for the sum of $81,933 for the fiscal year. This lease, it is stated, expires before the date set for the completion of the sale of the land to the Capital Company.

The site has a frontage of 162 feet on Eighth street and 232 feet on Grand avenue. Bids for the sale of the property were asked September 17, 1925.

SUNSET OF LIFE BRINGS CHEER

Fortune May Smile on Waning Days

Peter Moore

In a little red, one-room shack out on West Burns avenue in Downey, an old man, crippled and ill, sits and waits and hopes—hopes, yet hardly dares believe, that after eighty years of hard knocks, good fortune is about to caress him with one of her smiles.

H. P. MOLLER

The story begins fifty-four years ago in Denmark when Mathias P. Moller and Peter Koffad, half-brothers, left Bornholm, the town of their birth. Upon arriving in this country Mathias obtained work in an organ factory and today is the multimillionaire owner of one of the largest organ-manufacturing concerns in the world, as well as owner of two automobile factories and half-owner of the Luxor taxi system in New York.

Peter went to sea and lost track of his relatives, even lost his name, which merged from Koffad into Moore, because it was more easily pronounced. A broken leg and inadequate treatment at sea left him a cripple and he came to Los Angeles. He became an inmate of the County Farm in 1901 but was discharged in 1915. After years of saving he was able to purchase an acre of land and a small shack near the railroad tracks in Downey.

Then he became sick and was compelled to ask treatment from the county again. In questioning him it was brought out that he had a half-sister, Mrs Anne Miller, living at Fremont, Nab., who is said to be wealthy. County authorities communicated with her and she in turn with her brother, Mathias P. Moller. Mr. Moller did not know a Peter Moore but instructed his Los Angeles representative, H. F. Charles, to investigate. He learned that the 80-year-old crippled seaman who lived here in poverty is the long-lost half-brother of the millionaire.

Mr. Moller is owner of the organ-manufacturing concern which is installing the new organ in the Shrine Civic Auditorium. His factory is in Hagerstown, Md.

LIKES HIS BILLS YELLOW-BACKED

And for Just This Reason Jimmy Thompson, Who, According to Witnesses, Spurned 400 "Shin Plasters," Escapes Second Theft Charge

Jimmy Thompson's abhorrence of $1 bills, which was more or less clearly established at his preliminary hearing on bank robbery charges Tuesday, was invoked yesterday to free him from another charge of holding up the crew of a street car.

The question, as laid before Municipal Judge Blake, was whether a man whose dislike of $1 bills would cause him to kick 400 of them out of his way in disgust would go out and rob a street-car conductor of $30, mostly in the despised $1 bills.

Judge Blake, after considerable judicial pondering, concluded that this was not probable and therefore ordered the charge against Thompson dismissed.

Tuesday, Thompson and Howard Hall appeared before Judge Blake on the bank robbery charge and witnesses testified that Thompson would not accept the bundle of 400 $1 bills and kicked them out of his way as he left the bank. They were held to answer on this charge under $25,000 bail each.

When Thompson and Sam Pruitt came up yesterday on the street-car robbery charge, Thompson arose and declared that he wouldn't touch a $1 bill "with the longest pole made," and therefore could not have held up the street car crew and taken the $1 bills from the conductor.

The charges against Pruitt also were dismissed when he succeeded in establishing an alibi through which the prosecution could not break.

GIRL CAMP WILL OPEN SATURDAY

Griffith Park Grounds in Canyon East of Golf Club Will be Dedicated

The official opening and dedication of the girls' camp in Griffith Park will be conducted from 1 to 4 p.m. Saturday. The camp is located in a canyon east of the golf clubhouse, and is reached by trail from the clubhouse. The camp is equipped with sixteen cabins and a lodge which will also be used as a dining-room. The camp contains a swimming pool and a small athletic field.

Until July 1, next, the camp will be operated for week-end groups, with the possible exception of the Easter week vacation period. The camp is under the management of the Playground and Recreation Commission.

The Saturday exercises are divided into three parts. Camp inspection will be held from 1 to 2 o'clock, the dedication program from 2 to 3 o'clock and camp inspection and social hour from 3 to 4 o'clock.

From 11 to 1 o'clock girls will assemble at Echo Park Playground, Temple and Glendale Boulevard, for transportation to the camp.

Mrs. William C. Means will give the welcome address. The dedication address will be delivered by Dr. E. P. Ryland, and "Just a Los Angeles girl" will give the response.

In lighting the first camp fire, Mrs. Means, Mrs. Socha, Anna Hurd, executive secretary of the Y.W.C.A.; Helen I. Pontius, Girl Scout director; Mrs. Mary M. Russell, executive secretary, Los Angeles Council, Camp Fire Girls, and "just a Los Angeles girl" will take part.

PICNIC ARRANGED

Former residents of Carroll county, Illinois, will have a reunion picnic at Lincoln Park Sunday, the 14th inst., or a week later in case of rain, it was announced yesterday by "Uncle Bill" Haas, secretary. The picnic is to be the twenty-first annual affair of the Carroll County society.

Pianist Struck by Hit-and-Run Driver Injured

Harrison Williamson, pianist, suffered fractures of the right leg and of the left knee-cap when he was run down by a motorist who failed to stop after the accident early yesterday evening. Williamson was injured at Tenth street and Ardmore Boulevard while he was on his way to a dinner at the home of Dr. Titian Coffey at 694 South Ardmore Boulevard.

Williamson was attended at the Receiving Hospital by Police Surgeon Carey. Shortly after his arrival he was visited by Noah Beery, film actor, who was one of the guests at the dinner at Dr. Coffey's home.

Williamson was later removed to a private hospital, where he is under Dr. Coffey's care. He is 43 years of age and lives at 1068 Waldridge avenue. He recently returned from his Paris studio.

NEW FILM ROMANCE REVEALED

Virginia Roye to Become Bride of James M. Fidler, Publicity Agent

A new Hollywood romance came to light yesterday with the announcement that Virginia Rist, known on the screen as Virginia Roye, is soon to become the bride of James M. Fidler, film publicity agent.

JAMES M FIDLER

Miss Roye, a graduate of Hollywood High School and a popular member of the younger college and film social sets, has been in motion pictures less than six months. She has attracted considerable attention to her work, however, and has recently appeared in pictures with Douglas McLean and Ralph Graves.

VIRGINIA ROYE.

Fidler has been connected with the film industry in the capacity of publicity agent for several years, having represented Wallace Reid, Gloria Swanson, Irene Rich, Huntly Gordon and others.

No definite date has been announced for the wedding, according to Mrs. R. R. Rist, mother of the actress. But Miss Roye admitted that the wedding bells are to ring very soon.

DEFENSE OF DYSINGER TO OPEN TODAY

Lutheran Pastor Accused of Insubordination to Present His Side to Synod

Rev. W. S. Dysinger, pastor of the First Lutheran Church, is expected to open his defense this morning in his trial on a charge of insubordination before the California Lutheran Synod executive committee.

The trial is being conducted in the Y.M.C.A. Building before the committee much after the fashion of a court trial. Dr. Dysinger is charged with refusing to resign his position of pastor because of factional disputes in his congregation. He held that regardless of the contention of the synod committee in the matter of resignation, the majority of his congregation is for him.

Taking of testimony in the hearing is expected to be completed this week. The committee will then return to San Francisco and hand its report to the synodical conference. The acceptance or rejection of the report will then end the matter, according to Dr. Edward P. Schueler of Pasadena, Lutheran field missionary.

WIFE OF RABBI TO SPEAK AT BETH-EL

The first woman to speak from the pulpit of Hollywood Temple Beht-El will be Mrs. Maurice R. Teshnor, wife of the rabbi. She will speak at 8 p.m. tomorrow on "Zionism and Americanism." Mrs. Teshnor has lectured in many cities, in universities, synagogues and churches, and is one of the thirteen women members of the American Jewish Congress. She is associate editor of the International Masonic Review.

TRADERS TO CELEBRATE

Featuring addresses by university faculty members and music by university students, the World Traders of Los Angeles will observe their annual university night this evening in the lower hall of Philharmonic Auditorium. Clayton D Carus, member of the Pacific Foreign Trade Council Research Committee and professor of foreign trade at U.S.C., will preside. Dr. W. M. Cunningham, dean of the college of commerce at U.S.C., and President Von KleinSmid will make addresses, and the U.S.C. Glee Club quartet will supply vocal music.

DEAN CRAWFORD DUE HOME

Dr. Mary Sinclair Crawford, dean of women of the University of Southern California, will return to Los Angeles this evening after having attended the annual convention of the National Association of Deans of Women at Washington, D. C., February 22 to 26. Dr. Crawford will arrive at the Women's Residence Hall, 666 West Thirty-sixth street, and return to her office on the U.S.C. campus on Friday morning.

"OWN YOUR OWN CLOUDS"

Which May Become Slogan of Andes Realty Men Who Plotted 12,000-Foot Mountain

Subdividing at an elevation of 12,000 feet above sea level might be expected to make even a realty man dizzy, but the altitude proves no bar to subdivision in the Andes of Ecuador, according to Albert Levy of Guayaquil, who is himself interested in a city-building project up among the clouds about a day's journey from the sea coast.

Levy, who is in Southern California on a vacation and is staying at the Biltmore, is one of the members of the oldest American merchant firm in Ecuador. His firm is undertaking to build a modern American town at Rio Bamba at an elevation of 12,000 feet and within the shadow of 23,000-foot Chamborazo, the second highest mountain peak in South America.

"Rio Bamba was recently connected with the coast by rail and the great scenic beauty of its location as well as its superb climate led our firm to undertake its development into a resort," said Levy. "Streets have been laid out and homes built on the California-bungalow plan are now going up in considerable number."

The coast climate of Ecuador, which is crossed from east to west by the Equator, is tropical in the extreme, but the altitude of Rio Bamba renders the climate of that town perpetually springlike, according to Mr. Levy.

"Aside from that, the scenery at Ric Bamba is probably unsurpassed in the world," he observed. "All the highest peaks of the Andes are to be found in close proximity to this plateau. There are also a number of small lakes in the vicinity that afford fishing and game of various kinds abounds in the foothills."

Salesmen and Solicitors

SALESMAN
Here's something absolutely new for a few aggressive hard workers, not stocks, bonds, real estate, oil, mining, nor anything like the old hard-selling stuff. Exaggerated statements are foolish, but any real salesman should easily average $1000 monthly on this splendid proposition. Commissions daily. Call promptly at 9-11-1-3 or 5 o'clock. Evening at 7. Room 500, HILLSTREET BLDG., 815 S. Hill St., MANAGER.

WANTED AT
THE MAY COMPANY
We have opening for 8 neat appearing young men to join our sales force. Apply
10 a.m., Class Room, 8th Floor.
Ask for Mr. Gresson.

I WANT to interview two high class salesmen to sell one of the best propositions in the city. Our top-notchers running over $10,000 per year. Not real estate or stocks. I want men with ideals as well as sales ability. Proposition backed by largest patriotic organization in America. Want to see only hard workers with ambition to succeed. Floaters do not waste our time. See MR. KEATON, 826 Security Bldg.

WANTED—HELP
Male

Salesmen and Solicitors

HERE IS GENUINE OPPORTUNITY

To learn a business which has developed faster than any other business during the last 25 yrs. & which nevertheless is still in its infancy.

This growth is due to the fact that it deals intimately with human needs. It has been tested by many millions of people & has proved worthy of the trust of many billions of dollars.

It is not an easy business—to succeed requires strong character, brains, and the ability to stay with it.

Earnings in this business are practically unlimited. Many of our men earn from $3000 to $10,000 during their early years. After a few years, earnings range from $5000 to $25,000 yearly and some even higher. Any limitations are entirely with the man himself.

During 1925 this agency, covering Southern California, did a business of more than $25,000,000.

We furnish training of the highest order and co-operation, which, when coupled with your effort and co-operation, produces real success.

The Pacific Mutual Life is one of the oldest, biggest and most successful companies. Its policies "that pay 5 ways" are exceedingly popular.

This is an opportunity for worthwhile men between the ages of 25 & 45 to build up a permanent and profitable business. Come in and get the facts from Walter R. Hoefflin, assistant manager, 322 PACIFIC MUTUAL BLDG., 523 W. 6th st., Los Angeles.

3 EXPERIENCED real estate salesmen to call on interested leads in Hollywood for Talmadge Park, San Diego's new residential section. This project is sponsored by a group of Los Angeles & Hollywood business men, whose financial standing & personal integrity give adequate assurance of its soundness. Call between 9 & 10 a.m.,
1619 GUARANTY BLDG.,
HOLLYWOOD.

MEN
LEADERS
To a few real men who are tired of the weekly stipend and who think they have the ability to make good in the selling game along side of the successful men
Here is the chance to tieup personally with the best selling organism in California. Apply at once W. box 596, TIMES BRANCH OFFICE.

LISTEN!
SALESMEN

PRODUCED BY ED WHEELAN
EPISODE 21
"A FRIEND IN NEED"
JACK FALLS IN FRONT OF THE ONRUSHING CAR, WHICH JUST MISSES HITTING HIM BY SWERVING TO THE RIGHT
HOLY SMOKE!! THAT WAS A CLOSE CALL!
THE DRIVER STOPS THE CAR AND GOES BACK TO INVESTIGATE
JACK FAIRWAY!!! AND WE HAD ALL GIVEN HIM UP AS LOST!!
TOM COLLINS, ONE OF JACK'S RICH FRIENDS, A YOUNG SPORT WHO IS "HIPPED" ON A CERTAIN SUBJECT
FULLER PHUN
JACK IS QUICKLY REVIVED AND, ONCE IN THE CAR, TELLS TOM HIS INCREDIBLE STORY—
-THEN MY AEROPLANE FELL IN THE EVERGLADES AND BY CHANCE I STUMBLED ON THE OLD SHACK!
HOW DID THEY COME TO THROW YOU IN THE QUICK-SAND?
AFTER SOMETHING TO EAT, JACK AGAIN NARRATES HIS STARTLING TALE TO THE CHIEF OF POLICE
THEY'RE GOT THE GIRL NOW IN A COTTAGE ON ALLIGATOR AVE.!
I'LL SEND SOME OF MY MEN AT ONCE TO WATCH THE PLACE UNTIL WE GET READY TO RAID!
MEANWHILE "COUNT SPUMONI" GOES TO HIS HOUSE AND TELLS "THE COUNTESS" THE NEWS
WE GOT RID OF FAIRWAY AND NOW WE'RE ALL SET FOR TUESDAY NIGHT!
"THE RAID" HERE TO-MORROW

SMACK right between the EYES

Oh, what a headache these dyed-in-the-wool stock buyers are having since the BEARS clawed the Stock Exchange. Everything is rosy while stocks are going up, but OH, what a sinking sickness when the toboggan begins. BEVERLY HILLS property is safe-sound and stays PUT. It goes only one direction, has gone only one direction, and is going one direction, UP—UP—UP When you stand on BEVERLY HILLS property you are on good, substantial ground. They may wash the dirt off the surface, but if they do you still have your lot—and a basement free of cost.
A. G. O'Rourke, Realtor, OX. 2309
1330 St. Monica Blvd., Bev. Hills.
R. T. Copelin, Sales Manager.

Miscellaneous

FOR EXCHANGE
WONDERFUL DOWNTOWN PROPERTY
I have a $350,000 equity in one of the choicest downtown apartment buildings in the city. DEATH and OTHER unexpected EMERGENCIES make it compulsory that I exchange this property for something smaller. Will accept in exchange several SMALLER PROPERTIES to the value of $350,000, or ONE LARGE PROPERTY, where I can BORROW not less than $75,000 on it. This is an exceptional opportunity for some one to secure a large and valuable downtown property at a sacrifice. For full particulars see R. L. LANGER, 542 Pacific Mutual Bldg. TR. 2911.

Has it ever occurred to you that selling bottled water at 50c per bottle was a profitable business?

Let us show you how $100 produces $520 yearly in this business.

We are selling thousands of bottles weekly to our regular customers, and also adding over 1000 new customers per month.

We need more trucks as well as thousands of new cooler sets and bottles so we offer you a chance to share in this wonderful going business.

If you have any capital regardless of the amount let us show you the earning power in this business for you.

Mr. Cato Ninetails Tells of
Tolerances and Intol

"I doubt if anybody is
tolerant than I am," said
Cato Ninetails, "as long
don't have to tolerate
I have the broadest tolerance
the abstract, but in the
I'm not so good. I find
many things to disapprove
I've just about quit expecting
find anything to approve
of my philosophical friends
especially the younger
say that this is the effect
high ideals growing out of
cumulated experience, but
fear that this is merely a
phemism for the carping of
creasing years. I am
to think that it is
anybody of any age to
the idiosyncrasies of
that they don't know
people that they do know
fact, the better they know
the harder it is.
"The intangible
that is enjoyed with
in fiction makes them
we admire or who entertain
ideal companions; and yet
wouldn't find it, rather trying
have to associate
with Mr. Micawber,
Sharp, Tom Sawyer, John
hurst, William Sylvanus
Merton Gill and a host of
ers who have given us
pleasant hours in our
under the library lamp?
the chances are that these
ple would tire as soon of
we did of them. I suspect
the people who fill the
the movies and the other
aters—though the
hear, are not filled
that many of their
feet of clay, however
they may look when
with silk and the
art products.
"It's an old story,
not at all likely that
Syrus was telling people
thing they hadn't found
themselves when he said
2000 years ago, that
ity breeds contempt.
that explains a common
dition. Long looking
has brought familiarity
many things and with
of many people, and
the futility of much
ing repeatedly attempted
things, these people
attempts repeat them
infinitum, and the
look out from under
gray hair at them are
inclined to condemn
knowing all the while
theless, that there is
little experience worthy
name that can be
proxy. So we of
must acknowledge
some of us conceal
than others, the
fect of much
with the world, and
might as well acknowledge
the world finds us
tating as we do it."
